PUBLIC ACCOUNTS

Introduction

REMARKS OF THE PUBLIC ACCOUNTS

DEPARTMENT OF FINANCE,

OTTAWA, January 11, 1945.

The Honourable J. L. ILSLEY,  
Minister of Finance.

SIR,—In accordance with section 38 of the Consolidated Revenue and Audit Act, 1931, I have the honour to submit to you herewith the Public Accounts of the Dominion of Canada for the fiscal year ended March 31, 1944.

## INTRODUCTION—ANALYSIS OF THE PUBLIC ACCOUNTS

### A. INTRODUCTORY REMARKS.

At the close of the Introduction to the Public Accounts for the fiscal year ended March 31, 1943, in reference to the new form of the Public Accounts, I said

All those associated with the undertaking, however, would agree, I believe, that there is still room for further improvement. Plans for other modifications and additions which we had in mind for this volume have had to be postponed because of lack of time and shortage of staff. These and other improvements we hope to make in succeeding Reports.

Some, though by no means all, of the improvements then in mind it has proven possible to make this year. Perhaps the most important of these is the revision of the classification of the balance sheet; this is more fully discussed in the next section. Another is the extension of the comparative feature of the balance sheet (first introduced in 1942-43) to the schedules.

Following the procedure started last year, this Introduction will endeavour to summarize the Dominion's financial transactions in such a way as to assist the reader in grasping the significance of the voluminous details to be found in Parts I and II of the Report, and to assist also in putting them in proper perspective in relation to one another. The financial reports of a body engaging in so many diverse and extensive activities as the Dominion Government must necessarily be voluminous and complicated even with the best of presentation; by means of this summary however it is hoped that the ordinary reader will be able to follow the general outlines. In furtherance of this object all or nearly all the figures on these pages have been rounded off to the nearest hundred thousand dollars. Those who wish to pursue details will find them in Parts I and II.

The pages to follow will present, with appropriate comments upon the more significant aspects of each item: the Dominion's balance sheet; a brief summary of the expenditure and revenue statement; a statement of the budgetary deficit or the increase in net debt; a more detailed summary of expenditure; a similarly expanded summary of revenue; the percentage distribution of revenue and expenditure; a statement of the requirements for and sources of cash, contrasting such a statement with the summary statement of expenditure and revenue already mentioned; and the indirect or contingent liabilities of the Dominion. Wherever practicable throughout this Introduction, comparative figures are shown for the past five fiscal years, for these are the years that have elapsed in the struggle that now encompasses most of mankind.

### B. THE BALANCE SHEET AS AT MARCH 31, 1944.

#### (1) The New Form of the Balance Sheet.

A balance sheet is the presentation of the financial position of the entity to which it relates as at a particular moment of time—usually the close of business on the last day of the financial year—after giving effect to the changes resulting from the transactions that have been effected since the previous balance sheet. Balance sheets should be made up in a form that will show all the significant relationships and contrasts between the items of which they are composed. Of course that is to counsel perfection; except in very simple cases it is impossible to accomplish this ideal result in a single understandable statement, thus there is usually room for differences of opinion on methods of presentation. Furthermore as condi-

tions change old relationships become relatively less important and new ones arise, so that revisions are necessary from time to time.

Until this year's revision, the Dominion's balance sheet has remained substantially unchanged in form since 1920. The changes of content during the last twenty-odd years have been great, especially those of the five war years just past, and so it has been thought advisable to recast the pattern in which the statement is made. By grouping the accounts and showing sub-totals for each group the figures are presented in a way that will assist the reader in understanding what the various items are, how they are related to each other, and what is the significance of the whole.

In order to show a comparable presentation for previous years, all balance sheets back to that as at March 31, 1939, have been recast in the new form and appear as Appendix No. 13 to Part I of this Report, at page 49. Schedules are attached showing the breakdown of those items which did not appear in similar form in previous years. It is not intended to repeat this appendix in future years; it is included this year for purposes of record. It will be noted that the period covered is that of the five completed fiscal years during which the present war has raged, and thus includes most of the changes in the content of the balance sheet.

Table I gives, in summary form, the balance sheet as at March 31 in each year from 1939 to 1944 inclusive.

## (2) Important Items in the Balance Sheet as at March 31, 1944.

The balance sheet of the Dominion is shown in Part I, pages 2 and 3. Following the practice initiated last year it is given on a comparative basis, disclosing not only the amount of each item at the close of the fiscal year 1943-44 but also the corresponding amount at the close of 1942-43 and the change during the year. A reference number is given to each item and on pages 4 to 7 there is an explanatory note for each. Table I above gives the same information in abbreviated form, and extends the record back to March 31, 1939, as well; the same reference numbers have been used as in Part I.

It will be noted that the aggregate liabilities of the Dominion amounted to \$12,359.1 million at March 31, 1944, an increase of \$3,239.2 million during the year. Nearly 89 per cent of the aggregate liabilities is represented by funded debt (including Treasury Bills, Deposit Certificates, and the estimated refundable portion of the personal income tax and the excess profits tax). Fortunately, however, the part of the funded debt which is payable in foreign currencies has decreased still further both relatively and absolutely, so that it is now less than 4 per cent of the total—the equivalent of \$12.4 million in London and \$333 million in New York out of a total of \$10,936.8 million. Floating debt (which consists of outstanding cheques and interest, matured funded debt outstanding, and similar demand liabilities) was only \$106.5 million, a decrease of \$15.3 million from the comparable figure a year previously. Sundry funds deposited with the Receiver General or held in trust for various purposes amounted to \$862.9 million, and the amounts at the credit of a number of insurance, pension, and guaranty funds totalled a further \$366.6 million. The remaining items on the liabilities side of the balance sheet are: deferred credits (balances whose ultimate accounting treatment is known, but which are held until certain conditions are met), \$16.9 million; sundry suspense accounts (where some uncertainty as to disposition exists), \$36.0 million; provincial debt accounts (settlements arising out of the agreements at the time of Confederation), \$11.9 million; and reserves for certain contingencies (excluding the reserve for the revaluation of active assets, which is deducted from the value of those assets in order to give a truer picture of their realizable value), \$21.4 million.

Offsetting these liabilities (and in a measure explaining their existence, because much of the Dominion's debt is attributable to the loans, advances, and investments which form a large part of the assets) are what are known as Active Assets, following the classification adopted in the budget speech of 1920. Essentially, they consist of the earning assets (that is, assets which yield interest or profits and dividends) together with very liquid assets such as cash and bullion.

The principal active assets at March 31, 1944 were: cash, \$18.2 million; departmental working capital, \$7.8 million; recoverable loans and advances, \$2,844.8 million (including loans and advances of \$572.8 million to various railway and steamship companies, of \$585 million to the Foreign Exchange Control Board, and of \$1,190.1 million to the United Kingdom and various foreign governments, all arising largely out of war transactions); investments, \$225.4 million; provincial debt accounts (like the liability item already mentioned, this is part of the settlements arising out of the Confederation agreements), \$2.3 million; deferred charges (the cost of loan flotations, in process of being amortized over the life of the loans), \$81.7 million; and sundry debit suspense accounts, \$538.9 million.

The non-active assets will be described in Section D below, in connection with the net debt.

## (3) Balance Sheet Changes during the Fiscal Year 1943-44.

The changes in the balance sheet in any year are of two distinct types: (a) changes in the net debt (item 8 of Table I), which result from the net effect of the annual revenue and expenditure in producing a deficit or a surplus; and (b) more or less autonomous changes in assets and liabilities. The former type will be explained in Section D below, which is entitled "The Deficit, or Increase in Net Debt"; but at this point comment on the latter type of change is in order.

The Government is frequently called upon to make loans or investments of various kinds in carrying out its policies, or otherwise to acquire active assets, and from time to time it realizes on assets previously acquired. These activities are quite outside the field of annual expenditures and revenues in the strict accounting sense, though of course they must be authorized by parliament in exactly the same way as expenditures and normally they are related to or complement them. Similarly the changes in liabilities, while they may be affected to an important degree by governmental actions, are in most cases quite unrelated to the annual revenues and expenditures.

Turning to more specific comments, the fluctuations in cash need no explanation since it is a residual item dependent mainly on the timing of the receipt of revenues and the proceeds of borrowing operations, on the one hand, and the rate of cash outlay, on the other. Similarly, changes in departmental working balances are easily understood as relating mainly to changing volume of work in progress.

The annual change in loans and advances calls for more detailed treatment, as this has become the largest item among the active assets. Probably no better comment could be made than to present Table II, which is a summary of the principal changes in loans and advances during the past five fiscal years. Some further detail is given in Section H below, which analyzes total requirements for and sources of cash, and in Appendix No. 13 at page 49 of Part I; complete details will be found in the departmental sections of Part II so far as 1943-44 is concerned, and in the corresponding sections of the Public Accounts for 1942-43. The table follows:

<sup>1</sup> A substantial portion of these sums relate to previous years' war expenditure, though they were not so shown in previous years; see pages xxxviii and xlix.

<sup>2</sup> Includes some departmental accounts too small to appear in this table.

<sup>3</sup> Composed largely of Department of National Defence accounts for the United Kingdom and other governments.

<sup>4</sup> Less than \$50,000.

<sup>5</sup> In addition to the two items shown there are write-offs of Canadian Farm Loan Board stock each year, but the amounts are too small to appear in this table.

There is one item in the table—Item No. 1, Loans and Advances to the Canadian National Railways—which is of sufficient special interest to warrant more detailed treatment so far as the fiscal year 1943-44 is concerned, especially as the figure in this table is the net result of many transactions, some of which also appear in the revenue and expenditure tables. These transactions may be divided into five different categories: (1) advances under various statutes; (2) purchase of railway equipment which in turn is leased to the Railway; (3) repayments of loans; (4) instalment payments on hire-purchase agreements; and (5) miscellaneous adjustments between certain accounts, as follows:

1. Advances—

Under Canadian National Railways Financing and Guarantee Act, 1940—Purchase of Grand Trunk Railway Company of Canada 4 per cent Perpetual Consolidated Debenture Stock.....	1,180,150

Advances—Financing and Guarantee Act, 1942.....	5,754,914
Advances—Refunding Act, 1938 .....	22,622,073
Advances—War Appropriation Acts—Capital purposes in connection with oil drilling campaign.....	628,000
<b>Total Net Income Surplus.....</b>	<b>\$35,639,412</b>

4. Repayments of instalments under Hire Purchase Agreements—

1936 Agreement .....	\$ 517,173
1940 Agreement .....	991,968
1941 Agreement .....	1,382,634
<b>Total Equipment Repayments .....</b>	<b>\$ 2,891,775</b>

5. Miscellaneous Adjustments:—

Surplus available from Depreciation Reserves and Debt Discount Amortization after providing for capital expenditures during 1943—	
Applied to advances under the Refunding Act, 1938.....	\$ 5,877,327
Financing and Guarantee Act, 1941—Purchase of securities from Canadian holders (Adjustment of advances previously made under Financing and Guarantee Act, 1941, transferred to other authorities included in Category No. 1) .....	1,323,604
<b>Total .....</b>	<b>\$ 7,200,931</b>
<b>Total repayments .....</b>	<b>\$45,732,118</b>
<b>Net repayments .....</b>	<b>\$ 3,907,096</b>

It will be noted that category No. 3 is a repayment of previous loans, as are No. 4 and No. 5, and arises through the policy of applying the net income surpluses of the company to the repayment of previous loans made by the government. This group might prove confusing if not explained, for the same amount appears on both sides of the revenue and expenditure statement. There however the entries are merely of a bookkeeping nature, in order to show the value of the C.N.R. Securities Trust Stock on the Dominion's books at the same amount as on the books of the company; they merely record the change in the Dominion's equity in the railway. (Indeed this whole situation is chiefly interesting because it shows the dual role of the government with respect to the C.N.R.—that of bondholder or creditor on the one hand, and that of stockholder or equity owner on the other.)

The changes in the remaining items on the asset side are largely self-explanatory, except for changes in the net debt which will be treated in Section D below.

Few of the changes in liabilities require comment. Since the floating debt may well be described as involuntary borrowing (consisting of cheques and other liquid instruments not yet presented for payment by the government's creditors), its current level reflects the vastly increased volume of payments being made, though with some fluctuations from year to year as might be expected. The increase in Deposit and Trust Funds, aside from a temporary deposit of advance payments for War Supplies Ltd. in 1941-42, is almost wholly due to two special accounts in the name of the Minister of Finance, opened for custody purposes; these accounts appear for record only and may be disregarded here as they are merely contra entries to accounts on the Assets side. The increase in Insurance, Pension, and Guaranty accounts is mainly due to the War Damage Insurance fund, to funds built up to cover employees' compensation on government-owned defence projects, and to the Retirement Fund deductions from the salaries of temporary war-time civil servants. Even the increase in funded debt needs little comment, for it is clearly dictated by the need to cover the excess of expenditure over revenue, and the increase in active assets, and the need to ensure a sufficient working cash balance. This item will be discussed in more detail later, in connection with the analysis of requirements for and sources of cash, presented in Section H.

### C. SUMMARY OF EXPENDITURE AND REVENUE

Before beginning a more detailed examination of expenditures and revenues, with which the next few sections will be concerned, it may be useful to take a brief overall look at the totals involved and how these totals have changed during five war years. In 1939-40 total expenditures were \$680.8 million, including war expenditure of \$118.3 million or 17.4 per cent of the total; in 1943-44 total expenditures were \$5,322.3 million, of which war expenditures were \$4,587.0 million or 86.2 per cent. In order to meet these enormously increased expenditures, revenues rose from \$562.1 million (1939-40) to \$2,765 million (1943-44), leaving a deficit which rose from \$118.7 million to \$2,557.2 million. These changes are shown in Table III, where the causal role of expenditures under the war appropriations (the so-called "war expenditures") can be plainly seen. Indeed it is literally true to speak of the "causal role" of war expenditures, for the policy has been not to allow financial considerations to limit war activities; Canada's participation has been based on what has been considered fair and proper on the basis of physical considerations, and this in turn has determined the financial burden to be met.

NOTE: Due to rounding off the columns may not add exactly to the totals shown.

<sup>1</sup> The distinction between "war" and "non-war" is arbitrary; "war expenditure" means charges to The War Appropriation Acts and "non-war" means all other expenditure.

<sup>2</sup> A change in the practice with respect to certain adjustments of the C.N.R. non-active accounts occurred in 1943-44, affecting items 5 and 15. On the previous basis item 5, Other Charges, would have been \$63.9 million in 1943-44; on the new basis the 1939-40 figure would have been unchanged, 1940-41 would have been \$34.9 million; 1941-42, \$26.9 million; and 1942-43, \$56.7 million. The annual deficits would be unchanged however, for offsetting adjustments would occur in Revenue since the entries involved are contras and appear in both places. These offsetting adjustments would be in item 15, Special Receipts and Other Credits.

<sup>3</sup> Less than \$50,000.

It must be observed parenthetically that the terms "war expenditure" and "non-war expenditure" as used here are to a considerable degree arbitrary. The former means simply those expenditures charged to the various war appropriations, and the latter means all other expenditures. The compensation paid to the provinces for vacating the personal income and the corporation tax fields, and for loss of gasoline tax revenue, are directly attributable to the war, as are a large portion (or all) of the increase in interest on the public debt and in the cost of revenue collection, yet none of these is charged to the war appropriation and so none is included in war expenditure. Indeed the costs of nearly all government services have increased due to the war. On the other hand, however, war expenditures and war activities have resulted directly or indirectly in the reduction of other expenditures; for example they have contributed materially to the improvement in the finances of the Canadian National Railways, thus converting what used to be an operating deficit into a surplus.

It is possible to amend Table III to include only that part of the fiscal year 1939-40 from September 1, 1939 on, by making use of the monthly summaries of expenditure and revenue published by the Comptroller of the Treasury. This will give a reasonably close approximation to the period from the start of the war to date, though there are certain errors introduced by such a procedure. It is not merely that Canada officially declared war on September 10, 1939, for war expenditures may be considered to begin some time prior to the start of hostilities and there is thus a certain arbitrariness in any choice of starting date; it is rather that certain transactions are entered as expenditure or revenue only once a year, before the close of the books. Some of these could perhaps be pro-rated over the year (for example the amortization of bond discounts and commissions) but others can not (for example the net gain or loss in Premium, Discount, and Exchange Account, which may be distributed very unevenly over the year). On balance it has been thought best to use the Comptroller's statement without adjustment; the division of the year into "war" and "non-war" portions is arbitrary at best, the adjustments that could be made with reasonable assurance are relatively small, and to attempt them might give an appearance of accuracy to the figures which would not be justified. With these qualifications, then, Table IV modifies the figures in Table III so as to summarize expenditure and revenue from the start of the present war to March 31, 1944.

Table V adds an interesting comparison of the corresponding period in the war of 1914-18 with that covered in Table IV. In this case the fiscal year 1918-19 is included, which covered a period of some five months after the cessation of hostilities; but this does not distort the picture for war and demobilization expenses continued through the whole of that year and most of 1919-20 as well. The contrast between the portion of total expenditure raised by taxation and other revenue measures in the present war with that in 1914-18 is particularly striking, since the scale of expenditure is so much greater now—in the one year 1943-44 expenditures were nearly two and one-third times as great as during the entire comparable period of the earlier conflict.

## D. THE DEFICIT OR INCREASE IN NET DEBT.

### (1) The Nature of the Net Debt.

There are two elements which make up the net debt. One of these comprises capital and non-active accounts; it arises out of the accounting practices outlined in the 1920 budget speech. Among other things it was decided that all assets which were not revenue producing or by nature highly liquid would be treated as "non-active"—in other words, treated as if outlay on them was very little different from current unrecoverable expenditure. The assets in question are the works acquired by the government as a result of expenditures designated as "capital" in the annual estimates, and certain other advances, investments, and receivables, including the Dominion's equity in the Canadian National Railways. The question of whether an asset is an earning asset or not must, of course, be answered on the basis of experience over a number of years. Some accounts classed as non-active may yield a return in favourable years, and some classed as active may fail to yield a return in certain years.

With respect to the so-called capital accounts, it should be noted that they do not include all items that are "capital" in the sense of giving service over a number of years, but only those paid for out of appropriations classed as Capital Expenditure by the expending departments in submitting their annual estimates to Parliament. Departmental practices vary concerning what items are so considered.

The other element in the net debt, and by far the larger, is the Consolidated Deficit Account (formerly known as the Consolidated Fund—its name has been changed to avoid confusion with the very different Consolidated Revenue Fund, which is a title used to mean all moneys on deposit with the Receiver General for any purpose). The Consolidated Deficit Account is nothing more than the excess of expenditures over revenues on current account, accumulated since Confederation. It includes the write-down of both active and non-active assets, as authorized by Parliament from time to time.

It will be observed that a deficit (the excess of annual expenditure over annual revenue) must result in a corresponding increase in the net debt of the Dominion, for it can only be covered by an increase in liabilities or a decrease in active assets. Conversely, a surplus reduces the net debt.

## (2) The Increase in Net Debt during the Fiscal Year Ended March 31, 1944.

The deficit or increase in net debt was \$2,557.2 million in the fiscal year ended March 31, 1944. Table VI shows how this increase was made up, and compares it with the increases during the preceding four fiscal years. As will be shown below in Section H, which summarizes the requirements for and sources of cash, the deficit must not be confused with the net cash requirements or the cash deficiency. It is simply the amount by which the net liabilities of the Dominion have increased as a result of the financial transactions of the year, on the assumption that all active assets are realizable.

**E. ANALYSIS OF EXPENDITURE.****(1) Ordinary Expenditure.****(a) Public Debt Charges.**

Interest on the public debt is the largest single item of non-war expenditure, amounting to \$242.7 million in 1943-44. This is not great in relation to total expenditures of \$5,322.3 million and total revenues of \$2,765.0 million—only 4.6 per cent and 8.8 per cent respectively. It is even less in proportion to national income, which is a much more significant comparison since the interest payment is important mainly as a claim upon income.

It has already been noted however that a substantial portion of the Dominion's funded debt is attributable to the acquisition of earning assets. That being so, it is proper to deduct the interest or other return from these investments from the total interest paid out and examine the remainder—what might be called the net interest payment. The amount will be found at item 46, Table XII, page xxxiv under the heading "Return on Investments"; in 1943-44 this amounted to \$48.3 million, so that the net interest payment was only \$194.4 million. This is 3.7 per cent of expenditure or 7.0 per cent of revenue for the year.

Only the interest payable abroad, however, forms a real drain upon the national income; apart from possible indirect effects, interest payable to Canadians only "costs" the nation as a whole the administrative expenses incurred in collecting the revenue from the taxpayers and paying it out to the bondholders. There is no precise information available concerning the portion of the Dominion's debt which is held abroad, but it may be presumed to approximate the debt payable in foreign currencies. In 1943-44 interest of only \$14 million was so payable, or 0.3 per cent of total expenditure.

Table VII summarizes these figures over the last ten fiscal years.

<sup>1</sup> Including interest payable optionally in Canada or New York.

Adding the annual amortization of bond discounts and commissions, the cost of new loan flotations, and certain service charges to the figure of \$242.7 million in interest payments, gives a total of \$262.1 million for all public debt charges during 1943-44. In addition, however, \$17.4 million in discounts and commissions on loans issued during the year were added to Deferred Charges, to be amortized over the life of the respective loans. The comparable figure for public debt charges in 1938-39, was \$133.1 million; the increase during this period is attributable to the huge war expenditures of recent years.

**(b) Other Uncontrollable Items.**

Besides public debt charges, many other items in Ordinary Expenditure are of a contractual nature or are such that for policy or other reasons they could not easily be curtailed. Some items, for example, the expenditures of the Post Office and the National Revenue Depart-

ments, which might not normally be considered as uncontrollable, must be so considered now because their present level is dictated largely by war activities. The more important of these uncontrollable items and the relative expenditures in 1943-44 are:—

Unemployment Insurance Act—the government's contribution and cost of administration .....	\$17.5 million
Pensions—old age pensions, war and military pensions, superannuation payments, etc. ....	72.9 “
National Revenue Department expenditure.....	17.7 “
Post Office Department expenditure.....	48.5 “
Provinces—subsidies, and payments in compensation for vacating the personal income and the corporation tax fields and for the loss of gasoline tax revenue.....	109.9 “
Total of these uncontrollable items.....	<u>\$266.5 “</u>

### (c) Controllable Ordinary Expenditure.

Out of total ordinary expenditure of \$630.4 million in 1943-44 we have seen that public debt charges and other uncontrollable items account for \$528.6 million. Accordingly controllable ordinary expenditure amounts to only \$101.8 million.

### (2) Capital Expenditure.

Charges for expenditures classed as Capital amounted to only \$2.6 million during the year. Details will be found on page 10 of Part I and in the sections on the Departments of Public Works and Transport in Part II.

### (3) Special Expenditure.

Special Expenditure amounted to \$37.5 million in 1943-44. The largest single item was for payments of awards to farmers under the wheat acreage reduction plan, amounting to \$30.1 million; if cost of administration amounting to nearly another million dollars (\$0.8 million) be added, this accounts for 82.5 per cent of all special expenditure. The remainder consisted of payments on relief projects, \$3.8 million, administration of The Prairie Farm Assistance Act, 1939, \$0.2 million, and (under the same Act) advances to the Prairie Farm Emergency Fund, \$2.6 million.

### (4) Government Owned Enterprises.

Expenditures under this heading may be divided into two types: payments to meet the operating deficits of business enterprises wholly owned by the Dominion of Canada, and non-active loans and advances made to such enterprises. Expenditure of the former type during 1943-44 was \$0.7 million for the Prince Edward Island Car Ferry and Terminals and a relatively small amount (\$29,488.66) for the harbour at Churchill—both figures being for the calendar year 1943. An amount of \$0.6 million was provided to the National Harbours Board in non-active advances.

### (5) Other Charges, Including Write-Down of Assets.

Total charges so classified aggregated \$63.4 million. Of this amount \$25.6 million constituted write-downs of active and non-active assets—principally the addition of a further sum of \$25 million to the reserve for possible losses on the ultimate realization of active assets. (Incidentally the scope of this reserve is now enlarged to include all active assets; formerly it was considered as applying only to Loans and Advances.) The remainder consists of statutory reductions of soldier and general land settlement loans, \$0.6 million, and two relatively small items—the yearly established losses on the seed grain and relief accounts administered by the Department of Mines and Resources (\$28,847.05) and the cancellation of Canadian Farm Loan Board Capital Stock (\$4,592).

The other items under this heading are adjustments in the stated value of the Canadian National Railways Securities Trust Stock, which represents the Dominion's equity as stockholder in the Railway, in order to agree with the value shown on the balance sheet of the company. They comprise increases due to the net income surplus of the C.N.R., \$35.6 million, and to the capital gain on the repatriation of securities, \$2.4 million, and a decrease of \$0.2 million due to the capital loss on line abandonments, or a net increase of \$37.8 million. (All figures relate to the calendar year 1943.) These entries are merely a bookkeeping adjustment and do not involve any outlay of cash; a contra entry appears in revenue, so the year's deficit is not affected. In particular, these transactions must not be confused with those described in section B above, where the application of the net income surplus of \$35.6 million to the retirement of

advances by the Dominion was described. The transactions in that case were those in which the company used available cash to repay a creditor for loans previously made, whereas here we are considering the effect on the sole stockholder resulting from an improvement in the position of a wholly-owned subsidiary. It is true that the creditor and the stockholder are one and the same—the Dominion Government—but the distinction is clear nevertheless. The increased value of the stockholder's equity results automatically from the company's improved position, but the repayment of the creditor depends on the policy decisions of the company and the Government and on the terms of the debt; it is not necessarily related to the amount of the surplus. It may be some help in understanding these complicated entries if we observe that the net effect is as if the company had turned over to the Dominion as sole stockholder the net profit of \$35.6 million and the net return of capital amounting to \$2.2 million, the Dominion had re-invested these sums in the company, and the company had chosen to use \$35.6 million of it to retire outstanding obligations to the Dominion as creditor and to use the remainder for general purposes as part of its working capital. (From the point of view of the company the retirement of interest-bearing obligations is analagous to an investment in earning assets.) It must be reiterated however that it is only the debt repayment to the Dominion that actually involved the transfer of cash; the other entries are merely book adjustments which show (by the revenue entry) that the net improvement of the company's finances accrues to the Dominion as sole equity owner and (by the debit or expenditure entries) that the form in which this value has been received is as an increase in the value of the Securities Trust Stock classed as a non-active asset.

It will be noted that the treatment of the adjustment of the C.N.R. Securities Trust Stock for losses due to line abandonments has been altered this year in order to clarify it. The net effect on the value of the Securities Trust Stock and on the budgetary deficit is exactly the same as in the previous method, though both total expenditure and total revenue are reduced somewhat.

#### **(6) Total Non-War Expenditure.**

Adding together the amounts shown under the various categories of expenditure in the preceding five subsections, we get the total of the so-called non-war expenditure—that is all expenditure except charges to The War Appropriation Acts. As already seen in section C above the distinction is rather arbitrary; nevertheless it has a practical justification as a readily available, easily understood, and reasonably meaningful figure. For 1943-44 it amounted to \$735.2 million; this is shown in Table VIII, which also gives comparable figures for the preceding fiscal years back to 1938-39, the last pre-war year.

<sup>5</sup> Pensions to the aged and blind, and administration; the government's contribution to Superannuation Fund No. 5, costs of Plans No. 1, 3, 4, and 6, and administration; European War pensions (1914-18); Militia Pensions Act, 1901; R.C.M.P. Act pensions; and pensions to retired judges. There are sundry other pensions paid by the government, but their total is relatively small.

<sup>6</sup> Net after adjusting for line abandonments; see also footnote 2 to Table III, page xx. This does not affect the residual shown at item 16 however.

<sup>7</sup> Controllable expenditures not specially affected by the war. Note, however, that the war has increased the costs of many of the services concerned.

This table shows how the figure for non-war expenditures is derived, and analyzes it to show that after the deduction of a relatively few uncontrollable items, services initiated during the war as a matter of policy, and items showing increases largely attributable to the war, the remainder is only \$105.6 million, out of \$735.2 million, or 14.4 per cent. The deficits of the Canadian National Railways have been included with the uncontrollable items in the earlier years, as have the adjustments of the C.N.R. Securities Trust Stock in later years. Special expenditures (relief), which have declined substantially since 1938-39 and 1939-40, have also been eliminated, so that the residual line (item 16 in the table) represents the normal expenditures of government and gives comparable figures for the six fiscal years. These controllable expenditures have fallen from \$112.2 million in 1938-39 and \$118.5 million in 1939-40 (which must be considered a pre-war year in many respects, since the level of non-war activity was largely determined before the outbreak of hostilities) to \$105.6 million in 1943-44. It is true that they have increased somewhat in the last two fiscal years, after reaching a low of \$103.8 million in 1941-42, but this increase is creditably small at this stage of the war, for it must not be forgotten that the war has increased the costs of many of the services concerned.

## (7) War Expenditure.

Total expenditures charged during 1943-44 to the various War Appropriation Acts amounted to \$4,587 million, measuring a war effort of significant magnitude for a nation of under 12 million people. This is an increase of 23·2 per cent over the \$3,724·2 million reached in 1942-43, which was itself a notable achievement. The figure for the single year 1943-44 is two and three quarter times the total war and demobilization costs of the Great War up to March 31, 1920.

The Department of National Defence and the Department of Munitions and Supply accounted for \$3,316·8 million of the total war expenditures in 1943-44, or 72·3 per cent. Mutual Aid added another \$912·6 million, or 19·9 per cent of the total. The remainder represents war expenditures of various other departments. Table IX shows the more important items under the various departments, and gives the comparable figures for preceding years; further details for each department will be found in Part II of this Report.

<sup>1</sup> Charges to the war appropriations.<sup>2</sup> Less than \$50,000.<sup>3</sup> Included under the Department of Trade and Commerce; the amount was \$3 million.<sup>4</sup> Included under the Department of Labour; the amount was \$0.2 million in 1940-41 and \$0.1 million in 1939-40.<sup>5</sup> Includes National Research Council.<sup>6</sup> Includes \$3 million advances for drawback claims to millers; for similar advances in 1943-44 see the Department of Finance.

In interpreting the table it must be clearly understood that the annual totals are not strictly comparable, principally because the field covered by the expenditures varies from year to year. The most important reason for lack of comparability is that in 1942-43 and 1943-44 Canada's aid to Great Britain and other Allies took the form of direct appropriations and thus was included in war expenditure in the sense here used, whereas in earlier years, though very substantial assistance was indeed given, it took the form of the repatriation of securities and the accumulation of sterling balances in London (later converted into a long-term loan). There are other factors which warrant mention. The first is the acquisition of the fixed capital investment of the United Kingdom in munitions plants in Canada. This took place late in 1942-43, and the greater part of the payment (\$200 million) was made in that year. Most of the investment was made by the United Kingdom in earlier fiscal years, so in reality the major portion of the repurchase price should be attributed to those years rather than to 1942-43 and 1943-44.

Another factor making for non-comparability of the totals from year to year is illustrated by the fact that the expenditures on air training in 1943-44 were only \$233.9 million, compared with \$366.9 million in 1942-43 (item 22 of Table IX). This apparent decrease merely reflects the apportionment of costs as between Canada and the United Kingdom; the gross expenditure falling upon Canada in the first instance in 1943-44 was \$500.5 million, but there were certain adjustments due to sharing the expenditure with the United Kingdom in accordance with the responsibilities assumed by the two governments under the terms of the agreement. These adjustments relate in part to previous fiscal years, and their net effect is to deduct \$266.6 million from the charge to the 1943-44 appropriation and treat it as a recoverable advance to the government of the United Kingdom. (This charge to the United Kingdom's account is partly offset by other credits under the terms of the agreement. For more complete details on the entire matter see Part II, page LL-11). More generally, the point involved is that the apportionment of expenditures between the two governments can not always be completed within each fiscal year, and thus net expenditures shown year by year are not strictly comparable.

Yet another factor of non-comparability appears in 1943-44. The introduction of the Mutual Aid principle has meant that the United Kingdom and certain others of the Allies have ceased to be direct contractors for the purchase of munitions in Canada (except for relatively few contracts continued on the previous basis for administrative or other reasons), being replaced by the Canadian Mutual Aid Board. The working capital formerly provided by these countries is now provided by the Department of Munitions and Supply, which explains a substantial part of the increase in working capital provided in 1943-44 (item 18 of Table IX); as in the case of the acquisition of the fixed capital investment of the United Kingdom in munition plants, a large portion of this added expenditure is really attributable to previous years. Of course the continued expansion of munitions production during the year is also responsible for a large part of this increase in working capital supplied by the Department of Munitions and Supply, but due to the very nature of working capital, which largely represents goods in process, it is not possible to make a satisfactory apportionment of the increase as between these factors.

Summing up this discussion of the interpretation of the yearly figures, and putting the whole matter more generally, it is probably sufficient to say that "war expenditure" as used here must not be confused with total war requirements during any fiscal year. The prosecution of the war requires many outlays besides those technically known as "expenditure"—outlays which will be recovered later, or which reduce previously existing liabilities—and it is the total of these outlays that must be considered when comparing the immediate financial burden in successive years.

In addition to the points brought out in the preceding paragraphs, perhaps the only item in Table IX calling for comment is item 20—the expenditures of the Air Force on its overseas war establishment. This amounted to \$383.9 million in 1943-44, compared with only \$23.7 million in the previous year, an increase of \$360.2 million. Of this increase, \$307.4 million is in squadron maintenance and \$49.9 million is in pay and allowances. The former is largely explained by the very substantial increase in the number of squadrons which the Dominion has organized as R.C.A.F. squadrons and for which it has assumed financial responsibility, and the latter by the Dominion assuming responsibility for the pay of all R.C.A.F. personnel overseas.

Discussion of Canada's war expenditures would be incomplete however without reference to the Mutual Aid program. Out of the \$1,000 million appropriated for this purpose in 1943-

44, \$912.6 million was spent by March 31, 1944. Of this amount \$723.8 million was for the United Kingdom, \$21 million for Australia, \$0.9 million for the British West Indies, and \$0.5 million for India. Expenditures for Russia were \$23.3 million, and for China \$4.1 million despite the difficulties of transportation to that country. The remainder, except for a relatively small sum (\$25,472.14) for administrative expenses, was spent for goods that were still in transit at March 31, and not finally allocated among the recipient nations. Table X gives some further details as to both the distribution among countries and the type of aid involved in each case.

## F. ANALYSIS OF REVENUE.

### (1) Comparison with Earlier Fiscal Years.

Revenue receipts in the fiscal year 1943-44 reached an unprecedented height. The intensified activity of the war production program, the accompanying sustained high level of employment and incomes, and the high rates of taxation imposed under the war budgets were the principal causes contributing to the attainment of a revenue total never before reached.

Revenue for the year, classified by major categories, is presented in Table XI, with corresponding figures for the five previous fiscal years and the aggregate of the six years of the war and rehabilitation period beginning April 1, 1914, and ending March 31, 1920.

<sup>3</sup> After deducting refundable taxes in 1942-43 and 1943-44, and after adjusting the years 1938-39 to 1942-43 to be comparable with 1943-44 in respect of adjustments in the Canadian National Railways Securities Trust Stock.

It will be observed that total revenue in the fiscal year 1943-44, after deducting taxes refundable after the war under the Income and Excess Profits Tax Acts, was over five times as large as the revenue of the pre-war fiscal year 1938-39 and was almost double the revenue of the whole of the period encompassed by the fiscal years 1914-15 to 1919-20 inclusive.

It is also a noteworthy feature of this comparison that tax revenues continue to show an increasing emphasis on direct taxation and a decreasing proportion from indirect taxation. The significance of this tendency will be more fully discussed in later paragraphs.

## (2) Detailed Statement of Revenue, 1943-44.

In Table XII revenue receipts of the year are compared in detail with those of the five previous fiscal years. Because it is desired to itemize the sources of revenue in considerable detail, the figures given in this table are to the nearest thousand dollars.

### (3) Direct Taxes on Incomes.

During the war period primary emphasis has been placed on the direct taxation of incomes, both personal and corporate. Taxation of personal incomes is recognized as being the most equitable type of taxation, as it takes into account the ability to pay as indicated by the amount of income and the family responsibilities of the taxpayer. The wartime fiscal program has also placed strong emphasis on taxation of corporate incomes, both through the excess profits tax and the normal corporation income tax, in order to assure that no abnormal or unreasonable profits should be derived from production for the war effort.

In the fiscal year 1943-44, revenue from direct taxes represented about two-thirds of the total tax revenue, as compared with about one-third in the last pre-war year. In amount, such revenue had increased to a figure over ten times as large as that of the fiscal year 1938-39.

#### (a) Taxes on Personal Incomes.

Revenue from the income tax on personal incomes, now the largest single source of tax revenue, amounted to \$698.4 million, after deducting the refundable savings portion. This yield was 44 per cent in excess of the corresponding revenue of the previous fiscal year, an increase which was the result of the rising level of national income under the stimulus of the war production program, and the payment of taxes at the high rates adopted under the 1942 budget. The adoption of the "pay as you go" plan of income tax collection and its application to 1943 taxes also resulted in some increase in revenue over the previous year. This increase arose from the collection of tax from the current high income level of 1943, the payment of the balance of 1942 liability in the same year the 1943 taxes were being paid and the higher proportion of tax liability withheld at the source under the new system of withholding.

At the present time it is estimated that the savings portion of personal income taxes levied against 1943 incomes and repayable to the taxpayer after the end of the war is in the neighbourhood of \$110 million. It was estimated in the previous year that the corresponding amount in relation to 1942 incomes would be \$50 million, which, on the basis of more complete information, has been increased by an additional amount of \$5 million. These amounts taken together thus give an estimate of the total amount refundable on the Dominion's books at the end of the fiscal year 1943-44 of \$165 million repayable after the war in respect of the 1942 and 1943 taxation years.

Throughout the fiscal year the Tax Agreements between the Dominion and provincial governments remained in effect. These Agreements, discussed on pages xxxiii and xxxiv of the Introduction to the 1942-43 Public Accounts, in very substantial degree made possible the raising of personal income tax rates to the levels imposed in the budget of June, 1942.

#### (b) Taxes on Interest, Dividends, Rents and Royalties.

Revenue shown under the headings "Tax on Interest and Dividends" and "Tax on Rents and Royalties" represents the yield of the special taxes imposed on certain incomes under Section 9B of the Income War Tax Act. The greater part of this revenue in the fiscal year 1943-44 was derived from the 15 per cent tax levied on dividends and interest paid to non-residents of Canada.

#### (c) Corporation Income Tax and Excess Profits Tax.

Throughout the war period corporation profits have been subject to the corporation income tax, which was a part of the pre-war tax system, and in addition to the excess profits tax, which was introduced after the outbreak of war. The rate of corporation income tax has been 18 per cent during the war years, compared with the immediate pre-war rate of 15 per cent.

The excess profits tax, which applies to individuals and partnerships in business as well as to corporations, has been revised upward by successive steps during the war period and the revenue of the year under review reflects the revisions introduced in 1942. The budget of June, 1942, not only increased the rate of excess profits tax (basically the increase was from a 75 per cent rate to a rate of 100 per cent) effective from July 1, 1942, but also provided for compulsory monthly instalment payments of both corporation income tax and excess profits tax to commence on the same date. Thus throughout the entire fiscal year 1943-44 corporations paid their taxes on a monthly payment schedule rather than in one sum as was generally the case in previous years. Revenue from the corporation tax proper declined somewhat from 1942-43 however, because of the overlapping that had occurred in that year with the introduction of the monthly payment plan.

In summary, the rates of tax which have applied to corporation incomes since July 1, 1942, have been as follows:

(1) Under the corporation income tax, 18 per cent of total profits; and

(2) Under the excess profits tax, 12 per cent of total profits, *plus* the greater of (a) a further 10 per cent of total profits or (b) 100 per cent of excess profits.

The net effect of these provisions in their practical application is that every corporation which has earned profits not exceeding an amount equal to  $116\frac{2}{3}$  per cent of its standard profits (basically, average profits of the years 1936 to 1939 inclusive) pays a tax rate of 40 per cent on such profits, while every corporation which has had profits exceeding  $116\frac{2}{3}$  per cent of its standard profits pays a rate of 30 per cent on an amount of profits equal to its standard profit and 100 per cent of profits in excess of standard profit. Stated in other terms, no corporation is allowed to retain more than 70 per cent of its pre-war standard profit before tax.

Where the 100 per cent rate is effective, however, a post-war tax refund will be given equal to 20 per cent of the amount by which current profits exceed  $116\frac{2}{3}$  per cent of standard profits. In respect of the fiscal year 1943-44 it is estimated that an amount of \$40 million of excess profits tax collections will be refundable after the war.

#### (4) Succession Duties.

In 1941 the Dominion Government entered the field of succession duties for the first time. The rates under the Dominion Act were formulated in the light of the existing provincial rates and taken in combination with the latter result in a total tax of about the same general severity as the British death duties.

Revenue from this source had not reached by the end of the fiscal year 1943-44 the amount which had been anticipated. It is thought, however, that the amortization of payments over a number of years has resulted in lower initial revenues than expected, and that over a period of years there will be a gradually increasing revenue from this source.

#### (5) Indirect Taxes.

##### (a) Customs Duties.

Revenue from Customs duties for the fiscal year 1943-44 was \$167.9 million, which compares with receipts of \$119.0 million from this source during the preceding fiscal year, an increase of \$48.9 million or 41 per cent.

Prior to April 1, 1943, importations into Canada or purchases in Canada by or on behalf of allied governments were granted exemption from customs duty and as well from sales tax, excise taxes and any other taxes that would normally have applied, although purchases by the Canadian Government for its own account were subject in full to all applicable taxes. With the adoption of the Mutual Aid Program, the Canadian Government became the purchaser of a substantial amount of the munitions and other war supplies procured in Canada for the use of other governments. During the fiscal year 1943-44, therefore, only those supplies which were purchased for cash in Canada by allied governments were eligible for tax exemption and this exemption was granted by a refund of duties or taxes included in the purchase price. The effect of this change in procedure was to bring within the scope of taxation a substantial volume of war supplies previously exempt from tax, which was the principal factor explaining the extent to which revenues from customs duties during the year were substantially higher than revenues of the preceding year. It should be pointed out that when the books of the fiscal year 1943-44 were closed there were outstanding substantial arrears of refunds to Allied Governments in respect of duties and taxes included in the price of munitions for which they had paid in cash. Since the amount of such arrears of refunds had not been determined at the end of the 1943-44 fiscal period it was not possible to take them into the accounts of that year. However, it is anticipated that during the course of the 1944-45 fiscal period refunds of these taxes and duties will be completed and will be dealt with in the public accounts for that year.

##### (b) Excise Duties.

Excise duties are levied exclusively on alcoholic beverages and tobacco products. Revenue from this source in the fiscal year 1943-44 amounted to \$142.1 million, some \$3.4 million in excess of the previous year, which increase arose almost entirely from higher consumption of cigarettes and tobacco, particularly cigarettes, in respect of which the increase was some 5 per cent over the peak figure of the previous year. The extent of the smokers' contribution to the Federal Treasury is indicated by the fact that revenue from tobacco products, taking account of the additional taxes imposed under the Special War Revenue Act on tobacco, cigars, cigarettes and on cigarette papers and tubes, amounted in the fiscal year 1943-44 to \$140.8

million, or a sum equal to almost one-third of the total tax revenue of the government in the last pre-war year, 1938-39.

Revenue from alcoholic beverages would have shown some decline from the previous year because of the restrictions on consumption had it not been for the fact that the increased rates of tax imposed in the budget of June 23, 1942, were in effect during the whole of the fiscal year 1943-44 but for only about nine months in the fiscal year 1942-43.

#### (c) Excise Taxes.

The term "excise taxes" refers in general to the group of some fifty or more taxes imposed under the Special War Revenue Act. Many of the taxes in effect in the year under review were levied prior to the war, although for the most part at lower rates. On the other hand several new taxes have been introduced, designed principally to discourage spending either as a part of the anti-inflation program or to conserve materials and services in short supply. Revenue under this heading in the fiscal year 1943-44 amounted, after deducting refunds, to \$638.6 million, or \$149.9 million in excess of that for the previous year. Of this increase the larger part is attributable to the sales tax and the war exchange tax, which both produced revenues larger than those of the previous year, in considerable part because of the change in tax procedure resulting from the Mutual Aid Program which has already been discussed above in the section on Customs Duties. It is now estimated that these two taxes contributed almost \$96.3 million to the increase in total revenue.

The balance of the increase over the previous year arose from the variety of taxes on goods and services of domestic consumption, in the case of many of which the rates either were increased in the Budget of March 2, 1943, or were increased in the Budget of June 23, 1942, and were effective during the full twelve months of the fiscal year 1943-44, as contrasted with about nine months of the previous fiscal year. These taxes as a group yielded \$214.8 million, exceeding the revenue of the previous year by \$53.6 million. The major increases arose under the following headings (the amount shown is the increase in 1943-44 over 1942-43):—

1. Cigars, cigarettes and tobacco.....	\$28,393,000
2. Transportation and communication.....	6,296,000
3. Beverages (soft drinks) .....	4,940,000
4. Candy and chewing gum.....	4,418,000
5. Stamps, etc., including payment of taxes on jewellery, chinaware, cabaret attendance, etc. ....	4,148,000
6. Tires and tubes.....	4,009,000
7. Purses, bags, trunks, etc.....	1,983,000
8. Amusements and pari-mutuel bets.....	1,637,000

On the other hand, the yield of excise taxes on certain commodities suffered some reduction due to curtailment of production or to rationing of domestic consumption. These sources of revenue, and the amounts by which the yields decreased as compared with receipts during the preceding fiscal year, were as follows:—

1. Electric and gas appliances .....	\$2,004,000
2. Sugar .....	1,903,000
3. Phonographs, radios and tubes.....	700,000
4. Wines .....	297,000

#### (6) Other Taxes.

The tax on the note circulation of the chartered banks is relatively unimportant and is declining from year to year with the reduction in the outstanding amount of chartered bank notes. The tax on insurance companies is based on net premium income. Revenue from this source declined from that shown in the previous fiscal year due to arrangements made under the Dominion-Provincial Tax Agreements which had the effect of bringing collections for two years into revenue of the fiscal year 1942-43.

#### (7) Non-tax Revenue.

##### (a) General.

In addition to receipts from taxes, there are other revenues which are included in Ordinary Revenue in the Dominion's accounts. These non-tax revenues totalled \$133.3 million in 1943-44 as compared with \$116.1 million in the previous year and with \$61.8 million in the immediate pre-war year.

The two main revenue producers in this category are the Post Office and the Dominion's portfolio of investments. With the one cent increase in letter rates effective April 1, 1943, and expanding business activity and incomes, post office receipts have risen from \$35.3 million in the last pre-war year to \$61.1 million in the year under review, although as will be evident from the details given in Part II of this Report, post office expenditures have also shown a steady increase. Return on investments, that is to say, interest, dividends and profits received in respect of loans, advances, securities and other investments included amongst the Dominion's assets, increased from \$14.5 million in 1938-39 and \$41.2 million in 1942-43 to \$48.3 million in 1943-44. Details in regard to these and other items of Non-tax Revenue will be found under the appropriate departments in Part II.

**(b) Bullion and Coinage—Royal Canadian Mint.**

In Table XII the revenue from bullion and coinage is shown as \$8.732 million for 1943-44. This represents the revenue receipts, as shown by the Dominion's books, derived from the bullion and coinage operations of the Royal Canadian Mint and of the Dominion Assay Office, a branch of the Mint maintained at Vancouver for the receipt and assaying of deposits of gold produced in the Western provinces, Yukon and the Northwest Territories. (For a detailed explanation of the operations of the Royal Canadian Mint, from the accounting point of view, see the Public Accounts for 1942-43, pages xxxvii-xxxix).

Details of these receipts will be found in the Department of Finance section of Part II of this Report and may be summarized as follows:—

**Coinage operations**

Net gain in silver bullion and coinage operations.....	\$5.450 million
Net gain in bronze and tombac coinage operations.....	1.845 "
Net gain in steel coinage operations.....	0.067 "

**Refining and handling gold**

Gain on stocktaking .....	0.040 "
Gain in operations at Dominion Assay Office.....	0.005 "
Charges for assaying, melting and refining gold:.....	0.134 "
Mint handling charges (net) .....	1.191 "

<b>Total .....</b>	<b>\$8.732 "</b>
--------------------	------------------

Statements of the operations of the Royal Canadian Mint in respect of coinage and gold bullion accounts are included as appendices in Part I of this report; Appendix No. 10, a statement of coin withdrawn from circulation for recoinage, the amount recoinage and the loss or gain on recoinage; Appendix No. 11, a statement of coinage issued during the year with the accumulated total up to March 31, 1944; and Appendix No. 12, a statement of transactions in the various coinage accounts and in the gold bullion account.

**(8) Capital Refunds; Special Receipts and Credits.**

Refunds of previous years' capital expenditures which were of very minor amount are given on page 11, Part I. Special Receipts and Credits for the year, as shown on page 13 of Part I and more fully dealt with under the departments in Part II of this Report, amounted to \$194.9 million.

The main items making up this total are: Refunds of previous years' war expenditures, \$44.2 million; miscellaneous war revenue, including profits on certain war operations, \$48.5 million; sale of surplus war assets, \$6.2 million; previous years' war expenditures in Crown plants transferred to active assets, \$53.4 million; reduction in the Reserve Account of the Canadian Wheat Board, \$3.0 million; net credit due to increase in Canadian National Railways Securities Trust Stock, \$37.8 million; and repayment by Canadian Pacific Railway of a loan made under Unemployment Relief Act, 1932, \$1 million. The previous years' war expenditure on Crown plants transferred to active assets relates to a very few plants which, after careful examination, can now be said to have a definite post-war value; the entry here is to reverse the earlier charge to Consolidated Deficit Account (see also Part II, page K-4). The reduction in the Reserve Account of the Canadian Wheat Board represents an adjustment occasioned by a further improvement in the Board's balance sheet based on calculations made as at July 31, 1943, with respect to 1939 and 1940 crop accounts. The net credit due to the increase in Canadian National Railways Securities Trust Stock of \$37.8 million is the sum of sur-

plus earnings of the system for 1943, \$35.6 million and the capital gain on repatriation of Canadian National Railways securities, \$2.4 million, less the decrease due to capital loss on line abandonments, \$0.2 million. As the Securities Trust Stock is carried in the Dominion books as a non-active asset, the improvement in the account does not affect the net debt position of Canada, and accordingly the net credit of \$37.8 million is offset by a contra amount appearing on the expenditure side under the heading "Other Charges".

### G. PERCENTAGE DISTRIBUTION OF REVENUE AND EXPENDITURE, 1943-44.

The following table, Table XIII, shows the percentage distribution of revenue and expenditure for a number of important items. Receipts from various taxes and other sources are shown as percentages both of total revenue and of total expenditure. Similarly, several of the main items of expenditure or groups of such items are shown as percentages both of total expenditure and of total revenue.

The purpose of this table is to enable broad conclusions to be drawn as to the relative burdens imposed on the public treasury by the war and the several important services or obligations of government. For example, a glance at the table will show that expenditures charged directly to war accounted for more than 86 per cent of all expenditures and amounted to about one and two-third times total revenue. Also, all ordinary expenditure accounted for 11·8 per cent of total expenditure and absorbed almost 23 per cent of total revenue. Receipts from the income tax on persons and corporations took care of 19·5 per cent of total expenditure, while expenditures of the Air Force and the Navy absorbed over 24·4 per cent of total revenue.

## NOTES TO TABLE XIV

<sup>1</sup>Transactions classed as non-cash consist of adjustments of the valuation of assets and liabilities and the annual amortization of loan flotation charges. Certain contra accounts have also been omitted.

<sup>2</sup>Revised figures, for comparability with the new arrangement of the balance sheet.

<sup>3</sup>In 1939-40 outlays and receipts in foreign currency were charged or credited at par of exchange, any difference being absorbed by Premium, Discount, and Exchange Account. Since then these transactions have been converted at the current rate of exchange. But see also footnotes 10, 11, 16, and 17.

<sup>4</sup>"War requirements" are expenditures charged to the war appropriations, and such other accounts as obviously relate to the war; "non-war requirements" are all other requirements.

<sup>5</sup>As in Expenditure and Revenue Account, except where otherwise indicated.

<sup>6</sup>Excludes the amortization of bond discounts and commissions: \$10.7 million in 1943-44, \$3.6 million in 1942-43, \$11 million in 1941-42, \$5.2 million in 1940-41, and \$4.8 million in 1939-40.

<sup>7</sup>Excludes the reserve provisions for the deficits of the Canadian Wheat Board in 1941-42 and 1940-41, \$12.6 million and \$10.5 million respectively.

<sup>8</sup>Fulfilment of guarantees *re* Saskatchewan Seed Grain Loans, 1936 and 1937.

<sup>9</sup>See Table XV, page XLVI.

<sup>10</sup>Computed by adding the 10% exchange premium to the change as shown on the balance sheet (where foreign currency is converted at par, the difference being absorbed by Premium, Discount and Exchange Account). Excludes U.S. funds held for special purposes.

<sup>11</sup>Including both funded and floating debt, and the 10% exchange premium on U.S. funds. In netting out the proceeds of the refunding issues in 1942-43 the price of the securities to the public has been used, although the amount actually received by the government was less than this by the amount of the underwriters' commissions; these commissions (plus the 10% exchange premiums on U.S. funds) are included at Item 11 in the table.

<sup>12</sup>See Table IX page XXVIII; but see also footnote 13 *re* the expenditures of the Department of Munitions and Supply in 1943-44.

<sup>13</sup>Excludes the reserve provision of \$12.6 million for contingent liabilities of Crown companies.

<sup>14</sup>The War Appropriation (United Nations Mutual Aid) Act 1943, in 1943-44, and The War Appropriation (United Kingdom Financing) Act 1942, in 1942-43.

<sup>15</sup>See Table XVI, page XLVII.

<sup>16</sup>Computed at \$4.47 to the pound sterling; on the balance sheet foreign currency is converted at par, the differences being absorbed by Premium, Discount, and Exchange Account. Does not include sterling accumulated between 1939 and 1942 to provide the United Kingdom with Canadian dollar exchange; see pages XLVIII and XLIX.

<sup>17</sup>Including both funded and floating debt, the former being adjusted for sinking funds and for certain sinking fund holdings temporarily transferred to Securities Investment Account in order to liquidate them (where the sinking fund of a maturing or called issue held bonds of other issues). Excludes the premium paid (in sterling) in excess of the face value, charged to the war appropriations—see item 7 of Table IX, page XXVIII. The pound sterling was converted at \$4.45 in these debt retirement transactions.

<sup>18</sup>The revolving funds were closed out at the end of 1943-44, but not at the end of 1942-43. The net effect was to defer outlays from 1942-43 to 1943-44.

<sup>19</sup>During 1943-44 certain items of plant and equipment, charged to the war appropriations as expenditure during previous years, were reclassified as active assets. The resultant increase in assets is included in the preceding items in the 1943-44 column, and this item makes the appropriate deduction. Alternatively, war expenditures could have been revised downward and outlay on active assets revised upward in the earlier years concerned, but that treatment would have been difficult to reconcile with the Public Accounts for the years concerned and would not have altered the cash requirements.

<sup>20</sup>Net after the deduction of commissions and sundry remuneration amounting to \$11.9 million in 1943-44, \$10.3 million in 1942-43, \$9.5 million in 1941-42, \$7.7 million in 1940-41, and \$7.5 million in 1939-40.

<sup>21</sup>Including a revision of Premium, Discount, and Exchange revenue resulting from the valuation of gold, foreign currency, and debt payable in foreign currency at current exchange rates instead of at par. The revised revenue from Premium Discount, and Exchange is \$4.9 million in 1943-44, \$2 million in 1942-43, \$1.6 million in 1941-42, \$1 million in 1940-41, and \$2 million in 1939-40. See also Table XVIII page LI.

<sup>22</sup>Excluding the following non-cash credits: the reduction of the reserve for losses of the Canadian Wheat Board; the adjustments of the Canadian National Railways Securities Trust Stock; the write-up of assets for the revaluation of war plants in 1943-44; the balance of the award in the *I'm Alone* case, held by the Receiver General for several years and transferred to revenue in 1943-44; the write-off of Dominion "A" stock in 1940-41; and the write-off of non-active assets. The principal components are receipts related to the War Appropriations (refunds etc.), and war donations, amounting respectively to \$98.9 million and \$0.2 million in 1943-44, \$18.7 million and \$0.3 million in 1942-43, \$16.4 million and \$0.5 million in 1941-42, and \$1.5 and \$1.4 million in 1940-41.

<sup>25</sup>Excluding conversions and renewals. See also Table XXI page LIV.

<sup>26</sup>See Table XXIV pages LXII and LXIII.

<sup>27</sup>Mostly changes in outstanding cheques.

<sup>28</sup>The cash deficiency is defined as the excess of cash requirements over sources other than borrowing, and therefore it must equal net borrowing plus the decrease (or minus the increase) in cash balances.

Incidentally it will be noted that the 1942-43 figures have been revised in Table XIV, compared with those shown in the similar table given on pages xlii and xliii of the Public Accounts for 1942-43. The revision is largely the result of the change in viewpoint due to the extension of the period under consideration to five years instead of one, but it is due also in some degree to the desirability of relating the figures directly to the revised form of the balance sheet; these factors affect decisions as to whether or not certain items should be netted out. This in turn brings up the point that some receipts (as the repayment of certain loans) are netted against other payments, and some outlays (as the return of funds deposited with the Receiver General) are netted against other receipts. There is necessarily some arbitrariness in deciding what items to net out, unless one were to go to such extremes as, for example, to show every deposit in the Post Office Savings Bank as a source of funds and every withdrawal as a requirement for funds; it is much more meaningful, however, to describe the transactions in terms of net changes in various categories of accounts. The principal items netted out are shown clearly in the above table and the subsidiary tables that follow.

It should also be observed that even the question of defining cash transactions raises certain problems. For example, the interest payments to insurance, superannuation, and trust funds and the Government's contribution to the superannuation and the unemployment insurance funds have been treated as cash expenditure, on the one hand, and as cash receipts, on the other, even though they remain on deposit with the Receiver General; for they are held for the benefit of others and not for the Government itself. The transactions treated as non-cash are adjustments of the valuation of assets and liabilities, and the annual amortization of loan flotation charges, as noted in the comments which follow. Certain contra accounts have also been omitted.

## **(2) Analysis of Cash Requirements.**

Table XIV separates requirements into "war" and "non-war". The former category is composed of charges to the war appropriations and such other accounts as are obviously related to the war; the latter includes all other requirements. As noted in the discussion of expenditure, this division is not a precise one, but it is comparatively easily made and is very useful provided its limitations are kept in mind. War requirements amounted to \$5,048.4 million in the year under review, and non-war requirements amounted to \$808.7 million.

### **(a) Non-War Cash Requirements.**

The first items of non-war cash requirements shown in Table XIV are the expenditure items, totalling \$661.1 million in 1943-44. The non-cash expenditures excluded are the amortization of bond discounts and commissions, \$10.7 million, the write-down of active and non-active assets, \$25.6 million, and the entries adjusting the value of the Canadian National Railways Securities Trust Stock, which have already been described at some length, \$37.8 million. The corresponding items in previous years will be found in the table and its footnotes, except the items omitted from Other Charges (item 8), which will be found at items 13 and 14 of Table VIII, page xxvii.

Secondly, active loans, advances, investments, etc. totalling \$119.1 million were made during the year. The details are given in Table XV, which also shows the comparable amounts for the previous four years. Aside from the increase of \$150.4 million in Securities Investment Account (which among other things temporarily holds Victory Bonds in process of purchase under the instalment plans) and the increase of \$1.3 million in sundry departmental working balances, all the entries show net repayments of advances made in previous years. The accounts with the Canadian National Railways have already been described in detail (see pages xviii and xix) and the other items are self-explanatory.

See also footnote 6 to Table XVI, page XLVII.<sup>5</sup> Excluding stock written off.<sup>6</sup> Excluding the Royal Canadian Mint Gold Purchase Account. The changes in this account reflect changes in the Dominion's holdings of gold, and are included in item 12 of Table XIV.<sup>7</sup> Excluding loans written off.<sup>8</sup> Adjusted to eliminate temporary holdings of sterling securities in connection with the liquidation of sinking funds, as these changes are included in item 25 of Table XIV.<sup>9</sup> Less than \$50,000.<sup>10</sup> Comprising the changes in the following items, as shown in the revised balance sheets and schedules on pages 49 to 60 of Part I of this report: balance sheet, item 4(b), Central Mortgage Bank; Schedule D, items 1 and 3; Schedule G, items 5 to 8 and 10 to 12; and Second and Third Victory Loan Subscription Suspense Accounts (part of Schedule J, which is not shown on pages 49 to 60 because the information was given in substantially the same form in previous years).

The third type of non-war cash requirement is the cash outlay for loan flotations to be amortized over the life of the issues, as distinct from that charged directly to annual expenditure when incurred. It comprises chiefly discounts, conversion premiums, redemption bonuses, and agents' commissions; the amount was \$17.4 million in 1943-44.

Fourthly, there is the Canadian dollar purchase price of the increase in holdings of gold and U.S. dollars (a negative item of \$115.6 million in 1943-44, which means that balances built up in previous years were used for certain requirements in the United States, notably debt retirement), and, finally, the cost in Canadian dollars of the funds used to reduce New York indebtedness. Securities totalling \$106 million (U.S.) were called, and floating debt was reduced by \$9.3 million (U.S.); this is equivalent to \$126.8 million in Canadian funds.

**(b) War Requirements.**

As with non-war requirements, so with war requirements the principal factor is expenditure in the strict sense. Cash expenditure from the war appropriations amount to \$4,574.4 million in 1943-44; the only non-cash item deducted is the charge of \$12.6 million arising out of setting up a reserve for certain contingent liabilities of various Crown companies—specifically, for the adjustment of prices used in interim billings.

Table XVI analyzes the net advances made on war account during the year and, as with most of the tables in this Introduction, gives comparable figures for the four preceding years. Advances to other governments amounted to \$190.2 million net, of which the most important items were net recoverable expenses of \$205.4 million in connection with the Air Training Plans (including substantial adjustments relating to previous years, as explained on page xxx) and repayments of \$42.4 million against the \$700 million loan to the United Kingdom under The War Appropriation (United Kingdom Financing) Act, 1942. (These repayments represent the proceeds of maturing Canadian issues and the sale of Canadian securities by residents of the United Kingdom to non-residents, and are called for by the terms of the loan.) Net advances of \$310.8 million were made to various Crown agencies—\$185 million to the Foreign Exchange Control Board, \$51.3 million to commodity and other companies under the jurisdiction of the Department of Munitions and Supply, \$57 million in respect of privately managed Crown plants under the same department, and the remainder to various Crown companies. Other transactions were net advances of \$21 million to the Canadian National Railways, more fully described on pages xviii and xix, and a net repayment of \$4 million by certain private contractors.

See also footnote 4 to Table XV, page XLVI.<sup>7</sup> See also item 27 and footnote 19 of Table XIV, page XLII.<sup>8</sup> Recoverable from Australia, New Zealand, and the United Kingdom.<sup>9</sup> Includes adjustments affecting previous years; see also page XXX.<sup>10</sup> This negative figure results from prepayments by the United States of America with respect to supplies being purchased in Canada.

The Canadian dollar purchase price of the increase in holdings of sterling funds is included as a war requirement because practically all expenditure in sterling relates to the activities of our armed forces overseas. During 1943-44 sterling holdings decreased by an amount equivalent to \$21.9 million, which means that balances built up in previous years have been drawn upon and therefore the Canadian dollars for outlays of that amount were provided in those years. It may be worth observing, in this connection, that the changes in sterling balances

during the preceding four years, as shown in item 24 of Table XIV, refer only to the working balances held by the Dominion Government itself; they do not include the accumulation of sterling between 1939 and 1942 (later reversed by conversion to a \$700 million interest-free loan, by the repatriation of further sterling securities, and by other means) undertaken as one of the methods of providing the United Kingdom with Canadian dollar exchange. The balances accumulated for this purpose were held by the Foreign Exchange Control Board.

There are two adjustments to be made to the items so far listed. The first relates to the revolving funds and the second to the reclassification during 1943-44 of certain war expenditures in previous years. The revolving funds are working capital credits administered by the Department of Munitions and Supply; they were opened in 1942-43 and were not closed out at the end of that year, but were closed out at the end of 1943-44 (and re-opened in 1944-45 out of the new year's war appropriation), the net effect being that outlays of \$30.8 million listed in 1942-43 were in fact deferred until 1943-44. The reclassification of war expenditures concerns prior years' expenditure on fixed capital in certain war plants which after careful review can now be said to have definite post-war value and accordingly have been transferred to active assets. This matter was referred to on page xxxviii in discussing non-tax revenue. The amount involved is \$53.4 million—\$14.1 million for Polymer Corporation, Ltd., \$9.1 million for Alberta Nitrogen Co., Ltd., \$9.5 million for Canada Strip Mill, Ltd., \$1.3 million for Nicholls Chemical Co., Ltd., and \$19.5 million for Welland Chemical Works, Ltd. (Further details will be found in Part II, page K-4). These amounts are included, along with the additional advances during 1943-44, in the advances to Crown companies and commodity companies shown at items 11 and 13 of Table XVI, and thus are included in item 23 of Table XIV, so it is necessary to deduct the total here as an adjustment. Alternatively, war expenditure could have been reduced and outlay on assets increased by the appropriate amounts in the preceding years, but the treatment here adopted has the same net effect with less chance of confusion in comparison with the details given in the Public Accounts for this and earlier years.

**(c) Adjustment of total requirements for and sources of cash to take account of certain C.N.R. and F.E.C.B. transactions.**

There are two adjustments that can be made in the figures just given, in order to give a more complete and meaningful account of the Government's financial relations with the public. They relate to the Canadian National Railways and the Foreign Exchange Control Board, and involve the consolidation of the positions of the Dominion, the Railway, and the Board, as if they were parent and subsidiary companies (which they resemble in many ways). With respect to the C.N.R., the point involved is that certain of the advances made to it by the government have been for the purpose of retiring securities held by the Canadian public; these advances may reasonably be considered as having involved increased borrowing by the Dominion, so the net effect has been merely to replace the C.N.R. securities with direct Dominion obligations. Consolidation of the positions of the Dominion and the Railway would thus reduce the net Dominion requirements by the amount of the advances in question—\$17.9 million in 1943-44.

In the case of the F.E.C.B. the adjustment is primarily a matter of timing as between fiscal years; the year under review is not affected, and the situation with respect to 1942-43 was explained in some detail in the Introduction to the Public Accounts for that year, but it is desirable to explain it briefly once more in order to complete the record for the past five fiscal years as in most of the preceding tables. The significant thing is that in 1940-41 and 1941-42 the advances made by the Government to the Board, together with the Board's other sources of funds, were not sufficient to cover all the latter's requirements, the balance being made up by selling exchange to the Bank of Canada under agreement to repurchase. These arrangements were reversed in 1942-43 when the exchange reserves were repurchased from the Bank, largely due to clearing off the large sterling balances previously accumulated in order to provide the United Kingdom with Canadian dollar exchange. Consolidating the positions of the Dominion and the Board, the net effect is that requirements for Canadian dollar financing were increased by \$69 million in 1940-41 and by \$206.9 million in 1941-42, due largely to the accumulation of sterling balances (though of course the total sterling accumulated was much more than this), and reduced by \$275.9 million in 1942-43, due to using up the sterling previously acquired.

Corresponding adjustments are, of course, involved in the total sources of cash. In the consolidation of positions the C.N.R. securities retired become analogous to Dominion maturities paid off in cash, and the F.E.C.B.'s sales and repurchases of exchange to and from the Bank of Canada produce the same effect as borrowings and repayments. The whole matter is summarized in Table XVII, which follows.

### (3) Analysis of Sources of Cash.

#### (a) Revenue Received in Cash.

The revenue items in Table XIV total \$2,673.4 for 1943-44, or \$91.6 million less than the total revenue shown in Table XII. This is explained by two factors, the first of which is the omission of non-cash credits amounting to \$94.3 million, as follows: reduction in the reserve account for deficits of the Canadian Wheat Board, \$3 million; the credit of \$37.8 million recording the increase of the Dominion's equity in the Canadian National Railways; the credit of \$53.4 million to Consolidated Deficit Account reversing the charges in respect of certain war plants, as already described; and some relatively small items, including the write-off of non-active assets and the balance of the award in the *I'm Alone* case, held by the Receiver General for several years and now transferred to revenue.

The second factor is an adjustment of Premium, Discount, and Exchange Revenue arising out of the fact that foreign exchange and debt payable in foreign currency have been valued at current exchange rates for all purposes, whereas they are converted at par of exchange on the Dominion's balance sheet. Adjusting the other accounts concerned as in Table XIV shows a net cash revenue from Premium, Discount and Exchange in 1943-44 greater by \$2.7 million than that given in Table XII; the difference is explained in Table XVIII, which reconciles the Premium, Discount, and Exchange Revenue as included in Table XII with that in Table XIV, with comparable figures for the four previous fiscal years.

### (c) Borrowed Funds and Borrowing Operations.

#### (i) Operations in Foreign Markets.

The Dominion did not borrow in foreign markets in the year under review, and in fact reduced its indebtedness in both London and New York. In the former market the Dominion's outstanding obligations, already reduced to relatively small proportions at the beginning of the fiscal year, were still further reduced by continued repatriation. In New York, the \$30 million 2½ per cent loan of 1937 and the \$76 million 2½ per cent loan of 1935 were called for redemption in August 1943 and paid off in cash. The cash effects of these transactions are noted at items 13 and 25 of Table XIV where the amounts have been converted at the current rates of exchange in order to show the net requirements of Canadian funds for these debt reductions. Their effects can also be seen in the comparative balance sheet and Schedule T thereto, at pages 3 and 27 respectively of Part I, where they are shown at par of exchange.

#### (ii) Borrowing Within Canada.

The repayments of foreign debt referred to in the preceding paragraph constitute a requirement for cash and they have been so treated in Table XIV. To deduct these figures from the net proceeds of borrowing within Canada in order to show an over-all figure for net borrowing would understate the Dominion's cash requirements during the year and would obscure the real total of funds provided by Canadian investors. It was borrowing *within Canada* that was significant in meeting the cash deficiency in 1943-44, and indeed in every fiscal year of this war. These operations are summarized at items 49 to 56 of Table XIV.

The details of new issues of funded debt (that is, excluding renewals and the conversion of maturing issues) are given in Table XXI. This table also gives the comparable figures for the four previous fiscal years, and a column showing the total for the five years has been added. This total is in many ways more significant than the annual transactions, as the figures for individual fiscal years may be distorted by incidental factors like the timing of loan campaigns (for example, during 1942-43 cash requirements increased very rapidly, and there was a Victory Loan campaign just before the beginning and another just after the end of the fiscal year, with the result that bank borrowing was particularly high in that year).

<sup>1</sup> Excludes renewals and the conversion of maturing issues.

<sup>2</sup> At time of issue only.

<sup>3</sup> These two issues, totalling \$325 million, were sold to the Bank of Canada to provide funds for the Foreign Exchange Control Board.

<sup>4</sup> These loans were issued early in 1942-43, in clearing off the F.E.C.B.'s accumulation of sterling balances.

<sup>5</sup> Net proceeds at price to subscribers; see Table XXIII pages LVIII-LXI for terms of issue.

<sup>6</sup> There is no information available concerning subscriptions by banks to this loan.

<sup>7</sup> Some small portion of these loans was subscribed by the Bank of Canada and the chartered banks, estimated at less than \$30 million for the three loans (including \$6.7 million of the First Victory Loan, as shown in Table XXII, page LVI).

<sup>8</sup> Including the addition of accrued interest.

<sup>9</sup> Issues after September 1, 1939—i.e. all issues except item 9.

As the table shows, the total of outstanding Treasury Bills increased by \$60 million during the year, to \$360 million. The net effective rate of interest on these Bills declined still further during the year, and stood at the near-record low level of 0·387 per cent on the last issue of the year. The corresponding rates of the last five fiscal years are as follows:

	Per cent
1939-40 .....	0·747
1940-41 .....	0·609
1941-42 .....	0·552
1942-43 .....	0·498
1943-44 .....	0·387

It is not possible to classify the purchasers of Treasury Bills, but other new issues have been so classified in Table XXI.

A net amount of \$170 million was borrowed from the chartered banks during 1943-44 but nothing from the Bank of Canada.

The general public bought no less than \$2,732·1 million of new issues—\$2,683·7 million of Victory Bonds and \$48·4 million (net after redemptions, but including accrued interest) of War Savings Certificates and Stamps and Non-Interest-Bearing Certificates. This is 92·2 per cent of the total borrowings for the year, which were \$2,962·1 million. The Fourth and the Fifth Victory Loans were each in turn the largest borrowing operation in the history of the Dominion—the Fourth yielded \$1,308·7 million from 2,668,420 subscriptions and the Fifth \$1,375 million in cash from a total of 3,033,051 subscriptions. The National War Finance Committee has prepared an estimate of the derivation of the subscriptions to these loans at the time of issue. It is given in Table XXII, together with revised data for the first three Victory Loans. Unfortunately similar information is not available for the First or the Second War Loans.

<sup>1</sup> Excluding the School Lands Debentures amounting to \$33,293,470.85 held by the Provinces of Manitoba, Saskatchewan, and Alberta, which were renewed annually on July 1st, at 4 per cent interest.

<sup>2</sup> Data from the National War Finance Committee.

<sup>3</sup> Of this amount \$40,000,000 was issued to meet in part the 3 per cent issue maturing March 1, 1940; the remainder was issued later (at 99·375 and accrued interest) to meet in part the 1½ per cent issue maturing on June 1, 1940. See also footnote 5.

<sup>4</sup> Issued in June 1942 (at par and accrued interest). Item 6 is in no way related to the public loan campaign; issuance in this form was a matter of convenience only.

<sup>5</sup> Issued to meet in part the 1½ per cent issue maturing on June 1 1940; see also footnote 3.

<sup>a</sup> The banks have participated in some degree in some of these issues, but this has been confined almost entirely to conversions into short-term tranches. It is estimated that cash subscriptions by banks to War and Victory Loans were less than \$30 million; see also Table XXII, page LVI. But note also items 19 and 20 and footnote 7.

<sup>7</sup> There is no information as to subscriptions by the banks to this issue.

<sup>6</sup> The redemption of 20 per cent of the loan on February 1, 1951 will be at 100·50, and the 20 per cent on February 1, 1952 will be at 101.

<sup>9</sup> Redeemable at 101 at maturity.

<sup>10</sup> War Savings Certificates are issued on a discount basis, and yield 3 per cent to the purchaser if held to maturity, seven and a half years after issue.

<sup>11</sup> Including addition of accrued interest.

<sup>12</sup> Issues after September 1, 1939—i.e. all issues except items 19 and 20.

Finally, some comments on interest rates may be added. The table which follows—Table XXV—shows the average coupon interest rates on the funded debt of the Dominion for the years 1934-35 to 1943-44, as at the close of each year. This table shows two significant features—firstly, a steady decline in coupon rates throughout the period, and secondly, in the last four fiscal years, a decisive narrowing of the spread between the average rate on funded debt payable in domestic currency and that on total funded debt.

The first feature is epitomized by the fall of the average rate on total debt from 4·15 per cent as at March 31, 1935, to 2·55 per cent as at March 31, 1944—the domestic rate falling even more, from 4·23 per cent to 2·52 per cent. This fall is due only in part to more extensive use of short-term borrowings, for the last column shows that the effective rate on long-term issues (ten years or more) has also fallen sharply, if less than proportionally and also less

regularly; the Fifth Victory Loan long-term bonds yielded 3.00 per cent, the lowest of the period, compared with 3.81 per cent yielded by the Refunding Loan of 1934 though these issues were for terms almost identical in length.

<sup>2</sup> Years prior to 1938-39 have been adjusted to a basis comparable with that of later years by the omission of securities payable on demand from the totals shown in Appendix I to the Public Accounts for the respective years.

#### (d) Decrease in Cash Balances.

The Dominion's domestic cash balances fell by \$14.3 million during the year, so to this extent 1943-44 cash requirements were financed out of money accumulated in previous years. Incidentally, some explanation is in order for the fact that in Schedule A on page 14 of Part I a negative balance is shown for current deposits of cash in Canada, both as at March 31, 1944 and as at March 31, 1943. In point of fact the Dominion's accounts were never overdrawn. Payments made out of 1943-44 appropriations during the thirty days following the close of the fiscal year (March 31, 1944), as provided by subsection 1 of section 32 of the Consolidated Revenue and Audit Act, 1931, exceeded the balances on hand at the close of business on March 31, but April revenues and other receipts for the fiscal year 1944-45 were more than enough to cover the difference.

#### (e) The Cash Deficiency.

The cash deficiency—defined on page XLI as the excess of requirements over sources other than borrowing—was \$3,065.6 million in 1943-44, compared with the deficit of \$2,557.2 million. These figures are reconciled in Table XXVI, which also reconciles the corresponding figures in the preceding four fiscal years.

## I. INDIRECT OR CONTINGENT LIABILITIES: GUARANTEED OBLIGATIONS

This review would not be complete without a discussion of the indirect liabilities of the Dominion and the changes therein during the year under review. A footnote to the Balance Sheet calls attention to these indirect liabilities and they are listed in Schedule V, on pages 28-29 of Part I of this Report.

### (1) Guaranteed Securities of Government Owned Enterprises.

The total amount of securities of the Canadian National Railway System, guaranteed by the Dominion as to the payment of principal and interest, outstanding in the hands of the public was \$660 million as at March 31, 1944, a decrease during the year of \$16·1 million. Similar securities guaranteed by the Dominion as to the payment of interest only, were outstanding on the same date in the amount of \$9·1 million, a decrease of \$1·4 million. The former reduction is due mainly to the redemption on February 1, 1944, of \$15,500,000 Canadian National Railway Company 2½ per cent Bonds, out of the proceeds of a loan from the Government under the authority of the Canadian National Railways Refunding Act, 1938.

Other securities, representing obligations of the Canadian National (West Indies) Steamships Limited and various Harbour Commissions, which carry the guarantee of the Dominion, both as to principal and interest, were outstanding in the amount of \$30·4 million as at March 31, 1944. This represented a decrease of \$0·04 million during the year.

### (2) Guaranteed Bank Loans for Grain Marketing Purposes.

Under authority of Order in Council, wheat trading was suspended on September 27, 1943, the Canadian Wheat Board on behalf of His Majesty acquired all commercial stocks of western wheat in Canada at closing market prices of that day, and the initial price to producers on deliveries to the Board for the balance of the 1943-44 crop and for the whole of the crop year 1944-45 was fixed at \$1.25 for One Northern in store Fort William or Vancouver. The Board's operations in wheat were financed by loans from a group of chartered banks under guarantee of the Dominion Government. The amount of the guaranteed advances in respect of wheat outstanding as at March 31, 1944, which related to the purchase of the 1943 wheat crop, was \$22 million.

By Orders in Council passed in 1942 and 1943 the Canadian Wheat Board was empowered to deal in flaxseed, soybeans, oats and barley, sunflower and rape seed. In order to finance

these operations, guaranteed bank advances were obtained from certain chartered banks. The amounts of these guaranteed advances outstanding as at March 31, 1944, were as follows: in respect of flaxseed, \$15.0 million; and in respect of sunflower and rape seed, \$0.2 million.

### **(3) Guarantee of Seed Grain Loans.**

Under the terms of The Seed Grain Loans Guarantee Act, 1938, the Dominion provided seed grain assistance to farmers in the provinces of Saskatchewan and Alberta for the crop year 1938. This assistance took the form of a Dominion guarantee to chartered banks for loans made to municipalities which in the first instance were guaranteed by the Provincial Government. The principal amount authorized by the Act to be guaranteed by the Dominion was \$14,500,000 in the case of Saskatchewan, and \$1,900,000 in the case of Alberta. The Government of Alberta during the fiscal year 1941-42, paid to the interested banks all outstanding 1938 seed grain loans and accordingly the Dominion's liability with respect thereto was cancelled. In the case of Saskatchewan, a general guarantee was given for an amount not exceeding the maximum amount authorized. This guarantee was still outstanding at the end of the fiscal year, and the Dominion implemented its guarantee after the close of the fiscal year.

### **(4) Commitments in respect of National Housing Act Loans.**

Under the Dominion Housing Act, 1935, and its successor Act, the National Housing Act, 1938, the Dominion has accepted and is accepting certain obligations arising out of its contracts with approved lending institutions which, while not expressed in the form of a guarantee, may nevertheless be regarded as contingent or indirect liabilities.

The manner in which losses in respect of any loan are to be shared by the Dominion and the lending institution is fixed by the contract. The general principle is that the Dominion bears two-thirds of the loss, if at the time the loss is sustained the principal amount of the loan repaid, less any other amounts due, is equal to or less than the amount advanced by the Dominion and one-third of the loss if at the time the loss is sustained the principal amount repaid, less any other amounts due, is more than the amount advanced by the Dominion. In the case of small loans (that is, loans not in excess of \$4,000 in the case of a single family dwelling or not in excess of \$700 per habitable room in the case of a multiple family dwelling), the share of the loss to be borne by the Dominion is not more than 80 per cent and not less than 50 per cent of the loss. The above provisions apply to loans made under both the National Housing Act, and its predecessor Act, the Dominion Housing Act. Under the National Housing Act, a new provision was added to encourage the making of small loans in such small or remote communities and in such districts of other communities as may be designated by the Minister of Finance in any contract. In respect of such loans, the Dominion has agreed in contracts with certain lending institutions to pay losses sustained by any such lending institution up to certain amounts determined by the contract which are not less than 7 per cent and do not exceed 25 per cent of the total amount of such loans made in such areas by each such lending institution.

An amount of \$2,000,000 was appropriated for the fiscal year 1943-44, to provide for advances under the National Housing Act, not exceeding with the advance made jointly by the approved lending institution, \$3,200 in respect of any one house, for the construction of houses where the Minister was satisfied that permanent houses could be constructed to relieve a serious housing shortage without threatening to create a post-war surplus. Loans to the number of 20,831 have been approved at March 31, 1944, under the Dominion Housing Act, 1935, and the National Housing Act, 1938, in the amount of \$83,995,217. Losses recorded and paid to March 31, 1944, amounted to \$2,644.78, covering the Dominion's proportion of the loss on seven loans. This amount represents total losses to that date under both the Dominion Housing Act, 1935, and Part I of the National Housing Act, 1938. These losses are offset in part by a profit of \$497.74 realized by the sale of eleven properties. The net loss to March 31, 1944, is therefore only \$2,147.04.

### **(5) Guaranteed Home Improvement Loans.**

Under the terms of The Home Improvement Loans Guarantee Act, 1937, almost \$50 million (\$49,959,055.31, to be exact) had been loaned up to March 31, 1944, to home owners by chartered banks and other approved lending institutions. The contingent liability of the Dominion with respect to these loans was limited to 15 per cent of the aggregate of such loans made by each lending institution. As at October 30, 1940, after four years of operation, the \$50 million loan authorization having been substantially exhausted, the Government's undertaking to provide a guarantee for this type of loan was terminated. After this date, loans made by lending institutions were not accepted for guarantee by the Dominion. As at March 31, 1944,

98.4 per cent of the total amount of all loans made had been repaid and, as 1,224 claims for losses in the amount of \$446,234.17 had been paid up to March 31, 1944, of which \$39,779.67 (including \$9,060.58 interest) had been recovered, the contingent liability of the Government at the close of the fiscal year under review was the entire balance owing on all loans, i.e. \$811,652.26. It will be noted that the total of claims paid amounted to only 0.893 per cent of the total amount of loans made.

**(6) Guarantees of Bank Loans under Home Extension Plan.**

By the provisions of the Appropriation Act, No. 5, 1942, provision was made for the Governor General in Council to guarantee loans made by chartered banks for the conversion of already existing dwellings into multiple housing units under regulations similar to those under The Home Improvement Loans Guarantee Act. The maximum amount of loans which may be guaranteed is \$2 million, and the Government's guarantee is limited to fifteen per cent of the total amount of loans made.

As of March 31, 1944, 56 loans had been approved for a total amount of \$106,475.28 to provide for 109 new units. There have been no claims for losses.

**(7) Guarantees of Bank Loans by Commodity Prices Stabilization Corporation.**

Under the terms of an Order in Council dated February 16, 1943, the Commodity Prices Stabilization Corporation, a Government owned Corporation, was authorized to guarantee certain advances and interest thereon obtained by any person from a chartered bank in order to purchase, during the summer of 1943, coal, coke or briquettes for residential heating. The liability of the Corporation is limited to fifteen per cent of the aggregate amount of advances made by each bank, but the maximum amount of the guarantee is \$500,000. The amount of the contingent liability of the Corporation at March 31, 1944, was \$51,518.71, which includes a small amount relating to the purchase of coal in the summer of 1942.

Under the terms of an Order in Council dated August 11, 1943, the Commodity Prices Stabilization Corporation was authorized to guarantee certain advances, obtained by any person engaged in the production of logs or lumber, from any chartered bank. The liability of the Corporation is limited to twenty-five per cent of the aggregate amount of advances made by each bank. The amount of the contingent liability of the Corporation at March 31, 1944, was \$174,153.46.

**(8) Guarantees of Bank Loans and Bank Overdrafts to Finance Munitions Contracts.**

The Government guarantees the repayment of bank loans together with interest thereon obtained by certain contractors in connection with contracts placed by the Department of Munitions and Supply. As at March 31, 1944, the amount of such guaranteed bank loans authorized was \$8.4 million, and the amount actually outstanding was \$4.7 million.

Under the terms of an Order in Council dated May 4, 1943, the Government guarantees bank overdrafts obtained by certain Crown companies and management-fee companies doing business under the Department of Munitions and Supply. Prior to the establishment of this system of financing, funds advanced by the Government to the contractors remained idle for considerable periods. The amounts of the various overdrafts are repaid monthly, so no liability is outstanding at the close of the fiscal year in connection with this guarantee. The maximum amount of guarantees authorized at March 31, 1944, was \$190,985,000. Interest paid by the Government on these overdrafts for 1943-44 amounted to \$1,224,780.18.

**(9) Guarantee of Provincial Receipts from Gasoline Taxes under Dominion-Provincial Taxation Agreements.**

Under the terms of the Dominion-Provincial taxation agreements, and pursuant to Section 5 of the Dominion-Provincial Taxation Agreement Act, 1942, provision is made for the payment to each province of the amount by which the net receipts from the tax imposed by the Province on gasoline sales are less than the net receipts from this source during the fiscal year of the province ended nearest to December 31, 1940. The gasoline tax revenues that have been thus guaranteed aggregate \$56.7 million. Expenditure in fulfilment of this guarantee during 1943-44 amounted to \$11.8 million.

**(10) Total Guaranteed Obligations Outstanding as at March 31, 1944.**

For the details of the above and a number of other indirect or contingent liabilities, some of which are indeterminate as to amount, see Schedule V on pages 28-29 of Part I.

Total outstanding guarantees of the Dominion of Canada as at March 31, 1944, excluding amounts not yet determined or indeterminate, were as follows:—

	Millions of dollars
Railway and other securities in hands of public—	
Guaranteed as to principal and interest.....	\$ 690·3
Guaranteed as to interest only.....	9·1
Deposits maintained by the chartered banks in the Bank of Canada.....	359·2
Other guarantees (excluding amounts not yet determined or indeterminate).....	53·7
	<u>\$ 1,112·3</u>

In conclusion, may I express the hope that Ministers of the Crown, Members of Parliament, and the general public will find the additions and other changes in this fiscal year's Public Accounts helpful to them. As I indicated at the beginning, other improvements are under consideration; they may be expected in future reports.

Respectfully submitted,

W. C. CLARK,  
*Deputy Minister of Finance.*

## COMMENTS ON THE BALANCE SHEET

General—The following comments deal in the main with the broad categories of Assets and Liabilities. The individual accounts are dealt with throughout Part II under the various departments to which they relate. The distinction between "Active" and "Non-active" Assets is explained on Page XV of the Introduction. As also explained on Page XIII the balance sheet this year has been presented in a revised form by a re-grouping of items under new headings. The condensed cash statement and the schedules thereto included in previous Public Accounts have been replaced by extending the comparative feature of the Balance Sheet to the schedules.

## ASSETS

1. (a) Cash in Current Deposits represents balances at credit of the Receiver General of Canada in banks in Canada, London and New York as at the close of the relative fiscal years. Deposits held in London are converted at  $\$4.86\frac{2}{3}$  to the pound sterling and in New York at  $\$1$  Canadian to the U.S. dollar. The account in Schedule A shows a negative balance in total deposits in Canada. This is occasioned mainly by the revenues of the Dominion received after April 1st of each year being credited almost entirely to the new fiscal year while expenditures continued to be charged up to and including April 30th to the old fiscal year pursuant to Section 32 (1) of The Consolidated Revenue and Audit Act. At no time were the Dominion's bank accounts overdrawn.
1. (b) Special Deposits consist of cash balances in the hands of the fiscal agents of the Government for purchase or redemption of Dominion of Canada securities and for payment of interest.
2. Departmental Working Capital Advances constitute the advances outstanding at the close of the relative fiscal years for working funds of certain government departments and represent work in progress and the value of stock or material on hand as shown in detail in the Schedule.
3. (a) These amounts represent the net outstanding advances made to Railway and Steamship Companies for capital expenditures, purchase of railway equipment and for debt retirement. Interest in full is currently paid on that part that is by contract interest bearing.
3. (b) These are advances to enable the Foreign Exchange Control Board to finance the purchase of gold and foreign exchange. Interest is paid at the rate of 1 per cent per annum.
3. (c) These are net advances outstanding made to various government agencies of an independent or quasi-independent nature, for working capital, construction, etc. Included in this category are advances made under the War Appropriation Acts to Crown Companies and Crown Plants organized under the direction of the Department of Munitions and Supply and the Department of Finance.
3. (d) Under this heading there has been grouped loans to Provinces under Relief Acts and other legislation, and loans to Municipalities under the Municipal Improvement Assistance Act.
3. (e) This category combines advances made to allied countries under Section 3 of the War Appropriation Acts, the loan to the Government of the United Kingdom under the authority of the War Appropriation (United Kingdom Financing) Act, 1942, and certain loans made following the war of 1914-18. There is also included in this category an item of \$200,000,000 representing an adjusted liability of the United Kingdom to Canada in connection with the British Commonwealth Air Training Plan.
3. (f) This category comprises a number of miscellaneous loans and advances, such as those made under the Dominion and National Housing Acts and those made through the Department of Munitions and Supply to private companies under the authority of the War Appropriation Acts.
4. (a) This amount represents the cost of the Government's investment in the entire capital stock of the central bank of Canada acquired under the authority of The Bank of Canada Act Amendment Act, 1938.
4. (b) Under the Central Mortgage Bank Act, a Central Mortgage Bank was created with an authorized capital stock of \$10,000,000 all of which was subscribed for by the Dominion Government. The \$250,000 represents the amount of stock issued and paid for at the rate of \$2.50 in respect of each \$100 share. Due to the war the bank has remained inoperative.
4. (c) This account represents the principal outstanding of amounts furnished the Canadian Farm Loan Board to be loaned on farm property and fishermen's land. Interest in full is being currently paid by the Board on its bonds and on initial capital advances.
4. (d) The main item under the heading of Miscellaneous Investments is the securities investment account consisting chiefly of the cost of acquisition of Dominion Government direct and guaranteed securities, including victory bonds held under instalment purchase plans for civil servants and members of the armed forces.

5. In this account are recorded financial adjustments with some of the provinces at the time they entered the Dominion. Interest is paid half-yearly by the provinces.
6. This account consists of discounts, commissions, redemption bonuses and conversion premiums on loan flotations since 1930 remaining to be charged off annually to expenditures in proportion to the term of the respective loans. The amortization of these costs is shown in detail by loan issues in Appendix No. 2, page 40. The increase in the account of \$6,702,142.89 is due to new loan flotation costs to be amortized, less the annual write-off as follows:

New loan flotation costs to be amortized—

Fourth Victory Loan, 1943-46.....	\$ 988,209 41
1943-57.....	7,875,166 77
	<u>\$ 8,863,376 18</u>
Fifth Victory Loan, 1943-47.....	1,387,847 67
1943-59.....	7,104,459 83
	<u>\$ 8,492,307 50</u>
	<u>\$ 17,355,683 68</u>
Less—annual amortization charged to expenditure.....	10,661,399 87
	<u>\$ 6,694,283 81</u>
Plus net adjustments made after amortization had been established.....	7,859 08
	<u><u>\$ 6,702,142 89</u></u>

7. The accounts in this category cover items in which there are elements involving uncertainty as to accounting treatment or disposition. The accounts are cleared when the necessary information becomes available. The main items in this account are two contra accounts appearing in sections 10 and 13 included in the liabilities and are therefore merely book-keeping entries.
- \* The revised balance sheet for 1943-44 reflects the usual annual increase of \$25,000,000 in the reserve account set up for possible losses on ultimate realization of active assets. Previously this reserve was intended to apply to active loans and advances. The change this year was made to enlarge the coverage to make the reserve generally applicable in respect of possible losses on the whole range of active assets.
8. The net debt of the Dominion is divided to show expenditures that have been charged in the Dominion's books to (a) Non-active Assets, and those charged to (b) Consolidated Deficit Account. All expenditures charged to non-active assets classified as between "Capital" and "Other", are shown in schedules K and L to the Balance Sheet. Changes in these accounts may be readily ascertained by referring to the last column in the said schedules.

The Consolidated Deficit Account (formerly designated the Consolidated Fund) is the account to which the excess of expenditures over revenues or revenues over expenditures is transferred annually exclusive of capital expenditure and other non-active accounts mentioned in the preceding paragraph and included in Schedules K and L. The excess of expenditures over revenues during 1943-44 carried to Consolidated Deficit Account was \$2,517,483,800.78. This amount added to the net increase in expenditures on capital and other non-active accounts of \$39,751,991.09 gives the total deficit or increase in the net debt for the year of \$2,557,235,791.87.

## LIABILITIES

9. This category covers obligations that are payable on demand. Generally, the creditors are in possession of some form of the Dominion's negotiable paper that is due and payable forthwith.
10. (a) Deposits in the Post Office Savings Bank during 1943-44 exceeded the withdrawals by \$3,412,560.09. An amount of \$500,000 representing the estimated accrued interest at the rate of 2 per cent per annum was added, bringing the total amount at credit of depositors' accounts on March 31, 1944 to \$28,286,551.57. Gold held on March 31, 1944, as required by Section 47 of the Savings Bank Act amounted to \$2,828,655.16 valued on the basis of \$20-671834 per ounce fine.
10. (b) An amount equal to five per cent of their average outstanding note circulation is maintained by each chartered bank with the Receiver General of Canada, as required by section 64 of the Bank Act, 1934, to secure redemption of their outstanding notes in the event of the suspension by a bank of payment in specie or Bank of Canada notes. The amount is adjusted annually on June 30th and interest at the rate of three per cent per annum is allowed to each bank on the deposit required.
10. (c) The accounts in this category represent the Dominion's liability for monies deposited for various purposes. They fall into two broad classes. The first of these are the deposit accounts which cover those cases where the government: (a) acts as custodian of funds as a matter of policy; or (b) has received the monies in prepayment of war supplies, or as a guarantee that work will be properly performed. The other class, comprising the large majority of the accounts, consists of those where the government acts virtually as trustee, administering the funds in accordance with the purposes for which they were created.
11. (a) The value of all outstanding annuities at March 31, 1944, stood at \$213,561,537.00. Interest credited to the fund at the rate of four per cent per annum amounted to \$7,802,408.56 for 1943-44, and the amount credited to the fund to maintain the reserve during the year was \$32,180.49.
11. (b) and (c) These categories record the Dominion's liability as an insurer of certain persons and as administrator of certain pension funds. The government receives premiums or similar assessments, and in turn pays out specific benefits. There is also included the uninvested portion of the Unemployment Insurance Fund administered by The Unemployment Insurance Commission.
12. This category, Deferred Credits, comprises certain departmental credit balances where accounting treatment is known but which are held for final disposition pending completion of certain conditions.
13. The accounts in this category cover items in which there are elements involving uncertainty as to accounting treatment or disposition. The accounts are cleared when the necessary information becomes available.
14. This account represents the difference, with subsequent adjustments, between the actual and the established debt of the provinces on entering the Dominion. Interest is paid to the provinces half-yearly on their relative debt allowance.
15. (a) The reserve account for losses on wheat marketing guarantees, first established in 1940-41, was reduced during 1943-44 by \$2,970,769.57. This adjustment was occasioned by a further improvement in the Canadian Wheat Board's balance sheet based on calculations made as at July 31, 1943.
15. (b) This reserve account, more fully dealt with under the Department of Munitions and Supply, Part II, Page K-70 was set up for the adjustment of interim billings and for unascertained losses and other contingencies of certain crown companies.
16. Obligations both due and outstanding payable in sterling and U.S. dollars are recorded in the balance sheet at par of exchange. Similarly on the asset side of the balance sheet, as previously mentioned, cash and special deposits held in London and New York are shown at \$4.86% to the pound sterling and \$1 to the U.S. dollar.

Details of the unmatured funded debt of Canada may be found on page 27. The increase during 1943-44 of \$2,950,999,826.05 is accounted for as follows:

NOTE.—The above table is based on the classification of accounts for the fiscal year 1935-36. In that year the following expenditures formerly classified as Special Expenditures were charged to Ordinary Expenditures: Cost of Loan Flotations, Adjustment of War Claims, Expenditures under Railway Grade Crossing Act, Government contribution to Superannuation Fund and payment required to maintain reserve in Government Annuities Fund. A new category of expenditures entitled Government Owned Enterprises was also set up to include operating deficits of and non-active advances to Government Enterprises operated as separate corporations. To enable comparisons to be made on a comparable basis with earlier years, appropriate adjustments have been made, for the purpose of this table, in the figures shown under the various headings beginning with the fiscal year 1929-30.

It will be noted that total disbursements include non-active loans and write-down of assets, in addition to all other expenditures.

† Includes \$25,000,000 as reserve against possible losses on assets.

PUBLIC ACCOUNTS

Part II

OFFICE OF THE  
COMPTROLLER OF THE TREASURY

OTTAWA, January 6, 1945.

Dr. W. C. CLARK,  
Deputy Minister,  
Department of Finance,  
OTTAWA.

SIR,—I have the honour to submit to you Part II of the Public Accounts of the Dominion of Canada for the fiscal year ended March 31, 1944.

The series of accounts designated in the 1943 Report as Trust and Special accounts has been included this year under the title of Open Accounts. This nomenclature is considered descriptive of the accounts concerned and is more readily understood than the former title. Both titles cover the same accounts, i.e. asset and liability accounts which remain open at the close of the fiscal year.

This year a statement of accounts receivable is included in each departmental section. Each statement shows the amount of outstanding accounts for the current year and for previous years, with the latter divided to show the amount considered to be uncollectable.

Studies are continuing with the view to including other statements which, like the foregoing, may be said to have the effect of enhancing the informative value of the Report.

During the year a defalcation was discovered in our office for the Department of National War Services and the Assistant to the Treasury Officer was convicted of converting government funds to his own use by theft and conversion. The amount involved was \$6,698.51. This will be subject to some reduction by reason of recoveries made after the accounts for the year were closed.

Respectfully submitted,

B. G. McINTYRE,  
*Comptroller of the Treasury.*

The above departmental totals represent the cumulative War expenditures after applying (a) refunds of Previous Years' War Expenditures received to the close of 1943-44, (b) items classified as War Revenues in 1940-41 and 1941-42, and (c) items classified as Miscellaneous War Revenues and Sale of Surplus War Assets in 1943-44. They do not include outstanding loans and advances made under authority of the various War Appropriation Acts and the War Appropriation (United Kingdom Financing) Act, 1942, to Government-owned companies, private companies and Allied Governments.

A distribution by projects of the amount shown for each department precedes the details of War expenditures in each departmental section hereof. Details of previous years' expenditures and credits by fiscal years will be found in the Annual Reports of the Auditor General for 1940 to 1942 inclusive, and in Public Accounts, 1943.

## Details

## Ordinary Revenue—

A Return on Investments: Miscellaneous interest charges on sales of land under the Prairie Farm Rehabilitation Act.....	1,158 77
B Privileges, Licences and Permits: Registration and licence fees, \$45,540.58, were collected under authority of various Acts administered by the Department. Rentals from employees occupying dwellings on Experimental Farms, \$30,758.40; rentals of irrigated lands, \$1,077.46, community pasture fees, \$110,871.29, water charges, \$10,079.22, hay permits, \$846.50, and grazing fees, \$70, are charges levied under authority of the Prairie Farm Rehabilitation Act.....	199,243 45
C Proceeds from Sales: Experimental Farms live stock and produce, \$327,681.43, land, \$973.50; live stock originally purchased under policies administered by the Production Service, \$33,891.08; live stock and produce under the Prairie Farm Rehabilitation Act, \$21,336.55; irrigated land, \$6,164.62; other live stock and produce, \$5,623.24; salvaged material, \$2,033.33; tags and labels, \$824.03; miscellaneous, \$5,815.60, of which amount \$5,000 is the first instalment on the sale of the Experimental Farm Station at Rosthern, Sask. (P.C. 5/7263 of Sept. 17, 1943).....	404,343 38
D Services and Service Fees: Race Track Supervision—difference between receipts and expenses, \$3,320.26; inspection fees, \$229,659.22; fumigation fees, \$1,201.38; record of performance fees, \$25,612.38; grain cleaning, \$4,523.61; rental of equipment, \$2,404.76; breeding fees, \$1,091.58; labour charges, \$251.62.....	268,064 81

Race Track Supervision: Section 235 of the Criminal Code provides for the appointment by the Minister of Agriculture of an officer to approve of the type of pari-mutuel machines used, to supervise the operations of the machines, and to enforce the provisions of the Code relating to race-track betting; the expense incident to such supervision to be borne by the sponsoring racing association. Expenses are provided for by daily fees levied against race-track meetings. From the revenue so obtained, costs of supervision are paid. In the Province of Quebec civilian supervisors are employed, while in other provinces officers of the Royal Canadian Mounted Police perform this function. Payments to the Royal Canadian Mounted Police, with the exception of out-of-pocket expenses arising in connection with this activity, are deposited to the Royal Canadian Mounted Police Benefit Fund under authority of the Royal Canadian Mounted Police Act.

Inspection Fees: Fruit car grading and inspection fees are collected under authority of the Fruit, Vegetables and Honey Act; egg inspection fees, dressed poultry inspection fees, fur grading and inspection fees, under the Live Stock and Live Stock Products Act; field inspection fees, seed testing and inspection fees, etc., under the Seeds Act. Inspections are required to be made under the Animal Contagious Diseases Act and the Meat and Canned Foods Act.

Fumigation Fees: All charges in connection with the treatment of nursery stock entering Canada, which is found to be infected, are recovered from the importer under authority of the Destructive Insect and Pest Act. Under the Animal Contagious Diseases Act, merchandise imported in hay, straw, or other raw product of the soil must be disinfected before entry. When fumigated at a Canadian fumigation station, fees are collected by ministerial authority.

Record of Performance Fees: Under regulations issued by the Department, tests are conducted to determine the butter fat content of milk and the total milk production of individual pure-bred cows; an annual fee of \$5 per herd is charged. Regulations also exist governing the recording of egg production under the supervision of departmental officers; fees are levied according to the number of birds entered under the plan.

E Premium, Discount and Exchange.....	42 63
F Refunds of Expenditure.....	/ 5,255 66
This item includes \$2,557.07 representing receipts from sale of 236 hog scales purchased under authority of P.C. 5/2814 of April 7, 1943.	
G Miscellaneous: Fines and forfeitures, \$1,916.80; livery charges, \$9,180.17; sundries, \$270.28.....	11,367 25
Fines and forfeitures consist of penalties imposed for infractions of various acts administered by the Department. Livery charges represent refunds from the several provinces to cover transportation costs of veterinary inspectors engaged in bovine tuberculosis tests.	

Total Ordinary .....	889,475 95
----------------------	------------

The annual contributions agreed upon by the 1936 conference expired with the fiscal year ended March 31, 1942. The conference recommended that, should it be proved impracticable to assemble the next conference before the autumn of 1941, the existing scale of contributions would be maintained, pending the calling of a conference when circumstances permit. The payments, therefore, represent Canada's usual contributions as follows: Farnham House Laboratory, £1,250; Imperial Agricultural Bureaux, £3,875, plus £656 additional for potato research; Imperial Bureau of Entomology, £1,100; Imperial Bureau of Mycology, £600.

The difference between the amounts voted and those expended is due to the fact that the Estimates were based on the par rate of exchange, viz. \$4.86½. The official rate is \$4.47.

Wages of labourers and casual employees amounted to \$5,144.25.

D Payments amounting to \$13,702.62 were made to the Canadian Fairbanks-Morse Co. Limited, for 1,220 hog scales to be re-sold to producers of hogs, at cost, by authority of P.C. 1444 of February 27, 1941, and P.C. 5/2814 of April 7, 1943. Proceeds from sales amounting to \$13,507.52 were credited to this allotment.

H Consists of the following groups of payments:—

Horse Breeders' Clubs, \$25,280.19 (Manitoba, \$6,069.53; Saskatchewan, \$14,993.51; Alberta, \$4,217.15). The Department pays 75 cents for every mare bred plus 25 per cent of the service fee on such mares as prove to be in foal, plus \$1 for each registered pure bred mare in foal.

Premiums to owners of pure bred stallions, \$35,642.25 (Nova Scotia, \$870; Prince Edward Island, \$821.25; New Brunswick, \$1,372.50; Quebec, \$25,998; Ontario, \$5,815.50; British Columbia, \$765). These premiums, which are shared jointly with the provinces, are based on the class of stallion and the number of mares left in foal, according to a schedule for each province, prepared by a Dominion-Provincial Board. The amounts shown represent the Dominion's share.

Grants to Horse Breeding Stations, \$3,309.25. A proprietor of a Breeding Station must own or control three or more stallions. The basis of the grant is \$187.50 per stallion.

Premiums under the Ram Club Policy, \$4,252.25. Under this policy, ram clubs deposit with the Department stated amounts for rams. The Department purchases the animals and absorbs the differences in costs. Purchases amounted to \$11,046.25, deposits, \$6,794.

Club Work (Prize Money, etc.), \$20,451.58 (shared jointly with the provinces)—Calf Feeding Competitions, \$12,412.64; Boys' and Girls' Swine Clubs, \$1,268.01; Poultry Fairs, Sheep Fairs, Boys' and Girls' Lamb Clubs, Bacon Litter Competitions, etc., \$6,770.93.

Many departmental live stock policies entail payments in the nature of grants to clubs and the absorption of losses in free or partially free distribution of live stock. All are made on ministerial authority from the primary allotment included in the vote and approved by Parliament for this class of assistance.

J Represents payments for the purchase of live stock and expenses of distribution under the following policies:

Sire Loan Policy, \$44,509.59 (bulls, \$40,026.70; rams, \$25; boars, \$2,777.66; miscellaneous expenses, \$1,680.23).

Sow Distribution Policy, \$8,934.75. Payments for purchase of sows and expenses of distribution amounted to \$36,723.09; receipts from sales amounted to \$27,788.34 and were credited to this allotment.

Surplus Boar Policy, \$332.60. Payments for purchase of boars amounted to \$2,844.85; receipts from sales amounted to \$2,512.25.

N The following employees, whose salary rates were under \$2,400 on that date, received travelling expenses in excess of \$300: S. Bergey, \$697.63; W. A. Blackburn, \$1,559.02; J. R. Subsidies for cold storages are paid on the following basis:—

- On completion of building, 15 per cent of the amount expended in construction, refrigeration, etc.;
- At the end of the first year thereafter, 7 per cent of the said amount;
- At the end of the second year thereafter, 4 per cent of the said amount;
- At the end of the two next succeeding years, 2 per cent of the said amount.

Trenton Cold Storage Limited and F. W. Fearman Co., Limited, did not proceed with their construction programs.

The sums allotted for Winnipeg Cold Storage Co., Limited, Elgin Growers Co-operative, Municipal Abattoir and Public Cold Storage and Westbank Co-operative Growers have been re-voted for 1944-45.

Grants: Payments under this heading are made in instalments as in the case of subsidies. The companies listed did not conform at the outset with the provisions of the Cold Storage Act, therefore payment by way of grant was authorized by the Appropriation Act.

#### Prairie Farm Assistance Act, c. 50, 1939—Amount transferred to meet the deficit in the

Prairie Farm Emergency Fund.....\$2,577,647 17

The above transfer was necessitated because the levy on grain (\$3,580,616.09) plus refunds (\$13,387.53) was insufficient to meet expenditures, a distribution of which by provinces and crop years follows:

Crop Year	Manitoba	Saskatchewan	Alberta	Total

In the year 1942, crop conditions were so generally satisfactory that no payments were made under the Act.

The amount of the above vote was not subdivided in the Estimates; the allotments were authorized by Treasury Board.

Under the Act, authority for appointments and rates of pay are vested in the Governor in Council.

As of March 31, 1944, there were 31 salaried employees paid from this account. The following were receiving salaries at an annual rate of \$2,400, or over, exclusive of cost of living bonus on that date or at date of separation (shown in brackets): W. C. Barrie, \$3,200; E. L. Gray, \$4,500 (to Vote 29, Feb. 1); R. F. McGregor, \$4,500; J. C. Riddell, \$3,200.

I Details of these expenditures are included with those under Vote 31 as the major portion was chargeable thereto, due to the interlocking nature of the administration of this Act with the Wheat Acreage Reduction Program.

The amount of the above vote, \$32,081,000, was not subdivided in the Estimates; the allotments were authorized by the Treasury Board.

The Wheat Acreage Reduction Act, c. 10, 1942, as amended, superseded the Regulations formerly employed as authority for this program which was designed to encourage a reduction in the number of acres sown to wheat in the Prairie Provinces and to compensate farmers who effected such reduction.

Appointments and remuneration of administrative and technical officers and employees receive the approval of the Governor in Council; field, clerical or other assistance may be engaged by the Minister, but at rates of pay approved by the Governor in Council.

As of March 31, 1944, there were 162 salaried employees paid from this account. No employee was receiving an annual salary of \$2,400 or over on that date. In addition to the salaried employees, payments to whom totalled \$229,910.83, fieldmen and office assistants received wages amounting to \$263,506.31; the sum of \$70,445.19 representing cost of living bonus payments is included in these figures.

F Represents payments, authorized by the Governor in Council, to rural municipalities for assistance rendered in connection with the handling of application forms.

G This item represents office rental paid through the Department of Public Works.

J The following employees, whose salary rates were under \$2,400 on that date, or whose salaries were paid from other accounts, received travelling expenses in excess of \$300: J. W. K The bases of payments are:

- (1) \$2 per acre for each acre by which the wheat acreage in 1943 was less than that for the basic year 1940; on farms that had no wheat in 1940 the basic year used was 1939;
- (2) \$2 per acre for each acre by which the wheat acreage in 1942 was less than that for the basic year 1940;
- (3) \$2 per acre authorized by the 1941 Regulations in respect of wheat acreage reduction in 1941 lands seeded to grass or rye in 1941 and which were still in grass or rye on July 1, 1942.

Due to heavy fall rains and late harvest, it was not possible for some farmers to file their claims in time for a fall inspection in 1943. Largely as a result of this, 13,108 claims in the area had not been finally disposed of at the end of the fiscal year.

A summary of the payments made during the year follows:—

**Vote 32 Assistance to encourage the Improvement of Cheese and Cheese Factories**

	Allotments	Expenditures
A Subsidies for Factory Improvement.....	275,000 00	116,460 55
B Premiums on High Quality Cheese.....	1,600,000 00	1,482,408 71
	<u>\$1,875,000 00</u>	<u>\$1,598,869 26</u>

The amount of the above vote, \$1,875,000, was not subdivided in the Estimates; the allotments were authorized by Treasury Board.

Payments under this vote are authorized by the Cheese and Cheese Factory Improvement Act, c. 13, 1939.

A Payments to the extent of 50 per cent of expenditures were made as follows: Amalgamation and construction of new factories, \$86,124.51; enlarging, insulating and/or refrigerating existing factories, \$29,619.72; standardization of cheese presses, \$716.32.

The following is a distribution of expenditures by provinces, the number of participating factories being shown in brackets:

Amalgamation and new construction: Ontario (1), \$11,662.10; Quebec (11), \$74,462.41.

Enlarging, insulating and/or refrigerating: Ontario (11), \$7,480.17; Quebec (28), \$18,277.90; supplementary payments for 1942-43, not included in the foregoing, amounted to \$3,861.65 (Ontario \$315.45; Quebec \$3,546.20).

<b>Allotment: Special Products Board Administration.....</b>	<b>40,590 00</b>
<b>Expenditures.....</b>	<b>\$ 39,577 37</b>

---

P.C. 2520 dated April 15, 1941, authorized the establishment of the Special Products Board to obtain and export to the British Ministry of Food any agricultural product with the exception of bacon and dairy products.

As of March 31, 1944, there were 15 employees paid from this account. The following was receiving a salary at an annual rate of \$2,400 or over, on that date: J. Tucker, \$3,000, war duties supplement, \$300.

Total salaries paid amounted to \$16,567.24 (including cost of living bonus, \$1,757.37); sundry expenses, \$23,010.13.

Travelling expenses in excess of \$300 were paid to: J. A. Dumaine, \$1,051.29; D. A. Fletcher, \$751.80; J. F. Haggerty, \$859.01; W. E. Haverstock, \$702.73; C. K. Johns, \$719.37; R. E. Nicoll, \$953.78; J. Tucker, \$468.89; C. Whiteford, \$1,151.50.

<b>Allotment:</b> To increase income of farmers in the Spring Wheat Area of Western Canada	20,000 00
<b>Expenditures</b> .....	\$ 18,849 89

---

In view of the prospective inadequacy of returns from wheat and other grains produced in the spring wheat area of Western Canada in the crop year 1941, the Prairie Farm Income Plan was put into effect to augment the income of farmers by approximately \$20,000,000.

Regulations governing the distribution of these funds were established by P.C. 8126 dated October 22, 1941, wherein provision was made for the payment of seventy-five cents per acre on one-half of the cultivated acreage of each farm with a maximum payment of \$150 per farm, the crop yield having no bearing on the award.

Expenditures for the year covered outstanding claims relating to the 1941 crop year and were distributed by provinces as follows:—

	No. of Claims	Amount
Manitoba .....	7	758 48
Alberta .....	75	7,650 15
Saskatchewan .....	101	10,441 26
	<u>183</u>	<u>\$ 18,849 89</u>

The regulations further provide that the administrative work in connection with this plan be carried out by the organization established for Prairie Farm Assistance and Wheat Acreage Reduction and that all administrative expenses be paid out of moneys provided for one or both of these activities.

A This account is for the purpose of recording the transactions of the Superintendent of Farnham House Laboratory (a scientific institution with headquarters in England), who was transferred to Canada for the duration of the war to continue his work on the biological control of harmful insects.

The organization is supported by annual contributions from several Empire countries, including Canada (see Vote 4), and from this fund expenses are met.

B Under Section 16 of the Public Works Act, contractors are required to furnish security for the satisfactory performance of the work. This security may be in the form of cash (accepted cheque) or specified bonds. Cash deposits are credited to this account and bear interest at the rate of 2 per cent per annum compounded annually. Upon administrative certification, releases are made to contractors. Bonds furnished as security are held in the custody of the Minister of Finance but are not recorded in this account. At the close of 1943-44, there were no bonds held in respect of this Department.

C The Prairie Farm Assistance Act, c. 50, 1939, provides for a levy of one per cent to be deducted by all licensed purchasers of grain, the amount so deducted to be transferred to the Board of Grain Commissioners for deposit in a special account known as the Prairie Farm Emergency Fund. Awards are made under the provisions of the Act to farmers in the spring wheat area and are payable from this fund; if, at any time, the fund is insufficient to pay these awards, the Act provides that the Minister of Finance, with the approval of the Governor in Council, may make an advance to the fund of the amount required to meet the deficit. An amount of \$2,577,647.17 was transferred this year, see page A-31.

A All cheques, except those drawn against Open Accounts, which remain undelivered after six months subsequent to date of issue are credited to this account. The above balance represents the liability of this department at the close of 1943-44.

B A shipment of Australian butter en route to the British Ministry of Food was landed at Halifax, Nova Scotia, and is being sold by the Dairy Products Board to the British West Indies as export quotas permit. This amount covers receipts from sales. When the transaction is complete, the amount collected, less expenses, will be refunded to the Ministry of Food.

C Under authority of Section 4 (1) of The War Appropriation (United Nations Mutual Aid) Act, c. 17, 1943, funds were made available to the Department as from July 1, 1943, by the Canadian Mutual Aid Board to cover expenditures incurred in supplying meat, cheese, eggs, dehydrated vegetables, fruit and seeds to the United Nations (other than Canada). Of advances totalling \$163,759,500, an amount of \$157,111,385.48, consisting of \$116,783,440.08 from Mutual Aid funds and \$40,327,945.40 cash provided by the United Kingdom, was expended for this purpose and the balance refunded to the Board at the close of the fiscal year. Further details are shown under the Canadian Mutual Aid Board section of this Report.

## Ordinary Revenue—

A Chartered Banks—Note Circulation Tax.....	457,639 00
---	------------

The Chartered Banks Note Circulation Tax is collected under the authority of Part I of the Special War Revenue Act, c. 179, R.S. and amendments, at the rate of one-fourth of one per cent upon the average quarterly amount of the notes in circulation of each bank less adjustment for notes in circulation outside of Canada.

B Insurance Companies—Tax on Net Premiums.....	6,480,701 55
<p>Part III of the Special War Revenue Act, c. 179, R.S., as amended, levies a tax on net insurance premiums received by companies authorized under the laws of the Dominion or any Province thereof of (a) 2 per cent on net premiums of companies, other than a mutual company, not carrying on the business of life insurance; an exchange, or an association of persons formed on the plan known as Lloyds; (b) 3 per cent on net premiums received by every association of persons formed on the plan known as Lloyds, and every mutual company not carrying on the business of life insurance and not carrying on business on the premium deposit plan; (c) 4 per cent upon net premiums received by every mutual company carrying on insurance business on the premium deposit plan and by every exchange. The tax does not apply to marine insurance. Under the same authority, a tax of 10 per cent is levied on net premiums paid by any resident of Canada for insurance on property with companies not authorized under the laws of the Dominion or any Province thereof. For the fiscal year 1943-44, taxes on premiums of licensed companies amounted to \$6,467,076.14, and taxes on unauthorized insurance to \$13,625.41.</p>

**Payment of Dominion's share of Pensions—Old Age Pensions Act, c. 156, R.S. . . . . \$30,377,467 87**

Under the provisions of the Old Age Pensions Act, c. 156, R.S., and amendments, the Governor in Council may enter into an agreement with the government of any province for quarterly payment to such province of an amount equal to 75 per cent of the net sum paid out during the preceding quarter by such province for old age pensions and pensions to the blind pursuant to a provincial statute providing for payment of such pensions. The maximum pension is \$240 yearly, and the Dominion has the right to audit provincial pension accounts. Under the terms of P.C. 6367 dated August 10, 1943, the Governor in Council further authorized the Minister of Finance to enter into supplementary agreements with the governments of the several provinces for increasing payments to pensioners to meet wartime conditions. A special supplement not to exceed \$5 monthly was agreed upon of which the Dominion Government's share would be 75 per cent. A sum of \$3,500,000 was allotted from the War Appropriation to meet these increased payments, and expenditures of \$3,062,154.37 were made therefrom.

Details of expenditure, including the sum expended from the War Appropriation allotment are shown in the following table:

**Vote 53 Government's contribution to the Superannuation Fund..... 2,300,000 00**  
**Expenditures.....\$2,298,594 43**

Regulations approved by P.C. 45/1147, June 16, 1927, pursuant to the Civil Service Superannuation Act, 1924, provide that the contribution by the Government to the Superannuation Fund shall be equal to the amount contributed by employees under the Act. The sum of \$2,298,594.43 is equal to the net current contributions to the fund by such employees in the fiscal year 1942-43.

---

**Vote 54 To provide for retiring allowances to former employees of the Department of Public Printing and Stationery..... 1,800 00**  
**Expenditures.....\$ 1,107 96**

Expenditures are payments of retiring allowances under P.C. 2146, October 22, 1919, to a number of former employees of the Department of Public Printing and Stationery, such allowances being graded according to age, length of service and salary received. No further retirements may be authorized under the above Order in Council.

---

**Vote 462 To provide that certain ineligible employees, designated by the Governor in Council, who have contributed in error to the Superannuation Fund, for periods in excess of five years, may, notwithstanding anything contained in the Civil Service Superannuation Act, be deemed to be, or to have been contributors thereunder and that such employees or their dependents may be granted the allowances, gratuities or other benefits provided in the said Act, and such grant to such dependents may be made, notwithstanding the death of the employee before the date hereof.....\$ 1 00**  
**Expenditures..... nil**

**Superannuation allowances—Civil Service Superannuation and Retirement Act, c. 17, R.S. 1906 .....\$ 123,398 62**

This represents superannuation allowances paid to civil servants appointed prior to April 1, 1893, and retired under the provisions of the above Act. Payments to those appointed after April 1, 1893, and eligible for superannuation under the above Act, are made from the Open Account bearing the same title (see page CC—60).

**Retirement allowances—Public Service Retirement Act, c. 67, 1920.....\$ 144,268 66**

Under authority of this Act, provision was made for the retirement and payment of allowances, under stipulated conditions, to certain members of the Public Service who were not eligible for annual retiring allowances under the Superannuation and Retirement Act, c. 17, R.S. 1906. Retirements were all effected prior to November 1, 1924, on which date the retirement provisions of the Act expired (c. 69, 1924).

**Widows' Annuities—Civil Servants' Widows' Annuities Act, c. 74, 1927.....\$ 76,852 60**

This Act provides that the Governor in Council may grant to a widow an annual allowance, payable until death or remarriage, of an amount equal to one-fourth of the allowance her husband received under the Superannuation and Retirement Act, c. 17, R.S. 1906, or would have received if, at the time of his death, he had been retired under the Act.

**Gratuities to families of deceased employees—Civil Service Act, c. 22, R.S. ....\$ 2,740 00**

#### PUBLIC DEBT CHARGES

**Interest on Public Debt—Consolidated Revenue and Audit Act, c. 27, 1931.....\$242,681,180 44**

Details of this expenditure are shown in Appendix No. 2 to this Section, page CC—68.

**Annual Amortization of Bond Discount, Premiums and Commissions—Consolidated Revenue and Audit Act, c. 27, 1931.....\$10,661,399 87**

This amount is the proportion of bond discount, premiums and commissions on loans issued since 1930 applicable to the fiscal year 1943-44, and was credited to Deferred Charges—Unamortized Discounts and Commissions on Loans Account which is shown under Open Accounts further on in this section. Details, by loans, of the amount amortized will be found in Part I of this Report (pages 5 and 40).

**Servicing of Public Debt—Redemption and Transfer of Bonds—Consolidated Revenue and Audit Act, c. 27, 1931.....\$ 41,048 41**

Details of these expenditures will be found in Appendix No. 3 to this section, page CC—72.

J	Treasury Bills .....	713 75
		<b>\$8,624,002 25</b>

Administration and promotion expenses in connection with the flotation of various Victory Loans and sales of War Savings Certificates and stamps were incurred by the National War Finance Committee, the establishment of which was approved by P.C. 45, January 7, 1942, as amended. A detailed breakdown of these expenses will be found in Appendix No. 4 to this section, page CC-73.

Additional expenditures on account of the Third, Fourth and Fifth Victory Loans totalling \$17,363,542.76, were charged to Deferred Charges—Unamortized discounts and commissions on loans (see under Open Accounts further on in this section) to be written off annually over the life of the loans. Of the total, \$5,057,017.39 was paid to canvassers for commissions on bonds sold to persons who were not (a) included on a special names list, (b) classified under "employee subscriptions" or (c) members of the Armed Forces; \$6,827,325 to dealers and brokers, and \$5,234,724.86 to Banks, Trust and Loan Companies as authorized by P.C. 2768, April 6, 1943, and P.C. 8792, November 16, 1943. The balance of \$244,475.51 was the cost of the premium allowed on conversions.

An amount of \$69,912.52, representing profits on the Bond Trading Account was credited against the above expenditures for the Fourth and Fifth Loans.

E At the close of the fiscal year, only a small portion of the expenses in connection with the Sixth Victory Loan had been paid.

\* Balance of payment.

Under the provisions of The Dominion-Provincial Taxation Agreement, 1942, c. 13, 1942-43, the Minister of Finance, with the approval of the Governor in Council, may enter into an agreement with the government of any of the provinces of Canada to provide, subject to terms and conditions, that the province and its municipalities shall cease to levy personal income and corporation taxes for the duration of the war and for a certain readjustment period thereafter, and to provide for the payment of compensation by the Dominion to the province therefor. Section 5 of the Act provides, subject to terms and conditions, for compensation to the provinces by the Dominion for loss of revenue re tax on sale of gasoline. The annual Dominion compensation for corporation, income and gasoline taxes is computed on a basic year being, in the case of each province or municipality concerned, the fiscal year ending nearest to December 31, 1940.

This vote was provided for the expenses of administering the Tariff Board Act, c. 55, 1931, under which, in respect of goods produced in or imported into Canada, inquiries into costs of raw materials, production, transportation, labour and prices are made and findings reported to the Minister of Finance. The Act also empowers the Board to hear and give decisions on appeals from tariff rulings of the Department of National Revenue. The Dominion Trade and Industry Commission Act, c. 59, 1935 provides for the establishment of commodity standards and investigation into complaints respecting unfair trade practices.

As of March 31, 1944, there were 15 employees paid from this account. The following were receiving salaries at an annual rate of \$2,400 or over, exclusive of cost of living bonus, on that date: H. B. McKinnon, Chairman, \$12,000; R. Cousineau, \$3,000; J. C. Leslie, \$2,940; J. R. MacGregor, \$6,000; P. G. Turner, \$4,500.

As of March 31, 1944, there were 3 employees being paid war duties supplements, including the following whose salary is detailed above: P. G. Turner, \$900 per annum.

Annuity payments totalling \$2,499.96 were made from this account to M. N. Campbell, former Vice-Chairman, as authorized by P.C. 13/1280, Feb. 17, 1943.

Wartime conditions caused an influx of population into certain urban areas, thereby creating an acute shortage of housing accommodation. The above allotments were authorized to provide funds to alleviate this condition by the conversion of certain suitable large dwellings located in these areas into multiple housing units.

All properties were leased for a period of five years, with the Minister of Finance having the privilege of renewing the lease for a further three-year period or of terminating the lease on 30 days' notice. Maximum monthly rental paid for any building acquired for conversion was limited to one per cent of the appraised value of the property before conversion plus one-twelfth of the increase in annual municipal real estate taxes occasioned by the conversion of the said property. The dwelling units created by conversion were sublet by the Minister to suitable tenants, on one year leases subject to termination by the Minister on 30 days' notice. Rentals were set by officials of the Wartime Prices and Trade Board. Rentals totalling \$27,149.80 were deposited to Special Receipts—Miscellaneous War Revenues.

- A P.C. 2641 of April 1, 1943, authorized the Minister of Finance to acquire by lease, not more than ten suitable dwelling buildings located in the Ottawa district, for purpose of subdivision, and to enter into contracts for the rebuilding, remodelling, reconditioning, converting, changing and altering of the same. Expenditures were restricted to \$1,500 per dwelling unit produced by such conversion, and the total liability of the Crown under all contracts was not to exceed \$50,000. P.C. 4579 of June 4, 1943, authorized the further acquisition of forty dwellings and a further expenditure not to exceed \$200,000 for their conversion. P.C. 6812 of August 30, 1943, authorized a further expenditure of \$250,000 on fifty additional dwellings to be acquired. P.C. 9381 of December 7, 1943, authorized the Minister to acquire additional dwellings and to spend a further sum not to exceed \$500,000 on their conversion.
- B P.C. 4579 of June 4, 1943, authorized the Minister of Finance to acquire fifty suitable dwelling buildings in the Victoria and Vancouver districts and to spend, for their conversion into multiple housing units, a sum not exceeding \$250,000. The cost of conversion per unit produced was restricted to \$1,500. P.C. 7889 of October 12, 1943, authorized the Minister to acquire 50 additional properties in these districts and to spend a sum not in excess of \$250,000 on their conversion. P.C. 8305 of October 26, 1943, authorized the Minister to acquire 100 additional properties in these districts and to spend a sum not in excess of \$500,000 on their conversion.
- C P.C. 4892 of June 17, 1943, authorized 50 conversions in the Toronto district and limited total expenditure to \$250,000. P.C. 524 of January 28, 1944, authorized the acquisition of additional properties in this district and the expenditure of a further sum of \$500,000 for conversion.
- D P.C. 6812 of August 30, 1943, authorized 50 conversions in the Hamilton, St. Catharines and Brantford Districts, restricting total expenditures to \$250,000. P.C. 9015 of November 23, 1943, extended these districts to include the city of Galt.
- E P.C. 6812 of August 30, 1943, authorized conversions in the Montreal and Quebec districts limiting total expenditures to \$500,000. P.C. 259 of January 24, 1944, authorized further conversions with a maximum expenditure of a further \$500,000.
- F P.C. 9015 of November 23, 1943, authorized expenditure of \$250,000 for conversion in the Kingston and Trenton districts.
- G P.C. 7324 of September 20, 1943, authorized an expenditure of \$250,000 for conversion in the Sarnia and Windsor districts. These districts were extended to include the city of London by P.C. 9015 of November 23, 1943.
- H I P.C. 7324 of September 20, 1943, authorized conversions in the Halifax, Moncton and Saint John districts to the extent of \$250,000, and also in the Edmonton and Calgary districts to the extent of \$250,000, but no expenditures were made in either of these districts during the fiscal year.
- J T.251204 B. of October 7, 1943, authorized an allotment of \$12,500 to provide for the taking over of the James Bay Hotel, Victoria, B.C., as a clearing house for those in need of temporary shelter until other living accommodation could be found in the community. No expenditures were made during the fiscal year.

As of March 31, 1944, there were 79 employees paid from this account. The following were receiving salaries at an annual rate of \$2,400 or over, exclusive of cost of living bonus, on that date. The travelling expenses of these employees where the amount was in excess of \$300 are also shown:

The Wartime Prices and Trade Board was constituted by P.C. 2516, September 3, 1939, under authority of the War Measures Act of 1914 "to provide safeguards under war conditions against any undue enhancement in the prices of food, fuel and other necessities of life, and to ensure an adequate supply and equitable distribution of such commodities." From September 3, 1939, to December 1, 1941, the Board's activities were confined to selective controls of supplies and prices. The overall price ceiling became effective December 1, 1941, under authority of P.C. 8527, November 1, 1941, establishing the "Maximum Prices Regulations", and the powers of the Board to administer the ceiling were broadened by P.C. 8528, November 1, 1941. The "Maximum Rentals Regulations" were authorized by P.C. 8965, and the "Wartime Leasehold Regulations" by P.C. 9029, both dated November 21, 1941. The terms of the "Maximum Prices Regulations" stipulate that the highest price at which any person may sell any goods, or services defined in the regulations, is the highest lawful price at which he sold those goods or services during what is known as the "basic period"—September 15 to October 11, 1941—unless the Wartime Prices and Trade Board has ordered otherwise. To maintain equitable and orderly distribution, of goods in short supply, the Board has issued a number of orders to regulate distribution, and administers coupon rationing of various food items. To assist the Board in controlling prices and maintaining supply, four companies, wholly owned by the Crown, have been incorporated: Commodity Prices Stabilization Corporation Limited, Wartime Food Corporation Limited, Canadian Wool Board Limited and Wartime Salvage Limited. Assistance is given through payment of subsidies, modification or remission of duties and taxes, and government bulk purchasing when the "squeeze" cannot be absorbed or offset by trade and industry.

As of March 31, 1944, there were 5,030 employees paid from this account. The following were receiving salaries at an annual rate of \$2,400 or over, exclusive of cost of living bonus, on that date or at date of separation (shown in brackets). P.C. 9870, December 17, 1941, as amended by P.C. 5863, July 7, 1942, authorized the Minister of Finance to cause the incorporation and organization of the Commodity Prices Stabilization Corporation Limited as a Crown company under the Companies Act 1934, and to execute an agreement with the Corporation authorizing it to perform such duties and to enter into such transactions as the Minister or the Wartime Prices and Trade Board may authorize or direct it to perform for the purpose of assisting the Wartime Prices and Trade Board in controlling prices and maintaining supply of food, fuel and other necessities of life by the payment of subsidies and bulk purchasing in accordance with principles formulated by the Wartime Prices and Trade Board and approved by the Minister. Under the same authority, the Corporation was empowered to carry on its duties and responsibilities through the incorporation and organization of subsidiary companies, and under this provision a subsidiary, Wartime Food Corporation Limited, was established. The Order in Council authorized the Minister, with the approval of Treasury Board, to advance funds for administrative and other expenses of the Corporation. The advances are recorded in Loans and Advances (shown under Open Accounts further on in this section); expenses of the Corporation are met from these advances and, periodically throughout the year, the account is credited and the War allotment debited with such expenses. The advances in the present fiscal year amounted to \$80,000,000 (of which \$79,900,000 was advanced to Commodity Prices Stabilization Corporation, Ltd., and \$100,000 to Wartime Food Corporation, Ltd.) while the expenditure charged to War allotment totalled \$81,519,323.04. The difference was charged to the advances outstanding as at March 31, 1943, which balance was reduced accordingly. The expenditures were as follows:

P.C. 1853, March 10, 1942, authorized the Minister of Finance to cause the incorporation and organization of the Canadian Wool Board Limited as a Crown company under the provisions of the Companies Act, 1934, and to execute an agreement with the company authorizing it to perform such duties and to enter into such transactions as the Minister or the Wartime Prices and Trade Board may authorize or direct it to perform with respect to the acquisition, conservation and distribution of domestic and foreign wool and related products as may be deemed necessary. Under the same authority the Minister may, with the approval of the Treasury Board, advance funds for administrative and other expenses of the company. The advances are recorded under Loans and Advances further on in this section; expenses are met from these advances and periodically throughout the year the account is credited and the War allotment debited with such expenses. In 1942-43 \$10,000,000 was advanced of which \$9,965,753.33 remained as a debit balance in the advance account while the sum of \$34,246.67 was charged to the War allotment. In the present fiscal year, a further \$14,000,000 was advanced of which \$221,296.11 was charged to expenditures and \$13,778,703.89 to advances, increasing the outstanding advances to \$23,744,457.22.

The balance sheet as at March 31, 1944 and operating statements for the present fiscal year as furnished and certified by the Auditor General will be found in Appendix 6 to this section, page CC—80.

<b>Allotment: Payment of freight on steel scrap shipped from British Columbia to Sault Ste. Marie, Ont., and consigned to the Algoma Steel Corporation.....</b>	<b>29,393 49</b>
<b>Expenditures.....</b>	<b>\$ 29,393 49</b>

Expenditures are payments of 1942-43 accounts as authorized by P.C. 5649, June 30, 1942, to the Algoma Steel Corporation covering the difference between cost of freight on shipments of steel scrap from British Columbia to Sault Ste. Marie, Ont., and the cost on shipments from sources in Northern Michigan which were cut off as the steel scrap was required by the United States War Production Board.

<b>Allotment: Payments to millers and other manufacturers of wheat products for human consumption to enable them to sell at prices not in excess of the maximum prices during the basic period September 15 to October 11, 1941.....</b>	<b>20,500,000 00</b>
<b>Expenditures.....</b>	<b>\$20,500,000 00</b>

In the fiscal year 1942-43, advances totalling \$3,000,000 were made to the Canadian Wheat Board to cover payments to manufacturers of flour and other human foods containing wheat, to enable them to sell at prices not in excess of the maximum prices charged by them during the period September 15 to October 11, 1941. These payments were authorized by P.C. 9457, October 16, 1942, and were in respect of sales and deliveries in Canada during the crop year 1942-43.

P.C. 6602 of August 19, 1943, directs that such payments be continued during the crop year 1943-44 subject to certain alterations in procedure. Further advances totalling \$20,500,000, to provide for such payments were made during the present fiscal year.

In connection with the total advances of \$23,500,000, an accounting has been received in the form of statements certified by the Comptroller of the Canadian Wheat Board listing net payments totalling \$19,957,016.74 to March 31, 1944.

Cash in current deposits represents the total of the balances at credit of the Receiver General of Canada in the several banks in Canada, London and New York at the close of the relative fiscal years. The negative year end balance in Canada is due mainly to the revenues of the Dominion received during April being credited almost entirely to the new fiscal year while expenditures continued to be charged to the old fiscal year up to and including April 30 pursuant to Section 32 (1) of the Consolidated Revenue and Audit Act. The account was not overdrawn at any time.

Cash in special deposits consists of balances in the hands of fiscal agents of the Government for the purchase or redemption of bonds and the payment of interest on the public debt, etc.

A This account relates to the transactions in gold at the Dominion of Canada Assay Office in Vancouver. Gold deposits which include the silver content of the deposits are purchased from mining companies and individuals for shipment to the Royal Canadian Mint, this account being debited with the value of the former transactions and credited with the value of the latter. The closing balance represents the statutory value of the gold, including that of the silver content, on hand in the Dominion Assay Office on that date.

B The amount shown as receipts is from the transfer of gold bullion to the Bank of Canada and sales of fine gold to the public, while disbursements represent payments made by the Royal Canadian Mint for newly-mined gold, old jewellery, dental scrap, etc. The closing balance represents the statutory value equivalent to \$20.67+ the ounce fine of the gold on hand at that date, the net operating profit for the year having been transferred to Revenue—Bullion and Coinage.

C Receipts in these accounts represent the face value of all coin issued to the Bank of Canada and in the case of the Silver Purchase Account, the sale of fine silver to the public. Disbursements are the value of all metals purchased for coinage purposes as well as the net value of mutilated coin withdrawn from circulation. The closing balances represent the cost value of the metals on hand at that date, the net operating profit for the year having been transferred to Revenue—Bullion and Coinage.

- A The closing balance represents the net advances made to this Board under the provisions of the Exchange Fund Order, 1940, and Section 3 of the War Appropriation Acts of 1941 and 1942, to provide capital to carry on its foreign exchange transactions. Disbursements are additional advances. Interest due to November 1, 1943, at 1 per cent per annum, and amounting to \$3,466,986.30 was received and credited to Revenue—Return on Investments.
- B Under authority of P.C. 1835, March 10, 1942, this Government-owned company was incorporated under the Companies Act for the purpose of buying and selling foreign and domestic wools, fabrics, fibres and commodities. The agreement with the company provides that the Minister of Finance is to advance \$10,000,000 and further advances are made as required under authority of the War Appropriation Act. Administrative expenses and losses in trading are charged to the War Appropriation and credited to the advances made. The balance in this account at the end of the fiscal year is the amount of advances to be accounted for by the Company.
- C Under authority of P.C. 9870, December 17, 1941, this Government-owned corporation was incorporated under the Companies Act and placed under the control of the Wartime Prices and Trade Board. The Corporation buys and sells commodities and subsidizes firms and individuals for the purpose of controlling the prices of goods, ware and merchandise in Canada, and in this connection, the Minister of Finance is authorized to advance \$10,000,000, further advances being obtained as required under authority of the War Appropriation Act. Each month an adjustment is made, crediting this account and charging the War Appropriation with the subsidies paid, losses on commodity trading and administrative expenses. The balance at the end of the fiscal year in this account and that of its subsidiary, Wartime Food Corporation Limited, is the amount of advances to be accounted for by the respective Corporations.
- D Under authority of P.C. 2530, March 30, 1942, this Government-owned company was incorporated under the Companies Act and operates under the direction of the Wartime Prices and Trade Board. The Company buys, processes, stores and sells goods such as waste paper, metal, etc., and, in this connection, the Minister of Finance is authorized to advance \$5,000,000, further advances being obtained as required under authority of the War Appropriation Act. An adjustment is made monthly by charging the War Appropriation and crediting this account with operating deficits and administrative expenses. The balance in this account at the end of the fiscal year is the amount of advances to be accounted for by the company.
- E This loan, which was renewed under authority of P.C. 9049 of November 25, 1943, for a period of 1 year from September 1, 1943, was reduced during the year by a repayment of \$50,000. Interest at 3 per cent per annum amounting to \$11,303.28 was received and credited to Revenue—Return on Investments.
- F No further loans were made to the provinces during the year for unemployment or agricultural assistance. Repayments as shown were received from the Provinces of Manitoba and Saskatchewan while the receipts and disbursements in the case of Alberta represent renewals of \$26,033,500 and repayments of \$26,500. The Province of British Columbia repaid \$89,810.05 and the renewals totalled \$34,571,712.45. Interest amounting to \$2,773,603.06 was received and credited to Revenue—Return on Investments.
- G Housing loans made to the province during the years 1919 to 1924 under the authority of P.C. 2997 of December 3, 1918, and amendments, have been repaid in full. Interest at 5 per cent amounting to \$925 was credited to Revenue—Return on Investments.
- H The loan of \$57,600 to the Province of Saskatchewan authorized by P.C. 4891 of September 17, 1940, to enable the Saskatchewan Power Commission to extend its power and light system to the Bombing and Gunnery School at Dafoe, Saskatchewan, bears interest at 3½ per cent and is repayable in thirty half-yearly instalments, beginning May 15, 1941. Repayment of principal totalling \$3,840 was received during the year while interest amounting to \$1,713.60 was credited to Revenue—Return on Investments.
- I Advances were made by the Dominion Government to the Province of Saskatchewan for the purchase of seed grain. The receipts represent repayments, while the balance is the amount of principal outstanding at the close of the year.

- J The disbursements represent advances on loans authorized in previous fiscal years under authority of the Municipal Improvements Assistance Act, c. 33, 1938, while the receipts represent repayments. No further loans were authorized during the fiscal year. Interest at a rate of 2 per cent, amounting to \$113,950.13, was credited to Revenue—Return on Investments.
- K No payments of principal or interest were received during the year on account of advances made to the Governments of Greece and Roumania in 1919-20 and 1920-21.
- L Under authority of Section 3 of the War Appropriation Act, 1942, and pursuant to an agreement between Canada and the Union of Soviet Socialist Republics approved by P.C. 7822 of September 1, 1942, a credit of \$10,000,000 was established for the purchase by Russia of Canadian wheat and flour and advances of \$917,159.16 were made under this authority in 1942-43. Further advances totalling \$9,082,840.84, being the balance of the credit, were made during the year. Interest at 3 per cent per annum amounting to \$21,264.68 was credited to Revenue—Return on Investments.
- M Under authority of the War Appropriation (United Kingdom Financing) Act, 1942, sterling balances held by Canada in an amount equivalent to \$700,000,000 at the exchange rate of \$4.45 to the pound sterling were converted into a Canadian dollar obligation of the Government of the United Kingdom which, under the provisions of the Act, is non-interest-bearing until after the termination of the war. Receipts in this account represent repayments during the present fiscal year.
- N This account was for the purpose of recording the purchase of \$5,000 Fourth Victory Loan Bonds, to be sold to government officials, etc., in the Northwest Territories and northern Quebec. Bonds for the full amount advanced were sold, the amount of \$63.81, being profit on bond sales, was credited to Revenue—Miscellaneous.
- O This is a non-interest-bearing account maintained by the Dominion under the terms of the agreements providing for the establishment of the bank. The deposit was made in 1930-31.
- P Disbursements are the Dominion's share of loans made under the National Housing Act, c. 49, 1938 and Vote 409 which provided for further advances not exceeding \$2,000,000. An amount of \$88,027 was advanced under the statutory authority and \$833,703 under that of the Vote. Receipts are repayments of such loans as well as those previously made under the Dominion Housing Act, c. 58, 1935. There were no losses reported in the present fiscal year.
- Q This amount represents advances to the New Westminster Harbour Commission to assist in the construction and for other purposes connected with the development of the harbour. While these advances are interest-bearing, no interest has been received since July 1, 1941.
- R The amount in this account represents advances to the Saint John Bridge and Railway Extension Company, for the construction of a bridge and rail connections at Saint John, N.B., as authorized by Chapter 26 of the Statutes of 1883. The liability was subsequently assumed by the Canadian Pacific Railway Company. Interest at 4 per cent is received annually and credited to Revenue—Return on Investments.

- A Bank of Canada Capital Stock represents the investment of the Government as the sole owner of the capital stock of the bank which was acquired under authority of the Bank of Canada Act Amendment Act, c. 42, 1938. Of this amount, \$5,000,000 represents the par value of 100,000 shares of capital stock, and the balance of \$920,000 premium paid in respect of the acquisition in 1938 of shares held by the public. Amounts of \$225,000 from dividends and \$14,117,830.91 being the Government's share of the net surplus for the year, were credited to Revenue—Return on Investments.

- B This account represents the investment of the Dominion Government in the Central Mortgage Bank. Under the provision of Section 13 of the Central Mortgage Bank Act, 1939, the Minister of Finance was empowered to subscribe for one hundred thousand shares of the capital stock of the bank at par at such times and in such amounts as the Governor in Council might determine. P.C. 1984 of July 27, 1939, authorized the payment by the Minister of two dollars and fifty cents in respect of each one hundred dollar share. Due to the state of war and to the uncertainties regarding the effects which the war might have on its proposed business, the bank remained inoperative during 1943. The net surplus for the calendar year 1943 consisting of earnings on the investment of the capital subscriptions, less expenses incurred, amounted to \$3,863.38 and was credited to Revenue—Return on Investments.
- C No advances were made to the Canadian Farm Loan Board during the year and amounts totalling \$5,004,592 were credited to these accounts. Capital stock amounting to \$4,592 was written off to Consolidated Deficit Account leaving a debit balance of \$2,244,816 in the capital stock subscription account on March 31, 1944. Canadian Farm Loan Board bonds amounting to \$5,000,000 were redeemed during the year. Interest amounting to \$1,091,208.90 was received during the year and credited to Revenue—Return on Investments. Of the total, \$175,000 represented interest on initial capital advances and \$916,208.90 interest at 3½ per cent on Farm Loan Bonds. Initial capital advances were free of interest for a period of three years.
- No advances for initial capital or subscriptions for capital stock were made during the year under authority of the Canadian Fisherman's Loan Act, c. 52, 1935. Interest of \$725 was received on Initial Capital Advances and credited to Revenue—Return on Investments.
- D The amount represents the balance still owing by various municipalities for sums advanced from the Treasury of the United Provinces of Upper and Lower Canada, for the purpose of building toll roads in the vicinity of Montreal. Interest at the rate of 6 per cent is received annually and credited to Revenue—Return on Investments.
- E This account reflects the operations in securities investments and consists mainly of Dominion of Canada direct and guaranteed securities.

- A This account represents the liability of the Bank of Montreal for the redemption of provincial notes stolen from its branch at St. Catharines in 1869, at the time the Bank was agent for the issue and redemption of these notes for the Receiver General. The original liability was \$46,000. As the stolen notes are presented for payment, the Minister of Finance redeems them at face value and is recouped by the Bank.
- B This account records the sale of United States and sterling funds to the Canadian National Railways. The Government is reimbursed monthly.
- C Amount representing the difference between overpayments and underpayments to banks by the Cheque Adjustment Branch during the fiscal year 1942-43 which was transferred to this account under authority of T.258139 B. of April 29, 1944.
- D The entries in this account represent, at statutory values, the receipt and sale of gold by the Bank of Canada acting as fiscal agent of the Dominion.
- F This account records the sale of United States funds to the National Harbours Board (to be used for the redemption of certain interest coupons), and the repayment by the Board to the Dominion.
- G The debits in this account represent the purchase of securities, at the prices at which they were vested by the United Kingdom. Clearance was subsequently made to the proper accounts.
- H This amount represents overpayments from the Retirement Fund, which were made to individuals for the period up to and including March 31, 1944, and was transferred to this account under authority of T.261765 B. of April 29, 1944.
- I The cost of repatriated securities purchased was charged to this account. Clearance was subsequently made to the Securities Investment Account or the accounts of the Canadian National Railways under Loans and Advances (see Department of Transport Section of this Report).
- J After the books for the respective loans were closed, unpaid instalments were charged to these accounts which were cleared as payments were received.
- K This amount was originally credited to War Donations Suspense and subsequently transferred to Special Receipts—War donations. The donor later requested that this contribution be used for the purchase of Victory Bonds and War Savings Certificates rather than as a donation to help win the war. The amount debited in the above account represents the release for this purpose, and the account will be closed out by transfer of a similar amount from a vote which is to be provided in the Supplementary Estimates.
- L Payments to the Bank of Canada to cover cheques which have been received for the purchase of War Savings Certificates and found non-negotiable are debited to this account. It is credited with the amounts involved should such cheques subsequently be made negotiable, or if it becomes necessary to cancel the relative certificates.

A The Bank Circulation Redemption Fund consists of amounts deposited with the Minister of Finance by the chartered banks to secure the redemption of their outstanding notes, as required by Section 64 of the Bank Act, 1934. Interest at 3 per cent amounting to \$118,510.44 was allowed on the required deposit of each bank and was charged to Interest on Public Debt.

B Under Section 16 of the Public Works Act, contractors are required to furnish security for the satisfactory performance of the work. This security may be in the form of cash (accepted cheque) or specified bonds. Cash deposits are credited to this account and bear interest at the rate of 2 per cent per annum compounded annually. Upon administrative certification, releases are made to contractors. Bonds furnished as security are held in the custody of the Minister of Finance but are not recorded, in this account. At the close of 1943-44, there were no bonds held in respect of the Housing Administration.

E These accounts reflect the balances of amounts remitted by the liquidators of certain defunct trust and insurance companies and represent unclaimed dividends due the ordinary creditors. No claims were presented during the present fiscal year.

F These accounts reflect the balances of amounts remitted by the liquidators of defunct banks to redeem bank notes still in circulation and unclaimed dividends of the bank assets due the depositors. The current disbursements cover payment for notes presented for redemption during the year.

G The credit balances of these accounts represent the amounts deposited with the Government to meet matured bonds and interest coupons which for the convenience of investors have been made payable at the offices of the Assistant Receivers General (and now at the agencies of the Bank of Canada). The receipts represent cash received from the Canadian National Railways while the disbursements were for interest coupons redeemed by the Bank of Canada.

H The fund represents the proceeds from the sale of lands set apart under 12 Vic., 1849, Chapter 200, for the support and maintenance of common schools in Upper and Lower Canada, now Ontario and Quebec. Income from the sales is apportioned to the two provinces on the basis of population. Interest, apportioned on the same basis as the proceeds, is paid semi-annually to the above-named provinces at the rate of 5 per cent per annum and is charged to Interest on Public Debt.

I This account was established under authority of P.C. 144 of January 18, 1936, by which the amount to be paid into Consolidated Revenue Fund is limited to \$500,000, made up of a Government grant of \$100,000 and deposits by the Trustees of public contributions. Interest on this fund, at 3 per cent per annum, is paid to the Trustees and charged to Interest on Public Debt under the above-mentioned authority. The receipt of \$17,000 in the present fiscal year represents a deposit by the Trustees.

J This represents the unexpended balance of amount received from the liquidators of the Home Bank and the Commissioner under the Home Bank Creditors Relief Account, to provide for outstanding relief cheques, and to pay any claims of depositors which should have been, but were not, dealt with by the Commissioner.

K The balance in this account represents declared but unpaid dividends of estates, paid to the Receiver General in accordance with the provisions of the Bankruptcy Act.

L This is the balance of a bequest made by the late William Scott, for the benefit of soldiers who served in the 1914-18 war. Payments are made on the application of the Canadian Pension Commission.

A The Civil Service Insurance Fund increased by \$953,789.15 during the fiscal year. Receipts consisted of premium revenue amounting to \$365,880.99 and interest of \$963,434.61. Disbursements included payment of death benefits, \$347,573.46, payment of cash surrender values, \$26,736.79 and refund of overpaid premiums, \$1,216.20.

B Receipts credited to this fund during the year consisted of premiums, at the rate of 20 cents per \$100 of coverage, amounting to \$60,678.75 and interest at 2½ per cent, \$6,929.20. Disbursements were made to various departments to cover defalcation amounting to \$5,644.85, and \$95.45 refund of overpayment of premiums.

C This account is credited with premiums received under the General War Risk Insurance Scheme (War Risk Insurance Act, 1942); the disbursements consist of compensation, indemnities, administration expenses and refund of overpayments of premiums.

D P.C. 2/8917 of September 30, 1942, authorizes that, under the War Risk Insurance Act, c. 35, 1942, and the War Measures Act, c. 206, R.S. 1927, the property of His Majesty in right of the Dominion of Canada be insured against war damage. The receipts represent premiums. Should damages arise, the cost will be charged to this account.

E No contributions are now being made under the Civil Service Superannuation and Retirement Act, c. 17, R.S. 1906. Superannuation allowances paid during the year to civil servants appointed after April 1, 1893, and retired under the provisions of the above Act amounted to \$23,603.29. Payments to those appointed prior to April 1, 1893, are charged to expenditures (see page CC-14).

F The balance at the credit of the Civil Service Superannuation Act, 1924 (Fund No. 5), increased by \$1,937,296.33 during the fiscal year. The amount contributed by employees was \$2,879,288.10, that by the Government, \$2,298,594.43, and interest amounting to \$2,547,203.87 was added. Superannuation payments amounted to \$5,543,290.93, gratuities to \$34,343.16 and withdrawal allowances to \$210,155.98.

G The balance at the credit of the Civil Service Retirement Fund increased by \$3,342,189.34. Receipts consisted of abatements from salaries amounting to \$4,706,878.51 and interest of \$646,874.94; disbursements were lump sum payments on retirement or death of contributors and certain adjustments.

A The will of the late Ernest Davis, who died on May 12, 1936, provided that the residue of his estate should be paid to the Dominion Government. Receipts during the fiscal year represent further proceeds from this estate. When it is finally wound up, the amount will be transferred to Revenue.

B Accrued interest collected from those purchasing bonds after the issue date is credited to these accounts and, on first due date, is transferred to Interest on Public Debt.

C To this account are credited the income tax deductions from employees paid through the Central Pay Office; such deductions are subsequently paid to the Department of National Revenue.

D Deductions from the salaries and wages of Dominion Government employees paid through Central Pay Office are deposited in this account pending payment to the Unemployment Insurance Commission.

E Deductions from the salaries of employees of the Commission are deposited in this account and cheques are drawn against it in favour of the Bank of Canada as the certificates become fully paid. The balance represents the incomplete subscriptions at the close of 1943-44.

F Deductions from the salaries of Dominion Government employees paid by Central Pay Office are deposited in this account and cheques are drawn against it in favour of the Bank of Canada as the certificates become fully paid. The balance represents the incomplete subscriptions at the close of 1943-44.

G These accounts were established to record instalment purchases of Victory Loan bonds by employees of the Dominion Government, Crown corporations and other government agencies. Receipts are the instalments, while disbursements are payments to the Bank of Canada for bonds fully subscribed. The closing balances represent incomplete subscriptions.

A Transactions in this account relate to charges in connection with the transfer and exchange of bonds. Receipts consist of fees, while disbursements are for the printing of replacement bonds. The amount received during the year in excess of the expenses was \$9,855.66 which was transferred to Revenue—Services and Service Fees.

B This credit represents the balance of the proceeds from the liquidation of the assets of this Association which was wound up in the fiscal year 1887-88. As no claims have been received, it is the intention to transfer the amount to revenue in 1944-45.

C The amounts of remittances which are not immediately classifiable are credited to this account. Upon receipt of the necessary information, clearance is made to the proper accounts.

D Donations received from various sources and designated as non-war contributions are credited to this account and, at the close of the fiscal year, the balance is transferred to Revenue—Special Receipts.

E The amount in this account is an interim payment from the George Mayo estate which was bequeathed to the Government as a contribution toward the war effort. When the will has been probated, the net proceeds of the estate will be transferred to Revenue—War donations.

F Unclaimed matured bonds which cannot be delivered are cancelled and the value, including that of any interest coupons, is credited to this account. Disbursements are made to the owners of such bonds upon application.

G To this account are credited the amounts collected by payroll deductions in connection with two housing loans. This money is being held pending a decision as to its disposal.

H This is a bond trading account in connection with the furtherance of the sale of Victory Loan bonds generally.

I Obligations payable in other than Canadian currency, such as those portions of the Funded and Floating Debt payable in London and New York are recorded in the Balance Sheet at par of exchange. Similarly assets held in London and New York such as cash, special deposits, and security investments are shown at \$4.86½ to the pound sterling and \$1 to the American dollar. In all other transactions the current

market values are used, and the difference is adjusted by charging or crediting this account as required; and, at the close of the year, the excess of receipts over disbursements is transferred to Revenue—Premium, Discount and Exchange.

The following table shows the transactions, apart from certain adjusting entries, in this account for 1943-44:

Revenue—	
Discount on sterling funds purchased.....	26,791,234 51
Premium received on gold and on United States funds sold.....	115,489,670 08
	<hr/> 142,280,904 59
Expenditure—	
Discount on sterling funds sold.....	28,657,863 89
Premium paid on gold and on United States funds purchased.....	111,469,004 10
Premium paid on Dominion of Canada sterling securities redeemed—	
2½ 1947 stock at 100·20%.....	157 57
	<hr/> 140,127,025 56
Net Revenue .....	<hr/> <hr/> \$ 2,153,879 03

In the applicable Revenue sections hereof, under Premium, Discount and Exchange, the above net total is reported by Departments as follows: Agriculture, \$42.63; External Affairs, \$275.50; Finance, \$2,143,145.36; Fisheries, \$1.77; Labour, \$2.35; Legislation, 71 cents; Mines and Resources, \$123.25; National Defence—Army, \$15.58, Navy, \$232.99, Air, \$466.62; National Revenue, \$151.29; National War Services, \$7,649.92; Pensions and National Health, \$22.53; Privy Council, 65 cents; Public Works, 10 cents; Secretary of State, \$1,592.31; Trade and Commerce, \$118.47; Transport, \$37.

J Amounts deducted from the payments for gold deposited with the Royal Canadian Mint and the Dominion of Canada Assay Office, Vancouver, to cover the costs of packing, insurance, express, etc., on shipments of fine gold out of Canada, are credited to this account, while certain of the actual expenses are debited hereto. For this fiscal year, the total deductions exceeded the expenses charged to this account by \$1,191,617.90 which was transferred to Revenue—Bullion and Coinage account.

K The receipts in this account represent payment by the Government of Newfoundland of brokerage charges on coinage minted for it by the Dominion. The disbursements constitute payment by the Dominion to the brokerage firm concerned.

L A subsidiary of Cash Suspense, dealing with funds relating to salvage and operated separately for accounting convenience.

M Amount received from the Registrar, British Columbia Admiralty District which had been on deposit in his account for more than twenty years. Payment will be made if a valid claim for the money should be submitted.

N All cheques, except those drawn against Open Accounts, which remain undelivered after six months subsequent to the date of issue are credited to these accounts. The balances represent the liability in respect of this Department at the close of 1943-44.

O The chartered banks of Canada submit semi-annually to this department lists of outstanding drafts and receipts on Government Account. Certain of these drafts and receipts are credited to this account pending information as to the department or service concerned. Clearance is made upon receipt of such information.

P To this account is credited the value of War Savings Certificates and Stamps which are returned to the Bank of Canada, War Savings Division, for various reasons. When owners are located or identified, disbursements are made.

Q This represents undelivered cheques issued in favour of canvassers for the 1917, 1918 and 1919 Victory Loans. Full particulars of these cheques are on file in the Finance Department. There have been no claims made for the moneys represented by the balance of this account since March 31, 1924.

R This account has to do with incomplete subscriptions to the 1917, 1918 or 1919 Victory Loans. On November 29, 1930, the Governor in Council approved the principle of refunding, on application by the subscriber, the amount of any instalment paid. The closing balance represents the total amount of unclaimed instalments.

S These accounts are similar in purpose to the one described in "R" above.

T To this account are credited donations towards the Canadian war effort. At the close of the fiscal year, the credit balance is transferred to Special Receipts.

B Reserve for possible losses on ultimate realization of active assets.....	\$ 75,000,000 00	\$ 25,000,000 00		\$100,000,000 00

A This reserve is to cover losses in connection with the wheat marketing operations of the Canadian Wheat Board. The amount of \$2,970,769.57 represents a reduction in the reserve, a corresponding credit being shown in Revenue—Special Receipts and Other Credits. The action results from an improvement in the balance sheet position based on operations of the Board calculated as at July 31, 1942 and 1943.

B In previous years this reserve was applied to the category of active loans and advances. This year, it was considered desirable to enlarge the scope of the coverage so as to make the reserve generally applicable in respect of possible losses on the whole range of active assets.

**Appendix No. 6****GOVERNMENT-OWNED COMPANIES**

Government-owned companies formed in connection with the work of the Wartime Prices and Trade Board are:

The Canadian Wool Board Ltd.;  
The Commodity Prices Stabilization Corporation Ltd., (with a subsidiary:  
Wartime Food Corporation Ltd.); and  
Wartime Salvage Ltd.

They were all incorporated under Part I of the Companies Act, 1934, as companies with share capital. The only shares issued—other than in the name of the Minister (of Finance) in trust for His Majesty the King in right of Canada—are directors' qualifying shares, all directors having made assignments in blank of such qualifying shares.

Agreements between the Minister and each of these companies provide, in substance, for:—(1) the performance by the company of such transactions as may be delegated to it by the Minister or the Wartime Prices and Trade Board; (2) the setting up of branch offices or the incorporation and organization of subsidiary companies; (3) the keeping of proper accounts of operations and the rendering of financial statements for each monthly period and for the fiscal year; (4) the Minister to be kept advised of the principles followed in the operation of the business; (5) express consent in writing of the Minister to be obtained for operations other than those necessary or incidental to the carrying out of the agreements; (6) amendments or supplements to the agreements to be approved by the Minister.

The Commodity Prices Stabilization Corporation Ltd., has to do with the control of prices of goods, wares and merchandise in Canada, and the payment of subventions, subsidies, bonuses, etc., in accordance with principles formulated by the Wartime Prices and Trade Board and approved by the Minister. The Canadian Wool Board Ltd. was formed to regulate the acquisition, conservation and distribution of domestic and foreign wool and related products, and to increase the production of wool in Canada by assuring sheep growers a stable market at known prices for all production of wool during the present war and one producing year thereafter. Wartime Salvage Ltd. was organized for the purpose, in co-operation with Dominion Government departments and agencies, of acquiring and disposing of waste or used matter of all kinds. It operates independently of salvage work conducted by the Army Salvage and Disposal Board, the Scrap Disposal Branch (Department of Munitions and Supply), the Salvage Officer (Treasury), and the National War Services Department.

Round sum advances to the companies are made at intervals under the authority of the War Appropriation Act. The accounts of the companies are audited by the Auditor General and the balance sheets and operating statements included herein were furnished, and certified, by him.

## COMMODITY PRICES STABILIZATION CORPORATION LIMITED

Ottawa, June 14, 1944.

To the Shareholders,  
Commodity Prices Stabilization Corporation Limited,  
Ottawa, Ontario.

Gentlemen:

In accordance with the requirements of section 4 of Order in Council P.C. 9870 of December 17, 1941, I have audited the accounts of your company to March 31, 1944, and submit herewith the following statements:

Balance Sheet as at March 31, 1944.....	Schedule "A"
Inventory of Commodities as at March 31, 1944.....	Schedule "B"
Statement of Operations for the fiscal year ended March 31, 1944.....	Schedule "C"
Statement of Subsidies Paid for the fiscal year ended March 31, 1944.....	Schedule "D"
Statement of Profit and Loss on Commodity Trading for the fiscal year ended March 31, 1944.....	Schedule "E"
Administrative expenses for the fiscal year ended March 31, 1944.....	Schedule "F"

Subsidies paid by the corporation are subject in some cases to investigation and adjustment after payment by officers of the corporation. Therefore, payments now recorded may not be invariably regarded as final.

The net loss of \$10,526,224.10 on commodity trading for the fiscal year includes an amount of \$24,075.96 for war risk insurance premium on the corporation's inventory of commodities for the period October 1, 1942, to March 31, 1944. Although it is a provision of section 5 of the War Risk Insurance Act that a contract of insurance is binding only after payment of premium and execution of the policy, and by regulation it is provided that no coverage is in effect until two days after insurance is made, the amount of \$24,075.96 includes a charge for premium for eight months prior to the signing of the application for insurance on June 1, 1943, during which period by the terms of the contract, no benefit could accrue to the corporation.

Yours faithfully,

WATSON SELLAR,  
*Auditor General.*

**NATIONAL BATTLEFIELDS COMMISSION**

Ottawa, September 18, 1944.

Honourable J. L. Ilsley,  
 Minister of Finance,  
 Ottawa.

Dear Sir:

The receipts and disbursements of the National Battlefields Commission for the fiscal year ended March 31, 1944, have been audited pursuant to the provisions of section 14 of the National Battlefields at Quebec Act, c. 57, 1908, and I submit herewith the following statements:

Receipts and Disbursements of the National Battlefields Commission for the fiscal year ended March 31, 1944.....	Schedule "A"
Investments in Securities and Cash Balances of the National Battlefields Commission as at March 31, 1944.....	Schedule "B"
Statement of Assets and Liabilities of the National Battlefields Commission as at March 31, 1944.....	Schedule "C"
Statement of Revenue and Expenditure of the National Battlefields Commission for the fiscal year ended March 31, 1944.....	Schedule "D".

I have received all the information and explanations I have required, and in my opinion, the statement in Schedule "A" annexed hereto is properly drawn up so as to exhibit a true and correct view of the receipts and disbursements of the Commission for the fiscal year ended March 31, 1944.

In my previous report, it was recommended that as soon as practicable, the present system and records of the Commission be revised to facilitate the production of accurate and comprehensive statements of the operations and affairs of the Commission. The statements of assets and liabilities and of revenues and expenditures contained in Schedules "C" and "D" annexed hereto have been submitted by the National Battlefields Commission. An unqualified audit certificate cannot be given with respect thereto, as the statement of assets and liabilities as submitted includes no reference to the capital cost of the roads and driveways of the Commission, and as no provision has been made for the establishment of appropriate depreciation reserves in respect of the property and improvements of the Commission. Suitable remedial action to adjust the accounting records with respect thereto should be initiated without delay.

Yours faithfully,

**WATSON SELLAR**  
*Auditor General.*

Under the terms of the Pelagic Sealing Treaty of 1911, ratified by the Pelagic Sealing (Convention) Act, c. 39, 1938, Canada was to receive from the United States 15 per cent of the total number of sealskins taken annually upon the Pribilof Islands; from Japan 10 per cent of the total number of sealskins taken upon Robben Island; and from Russia 15 per cent of the total number of sealskins taken upon the Commander Islands.

Canada has received, during the fiscal year 1943-44, proceeds from sales of skins as follows: U.S.A. Pribilof Islands rookeries, 3,068 skins taken in kind by Canada and marketed in Montreal, \$122,038.29; Canada's share of proceeds from sales by U.S. Government of 60,045 skins sold in St. Louis, U.S.A., \$97,222.42.

The cost of dressing and dyeing, including freight, customs and excise duties, warehouse expenses, etc., amounting to \$38,986.25, was charged to Vote 80.

No statement of take or of proceeds from sales, if any, has been received from Russia for many years or from Japan since the outbreak of war.

The amount of \$2,562.22 represents sales from the Department's experimental areas in Prince Edward Island of: (a) marketable oysters; and (b) small oysters for stocking areas in outlying districts.

The Fisheries Research Board Act, c. 31, 1937, provides for the constitution of a Board of fifteen members as follows: two from the Department, two representing the fishing industry on the Atlantic Coast, two representing the fishing industry on the Pacific Coast and nine scientists selected from a list including nominations which may be made by any Canadian university having on its staff scientists engaged in research work in any way bearing upon fishery problems. The duration of office and subsequent appointment are provided for in the Act.

Section 6 of the Act provides that the Board shall have charge of all Dominion fishery research stations in Canada and shall have the conduct and control of investigations of practical and economic problems connected with marine and fresh water fisheries, flora and fauna, and such other work as may be assigned to it by the Minister.

Section 11 of the Act provides that the Board may expend such sums as are necessary for its work from moneys appropriated by Parliament for the work of the Board or from funds received as bequests, donations, etc.

The Board received \$9,614.96 from the following sources: contributions from the Province of British Columbia, \$6,430; rent of properties, sales of publications, etc., \$3,184.96.

An amount of \$570, due at the close of the fiscal year 1943-44 by the Province of British Columbia, was transferred to the account Province of British Columbia Fisheries Research Board of Canada under Loans and Advances.

The Treaty between Canada and the United States, ratified by the Northern Pacific Halibut Fishery (Convention) Act, c. 36, 1937, is designed to enable international control for the preservation of the Halibut Fishery of the North Pacific Ocean and the Bering Sea. The Commission is required to make all necessary study and investigation in relation to the Fishery and to regulate fishing.

The Treaty provides that each country appoint two commissioners, and pay the salaries and expenses of its own appointees and one-half the joint expenses incurred by the Commission.

The total disbursements for the year amounted to \$38,852.69, apportioned as follows: Canada, \$19,606.49; United States, \$19,246.20. Of the United States portion, \$15,328.86 has been repaid and pending collection, the balance of \$3,917.34 was transferred to the Pacific Halibut Treaty Special Account under Loans and Advances.

Canada's portion of the expenditure includes an amount \$360.30 covering non-shareable expenses incurred by the Canadian Commissioner.

No salaries were paid the Canadian Commissioners.

As at March 31, 1944, there were 10 employees paid from this account. The following were receiving salaries at an annual rate of \$2,400 or over, exclusive of cost of living bonus, on that date: F. The Treaty between Canada and the United States, ratified by the Sockeye Salmon Fisheries (Convention) Act, c. 10, 1930, is designed to enable international control for the preservation of the Sockeye Salmon Fisheries of the Fraser River and waters contiguous thereto. The Commission is required to make all necessary study and investigation in relation to such Fisheries for the purpose of regulating fishing.

The Treaty provides that each country appoint three commissioners and pay the salaries and expenses of its own appointees, and one-half the joint expenses incurred by the Commission.

The total disbursements for the year amounted to \$83,140.92, apportioned as follows: Canada, \$41,742.36; United States, \$41,398.56. The larger share of the joint expenses shown for Canada is due to the fact that a refund of gasoline tax for \$193.62 which had been credited to Canada's share only in 1942-43 has been adjusted in 1943-44 and to two items amounting to \$15.18, covering refund of previous years' expenditure which have been deleted from the United States' portion of the expenditure.

Non-shareable expenses incurred by the Canadian Commissioners amounted to \$135.

During the fiscal year the United States refunded part of its share, \$35,319.32, and pending collection, the balance of \$6,079.24 was transferred to the Pacific Salmon Treaty Special Account under Loans and Advances.

As of March 31, 1944, there were 21 employees paid from this account. The following were receiving salaries at an annual rate of \$2,400 or over, exclusive of cost of living bonus, on that date or at date of separation (shown in brackets): C. E. Atkinson, \$2,880; M. <b>Vote 465 Canadian Share of expenses of the International Pacific Salmon Fisheries Commission for completion of engineering and biological surveys commenced in 1942 upon which to base recommendations for overcoming Sockeye Salmon obstructions at Hell's Gate Canyon or other points on the Fraser River, and for maintenance of temporary expedients, pending permanent remedial action, to overcome such obstructions..</b>			<b>10,500 00</b>
<b>Expenditures.....</b>			<b>\$ 10,493 17</b>

Under Article III of the treaty between Canada and the United States for the preservation of the sockeye salmon of the Fraser River System, ratified by the Sockeye Salmon Fisheries (Convention) Act, c. 10, 1930, the Commission is authorized to recommend removing or otherwise overcoming obstructions to the ascent of sockeye salmon, in any of the waters covered by the Convention, where investigation may show such removal of or other action to overcome obstructions to be desirable.

The cost of all work done is to be borne equally by the two Governments, and the above expenditure represents Canada's share. Of the United States' portion, \$2,697.90 has been repaid and pending collection, the balance of \$7,795.27 was transferred to the Pacific Salmon Treaty (Hell's Gate) Special Account under Loans and Advances.

Canada's share of the expenditures was classified as follows: salaries and wages, \$7,364.26; printing and stationery, \$159.76; travelling expenses, \$785.14; materials and supplies, \$812.46; exchange on U.S. funds, \$323.09; sundries, \$548.46.

Travelling expenses in excess of \$300 were paid to: M. Bell, \$642.13; H. S. Dunlop, \$392.76.

**Fishing Bounty—Deep Sea Fisheries Act, c. 74, R.S. .... \$ 159,400 80**

Under authority of the Deep Sea Fisheries Act, the Governor in Council may authorize the payment, out of the Consolidated Revenue Fund of Canada, of an annual grant not exceeding one hundred and sixty thousand dollars, to aid in the development of the sea fisheries of Canada, and the encouragement of the building and fitting out of improved fishing vessels, and the improvement of the condition of the fishermen.

Provision was made under the authority of P.C. 1106, dated February 23, 1944, that the sum of \$160,000 be distributed for the year 1943-44 upon the following basis:—

Vessels: Fishermen engaged in fishing vessels who are entitled to receive bounty shall be paid the sum of \$7.90 each, while the owners of the vessels entitled to receive bounty shall be paid \$1 per registered ton, provided, however, that the payment to the owner of any one vessel shall not exceed the sum of \$80.

Boats: Fishermen engaged in fishing boats, who shall also have complied with the regulations entitling them to receive bounty, shall be paid the sum of \$7.40 each, and the owners of fishing boats shall be paid the sum of \$1 per boat.

The bounty was distributed as shown in the following statement which includes a number of outstanding claims of 1942-43:—

<b>Allotment: Wartime Fisheries Advisory Committee</b> .....	<b>500 00</b>
<b>Expenditures</b> .....	<b>\$ 39 85</b>

P.C. 340 of January 26, 1940, authorized the establishment of a Wartime Fisheries Advisory Committee for the purpose of advising on the formulation of plans whereby the fishing industry will arrange for the orderly supply of fish to the British market and at the same time maintain existing market contacts.

The expenditures represented travelling expenses.

<b>Allotment: Assistance in the form of a subsidy of \$165 per gross ton for construction of vessels of the Packer-Seiner type for use in the Fishing Industry in British Columbia</b> .....	<b>200,000 00</b>
<b>Expenditures</b> .....	<b>\$ 121,536 11</b>

To stimulate private building of fishing vessels and to lessen the vessel shortage which had reduced the productive capacity of the British Columbia fishing industry, a subsidy of \$165 per gross ton was authorized by P.C. 2798 of April 10, 1942, amended by P.C. 3738 of May 5, 1942, to be paid on vessels of the packer-seiner type, upon which construction had been started on or after March 15, 1942 and the plans of which had been approved by the Steamship Inspection Board.

Payments in excess of \$5,000 were made to: British Columbia Packers Ltd., Vancouver, \$34,625.25; Canadian Fishing Co., Ltd., Vancouver, \$17,189.70; Empire Fishing Co. Ltd., Vancouver, \$16,526.40; Nelson Bros. Fisheries, Vancouver, \$49,884.45.

<b>Allotment: Assistance in the form of a subsidy of \$165 per gross ton for construction of vessels of the Dragger type and assistance in the form of a subsidy amounting to 66⅔ per cent of the total cost of conversion in respect of Fishing Schooners converted to Dragers for use on the Atlantic Coast</b> .....	<b>50,000 00</b>
<b>Expenditures</b> .....	<b>\$ 22,088 55</b>

P.C. 7580 of August 26, 1942, amended by P.C. 3297, April 22, 1943, authorized assistance in the form of a subsidy towards the construction of wooden draggers or the conversion of fishing schooners to draggers on the Canadian Atlantic Coast in order to utilize more effectively and intensively labour still available in the fishing industry and thereby maintain the production of fish which was being threatened with curtailment due to the manpower shortage.

The above amount was paid to Sea Nymph Fisheries, Ltd., Halifax.

<b>Allotment: Payment of compensation for diminution of value caused by war damage to fishing boats and fishing gear</b> .....	<b>\$ 10,000 00</b>
<b>Expenditures</b> .....	<b>nil</b>

P.C. 5036 of July 3, 1942, as amended, provided for compensating fishermen for the loss of/or damage to fishing boats and fishing gear due to the war. A few claims were received but none had been paid at the close of the fiscal year.

<b>Allotment: Construction of experimental long line fishing vessel on Atlantic Coast and operating expenses</b> .....	<b>59,806 30</b>
<b>Expenditures</b> .....	<b>\$ 47,032 68</b>

P.C. 40/897 of February 2, 1943, authorized the construction of a fishing vessel for the Atlantic Coast to explore the possibilities of the long line fishing method used in the Pacific halibut fishery, in order that fish production, which is of great importance to the war effort in general and the supply of fish products to Great Britain in particular, may be maintained and increased.

Expenditures were as follows: salaries and wages, \$2,179.49; travelling expenses, \$1,614.52; construction of vessel, \$40,918.30; acquisition of equipment, \$1,236.39; sundries, \$1,083.98.

Travelling expenses in excess of \$300 were paid to: A. E. Calder, \$715.04; V. MacDonald, \$478.60.

Suppliers receiving \$5,000 or more: Industrial Shipping Co. Ltd., Halifax, \$31,911; Wm. Stairs, Son & Morrow, Ltd., Halifax, \$7,093.03.

<b>Allotment: Prairie Provinces Fisheries Investigation Committee .....</b>	<b>3,000 00</b>
<b>Expenditures .....</b>	<b>\$ 2,041 28</b>

P.C. 4812 of June 14, 1943, authorized the establishment of a Committee to make enquiry concerning current difficulties attending the production, processing and marketing of certain fisheries of the Prairie Provinces, to make recommendation as to corrective measures available and to assist in immediate relief from such difficulties.

Members of the Committee served without remuneration, except the chairman, J. R. Dymond, who was paid at the rate of \$12 per day, but each member was allowed his actual living and travelling expenses while away from his place of residence on the work of the Committee.

Travelling expenses in excess of \$300 were paid to: O. Bright, \$338.20; J. R. Dymond, \$576.59; R. B. Miller, \$345.01.

<b>Allotment: Expenses in connection with the supply of frozen fish to the British Ministry of Food .....</b>	<b>15,000 00</b>
<b>Expenditures .....</b>	<b>\$ 10,758 29</b>

P.C. 4727 of June 10, 1943, authorized the Minister to negotiate agreements with the appropriate authorities of the United Kingdom for the supply of frozen fish; to make arrangements with Canadian processors of frozen fish to ensure fulfilment of such agreements and to appoint, subject to the approval of the Governor in Council, clerical and technical personnel as may be necessary for the carrying out of the regulations. Their remuneration is to be determined by the Minister with the approval of the Governor in Council, and they are also to be paid reasonable travelling and living expenses incurred while away from their headquarters on official duties.

Expenditures were classified as follows: salaries, \$6,825.88; cost of living bonus, \$665.93; materials and supplies, \$508.89; travelling expenses, \$2,335.97; sundries, \$421.62.

As of March 31, 1944, there were 4 employees paid from this account, none of whom was receiving a salary at an annual rate of \$2,400 or over at that date.

Travelling expenses in excess of \$300 were paid to: E. Crowell, \$326.29; J. R. Morrison, \$487; R. A. Snow, \$894.95.

<b>Allotment: Payment of War Bonus to crews of Fisheries Protection Vessels and Fisheries Patrol Vessels operating in war zones within dangerous waters .....</b>	<b>20,000 00</b>
<b>Expenditures .....</b>	<b>\$ 15,074 08</b>

P.C. 14/275 of January 13, 1943 authorized the payment of a Special War Bonus to the officers and crews in the Fisheries Protection Service for the periods during which they would be operating in dangerous waters determined as war zones by the Minister. P.C. 71/6181 of August 4, 1943, extended the payment of this Special War Bonus to the Fisheries Patrol Service.

The expenditures by services and provinces were as follows:—Fisheries Protection Service: British Columbia, \$1,533.64; Fisheries Patrol Service: Nova Scotia, \$1,761.26; Prince Edward Island, \$256.63; New Brunswick, \$1,361.60; British Columbia, \$10,160.95.

<b>Allotment: Salt Fish Export Regulations (Administration) .....</b>	<b>20,000 00</b>
<b>Expenditures .....</b>	<b>\$ 15,722 53</b>

Canada, on June 18, 1943, signified its adherence to a recommendation of the Combined Food Board of the United Nations which involves a plan for allocating the supplies of salted fish which would be available to the United Nations and friendly neutral countries.

In order to ensure the fulfilment of Canada's obligations in a manner least likely to disturb unduly the salt fishing industry, the power to control and direct the export of salted fish was conferred on the Minister of Fisheries by P.C. 6289 of August 6, 1943.

A Salt Fish Advisory Committee was established, the members of which were to serve without remuneration but to be allowed reasonable travelling and living expenses while away from their residences on official business.

For the administration of the regulations, the Minister was authorized to appoint, with the approval of the Governor in Council, such employees as may be necessary, to fix their remuneration and to provide the necessary accommodation, stationery, equipment and telephones.

The expenditures were classified as follows: salaries, \$5,285.94; cost of living bonus, \$276.64; printing and stationery, \$1,404.53; travelling expenses, \$5,065.59; sundries, \$3,689.83.

As of March 31, 1944, there were 4 employees paid from this account. The following was receiving a salary at an annual rate of \$2,400 or over on that date: B. McInerney, \$5,500.

Travelling expenses in excess of \$300 were paid to: C. Bacon, \$539.85; A. J. Boudreau, \$355.32; M. Campbell, \$674.30; F. M. Gibaut, \$606.11; W. B. MacKenzie, \$748.12; B. McInerney, \$826.37.

A This account covers purchases of canned salmon, canned herring and frozen fish for the British Ministry of Food. Credit arrangements were established by the British Government with the Bank of Canada by which funds were released for payment of goods as shipments were forwarded. This procedure was discontinued on September 30, 1943 after which payments for purchases were made through funds provided by the Canadian Mutual Aid Board.

B Under authority of Section 4 (1) of The War Appropriation (United Nations Mutual Aid) Act, c. 17, 1943, funds were made available to the Department as from October 1, 1943, by the Canadian Mutual Aid Board to cover expenditures incurred in supplying canned salmon, canned herring and frozen fish to the United Nations (other than Canada). Of advances totalling \$14,000,000, an amount of \$11,261,478.55, consisting of \$7,569,341.26 from Mutual Aid funds and \$3,692,137.29 cash provided by the United Kingdom, was expended for this purpose and the balance refunded to the Board at the close of the fiscal year. Further details are shown under the Canadian Mutual Aid Board section of this Report.

C All cheques except those drawn against Open Accounts, which remain undelivered after six months subsequent to the date of their issue, are credited to this account. The above balance represents the liability in respect of this Department at the close of 1943-44.

Under the provisions of the Department of Insurance Act, c. 45, 1932, the expenditure incurred by the Dominion during each fiscal year in connection with the administration of the Canadian and British Insurance Companies Act, c. 46, 1932, the Foreign Insurance Companies Act, c. 47, 1932, the Loan Companies Act, c. 28, R.S., the Trust Companies Act, c. 29, R.S., the Small Loans Act, c. 23, 1939, and amendments, is assessed against the companies transacting business thereunder, in the proportion which the net premiums in Canada or income of each bears to the total amount of such premiums or income received during the preceding calendar year.

Expenditures for the fiscal year 1942-43 were \$171,798.96. Added to this was \$11,416.53 for estimated rent, char service, lighting and sundries charged to Public Works Department, Vote 258, thereby increasing the total expenditures to \$183,215.49. Credited against this were: salaries on account of Civil Service Insurance administration, etc., \$5,700.18; work done for other departments, \$6,000; revenue from sale of publications, \$379.50; net penalties received, \$780. These credits totalled \$12,859.68 and reduce the total amount of expenditure to be assessed against the companies to \$170,355.81, which amount, together with 92 cents premium on exchange, etc., equals the total revenue from assessment as above.

	<u>\$2,057,675 87</u>

The Judges Act, c. 105, R.S., directs that the salaries of Judges be a charge to Consolidated Revenue Fund and paid as follows:

Supreme Court of Canada: Chief Justice, \$15,000; 6 puisne Judges, each \$12,000.

Exchequer Court of Canada: President, \$10,000; 1 puisne Judge, \$9,000.

Local Judges in Admiralty of the Exchequer Court, one Judge in each district, Nova Scotia, New Brunswick, Quebec and British Columbia, each \$1,000; Prince Edward Island, \$800; Toronto, \$600.

Nova Scotia: Chief Justice, \$10,000; Judge in Equity and 5 puisne Judges, each, \$9,000; Judge of the Court of Divorce and Matrimonial Causes, \$500; 7 County Court Judges, each, \$5,000.

Prince Edward Island: Chief Justice, \$10,000; 2 assistant Judges, each \$9,000; 3 County Court Judges, each \$5,000.

New Brunswick: Chief Justice of New Brunswick and Chief Justice of the Court of King's Bench Division, each, \$10,000; 2 puisne Judges of the Court of Appeal and 3 puisne Judges of the King's Bench Division, each, \$9,000; Judge of the Court of Divorce and Matrimonial Causes, \$500; 6 County Court Judges, each, \$5,000.

Quebec: Chief Justice, Court of King's Bench and Chief Justice of Superior Court, each, \$10,000; the puisne Judge of the Superior Court appointed to perform duties of the Chief Justice in the district as constituted for the Court of King's Bench (sitting in Appeal), within which the Chief Justice does not reside, \$10,000; 11 puisne Judges of the Court of King's Bench and 35 puisne Judges of the Superior Court, each, \$9,000; Circuit Court, Senior Judge, \$8,000; 3 Judges, each, \$7,000.

Ontario: Chief Justice of Ontario and Chief Justice of High Court, each, \$10,000; 7 Justices of Appeal, each, \$9,000; 12 Justices of the High Court, each, \$9,000; 75 Judges and Junior Judges, each, \$5,000.

Manitoba: Chief Justice of the Court of Appeal and Chief Justice of the Court of King's Bench, each, \$10,000; 4 puisne Judges of the Court of Appeal and 5 puisne Judges of the Court of King's Bench, each, \$9,000; 9 County Court Judges and 1 Junior County Court Judge, each, \$5,000.

Saskatchewan: Chief Justice of Saskatchewan and Chief Justice of the Court of King's Bench, each, \$10,000; 4 puisne Judges of the Court of Appeal and 6 puisne Judges of the Court of King's Bench, each, \$9,000; 18 District Court Judges, each, \$5,000.

Alberta: Chief Justice of Alberta and Chief Justice of the Trial Division, each, \$10,000; 4 Justices of Appeal and 5 Justices of the Supreme Court, each, \$9,000; 12 District Court Judges, each, \$5,000.

British Columbia: Chief Justice of the Court of Appeal and Chief Justice of the Supreme Court, each, \$10,000; 4 Justices of Appeal and 5 puisne Judges of the Supreme Court, each, \$9,000; 14 Judges and Junior Judges of the County Courts, each, \$5,000.

Section 21 of the Judges Act provides for, in addition to his moving or transportation expenses, a per diem allowance of \$10 in cities and \$6 elsewhere, to a Judge of the Exchequer, Superior or County Courts during periods he is attending at any place other than that at which he is, by law, obligated to reside. The per diem allowance is paid for each day or part of a day a judge is absent from his lawful place of residence. Travelling expenses of Judges of the Exchequer Court of Canada, amounting to \$2,466.33, were charged to Vote 93.

Each Judge of a District Court in Ontario by Section 22, subsection 4 of the Judges Act receives \$500 per annum as a travelling allowance, and such payments in 1943-44 were made to 11 Judges.

Section 21 of the Judges Act states that the travel allowance to a Superior Court Judge shall be "in addition to his moving or transportation expenses". However, this does not apply to Judges travelling between Quebec and Montreal who are paid on a basis of \$25 for transportation expenses, nor to Judges travelling between Vancouver and Victoria who are paid on a basis of \$15.

#### Government Annuities—Payment required to maintain reserve, Government Annuities Act,

c. 7, R.S. .... \$ 32,180 49

Section 15 of the Government Annuities Act requires that in the statutory statement with respect to liabilities "at the end of each fiscal year shall appear the present value of the prospective annuities contracted for up to the end of such fiscal year". As premium, income and interest credits were insufficient to provide for this liability, the account was augmented by the above amount. Further information in this connection will be found under the account "Government Annuities" under Open Accounts further on in this section.

	<u>\$5,375,150 00</u>	<u>\$5,375,150 00</u>	<u>\$5,170,900 33</u>

During the fiscal year 1943-44 the Unemployment Insurance Commission continued to administer certain phases of the National Selective Service program. Although the additional expenses incurred in carrying out this program were properly a charge to an allotment from the War Appropriation, it was found impossible to segregate the expenses as between Unemployment Insurance and National Selective Service activities because—(i) a considerable part of National Selective Service Work would have been undertaken in the ordinary placement of workers; (ii) staff were engaged on both classes of work and did not devote their time exclusively to one or the other; and (iii) many of the new National Selective Service offices were operated by trained staff of the Unemployment Insurance Commission. In view of these circumstances, expenditures that were solely due to National Selective Service activities or to the work of the Unemployment Insurance Commission were charged accordingly and the remainder of the expenditures were charged originally to this vote and subsequently divided equally between the two services.

Towards the close of the fiscal year, Treasury Board approved of a reduction of \$375,150 in the estimated expenditure and cash allotment from the War Appropriation for the National Selective Service program, it having been determined that this sum was surplus to actual requirements for the fiscal year.

As of March 31, 1944, there were 5,728 employees paid from this vote and from the war allotment for National Selective Service. The following table shows those who were paid annual salaries of \$2,400 or over exclusive of cost of living bonus, on that date, or at date of separation (shown in brackets), as well as travelling expenses where the amount was in excess of \$300.

\* Received additional compensation—see following list.

† \$900 of this salary was transferred during the year to Vote 99.

During the fiscal year minor overpayments of salaries occurred, due, in practically all cases, to the fact that the necessary information with respect to the separation did not reach Treasury in time for the adjustments to be made. The Administration is endeavouring to secure repayment.

As of March 31, 1944, there were 162 employees being paid war duties supplements, including the following whose salaries are detailed above (amounts represent annual rates paid at that date, or at date of discontinuance as shown): W. P. Black, \$240; O. Boucher, \$240; C. W. Boyer, \$240; A. C. Bricault, \$600; G. A. Buckley, \$300; W. Carnill, \$300; R. F. Clarke, \$120; L. F. D. Coulson, \$120; L. J. Curry, \$780; W. H. Darracott, \$300; W. Duncan, \$300; J. F. Dwyer, \$300; E. H. Fortier, \$240; C. A. Gravel, \$240; P. L. Grenier, \$240; J. T. M. Guay, \$1,000; C. L. Hall, \$240; R. H. Hall, \$120; R. P. ## SPECIAL

<b>Vote 109</b>	<b>To provide for Relief Projects (undischarged commitments).....</b>	<b>187,400 00</b>
	<b>Expenditures .....</b>	<b>\$ 85,644 42</b>

A distribution of expenditures follows:

A	Relief Settlement .....	85,609 25
B	Direct Relief .....	35 17
		<b>\$ 85,644 42</b>

A Under the provisions of the Relief Act, 1932, agreements were entered into with the Provinces, except Prince Edward Island, for the purpose of providing a measure of self-sustaining relief to families who would otherwise be in receipt of material aid by placing such families on the land. Renewal agreements under the Relief Acts of 1934, 1936 and 1940, provided for continuity of settlement with former agreements and also for additional placements of families. In organized municipalities, the Dominion contributes one-third of the maximum amount provided under the agreements; the remaining two-thirds being contributed by the Province and municipality concerned. In unorganized municipalities, the Dominion and the Province share equally in the expenditures.

The following amounts were paid the Provinces: Quebec, \$68,366.65; Manitoba, \$1,394.22; Saskatchewan, \$15,592.08; Alberta, \$256.30. The amount paid the Province of Saskatchewan represents adjustment of over-refunds made in connection with relief expenditures. The payment was applied as a credit to Province of Saskatchewan Treasury Bills Series R-122 held by the Department of Finance.

B This amount was paid to the Province of Manitoba in connection with direct relief agreements of previous years.

<b>Allotment: Prisoners of War Labour Projects Account—Revolving Fund .....</b>	<b>\$ 225,000 00</b>
<b>Expenditures .....</b>	<b>nil</b>

---

P.C. 2326, May 10, 1943, and P.C. 23/5267, June 30, 1943, authorized allotments from the War Appropriation of \$25,000 and \$200,000, respectively, to provide working capital for the financing, by means of a revolving fund, of an undertaking to utilize the services of prisoners of war in agriculture and other labour. At the end of the fiscal year, the position of the fund, which was operated as a continuing open account, showed an excess of moneys paid in over moneys paid out to the extent of \$310,460.95.

During the course of the year, it was decided to discontinue the operation of revolving funds as continuing open accounts. Instead, in future, the relative annual allotments themselves will be operated as annual revolving funds.

In accordance with this policy, the open account revolving fund, the details of which are shown under Sundry Suspense Accounts in this section, was closed by crediting to this allotment the sum of \$225,000 out of the excess amount referred to above, and applying \$85,460.95 as Special Receipts, Miscellaneous War Revenues.

<b>Allotment: Provision of Recreational Facilities for War Workers .....</b>	<b>908 00</b>
<b>Expenditures .....</b>	<b>\$ 908 00</b>

---

Under the terms of P.C. 4703, June 8, 1943, the Minister of Labour was authorized to enter into agreements with the Provinces for the purpose of providing recreational facilities for war workers, the Dominion to pay 50 per cent of the costs.

Negotiations were entered into with the Province of Ontario, but no agreement was reached. However, during the period June 28 to October 31, 1943, expenditures totalling \$1,816 had been incurred by the Province. P.C. 49/335 of January 19, 1944, authorized payment of \$908 representing the Dominion's share of this expenditure.

<b>Allotment: Stabilization of Longshore Labour (Halifax, N.S.)</b> .....	<b>600,000 00</b>
<b>Expenditures</b> .....	<b>\$ 460,728 31</b>

P.C. 5161, June 25, 1943, authorized the Minister of Labour to provide and maintain a supply of longshore labour in the Port of Halifax adequate to its needs at all times; workers to receive a fixed minimum weekly wage in return for constant availability for loading and unloading operations.

Expenditures were for payment of deficiency pay to registered longshoremen and to members of the Reserve Labour Pool; costs of administration being charged to War allotment for Co-ordination of Shiploading and Unloading Operations at the Port of Halifax, N.S.

<b>Allotment: Army Labour Account—Revolving Fund</b> .....	<b>\$ 100,000 00</b>
<b>Expenditures</b> .....	<b>nil</b>

P.C. 6434, August 13, 1943, authorized this allotment from the War Appropriation to provide working capital for the financing, by means of a revolving fund, of an undertaking relating to the employment of members of the Armed Forces for farm service. At the end of the fiscal year, the position of the fund, which was operated as a continuing open account, showed an excess of moneys paid in over moneys paid out to the extent of \$182,056.57.

During the course of the year it was decided to discontinue the operation of revolving funds as continuing open accounts. Instead, in future, the relative annual allotments will themselves be operated as annual revolving funds.

In accordance with this policy, the open account revolving fund, the details of which are shown under Sundry Suspense Accounts in this section, was closed by crediting to this allotment the sum of \$100,000 out of the excess amount referred to above, and applying \$82,056.57 as Special Receipts, Miscellaneous War Revenues.

<b>Allotment: Japanese Wood Projects Account—Revolving Fund.....</b>	<b>500,000 00</b>
<b>Expenditures.....</b>	<b>\$ 170,960 06</b>

P.C. 4365, May 28, 1943, authorized this allotment from the War Appropriation to provide working capital for the financing, by means of a revolving fund, of an undertaking to utilize the services of employable persons of the Japanese race for wood fuel cutting and timber operations. At the end of the fiscal year, the position of the fund, which was operated as a continuing open account, showed an excess of moneys paid in over moneys paid out to the extent of \$329,039.94.

During the course of the year, it was decided to discontinue the operation of revolving funds as continuing open accounts. Instead, in future, the relative annual allotments will themselves be operated as annual revolving funds.

In accordance with this policy, the open account revolving fund, the details of which are shown under Sundry Suspense Accounts in this section, was closed by crediting the above-mentioned excess amount to this allotment. The expenditure of \$170,960.06 shown above, represents the residue of working capital advances to be accounted for.

<b>Allotment: Wartime Labour Relations Board—Administration.....</b>	<b>2,500 00</b>
<b>Expenditures.....\$</b>	<b>567 04</b>

The Wartime Labour Relations Regulations, P.C. 1003, February 17, 1944, provided for the establishment of the Wartime Labour Relations Board consisting of ten members appointed under authority of P.C. 1895, March 16, 1944, to administer the Regulations. Excepting the Chairman and Vice-Chairman, who, being Judges of the Courts, served without remuneration, each member of the Board was paid \$15 per day for each day engaged on the work of the Board, plus travelling and living expenses when absent from his place of residence.

This allotment provided for the administrative expenses.

<b>Allotment: Expenses in connection with General Labour Transference in War Industries and Agriculture .....</b>	<b>365,000 00</b>
<b>Expenditures.....\$</b>	<b>296,545 83</b>

Under the terms of P.C. 10/6172, August 13, 1941, P.C. 7595, August 26, 1942, P.C. 246, January 19, 1943 and P.C. 4446, May 31, 1943, the Dominion assumed the cost of moving workers needed to meet the demands of war industries and agriculture in cases where a sufficient supply of labour was not available locally.

Under the terms of P.C. 246 the cost of transportation of workers, their dependents and effects was advanced by the Dominion subject to repayment, provided that workers were deemed to have repaid to the Crown in respect of such advances, five dollars for each week during which they remained in the new employment. Advances of this nature have been recorded as accountable expenditures.

During the fiscal year 1942-43, administrative arrangements for reporting time worked in new employments to enable adjustment of advances were not in operation. Arrangements, however, have since been effected and these advances are now being adjusted upon direction from the Administration.

The expenditures comprise payments made on behalf of employees, \$276,688.74 and employers \$19,857.09.

Expenditures for employees include:—

<b>Allotment: Advertising to encourage Farmers and Others to engage in logging, lumbering and other bush work.....</b>	<b>6,900 00</b>
<b>Expenditures.....\$</b>	<b>6,749 87</b>

P.C. 24/3926 of May 13, 1943, provided that an amount not to exceed \$6,900 be authorized for the above purpose. Payments were made to R.C. Smith and Son, Limited.

**Allotment: Assistance to the Provinces in recruiting, transporting and placing labourers**

upon Farms .....	740,000 00
<b>Expenditures.....</b>	<b>\$ 518,827 93</b>

Under the terms of P.C. 3620, May 4, 1943, P.C. 6549, August 17, 1943 and P.C. 28/7430, September 22, 1943, the Dominion entered into agreements with the Provincial Governments by which the Provincial Governments would be reimbursed fifty per cent of the costs incurred in recruiting farm labourers, male and female, from urban centres within the Provinces and transporting and placing them in those sections of the Provinces in which shortages of farm labour existed. Payments to the Provinces were made as follows: Nova Scotia, \$3,761.27; New Brunswick, \$3,750.62; Prince Edward Island, \$2,030.67; Quebec, \$9,799.56; Ontario, \$147,949.32; Manitoba, \$22,093.79; Saskatchewan, \$83,337.68; Alberta, \$24,194.27; British Columbia, \$37,539.61. A further payment of \$331.47 to the Railways is recoverable on a fifty per cent basis from the Provinces.

Section C, P.C. 3620 further provided that the Dominion pay the costs of transporting farm workers from one Province to another, in order that they would be available for employment where most urgently required. Payments under this section were made to transportation companies in the amount of \$184,039.67. Included in this amount is the cost of transporting 700 Western farm workers proceeding to Eastern Canada to assist in the harvest and 3,500 Eastern farm workers and university students proceeding to Western Canada to assist in the harvest there. The full cost of the special harvest excursion fares was paid by the Dominion in the first instance, but a part of this cost was later refunded by the Railways in accordance with their agreement to refund to the Dominion moneys realized from fares sold to labourers returning to the East at \$10 each and to the West at \$5 each.

**Allotment: Compulsory Transfer of Ex-Coal Mine Workers from other industries back to the Coal Industry.....**

Expenditures.....	\$ 98,517 44

A This account records transactions in connection with pay assigned by Japanese employed by the Department of Mines and Resources, and by commercial companies. The deductions from earnings are paid to assignees through the facilities of the Commission. It also records advance payments of rent for housing accommodation occupied by Japanese, and cash deposits as security to ensure return of property in good condition. The credit balance as at March 31, 1944, consisted of \$240 assigned pay and \$15,450 advance payments of rent, etc.

B Receipts represent various deductions from Departmental employees' salaries such as Income Tax, Victory Loans, War Savings Certificates, and Unemployment Insurance including employer's portion, pending payments to the departments concerned.

- A All cheques, except those drawn against Open Accounts, which remain undelivered after six months subsequent to the date of their issue are credited to this account. The above balance represents the liability in respect of this Department at the close of 1943-44.
- B P.C. 2326, May 10, 1943, authorized the Minister of Labour to utilize the services of prisoners of war in agriculture and other labour and allotted the sum of \$25,000 for such purposes. P.C. 28/5267, June 30, 1943, authorized an additional allotment of \$200,000 and established the revolving fund out of which expenditures were made and into which amounts collected were paid, pursuant to the provisions of the Order.
- Other receipts represent proceeds derived from the operations. Disbursements were for administration expenses, salaries of guard supervisors and guards, earnings of prisoners of war employed on labour projects, together with an amount to close the account as explained in connection with the War Allotment (see page H-28).
- C P.C. 6434, August 13, 1943, authorized the utilization of members of the Military Forces of Canada for farm service (P.C. 9079, December 7, 1943, authorized the utilization of military personnel for railway duty), and allotted the sum of \$100,000 to establish the revolving fund out of which expenditures were made and into which amounts collected were paid, pursuant to the provisions of the Order.
- Other receipts represent amounts payable to the Crown by the Provinces, Canadian National Railways and the Canadian Pacific Railway Co., in respect of soldiers assigned to farm service and railway duty. Disbursements were for payment of earnings of soldiers employed on farm service and railway duty, return transportation and travelling expenses of members of the Militia detailed for such services, together with an amount to close the account as explained in connection with the War Allotment (see page H-29).
- D To relieve the shortage of wood fuel as well as other needed timber supplies, and utilize the services of employable persons of the Japanese race, P.C. 4365, May 28, 1943, authorized the undertaking and operation of woodcutting projects and an allotment of \$500,000 from the War Appropriation to provide working capital. Receipts include this amount together with proceeds from sales of cut wood and other related revenue. Disbursements were for purchase of equipment, operating expenses, together with an amount to close the account as explained in connection with the War Allotment (see page H-31).
- E Represents profits in connection with a canteen operated by the British Columbia Security Commission in the Tashme Camp at Tashme, B.C.
- F Receipts represent certain amounts due the Canadian Red Cross Society in respect of Alternative Service Workers' earnings which were forwarded to Ottawa through the District Treasury Offices as this was more convenient than depositing them to the credit of the Canadian Red Cross in the chartered banks of Canada in accordance with general instructions. Disbursements were made to the Canadian Red Cross, Toronto.

	<u>\$ 8,950 00</u>	<u>\$ 8,950 00</u>	<u>\$ 7,848 55</u>

A portion of the maintenance expenditure paid from this vote is repaid, on a calendar year basis, by the Province of Manitoba in accordance with sections 8 and 9 of the agreement in the Manitoba Natural Resources Act, c. 29, 1930. The amount refunded for the calendar year 1943, \$6,163.67, is reported in the revenue section hereof.

As of March 31, 1944, there were 3 salaried employees paid from this allotment. No employee was receiving an annual salary of \$2,400 or over on that date.

#### Vote 148 (and Vote 432, Further Supplementary Estimates)—Expenses incurred under the Agreement between the Dominion, Ontario and Manitoba, confirmed by the Lac Seul Conservation Act, 1928, moneys expended to be largely reimbursed

	Estimates	Allotments	Expenditures
A Payment to Ontario of annual interest and operation charges for calendar year 1943.....	18,964 03	18,964 03	18,964 03

	<u>\$ 20,070 43</u>	<u>\$ 20,070 43</u>	<u>\$ 19,940 43</u>

The greater portion of the above expenditure is to be refunded by the Province of Manitoba in accordance with sections 8 and 9 of the agreement in the Manitoba Natural Resources Act, c. 29, 1930, which requires the Province to repay to the Dominion all capital and operating charges in connection with the development of power in the Winnipeg River incurred by reason of the Lac Seul Conservation Act, c. 32, 1928. The Province repays on a calendar year basis and the amount refunded for 1943, \$20,125.19, is reported in the revenue section hereof.

<b>Vote 483 Cost of settling outstanding flood damage and land claims on Lac Seul as provided under the agreement confirmed by the Lac Seul Conservation Act, 1928. The said amount to be disbursed in accordance with the settlements recently agreed upon with the Provinces of Ontario and Manitoba (moneys expended to be reimbursed by the Province of Manitoba).....</b>	<b>85,176 00</b>
<b>Expenditures.....</b>	<b>\$ 84,216 00</b>

Various claims have been outstanding for many years and representatives of this Department and the Department of Lands and Forests of the Province of Ontario conferred during 1943, with a view to reaching a settlement. The proposed settlement was later approved by the Minister of Mines and Natural Resources of the Province of Manitoba as that Province is required to refund, under amortization agreements, the Dominion's expenditures.

The claims allowed in the settlement were as follows:

Department of Mines and Resources, Indian Affairs Branch—for damages to Indian lands.....	72,539 00
Department of Lands and Forests, Ontario—for land flooded.....	68,461 00
Canadian National Railways—for damages to certain lands.....	960 00
	<u>\$ 141,960 00</u>

Under the Lac Seul Agreement the Dominion was obligated to pay three-fifths of this sum amounting to \$85,176 and Ontario, two-fifths amounting to \$56,784. The above appropriation was authorized to cover the Dominion's share.

The financial settlement with the Province of Ontario also included an amount of \$17,276 owed by the Indian Affairs Branch for excess lands included in the Indian Reserve purchase.

Payments from the above account were as follows:

<b>To Province of Ontario—</b>	
Claim allowed .....	68,461 00
Less Ontario's share (2/5) of total claims.....	56,784 00
	<u>11,677 00</u>
Add amount due from Indian Affairs Branch.....	17,276 00
	<u>28,953 00</u>
<b>To Indian Affairs Branch—</b>	
Claim allowed .....	72,539 00
Less amount due to Province of Ontario.....	17,276 00
	<u>55,263 00</u>
<b>Total .....</b>	<b>\$ 84,216 00</b>

Payment of the amount \$960 to the Canadian National Railways was withheld pending the agreement of that organization to the settlement.

The amount of \$55,263 paid to the Indian Affairs Branch was credited to the Indian Trust Funds Account.

<b>Vote 149 To provide for acquiring flowage easements and discharging claims of owners of riparian lands in Ontario below the outlets of Lake of the Woods affected by regulation under the Lake of the Woods Control Board Act. (Revote).....</b>	<b>500 00</b>
<b>Expenditures.....</b>	<b>\$ 306 96</b>

The above amount was paid to the Province of Ontario in accordance with the agreement of November 15, 1922, between the Dominion and the Provinces of Ontario and Manitoba regarding the control of the upper waters of the Winnipeg River.

Section 8 of an agreement incorporated in the Manitoba Natural Resources Act, c. 29, 1930, provides for the repayment by that Province of approximately 55 per cent of the above expenditure under an amortization plan.

Treasury Board authorized the change in the Primary Allotments from the form set out in the Estimates Details, as, in the opinion of the Department, circumstances rendered it desirable that the vote should be administered and controlled by the specific services indicated by the Special Committee of Parliament at the time the vote was first provided.

During the Session of 1926-27, a Special Committee of the Senate and House of Commons dealt with matters pertaining to Indians, more particularly the policy adopted in the early days of paying annuities to individual Indians. Upon consideration of the changed conditions throughout the country, the Committee

found that the need and usefulness of such per capita payments to Indians in British Columbia would be negligible, and recommended that, in lieu of payments to them such as are allowed in other provinces, a sum of \$100,000 should be expended annually on technical education, provision of hospitals and medical attendance; in the promotion of agriculture, stockraising and fruit culture; and in the development of irrigation projects. The Committee concluded that the said purposes would seem to be far more applicable to the Indians in their present condition than the payment of any per capita amount.

The recommendation of the Committee was approved by Parliament at the 1926-27 Session.

J As of March 31, 1944, there was one employee being paid from this account. The annual salary rate of this employee was less than \$2,400. A. L. McQuarrie, whose salary was \$4,620, retired December 1. Travelling expenses of H. E. Gerry amounted to \$592.30. Payments totalling \$36,320 were made to various hospitals for care and maintenance of patients. St. Paul's, Vancouver, received \$8,160.75 of this amount.

K The expenditure is classified as follows: farm equipment, maintenance and live stock, \$11,358.10; improvements, clearing land, etc., \$4,532.37; seed and fertilizer, \$13,215.11; sundry, \$746.01.

L Expenditures in the various agencies (including provision of \$2,000 for engineering services of W. C. Warren, whose salary was paid from Vote 146) follow: Kamloops, \$3,361.21; Kootenay, \$5,545.77; Lytton, \$2,888.49; Nicola, \$600.28; generally, \$4,581.95.

M Ten residential schools received a total of \$5,516 for the services of manual training instructors. The remainder was expended in the purchase of equipment and educational supplies.

A Receipts consist of collections of both principal and interest. The interest is transferred to Revenue under Return on Investments (see page J-3) and is included in the above disbursements, the balance of which represents mainly adjustments with the provinces in connection with 1920, 1921 and 1922 advances, the collection of which is shareable on an equal basis.

The balance as at March 31, 1944, represents that portion of the principal outstanding on seed grain and relief advances issued prior to 1926 which is considered as an Active Asset (see page J-51 for status of advances regarded as Non-Active Assets).

B This account is operated under the authority of section 94b of the Indian Act. Under the Act, the Superintendent General is empowered to make loans to Indian Bands, groups of Indians or individual Indians, under regulations established by the Governor in Council. The purpose is to render assistance in agricultural and handicraft pursuits. The loans outstanding may at no time exceed \$350,000.

C This account represents the outstanding balance of the Canadian Government's share of passage loans furnished to migrants under the Empire Settlement Act, 1922, on a shareable basis with the United Kingdom. As the scheme is now terminated, the 1943-44 transactions consist only of repayments by the individuals to the Dominion Government and reimbursement to the Government of the United Kingdom for its share of these repayments.

A This account is maintained for W. M. Cory, Solicitor in the Department, who is Public Administrator and Official Guardian for the Districts of Franklin and Keewatin, Northwest Territories. Deposits represent moneys received for estates in the hands of the Administrator and withdrawals are made under his direction.

B Under Section 16 of the Public Works Act, contractors are required to furnish security for the satisfactory performance of the work. This security may be in the form of cash (accepted cheque) or specified bonds. Cash deposits are credited to this account and bear interest at the rate of 2 per cent per annum compounded annually. Upon administrative certification, releases are made to contractors. Bonds furnished as security are held in the custody of the Minister of Finance but are not recorded in this account. At the close of 1943-44, bonds so held in respect of the Department of Mines and Resources amounted to \$296,500.

The amount in Mines and Geology account represents a deposit in connection with a guarantee that equipment rented to certain mining companies would be returned in good condition.

C This account represents the amount of the fund created under authority of the Land Titles Act, c. 118, R.S., to indemnify title holders who have suffered injury because of mis-descriptions in titles and from other causes specified in the Act. Fees are collected from the parties who register deeds with the Registrars of Land Titles in the Northwest Territories and the Yukon. Interest is added to the fund annually, the present rate being 3 per cent. The receipts consisted of fees, \$153.79, and interest, \$552.16. Over a long period of years there have been no claims for compensation paid from the fund.

D Revenue from the sale of liquor in the Northwest Territories is credited to this account and disbursements are made for territorial purposes in accordance with the Territorial Liquor Ordinance of April 27, 1939, as amended. The province of Saskatchewan acts as territorial liquor agent and operates stores at Fort Smith and Yellowknife. After deduction of certain agreed costs, the net receipts are forwarded to the Receiver General. Receipts are: liquor profits, Fort Smith store, \$75,792.46; liquor profits, Yellowknife store, \$32,480.70; fines, \$1,129.67; refunds of expenditure, \$5,139.82. Disbursements are: purchase of fire-fighting equipment, \$1,858.23; one-half salary and bonus of dietitian in connection with nutritional survey of the Northwest Territories, \$890.52; services and travel expense of economic geographer in connection with special investigation, \$2,291.67; sundry payments and allowances, \$550.

E Funds advanced by the Calgary Power Company for payment of fees and expenses of a consulting engineer, a landscape consultant and an inspecting engineer, in connection with construction and operation of a dam for the storage of a limited amount of the waters of the Cascade River and Devil's Creek in Lake Minnewanka (P.C. 7382 of December 13, 1940).

F Funds advanced by the Province of British Columbia and the Dominion Government as represented by the Department were credited to this account, in order to meet expenditures incurred in connection with boundary delineation work in accordance with the terms of P.C. 5355 of July 5, 1943.

G The balance at April 1, 1943 represented refunds to the Fund in the fiscal year 1933-34. As no further refunds are anticipated, the amount was transferred to Revenue—Previous Years' Expenditure in the present year.

H The Indian Trust Funds represent the funds belonging to the Indian Bands throughout Canada. Receipts were derived from: earned interest, land rentals, land sales, mining dues, timber royalties, oil land rentals and fines, and a grant of \$7,500 from the statutory vote, Indian Annuities, to assist in the payment of the Robinson Treaty annuities. Disbursements comprised capital and interest distribution, improvements to Indian Reserves, upkeep of Band property and general assistance to Indians.

B By mutual agreement between the Dominion Government and the Province of British Columbia, all dues received in connection with the sale of timber cut on the Government Reserve at Port McNeill, B.C.; were placed to the credit of this account pending decision as to the question of ownership of the land. Decision having been obtained that the land belonged to the Province of British Columbia, the sum of \$3,955.45 was paid over to the Minister of Lands, Province of British Columbia. The balance of \$83.16 represented interest which had accrued on a portion of the amount, while held in Contractors' Securities, and was transferred to Interest on Public Debt.

C This account represents fines, cash bonds, deposits, etc., collected under the Immigration and Chinese Immigration Acts and held in suspense pending final disposal either by refund to the original depositors or forfeiture to the Government.

## GENERAL COMMENTS

During the year, under the terms of an agreement authorized by P.C. 2901, May 12, 1943, the Government of the United Kingdom transferred to the Government of Canada, at cost, all assets representing its capital investment in munition plants in Canada. At the close of the fiscal year the final valuation thereof had not been determined. It has subsequently been set at \$206,963,965.85, of which amount \$200,000,000 was advanced in 1942-43 and \$5,000,000 in 1943-44.

By the terms of another agreement, which was approved by P.C. 2092, March 23, 1944, and which became effective as of August 31, 1943, the Government of the United Kingdom also transferred to the Government of Canada (with certain exceptions) its interest in munitions production contracts in Canada. This included its equity in the Joint Production Pool as well as production advances it had furnished to private contractors. On account of the latter, Canada made a payment to the United Kingdom of \$120,000,000 as authorized by P.C. 5560, July 13, 1943; but up to the close of the fiscal year, the aforesaid equity in the Joint Production Pool had not been established.

In reporting expenditures chargeable to this Department, consideration has been given to agreements between the Minister of Munitions and Supply and the Governments of the United Kingdom and of the United States with respect to refraining from the publication of information which might be of value to the enemy.

Because of the nature of the expenditures made from year to year, it is felt that the cumulative picture is of equal, and perhaps of more, importance than the current one. Since the appropriation and allotment accounts deal only with the current situation, a balance sheet presentation has been included (see page K-24) which summarizes the expenditures from commencement of the war to March 31, 1944. It will be noted, though, that certain aspects of the information contained in the supporting schedules thereto supplement the details given in the appropriation and allotment accounts.

There are two appendices attached to this section commencing at page K-71. The first contains the operating statements and balance sheets, certified by the Auditor General of Canada, of Crown Companies operating under agreements with the Minister; and the second, the balance sheets and operating statements of the Dominion Arsenals at Lindsay and Quebec.

## CONTRACTS

*General.*—Details of the various types of contracts used by the Department of Munitions and Supply are given on page K-3 of Part II, Public Accounts, 1942-43.

*Termination of Contracts.*—Substantially all contracts placed by the Department of Munitions and Supply contain a clause permitting termination or cancellation in whole or in part before completion, at the discretion of the Minister. In the event of termination before completion, the contractor is entitled to payment for satisfactory services performed and to reimbursement of proper costs and commitments incurred up to the date of termination.

Under the conditions set forth in P.C. 5452 of July 9, 1943, authority has been granted to make interim or partial payments to a contractor in such amount as the Minister of Munitions and Supply may approve or authorize pending the conclusion of negotiations in connection with the terminated contract. Payments of this nature are considered as accountable advances to be taken into account in the final settlement. Such payments are subject to the approval of the Settlements Review Committee which has been established to approve, on behalf of the Minister, interim payments or final settlements under terminated contracts.

P.C. 9018 dated November 23, 1943, grants authority to the Minister of Munitions and Supply to reimburse a contractor for certain costs and expenses resulting from the termination of a contract which may be incurred after the date of termination.

By P.C. 136 of January 21, 1944, authority has been granted to the Minister of Munitions and Supply to make final settlements, upon such basis and terms as the said Minister may deem proper (subject as herein-after provided), of claims based upon or arising out of the termination or partial termination, prior to completion, of contracts entered into or placed by the said Minister in the name or on behalf of His Majesty, and to enter into and carry out such contracts or agreements as the said Minister may consider to be necessary or appropriate to evidence or give effect to any settlements so made; provided, however, that no such settlement shall be made or carried into effect, except with the authorization or approval of the Governor in Council, if the amount payable thereunder (exclusive of any amounts payable pursuant to the authority conferred by Order in Council P.C. 9018 of November 23, 1943), together with any amounts paid under the terminated contract prior to termination, shall exceed the total amount paid or payable pursuant to such contract for all of the work which would have been performed thereunder if the contract has not been terminated.

Payments made are a charge to the appropriations of the Department or Service on whose behalf the contract was placed.

- A This company acts as agent of the Department and makes loans to Atlas Steels Ltd. (Contractor) for two purposes: (1) plant extensions; and (2) working capital. The plant extension loan is interest free; while the working capital loan bears interest at 4 per cent per annum. Additional interest may be collected in certain circumstances. The plant extension loan will be liquidated within a maximum period of five years. Annual instalments are made, the amounts of which depend on operating results. The working capital loan is to be repaid within one year after cessation of hostilities or termination of agreement.
- BCD The advances to these companies are for the purchase, storage and disposal of various commodities. The administration and handling expenses of the respective companies are absorbed in sales. There is no charge for interest on such advances.
- E-J The advances in connection with these companies were previously charged as expenditures against the War Appropriation.
- K This account is in connection with the procurement of supplies purchased for the United States Government in accordance with the terms of the Hyde Park Declaration.
- L This loan is to be repaid by January 1, 1962. Annual instalments are to be made, the amounts of which are to be based on operating results. Extra payments may be made if desired.
- M These loans were granted under authority of the Emergency Coal Production Board for the purpose of ensuring maximum production through more efficient operation in the coal mining industry.
- N This consists of two loans. The first loan is to be repaid by November 30, 1952 and the company is to make quarterly instalments commencing November 30, 1942. Interest at 5 per cent per annum is assessed on arrears. The second loan is to be repaid by April 1, 1954, with interest at  $3\frac{1}{2}$  per cent per annum and the company is to make annual instalments commencing April 1, 1945.
- O This loan is to be repaid by April 1, 1946. Annual instalments of 25 per cent of the loan are to be made. Interest at 6 per cent per annum is assessed on arrears.
- P This loan is to be repaid in monthly instalments with interest at 5 per cent per annum. When the power installations are no longer operated for war purposes, there is provision for adjustment on any payments not due at that time. No payments were received during the current fiscal period.
- Q This loan is to be repaid in annual instalments, the amounts of which are based on operating results. If not fully repaid within six months after cessation of hostilities, there is provision for adjustment. No payments were received during the current fiscal period.
- R This loan is to be repaid on the basis of a fixed price per ton of carbide sold and delivered and if same is not fully refunded when hostilities cease, there is provision for adjustment. Interest at  $4\frac{1}{2}$  per cent per annum is assessed.
- S This loan is to be repaid on the basis of a fixed amount per ton of cold drawn steel produced, commencing January 1, 1942. If it is not fully refunded when hostilities cease, there is provision for adjustment.

A Under Section 16 of the Public Works Act, contractors are required to furnish security for the satisfactory performance of the work. This security may be in the form of cash (accepted cheque) or specified bonds. Cash deposits are credited to this account and bear interest at the rate of 2 per cent per annum compounded annually. Upon administrative certification, releases are made to contractors. Bonds furnished as security are held in the custody of the Minister of Finance but are not recorded in this account. At the close of 1943-44, bonds so held in respect of the Department of Munitions and Supply amounted to \$4,814,905.

BE These accounts are credited with advances from the respective governments for the purchase of war supplies and debited with the value of the relative shipments.

F This covers accruals of semi-annual deposits by Sorel Industries Limited for net depreciation charges assessed against that portion of the plant owned by the Government of Canada. Under the contract, the Company is allowed to charge special depreciation rates on its portion of the plant, and similar rates are assessed on the Crown investment.

When the value of actual replacements in the Crown plant do not equal the amount of depreciation assessed, the unused balance is remitted and credited to this account. The Company is permitted to draw upon this fund when the situation is reversed.

A When cash is received from contractors and others without sufficient information for proper application of the credit, the funds are credited to this account pending clearance to the proper accounts.

B All cheques, except those drawn against Open Accounts, which remain undelivered after six months subsequent to the date of their issue, are credited to this account. The balance represents the liability in respect of this Department at the close of 1943-44.

C This account is credited with advances from the Canadian Mutual Aid Board for the purchase of war supplies for the United Nations (other than Canada) and debited (a) with the value of such purchases which consisted to \$724,410,718.64 from Mutual Aid funds, and \$27,945,296.32 from cash provided by the United Kingdom; and (b) with the refunds of the unexpended balance of the advances at the close of the fiscal year. Further details are shown under the Canadian Mutual Aid Board, section ZZ of this Report.

D This reserve appears in the balance sheet of the company. It has been recorded in this account pending decision as to its disposition.

EI These revolving funds were established to facilitate the provision of working capital to plants engaged in the production of war materials and other related matters.

During the year it was decided that the policy of operating revolving funds as Open Accounts would be discontinued effective after March 31, 1944. Accordingly, the balances in these funds at the close of the fiscal year were transferred to the allotments from which the advances had been made.

*Munitions Production Revolving Fund*

E During the year an agreement was reached between the Canadian and United Kingdom Governments whereby the latter transferred its interest in munitions production contracts in Canada to the Canadian Government. This included the equity in the Joint Production Pool (financial transactions in this connection are recorded through this account). The agreement was approved by P.C. 2092 of March 23, 1944, and took effect as of August 31, 1943, but the United Kingdom's equity in the Pool had not been definitely determined at the close of the year.

Details of expenditures in excess of \$10,000 during the fiscal year are as follows: (a) Net advances for working capital to prefinanced plants: Algoma Steel Corporation, Ltd., \$498,310.65; Border Cities Industries, Ltd., \$4,261,757.36; Canada Strip Mill, Ltd., Montreal East, P.Q., \$1,709,487.30; Canada Strip Mill, Ltd., New Toronto, Ont., \$1,329,245.41; Canadian Pacific Railway Company, \$9,664,129.80; Defence Industries, Ltd., Montreal, \$2,456,759.58; Defence Industries, Ltd., Westmount, \$1,074,650.97; Defence Industries, Ltd., Windsor, \$153,508.72; Dominion Bridge Co., Ltd., \$2,968,662.98; Dominion Engineering Works, Ltd., \$4,883,890.22; Dominion Magnesium, Ltd., \$656,574.51; Dominion Rubber Munitions, Ltd., \$2,088,676.95; Electric Reduction Co. of Canada Ltd., \$406,118.70; Electric Steels Ltd., \$2,936,711.27; Ferranti Electric Co., Ltd., \$599,289.97; Genelco Ltd., \$15,205,868.26; Industrial Associates Ltd., \$1,009,131.07; John Inglis Co., Ltd., \$40,238,177.47; Montreal Locomotive Works Ltd., \$95,849,335.79; National Railway Munitions Ltd., \$6,720,365.02; Northern Electric Co., Ltd., \$1,968,546.96; Otis-Fensom Elevator Co., Ltd., \$12,887,455.12; Regina Industries Ltd., \$6,067,719.01; Research Enterprises Ltd., \$11,725,706.45; Shawinigan Chemicals Ltd., \$17,576.48; Stormont Chemicals Ltd., \$600,614.33; Vivian Diesels & Munitions Ltd., \$2,435,749.29; York Arsenals Ltd., \$3,899,734.91.

Reserve for adjustment of interim billings and reserve for unascertained losses and other contingencies of Crown companies. These are recorded in these accounts, pending decision as to disposition.

The amount of \$10,564,107.37, set up in connection with Research Enterprises Ltd., was based on an Account, "Reserve for Adjustment of Interim Billings" as shown on the Company's Interim Balance Sheet as at February 29, 1944. The Company's balance sheet as at March 31, 1944, certified to by the Auditor General, was received subsequent to the closing of the Departmental accounts. The latter balance sheet reflects the following reserves:

Reserve for rehabilitating premises expropriated with limited interest.....	100,000 00
Reserve for cost of research and experimental services rendered by the National Research Council .....	1,500,000 00
Reserve for adjustment of interim billings .....	7,609,499 78
Total .....	<u>\$9,209,499 78</u>

The balance sheet of Wartime Shipbuilding Ltd., as at March 31, 1944, certified to by the Auditor General, was received subsequent to the closing of the Departmental accounts. The balance sheet reflects an item "Interim Billings Adjustment Account" in the amount of \$6,880,432.72, which covers the excess of estimated cost of ships delivered to March 31, 1944, over total of interim billings.

## APPENDIX I

## GOVERNMENT-OWNED (MUNITIONS) COMPANIES

In accordance with the powers contained in Section 6 (3) (a) of the Department of Munitions and Supply Act, the companies listed below were operating under agreements with the Minister as at March 31, 1944. The agreements provide in general that the Minister shall at all times have the right to exercise such control over the affairs and operations of the Company as he may in his absolute discretion think fit, and that the Company shall do or refrain from doing, as the case may be, all such things as the Minister may from time to time direct, and that all obligations of His Majesty under this agreement are conditional upon the Company acting accordingly.

In accordance with Section 6 (3) (c) of the above mentioned act, the Auditor General is the Auditor of such companies, and the balance sheets certified to, by him, together with related statements are furnished herewith. Statements for Eldorado Mining and Refining Ltd. were not furnished, as this company was incorporated January 28, 1944, its current fiscal year-end being December 31, 1944.

The assets referred to in the footnote on the balance sheets included in this appendix represent the Government's investment in plant and equipment, and were acquired from advances set out in Schedules 1 and 4 to the Department of Munitions and Supply Balance Sheet, see pages K-26 and K-28.

The following is a list of the companies.

## Notes:

As at March 31, 1944, there may have been drawings and advances, of which the Company had not received notification, chargeable against "red clause" letters of credit totalling \$12,656,914.54 (£2,612,224 9-10 and \$883,127.08 U.S.), converted at current rates of exchange guaranteeing drawings made on shipment and also, in certain cases, advances made prior to shipment. Of this total, a part may be represented by the amount of \$415,864.26 due to unidentified creditors, for rubber received in Canada but not covered by necessary proprietary documents, and in connection with these and certain other receipts of rubber the Company had entered, jointly and severally with its bankers, into bonds of indemnity to the amount of \$1,912,022.55 (including \$334,704.92 U.S., converted at current rate of exchange) in favour of the steamship companies concerned.

Pursuant to Order in Council P.C. 5750 of July 20, 1943, as amended by P.C. 3905 of May 26, 1944, the Company's inventories of crude rubber on hand and in transit were written up to market value as at June 30, 1943, the amount of the write-up being carried to Inventory Appreciation Reserve, which reserve was augmented subsequently when minor purchases of rubber were made below normal replacement cost. Subsequent to June 30, 1943, cost of sales and resultant profit were computed on the basis of the revised inventory value.

Approved on behalf of the Board.

Director.  
GERALD JEPHCOTT,  
Director.

NOTES:

The production assets and liabilities of Morton Engineering & Dry Dock Co. Ltd., and Geo. T. Davie & Sons Co. Ltd., were taken over by the Company on July 26, 1943. They were included in the accounts at their book values as at June 30, 1943, as adjusted subsequently, but are subject to final adjustment when agreements are entered into between the Crown and the two companies mentioned, respecting the bases of the expropriation settlements.

As at March 31, 1944, the Company had in its charge, Crown-owned capital assets with a cost valuation of \$2,327,429.61 (Exhibit "A").

Approved on behalf of the Board.

WILFRID GAGNON,  
Director.  
ROBERT W. MORTON,  
Director.

I have examined the accounts of Quebec Shipyards Ltd., Chantiers Maritimes de Quebec Ltée, for the period from June 16, 1943, the date of incorporation, to March 31, 1944, and have obtained all the information and explanations I have required.

The book values of the production assets and liabilities of Morton Engineering & Dry Dock Co. Ltd., and Geo. T. Davie & Sons Co. Ltd., taken over by the Company on July 26, 1943, were unadjusted in certain respects in the Company's records.

In my opinion, subject to the foregoing observation, and to the limitation explained in the first of the Balance Sheet foot-notes, the above Balance Sheet is properly drawn up so as to exhibit a true and correct view of the state of the Company's affairs as at March 31, 1944, according to the best of my information and the explanations given to me and as shown by the books of the Company.

NOTES:

The provisions of the agreement between the Company and certain agencies of the United States Government, regarding the limitation of profits, may entail refunds of amounts received and/or adjustments of amounts receivable by the Company. To March 31, 1944, interim refunds of \$40,000,000 and \$10,000,000 were made, on the Company's behalf, to the War Department and the Maritime Commission, respectively. There is an indeterminate liability in connection with unamortized expenditures incurred in the development and expansion of marginal and sub-marginal mineral properties.

Approved on behalf of the Board.

	\$ 11,625 00	\$ 11,625 00	\$ 6,760 48

These grants are mainly for the purpose of encouraging and promoting interest in rifle shooting, assisting rifle associations in defraying expenses of annual prize meetings and assisting military and united services institutes.

In view of the urgent necessity of using all available funds for more essential war services, it was decided to discontinue the grants to service associations. Activities of rifle associations, other than the Dominion of Canada, have been suspended for the duration of the war.

Payments were made to associations and institutes as indicated in the expenditures column above.

- (a) Prior to the fiscal year 1942-43 expenditures on internment operations were divided between the Department of the Secretary of State and the Department of National Defence. Pursuant to the provisions of P.C. 36/500, dated January 20, 1943, the administration of internment operations and refugee camps was transferred to this Department.
- (b) Effective April 1, 1942, all aspects of censorship were co-ordinated under the Department of National War Services in accordance with P.C. 4012 of May 13, 1942, and Treasury Board Minute T.226417 B., dated June 26, 1942.
- (c) This expenditure is for the fiscal year 1942-43 only. Expenditures prior and subsequent to the fiscal year 1942-43 were provided for under Army Services allotment.
- (d) Provided for under Army Services allotment commencing with the present fiscal year.
- (e) Provided for under Army Services allotment commencing with the fiscal year 1942-43.

## GENERAL COMMENTS

*Sundry Services.*—Included under the heading of Sundry Services in the following details of expenditures are the costs of services of a special nature and services which pertain to the three main services (Army, Navy and Air) collectively.

*Purchase of Material.*—Aside from local purchase authority granted to various National Defence officials, the Department of Munitions and Supply purchases all material.

*List of Suppliers.*—A list of amounts totalling \$10,000 or over paid to contractors and suppliers is given further on in this section.

*Payments made to Commodity Prices Stabilization Corporation Limited.*—Under the terms of P.C. 625, February 1, 1944, the principle was established that if any commodity purchased by a department of the government is subject to payment of a subsidy by the Corporation, the cost of such subsidy is to be borne by the department concerned and not by the Corporation. Accordingly, and as the Corporation pays these subsidies initially, this Department refunded to the Corporation during the year the amounts it had expended for subsidies on commodities purchased by this Department as follows: fresh milk, \$1,107,882.96; butter, \$742,584; grapefruit juice, \$13,000; crude oil products, \$11,874.31.

*Purchases in the United States.*—Materials are procured from suppliers in the United States through three main channels: private American contractors, the Government of the United States, and the British Ministry of Supply Mission.

Payment for purchases from private firms is made in advance of shipment by means of requisition for cheque submitted through the Department of Munitions and Supply. This prepayment plan developed from the provisions of the Neutrality Act which terminated with the entry of the United States into the war. With few exceptions, this plan is still being used and has developed considerable unliquidated advances which are

cleared when suppliers' invoices certified as to receipt of materials by officials of the Department of National Defence are received. Some difficulty is still being experienced in obtaining certified invoices, although considerable improvement in reducing these advances was noted during the present fiscal year and of the several millions advanced during 1940-41 and 1941-42 all have been cleared with the exception of the relatively small amount of \$263,623.

Certain supplies, by reason of priority, were obtained from the Government of the United States through the Office of Lend Lease Administration. Purchases of this nature are known as Canpay Requisitions and payment is made to the Treasurer of the United States. Prior to June, 1942, these items were handled on a prepayment basis similar to the plan developed for payment to private suppliers. This proved impracticable due to difficulties associated with the allocation of materials, which sometimes occasioned long delays, and large refunds of advances became necessary. The prepayment plan was abandoned in June, 1942, in favour of a suggested monthly payment plan for actual shipments supported by certified vouchers (known as Shipping Tickets). However, due to difficulties which developed in obtaining proper documentation, this proposed plan did not become operative and interim advances against shipments were made in the following amounts (American funds): \$18,000,000 in April, 1943 (1942-43); \$27,000,000 in December, 1943; and \$160,000,000 in April, 1944 (total in Canadian currency, \$227,550,000).

In an endeavour to assist in having a reasonably expeditious accounting for advances made, a branch office of the Canadian Treasury was opened in Washington during the early part of the fiscal year. It has consulted the various departments of the Canadian government involved, and has established effective contacts with those departments of the United States government that are concerned with supplying the required materials. To date, it is felt that satisfactory progress has been made toward liquidation of outstanding advances.

Supplies not procurable from other sources are obtained from the British Ministry of Supply Mission in the United States. These items are paid in Canadian funds against certified shipping tickets. To March 31, 1944, orders had been placed with an estimated value of \$5,881,070; and deliveries have been completed and paid for in the amount of \$1,779,420. This arrangement was terminated during the fiscal year.

*Cancellation of Contracts.*—Due to various factors, but mainly that of diminishing requirements, contracts are subject to termination when considered necessary. The procedure concerning compensation charges is covered by regulations of the Department of Munitions and Supply pursuant to the provisions of P.C. 9018 dated November 23, 1943, and P.C. 136 dated January 21, 1944. The amount paid by this Department (Army) during the fiscal year was \$16,397.79.

*Capitation rate for maintenance of Canadian Army Forces in the United Kingdom.*—As a result of extensive negotiations carried out between overseas representatives of the Department of National Defence—Army Services and officials of the War Office of the United Kingdom, an agreement was reached during the fiscal year for settlement on the basis of capitation rates for the maintenance of Canadian Army Forces, from the date of their arrival in the United Kingdom to September 30, 1942, inclusive.

This capitation rate, approved by P.C. 59/2814 dated April 7, 1943, covers the cost of supplies and stores, other than initial equipment, supplied from British sources and is made up of the items listed hereunder.

Negotiations are in progress with a view to agreement on capitation rates for maintenance subsequent to September 30, 1942 in areas within and outside the United Kingdom.

Accountable advances were made to the United Kingdom Government during the fiscal year 1943-44 for maintenance of Canadian Army Forces amounting to \$84,734,125, including \$20,915,000 for maintenance in theatres of operations outside the United Kingdom.

Advances are made monthly, the theatres of operations in which Canadian Troops serve being determining factors in arriving at a tentative amount for each monthly payment. Advances for maintenance in theatres of operations outside the United Kingdom are based on a tentative rate of 15 shillings per man-day. Necessary adjustments will be made as and when final rates are approved for periods subsequent to September 30, 1942.

*Initial equipment supplied from British sources to the Canadian Army in the United Kingdom.*—This comprises engineer stores, signal stores, general stores, certain types of vehicles, artillery ammunition, small arms ammunition, medical stores, clothing and personal equipment, etc., supplied from time to time, from British stocks to the Canadian Army in the United Kingdom. British and Canadian stocks are pooled and settlements are made from time to time based upon Canadian contributions to and withdrawals from such stocks.

*Capitation rate for Ocean Transportation on chartered vessels to and from the United Kingdom.*—Original arrangements covering ocean transportation of Canadian Armed Forces to and from the United Kingdom on vessels chartered by the British Ministry of War Transport were to the effect that Canada was to pay the actual hire and operating costs of each vessel for the period that it was in use transporting Canadian Forces.

As this method of payment was found impracticable, a tentative agreement was reached with the British Ministry of War Transport which has been authorized to accept settlement on the basis of the following per capita rates for eastbound or westbound single passage, including equipment and baggage, on chartered troopships between Canada and the United Kingdom.

As approved by P.C. 5824 dated July 29, 1943 and P.C. 65/1983 dated March 21, 1944, the capitation rates are as follows:

Period	Sterling	Canadian Equivalent at \$4.47 to the £	Authority
Beginning of War to Dec. 31, 1940.....	£23	\$102 81	P.C. 5824
Jan. 1, 1941 to Dec. 31, 1941.....	21	93 87	P.C. 5824
Jan. 1, 1942 to Dec. 31, 1942.....	17	75 99	P.C. 5824
Jan. 1, 1943, to Dec. 31, 1943.....	17	75 99	P.C. 65/1983
Jan. 1, 1944, until review requested by either Government	15	67 05	P.C. 65/1983

Rates for children entitled to transportation in 1943 and 1944 are authorized by P.C. 65/1983 as follows: Over 5 years up to 12 years—50 per cent of adult rate; over 1 year up to 5 years—25 per cent of adult rate; up to 1 year—15 shillings.

The foregoing per capita rates are applicable to the following personnel: Canadian Army Forces, Royal Canadian Air Force, Royal Canadian Navy, all Canadian Government civilian employees and other authorized persons, the payment of whose passage is a Canadian Government responsibility.

Advances made to the British Ministry of War Transport up to March 31, 1944 are: 1940-41, \$2,905,500; 1941-42, \$6,705,000; 1942-43, \$6,705,000; 1943-44, \$7,152,000. These payments are to be accounted for by submission of supporting statements from overseas officials.

*Joint United Kingdom and Canada Ordnance Depot.*—This depot, situated in Canada, is a joint undertaking for the purpose of receiving, assembling, issuing and shipping to the United Kingdom or any theatre of war, technical stores and vehicles manufactured in Canada and in the United States, for Canadian account, United Kingdom account and the accounts of other Allied governments.

A basis for the division of capital costs had not been agreed upon at the close of the fiscal year but it is proposed that operating costs be pro-rated on the basis of tonnage shipped.

*Inter-Service financial adjustments pertaining to Navy, Army and Air Force Services.*—During the year considerable progress was made in eliminating or simplifying financial adjustments with the Armed Services involved, thereby effecting appreciable economies:

(a) Damage claims against the Crown.—P.C. 62/9745 dated December 27, 1943, provides, "that claims for damages to vehicles, stores or other public property and for expenses and non-effective charges incurred relative to injured Service personnel, arising out of any accident between vehicles of any two or more of the Armed Services of Canada be dealt with on the basis of mutual forbearance of claims (knock for knock basis).

"That damages payable for personal injuries to, or damage to property real or personal of, persons or corporations other than the Armed Services or the members thereof, arising out of or caused by or through accidents involving vehicles of any two or more of the said Services, be borne by and debited to the Service whose vehicle, in the opinion of the Judge Advocate-General, was primarily responsible therefor.

"That the provisions of this Order apply to all outstanding claims not finally disposed of as of the date hereof". This Order in Council further provides "that all claims for \$200 or more made by persons or corporations other than the Armed Services or the members thereof shall be referred to the Deputy Minister of Justice pursuant to the provisions of P.C. 80/1045, dated March 19, 1940, with a request for his opinion as to whether or not in the circumstances, there is any legal liability on the part of the Crown, and if so, whether the claim should be settled in full or an endeavour made to obtain a compromise". Similar arrangements are in force as between Canada, the United Kingdom and the United States.

(b) Dental Services.—A simplified system of financial adjustments covering costs of Canadian Army dental companies attached to the Naval Services was inaugurated during the present fiscal year. An agreement was reached whereby the army, in return for a lump sum payment from the Naval Services based upon the estimated cost of the services to be rendered by the dental companies and detachments, would assume the actual cost as a charge to Army Appropriation.

Accordingly, as authorized by Treasury Board Minute T.247976 B dated September 30, 1943, an amount of \$600,000 was received from the Department of National Defence, Naval Services, to cover expenditures during the fiscal year 1943-44 for pay and allowances, travel, transportation and accommodation of personnel of the Canadian Dental Corps serving the Royal Canadian Navy, and credited to the allotment for Army Services.

Arrangements, whereby actual pay and allowances, travel, transportation, rations and accommodation of Canadian Dental Corps personnel of the Army serving the Royal Canadian Air Force are paid from Air Force funds, have been in operation since 1942.

(c) Medical Stores.—P.C. 90/3303, dated April 23, 1943, provides, "that authority be granted for the Department of National Defence, Army, to render unitemized bills on a lump sum basis to the Department of National Defence for Naval Services and the Department of National Defence for Air and that these Departments be empowered to make settlement on that basis and for such amounts as may be agreed upon."

As provided in this Order in Council, payments were made by the Naval and Air Services of \$250,000 and \$725,000 respectively, for anticipated procurements, during the fiscal year ending March 31, 1944, and credited to the allotment for Army Services.

Subsequent to this Order in Council it was ascertained that the payment by Air Services covered expendable medical stores only, while payment from Naval Services represented both expendable and non-expendable stores. Consequently, as authorized by P.C. 65/3275 dated May 3, 1944, a further payment of \$390,000 covering non-expendable medical stores supplied by the Army during the fiscal year was received from Air Services, and credited to the allotment for Army Services.

*Inter-Department financial arrangements.*—Medical arrangements for the Defence Forces in Canada: When services pertaining to hospitalization of Army personnel are performed by the Department of Pensions and National Health, the agreement now in effect provides that payments of accounts covering such services are absorbed by the above mentioned Department in a special appropriation allotted for this purpose. Consequently, no bills in this connection are submitted to or paid by the Department of National Defence.

If personnel are not referred to the Department of Pensions and National Health for hospitalization or treatment, the bills in such cases are paid by the Department of National Defence in the usual manner as the former department does not pay for treatment of personnel who have not been referred to them.

*Medical and dental attention of Canadian personnel in the United States of America and of United States personnel in Canada.*—Arrangements have been completed whereby personnel of the United States Navy, United States Army, and any other components of the Armed Forces of the United States, while on duty, on furlough, or on leave of absence in Canada, and who cannot reasonably obtain medical care (including out-patient, medical or dental treatment and hospitalization) from the medical and dental facilities provided by their own Government, receive such medical care as is necessary to meet their immediate requirements from the medical and dental facilities under the jurisdiction of the Naval, Military and Air Force of Canada, to the extent that such facilities are available. This is on a free and reciprocal basis. Should the period of this medical care exceed thirty days, the authorities concerned are notified with a view to transferring the patients to medical or dental facilities in their own country.

Salaries and Wages are those of civilians employed by Army Services, including: surveyors and engineers employed by the Engineer Services; clerks and stenographers in Army offices and Ordnance Depots; caretakers, firemen and others employed at Army properties. Wages of employees on day labour projects performed by Engineer Services are included in E—Construction and Repairs; and wages of personnel employed at Ordnance Depots as packers, helpers, etc., are shown separately under F—Casual Labour.

As of March 31, 1944 there were 14,685 civilian employees paid from this account. The following were receiving salaries at an annual rate of \$2,400 or over, exclusive of cost of living bonus, on that date or at date of separation (shown in brackets). The travelling expenses of these employees, where the amount was in excess of \$300, are also shown.

The following employees, serving without salary, were receiving living allowances as at March 31, 1944, at rates listed: Per diem rates—B. A. Cockburn, \$10; A. S. Ellis, \$20; H. S. Parkes, \$10; C. S. Pipe, \$10.

Travelling expenses in excess of \$300 were paid to: H. S. Parkes, \$1,557.66.

B These pay and allowances are in respect of all formations and units on active service or which have been embodied for continuous military service including the Canadian Women's Army Corps, recruits called out under the National Resources Mobilization Act, personnel of the Reserve forces for local headquarters training and at camps of instruction.

Expenditures of this nature in respect of Departmental Administration, the Dependents' Allowance Board, Internment Operations and other divisions shown under the heading, Sundry Services, are not included.

Pay and allowances of the Reserve Army during the fiscal year amounted to \$4,779,001.05. The standard rates of pay are the same as the minimum permanent force rates ranging from 60 cents per day for a boy to \$9.20 per day for a colonel. No allowances are paid to dependents. Extra pay rates are: Adjutants, 50 cents per day; tradesmen, 25 cents to 35 cents per day. In certain circumstances, trained personnel may be paid a special rate of extra pay not exceeding \$1.50 per day. Field allowances range from \$3 per day for Camp Commandants to 10 cents per day for rank and file. Subsistence allowance (where rations are not provided during the period prior to arrival or following the departure of troops) is \$1.70 per day for officers and 85 cents per day for other ranks.

Reserve Recruits called out under the provisions of the National Resources Mobilization Act, 1940, receive the same rate of pay and allowances as personnel of the Active Army.

Active Army Rates of Pay: Staff rates of pay for classified appointment of officers range from \$6 to \$24 per day. In addition, subsistence allowance in lieu of quarters and rations is payable at \$1.70 per day. Per diem rates of standard pay, tradesmen's pay and medical officers' pay are set out below.

In addition to these rates, officers in command of units of 500 or more men receive \$1 per day extra and officers appointed as adjutants within the establishment of a unit are entitled to 50 cents per day extra.

Officers, warrant officers, non-commissioned officers, and men who are ordered to fly in the course of military duty or training are entitled to additional pay for every day on which they fly pursuant to such orders, as follows: officers, \$2 per day; other ranks, 75 cents per day.

An officer or soldier posted to a Parachute Unit as a parachute jumper within the authorized War Establishment, or an officer or soldier attached to a Parachute Training Unit where parachute jumping is an essential part of his duty or training, in addition to his regular pay, tradesmen's rates or any other additional pay to which he is entitled (with the exception of flying pay) is granted extra pay as follows: officers, \$2 per day; other ranks, 75 cents per day.

A cadet, while attending an Officers' Training Centre, until he is gazetted to commissioned rank or removed from the course for any reason, receives the Regimental rates of pay of his substantive rank provided, however, that a cadet does not receive a lower rate of pay than \$3 per day.

Personnel of the Permanent Force who were serving at the outbreak of war have the option of remaining on Permanent Force (pre-war) rates of pay and allowances, but as Active Service rates are in the main higher than those of the Permanent Force, there are only a few isolated cases where these latter rates are being paid.

Canadian Women's Army Corps: Effective July 1, 1943 the rates of pay for all ranks of the Canadian Women's Army Corps were increased. Per diem standard rates of pay are:

<u>Rank</u>	<u>Standard pay</u>
Brigadier .....	\$11 60
Colonel .....	9 60
Lieutenant-Colonel .....	8 00

In addition to the ordinary rates of pay, Canadian Women's Army Corps officers holding staff or administrative appointments receive extra pay, ranging from \$1 to \$3 per day. Subject to such conditions and limitations as are authorized, volunteers are entitled to receive, in addition to the ordinary pay of their ranks, tradesmen's pay ranging from 25 cents to 75 cents per day.

A cadet, while attending a Canadian Women's Army Corps Training Centre for the purpose of qualifying for a commission, receives, until she is gazetted or removed from the course for any reason, the ordinary rates of pay for her substantive rank provided, however, that a cadet does not receive a lower rate of pay than \$2.40 per day.

Volunteers not issued with underclothing and toilet articles are paid an allowance in lieu thereof of \$15 on enlistment and \$3 quarterly thereafter.

Subsistence Allowance: When quarters and rations are not provided in kind, a subsistence allowance is paid as follows: \$1.70 per day to officers; \$1.25 per day to other ranks. In cases of officers and soldiers on duty in the United States, when circumstances arise where the rates of subsistence allowance stated above are not equitable, the Minister may authorize in lieu special rates ranging from \$3.50 to \$8 per day for the period of such duty.

\* Outfit Allowances (\$1,575,025.93): Prior to January 19, 1944, Officers including Nursing Sisters were entitled, on appointment to the Active Army, to an allowance of \$150 to provide themselves with uniforms. Effective January 19, 1944 and not retroactive, this allowance was increased to \$250. An additional amount of \$50 is allowed officers ordered to serve in tropical areas. On transfer to or from a Highland unit, an Officer is entitled to receive an additional allowance ranging from \$60 to \$75 according to specified circumstances.

A Warrant Officer, Class 1, is entitled to receive \$100 as an outfit allowance.

\* Assigned Pay (\$136,528,276.37): An officer is not required to assign pay to his wife or children, unless it is shown that inadequate financial provision is made by the officer, when a compulsory assignment up to fifteen days' pay of rank but not in excess of one hundred dollars per month may be ordered for the reasonable maintenance of the dependents in question. An officer must assign five days' pay of rank if dependents' allowance is issuable to any other dependent relative.

A soldier on whose account dependents' allowance is issuable must assign a portion of his pay each month, as set out hereunder for the benefit of his dependents. The maximum amount assignable each month by a soldier is twenty days' pay of rank and twenty days' tradesmen's pay.

The following amounts are deemed to be fifteen days' pay of rank, which is required to be assigned each month for the benefit of a wife or of children, or, if a soldier has no wife or children for the benefit of another dependent relative to whom dependents' allowance is issuable: Warrant Officer, Class 1, \$60; Warrant Officer, Class 2, \$45; Warrant Officer, Class 3, \$40; Staff Sergeant and Sergeant, \$35; Ranks below Sergeant who are in receipt of regimental pay exceeding \$1.40 per diem, \$23; Ranks below Sergeant who are in receipt of regimental pay not exceeding \$1.40 per diem, \$20; Boy, \$10. If dependents' allowance is issuable to another dependent relative, as well as to a wife or to children, an additional five days' pay of rank must be assigned.

In addition to these assignments, an officer or soldier may assign pay for certain specified purposes.

\* Dependents' Allowances (\$126,921,929.71): These include only the allowances administered by the Dependents' Allowance Board. Supplementary allowances paid from the Dependents' Supplementary Grants Fund are shown under Sundry Services.

Effective January 1, 1943, a cost of living bonus to dependents was authorized in the following amounts: \$1.40 per month to wives; \$2.60 per month to wives and children. These amounts were increased to \$2.20 per month and \$4.12 per month respectively, effective December 1, 1943. This bonus, formerly considered as such, became part of dependents' allowances effective December 9, 1943, and is included in the undermentioned rates.

Awards by the Dependents' Allowance Board are in such amounts as the Board decides, not exceeding the following maximum monthly allowances:

(a) For a wife or a dependent female relative responsible for the care of the dependent children of: An officer above the rank of Major, \$62.20; Major, \$57.20; Captain, 52.20; Lieutenant and 2nd Lieutenant, \$47.20; Warrant Officer, Class 1, \$42.20; all other ranks, \$37.20:

(b) For dependent children falling within either of the undermentioned classes, \$13.92 for the first such dependent; \$12 for the second; \$10 for the third and \$8 for each of the fourth, fifth and sixth such children: (1) A dependent son under 16 years and a dependent daughter under 17 years of age. However, if such child is following and is making satisfactory progress in a course of instruction approved by the Board, an allowance may be paid until such child reaches his or her nineteenth birthday; (2) a dependent son or daughter of any age when such child is unable, owing to physical or mental infirmity, to provide for his or her own maintenance.

It is further provided that, where there is no wife, nor a dependent female relative responsible for the care of the children, the Board may award up to \$20 for each such child not exceeding in total, \$50 for three, \$60 for four, \$70 for five, or \$80 for six, such children.

(c) For a dependent parent or foster parent, a dependent brother under sixteen years of age or sister under seventeen years of age, a dependent brother or sister who prior to the applicant's enlistment was a member of his household and owing to physical or mental infirmity is unable to provide his or her own maintenance and is solely supported by the applicant, a divorced wife, if the applicant is under a legal obligation to contribute to her support; \$30 in respect of such dependents of officers above the rank of Major, \$25 in respect of such dependents of all other commissioned officers, Warrant Officers, Class 1, and all other ranks.

Canadian Prisoners of War: Under the terms of the Geneva Convention, officer prisoners are advanced monthly payments by the detaining Power equivalent to amounts paid officers of corresponding rank of that Power. Amounts so advanced in accordance with the scale laid down by the Convention as well as any other recurring debits such as assigned pay, etc., are charged to the officer's pay account monthly, which continues to be credited with pay during his detention. The balances then remaining are either deposited to the officers' bank accounts or held to their credit.

\* Clothing Allowances on Discharge (\$1,575,077.55): These allowances are paid to personnel upon discharge to provide them with civilian clothing. Prior to November 1, 1943, this allowance was \$35 if the member had served for six months, or, if less than that time, \$27 or \$17, depending upon the time of year discharge took place. Effective November 1, 1943, this allowance was increased to \$65, and payable generally irrespective of period of service or time of discharge.

\* Rehabilitation Grants (\$2,076,503.02): Members of the Military Forces of Canada who have served continuously on active service during the present war for a period of not less than one hundred and eighty-three days are, with certain exceptions mentioned hereunder, entitled to a rehabilitation grant equal to thirty days' pay plus married and/or dependents' allowance, upon discharge, retirement or ceasing to serve. This grant is not payable to members who have ceased to serve by reason of a conviction by a Service or a civil court or who have been retired, discharged or permitted to resign for the purpose of immediate appointment to any other of the Forces of Canada, His Majesty or His Majesty's Allies. The governing authority is P.C. 7521 of December, 1940, and amendments, thereto.

\* Included in the amount shown as pay and allowances on page KK—10.

Various types of leave granted soldiers and conditions governing same are outlined hereunder.

Compassionate Farm Leave.—This leave, granted to individual soldiers, is without pay or allowances of any kind, medical or dental attention, hospitalization or compensation due to illness, injury or death while on such leave. Return transportation, together with meal tickets are issued by the Department. If the soldier's destination is not more than 500 miles from his station, full transportation costs including meals and berth are recovered from the Department of Labour. If the distance exceeds 500 miles, he is required to reimburse this Department for his transportation and meals for the excess distance.

Farm Duty (Authority of P.C. 5931, July 24, 1943).—A soldier detailed for farm duty proceeds under military orders and remains attached to his unit during the period of such duty. He is provided by this Department with return transportation, together with meal tickets, the value thereof to be ultimately recovered from the Department of Labour. He continues to receive his normal pay and allowances, including trades pay and dependents' allowance if in effect, but not including subsistence allowance as accommodation and meals are supplied by the farmer with whom he is employed.

The Department of Labour will pay to this Department, for each day a soldier is employed, the minimum daily rate per soldier hereinafter set forth:—

(a) Western Canada, to include Military Districts Nos. 10, 12, 13 and Pacific Command—\$4 per day.

(b) That portion of Ontario not included in Military District No. 10—\$3.50 per day.

(c) Quebec and the Maritime Provinces—\$3 per day.

Upon termination of such employment, if the amount payable by the farmer to the Department of Labour in respect of the services performed by the soldier exceeds the amount of his pay and allowances, the amount of such excess is payable to the soldier.

Forestry Leave.—Upon application, forestry leave may be granted without pay and allowances of any kind, and personnel will not be entitled to medical or dental attention, hospitalization, or compensation due to illness, injury or death while on such leave. This Department supplies return transportation and meal tickets and is repaid by the Department of Labour.

Railway Duty.—As provided by P.C. 9079 dated December 7, 1943, a soldier ordered to perform railway duty is supplied by the Railway Companies with return transportation and meals while travelling to place

of employment. He continues to receive his normal pay and allowances including trades pay and dependents' allowance if in issue but not subsistence allowance as meals and accommodation are provided by the Railway Companies. Payment is at the rate of not less than \$4 per day per soldier and is payable to the Department of Labour which, in turn, reimburses this Department. If the amount earned by the soldier is in excess of his normal pay and allowances, such excess earnings are payable to the soldier concerned.

**Coal Miners' Leave.**—Owing to the national emergency created by the shortage in Canada's coal production, it became necessary to arrange that skilled coal miners be returned to service in the mines. Soldiers, whose civil occupation was coal mining, may, if they so volunteer, be given leave of absence without pay and allowances to return to their former occupations, provided that the military exigencies of the services will so permit, and that they are to be employed in the actual production of coal from "face to pithead" inclusive. Return transportation and meal tickets are paid by this Department.

C This amount is the total of transportation expenses in connection with the movement of personnel at home and abroad. Transportation expenses of the Reserve Army amounted to \$615,978.90. Travelling expenses of civilian employees, where the amount was in excess of \$300, were shown with the salary lists immediately after the opening comments on this allotment.

D The main items are: fuel, \$7,730,726.78; light, power and water, \$2,868,763.46; rents, \$2,182,739.66; sanitary services, \$216,217.09; telephone exchange service, \$416,733.22.

E These expenditures are in connection with the designing, construction and maintenance of works and buildings.

P The main items are: telephone tolls, telegraph, postage, \$1,461,850.31; recruiting campaign expenses and advertising, \$756,681.62.

Q This amount covers advance payments made to the Treasurer of the United States in the following amounts (American funds): \$27,000,000 in December, 1943, and \$160,000,000 in April, 1944.

R The amount of \$65,960,125 represents advance payments (distribution by primaries and objects of expenditure not yet available) made at Ottawa since July 1943 under the new arrangement changing the place of payment from United Kingdom to Canada for maintenance of the Canadian Army in the United Kingdom and other areas.

S This consists of the following receipts from the United Kingdom Payments Office: \$950,000 as operational charges for the fiscal year 1943-44 in accordance with agreement between the United Kingdom and Canada, approved by P.C. 48/2814 dated April 7, 1943, and \$326,135.27 representing an outstanding liability of the United Kingdom with respect to operational and capital costs for the fiscal years 1941-42 and 1942-43.

The Board is charged with the administration of the Financial Regulations and Instructions governing the payment of dependents' allowances and consists of a civilian chairman, two representatives from each of the Services and one from the Treasury. It has representatives at all Military Districts, Naval Commands, and R.C.A.F. Air Commands throughout Canada. Three representatives, one from each of the Services, are stationed overseas.

An important change in the Board's work resulted during the year from an amendment to the Regulations and Instructions for the Royal Canadian Navy which changed the marriage allowances for that Service to dependents' allowances. These allowances formerly administered by Naval Headquarters, were brought under the administration of the Board in August, 1943.

As of March 31, 1944, there were 416 employees paid from this account. The following were receiving salaries at an annual rate of \$2,400 or over, exclusive of cost of living bonus, on that date or at date of separation (shown in brackets): R. O. G. Bennett, \$6,000; L. J. Carey, \$2,880; R. Harvey, \$2,400; K. M. MacDonald, \$3,600; A. E. G. Mann, \$2,400; D. M. Ormond, \$2,880; J. A. Turney, \$2,760 (Aug. 11); H. E. Whiffin, \$2,520.

By P.C. 18 of January 2, 1942, there was established a Dependents' Board of Trustees to administer a fund to provide supplementary grants and special assistance to dependents of members of the armed forces in Canada. These grants are in addition to the ordinary dependents' allowances administered by the Dependents' Allowance Board.

Grants and special assistance may be paid only to or on behalf of dependents of soldiers, ratings in the Navy, and of airmen, below the rank of warrant officer Class 1. The purpose is to prevent hardships arising because of unusual circumstances, to relieve misfortune, to meet domestic emergencies or to enable dependents to travel to hospitals when summoned in respect of members of the forces seriously or dangerously ill therein.

By P.C. 58/11348 of December 15, 1942, the provisions of P.C. 18, January 2, 1942, were extended to the dependents resident in Canada of all Royal Air Force, Royal Australian Air Force and Royal New Zealand Air Force personnel serving with the Royal Canadian Air Force.

The Board is composed of a Chairman and nine members. All members of the Board, other than the executive secretary, and all members of the local or regional dependents' advisory committees serve without remuneration. However, out-of-pocket expenses are reimbursed to them.

Since January 2, 1942, twenty-one regional Dependents' Advisory Committees have been organized throughout the country. These committees advise the Board of Trustees on local conditions, receive applications for assistance, arrange for investigations and, in cases of emergency, authorize the issue of temporary grants or special assistance.

Disbursements are detailed under two headings:

(1) Administrative Expenses; and (2) Grants and Assistance.

Administrative expenses include out-of-pocket expenses of members of the Board and advisory committees, staff salaries, investigation and general operating expenses of the Fund.

Under Grants and Assistance are shown the amounts of relief disbursed on behalf of Army, Navy and Air Force service personnel. A distinction is made above between recurring and non-recurring payments. Recurring payments are continuous supplementary grants, an example of the use of which would be the education of a dependent. Non-recurring payments consist of grants to meet exigencies such as illness, accident, death, loss by fire or other necessitous conditions. Authorization of the former type of grant is given only by the Board of Trustees at Ottawa.

In the light of experience gained by the Board in the administration of the Fund and in view of amendments made from time to time to Marriage and Dependents' Allowance Regulations, the above-mentioned Orders in Council have been revoked and replaced by P.C. 9239 dated December 2, 1943. However, provisions outlined above contained in these previous Orders in Council were embodied in the replacing Order in Council.

As of March 31, 1944 there were 178 employees paid from this account. The following were receiving salaries at an annual rate of \$2,400 or over, exclusive of cost of living bonus, on that date or at date of separation (shown in brackets): G. L. Fulford, \$2,400; M. Geldard-Brown, \$2,400 (Feb. 21); V. G. Gilfillan, \$2,400; M. L. Gordon, \$2,400; W. Hutchinson, \$2,400; M. E. J. Lawson, \$3,600; J. A. Morrison, \$2,400; J. M. Riddell, \$2,400.

Travelling expenses in excess of \$300 were paid to: J. A. Morrison, \$411.26.

By P.C. 4568 of June 25, 1941, regulations governing the treatment and administration of internees were approved, a Commissioner of Refugee Camps was appointed and the relative responsibilities of this Department and the Department of the Secretary of State were set forth in detail. The Department of External Affairs was made responsible for the international aspects of prisoners of war and internees.

By P.C. 10571 of November 19, 1942 and P.C. 36/500 of January 20, 1943, the entire responsibility for prisoners of war, enemy aliens, and other internees was transferred to this Department. The only exception was the external aspects which continue to be the province of the Department of External Affairs. This Department became responsible for the supervision and implementation of the policy of the Canadian Government in respect of the guarding, discipline, control, censorship of mail, welfare of prisoners of war, internees and refugees, and the maintenance and operation of all camps.

Financial arrangements were made by Treasury Board Minute T.236550 B. of January 14, 1943, which approved necessary transfers of estimates of expenditure and cash allotments from the Department of the Secretary of State to the Department of National Defence.

The above expenditures represent the Canadian costs, as those in connection with the United Kingdom refugees and prisoners of war from the United Kingdom are charged to United Kingdom—Army account under Open Accounts which are shown further on in this section.

By agreement, Canada bears the cost of all military guards posted to internment camps.

As of March 31, 1944, there were 19 employees paid from this account. L. M. Burke was receiving an annual salary of \$2,400 on that date.

<b>Allotment: Inspection Board of the United Kingdom and Canada</b> .....	<b>10,600,000 00</b>
<b>Expenditures</b> .....	<b>\$10,522,487 10</b>

---

Payments made covering Canada's share of the expenses in connection with the Inspection Board have, to date, been given provisional approval. The agreed method of arriving at a division of costs is to take as a basis the value of production in Canada for United Kingdom and Canadian account, respectively, as computed by the Economics and Statistics Branch of the Department of Munitions and Supply, less such classes of output as are not inspected by the Board. Included in Canada's proportion are estimated costs for inspection of goods shared by War Supplies Limited for delivery to and use by the United States Government, as well as a portion of running costs in respect of the Board's operations in the United States.

The amount charged to War Supplies Limited is paid by the Department of National Defence and subsequently recovered from the Department of Munitions and Supply.

The total expenditure for the fiscal year 1943-44 includes the following provisional payments: \$9,700,000 covering Canada's share of the operating costs of the Board for the period April 1 to December 31, 1943, \$689,880.33 covering Canada's share of capital expenditure made by the Board during the period January 1, 1941 to June 30, 1943, and \$114,376.48 as Canada's share of inspection costs in the United States during 1941.

In addition to the provisional settlements mentioned above, direct payments totalling \$18,230.29, in connection with inspection costs, were made by the Department of National Defence during the year.

As of March 31, 1944, A. H. Brown, receiving an annual salary of \$6,000 was the only employee paid from this account.

- A Fifty per cent of the daily rate of pay is withheld from those soldiers stationed overseas who have not made assignments. From those whose assignments are less than fifty per cent, the difference between such assignments and fifty per cent of their pay is withheld. The deferments commence from the first of the month following the date of departure from Canada and are held in trust, to be paid to the soldiers upon discharge or upon appointment to commissioned rank. In exceptional circumstances on the recommendation of the Commanding Officer, authority may be given by the Minister permitting an advance from deferred pay, where the request arises out of a situation beyond the control of the soldier, such as illness of relatives, etc., or where a soldier is permitted to proceed to Canada on furlough at his own expense. Interest at three per cent per annum is allowed on deferred pay, calculated on minimum monthly balances semi-annually. Receipts represent transfers from the war allotment for Army Services, while disbursements are authorized releases of individual balances.
- B Money found in effects of deceased Army personnel, balances of their pay and allowances, their bank balances when not exceeding \$1,000 in Canada or \$2,000 Overseas are credited to this account and distributed to the legal heirs through the Estates Branch, National Defence Headquarters.
- C Moneys held in trust for Canadian Internees are credited to this account.
- D Residual net profits of canteens operated for the benefit of personnel of the armed forces are credited to this account. The main organizations contributing to this fund are the Canadian Legion War Services Incorporated, Young Men's Christian Association, Salvation Army, and Knights of Columbus. By P.C. 7/3183 dated April 21, 1942, it was provided that the money be deposited and held in trust for the benefit and welfare of members and ex-members of the Forces and their dependents. Interest at the rate of two and one-half per cent per annum on the minimum monthly balances is credited semi-annually.
- E This account pertains to the estates of all military personnel deceased during the War of 1914-18. Money found in effects of such personnel, credits in personnel bank accounts, or money due on account of pension, as well as balance of pay and allowances are placed to the credit of this account until heirs are located.
- F This account, similar to Military Estates No. 1, was used only when heirs to the estates were minors and was closed out during the year by the transfer to the correct accounts of certain amounts credited erroneously thereto.
- G This account was created upon receipt of the sum of \$12,500 in 1941 from a private citizen and his wife as a donation for the purpose of providing a welfare hut at Camp Borden. The above balance represents the unexpended portion at the close of the present fiscal year.
- H Entry fees at the rate of 4 cents per contestant of Cadet Corps interested in the Miniature Rifle Matches for Youth of the Empire are credited to this account. Entrance fees are accepted up to October 31st each year and are forwarded to the office of the High Commissioner for Canada, for transmission to the Secretary, National Rifle Association of Great Britain.
- I A fund established in 1907 by Lord Strathcona, the interest on which is to be expended in encouraging physical and military training in the public schools of Canada. Payments of interest are made to the Trustees semi-annually at the rate of four per cent per annum, and are charged to Interest on Public Debt.
- J Responsibility for the internment of prisoners of war interned in Canada was vested exclusively in the Department of National Defence by P.C. 10571 of November 19, 1942.  
All money received for prisoners of war from the Swiss Consul General is credited to this account. Cheques are then issued to the Internment Camp Trust Accounts as requested by Directorate of Prisoners of War.

K Under Section 16 of the Public Works Act, contractors are required to furnish security for the satisfactory performance of the work. This security may be in the form of cash (accepted cheque) or specified bonds. Cash deposits are credited to this account and bear interest at the rate of 2 per cent per annum compounded annually. Upon administrative certification, releases are made to contractors. Bonds furnished as security are held in the custody of the Minister of Finance but are not recorded in this account. At the close of 1943-44, there were no bonds held in respect of this Department.

A P.C. 2769 of April 6, 1943, authorized the Minister of Finance to enter into arrangements with chartered banks to handle, through bank branches, payroll deduction purchases of Victory Loan Bonds by certain employees, who are not paid through the Central Pay Office. The receipts reflect the incomplete subscriptions, under this plan, of employees who have left the Government Service. The closing balance represents unclaimed instalments.

B Receipts which cannot be allocated are credited to this account pending further advice. The closing balance represents items which have not been cleared.

C The balance in this account represents the amount deposited by the Department of National Defence covering allowances due men who were in relief camps and left without collecting the amounts due them.

D All cheques, except those drawn against Open Accounts, which remain undelivered after six months subsequent to the date of their issue are credited to this account. The above balance represents the liability in respect of this Department at the close of 1943-44.

E Certain remittances received by Receiver General drafts are credited to this account pending proper allocation.

A list of suppliers immediately precedes the Open Accounts at the end of this section. An outline of the various types of contracts utilized by the Department of Munitions and Supply in its purchasing transactions and in carrying out defence projects will be found in the relative section of the 1944 Public Accounts.

Civil salaries and wages consist of (a) \$6,024,425.33 for the Minister's office staff, the Deputy Minister and his staff, employees at Naval Service Headquarters, dockyards, bases and depots, as well as those employees of the Radio Branch, Department of Transport, performing special part-time duties; (b) \$4,920.12 for daily or hourly wages of casual labour employed at dockyards and other establishments (exclusive of construction and repair work labour); less (c) a credit of \$201,676 resulting from the overhead percentages added to the labour cost of work performed for other governments, private firms, persons and other departments.

As of March 31, 1944, there were 10,384 civilian employees paid from this account. The following were receiving salaries at an annual rate of \$2,400 or over, exclusive of cost of living bonus, on that date or at date of separation (shown in brackets). The travelling expenses of these employees (exclusive of the cost of transportation warrants) where the amount was in excess of \$300, are also shown.

Officers are not required to assign pay to their wives or children, but must assign five days' pay of rank if dependents' allowance is issuable to any other dependent relative. In the case of a rating, if dependents' allowance is issuable to another dependent relative as well as to a wife or to children, an additional five days' pay of rating must be assigned. The maximum amount assignable each month is twenty days' pay of rating, except assignments by prisoners of war and assignments for certain specified purposes.

**Dependents' Allowance:** Expenditure for this purpose totalled \$14,675,862.70. Dependents' allowance may be paid on behalf of an Officer or rating for a wife and not more than six dependent children. In addition, Dependents' allowance may also be paid for a mother or a father under the terms of sub-paragraph (c) below:

(Note:—Dependents' allowance may be paid on behalf of members of the Women's Royal Canadian Naval Service under sub-paragraph (c) but not under sub-paragraphs (a) or (b) of this paragraph) (P.C. 3/5932—24/7/43).

An award may be for such an amount as the Dependents' Allowance Board may decide, but no award may exceed—

(a) For the wife of an officer or rating holding rank as shown below, or if there is no wife, or the wife has abandoned her domestic responsibility or is confined to an institution by reason of mental or physical incapacity, and in the opinion of the Board the continued maintenance of a home for his dependent children is justified, for the daughter, step-daughter, mother, step-mother, mother-in-law, sister, step-sister, sister-in-law, aunt or female first cousin, responsible for the care and management of the home for his dependent children:

	Per month
Officers above the rank of Lieutenant-Commander .....	\$ 62 20
Lieutenant-Commander .....	57 20
Lieutenant .....	52 20
Sub-Lieutenant .....	47 20
Warrant Officer .....	42 20
Ratings .....	37 20

(b) For a dependent son to the age of sixteen years and for a dependent daughter to the age of seventeen years and, if such child is following and is making satisfactory progress in a course of instruction approved by the Board, an allowance may be paid until such child reaches his or her nineteenth birthday. Also for a dependent son or daughter of any age when such child is unable, owing to physical or mental infirmity, to provide for his or her own maintenance; for the first child, \$13.92; the second, \$12; third, \$10; the fourth, fifth and sixth child, \$8 each per month.

(c) For any other dependent relative of an Officer or rating holding rank as stated herein who may qualify within the terms of the regulations, Officers above the rank of Lieutenant-Commander, \$30, other Officers and ratings, \$25.

Allowances in lieu of Quarters and Rations: An amount of \$9,022,781.74 was paid to compensate officers and ratings for outside board and lodgings, at the following daily rates: officers, 50c-\$8; ratings, 50c-\$5, in Newfoundland, \$1.75.

Uniform Allowances: To outfit themselves with uniforms, Officers (except Medical Officers), Warrant Officers and Cadets (on promotion to Midshipman, Midshipman (E) or Paymaster Midshipman) receive an allowance of \$250 which was increased from \$150 effective January 19, 1944, but not made retroactive. Medical Officers of the Royal Canadian Navy (permanent force) receive an allowance of \$300. Expenditures for this purpose amounted to \$371,215.28.

Clothing Gratuity (Kit Upkeep Allowances): Annual allowances are paid to ratings, on completion of one year's service, for the upkeep of kit at the following rates:

Chief Petty Officers and Confirmed Petty Officers.....	\$ 64 00
Petty Officers and men dressed as seamen .....	44 00
Petty Officers not confirmed and men not dressed as seamen .....	60 00
Submarine Kit Allowance .....	7 00

Expenditures for this purpose totalled \$1,312,674.43.

Civilian Clothing on Discharge: Expenditures for the purpose of providing personnel with civilian clothing on discharge totalled \$71,161.43 paid at the rate of \$35 for personnel with over six months' service, and for those with less than six months' service, \$27 or \$17 depending upon the time of year when discharged. A fixed rate of \$65 was authorized by P.C. 3/9465 of December 10, 1943, becoming effective November 1, 1943.

G Construction of buildings, \$22,171,278.79; purchase of lands and buildings, \$438,771.20.

H This represents the net expenditure, including maintenance, in respect of such stores as: clothing, provisions, mess traps, first fitting outfit stores, special equipment, spare gear, medical stores, armament stores, fuel, printing and stationery, furniture, training and office equipment. A credit of \$1,245,741.71 resulting from overhead percentage added to the cost of material issued to, or used in work performed for other governments, private firms, persons and other government departments, has been deducted in arriving at this amount.

I Expenditures include medical care where not available from service sources, \$14,183.77; dental expenses, \$600,386, composed of a sum of \$600,000 paid to the Department of National Defence—Army Services, for pay, allowances, travel, transportation and accommodation of personnel of the Canadian Dental Corps serving with the Royal Canadian Navy (T247976 B, September 30, 1943) and a further amount of \$386 for dental care where not available from service sources; telephone tolls, telegrams and cables, \$484,433.75; postage, \$110,729.18; tuition fees, \$157,911.06; pilotage and canal tolls, \$48,751.12; cost of courts martial, \$20,987; funeral expenses, \$6,315.41; payments to National Research Council for scientific services, \$331,653.80 plus a further amount of \$9,848.36 for miscellaneous services; unemployment insurance stamps, \$107,118.13; rehabilitation grants, \$96,215.06; bounty pay for drill attendance, R.C.N.V.R., \$34,875.25; miscellaneous, \$192,994.29.

Allotment: Equipment Division.....	\$ 25,000 00
Expenditures.....	nil

The Equipment Division was established under authority of P.C. 6094 dated October 29, 1940, for the purpose of procuring the production of the necessary component parts of anti-submarine equipment and of assembling these components into sets.

The sets were sold to the Royal Canadian Navy and to the Royal Navy on the basis of actual cost so far as it was possible to determine this cost, and for the period from October 29, 1940 to April 30, 1942, the selling prices were based on the amounts paid for components used in the assembling of the sets, plus an overhead charge of 20 per cent to cover pay and allowances, civil salaries and wages, rent, telephone and other operating expenses, provided for in the allotment for Naval Services. This overhead charge of 20 per cent was discontinued on April 30, 1942, as the operations of the Equipment Division to that date showed a substantial credit balance, which, together with the additional credit anticipated as a result of the net total of downward adjustments of purchase prices of components resulting from Treasury cost audits of suppliers' accounts, was deemed adequate to cover all future overhead charges applicable to this project.

A statement of transactions through the allotment provided for this purpose by fiscal years follows:

	Gross Expenditures	Sales	Balance
1941-42 .....	4,448,794 83	3,398,495 95	(Dr.) 1,050,298 88
1942-43 .....	5,365,946 54	9,587,698 38	(Cr.) 4,221,751 84
1943-44 .....	447,566 97	851,412 48	(Cr.) 403,845 51
	<u>\$10,262,308 34</u>	<u>\$13,837,606 81</u>	<u>(Cr.) \$3,575,298 47</u>

The credit balances were transferred to Special Receipts—Refunds of Previous Years' War Expenditures. They do not take into account the value of equipment on hand at the beginning or close of the fiscal years concerned.

The production, assembly and installation of anti-submarine equipment being completely organized by July 10, 1942, authority was obtained to dissolve this Division after completion of the programs which it had on hand at that date.

The allotment of \$25,000 was provided to meet expenditures when credits were not available for this purpose but, as this situation did not arise during the fiscal year, the amount lapsed.

Allotment: Sea Cadet Corps.....	642,534 00
Expenditures.....	<u>\$ 367,750 98</u>

A distribution of expenditures follows:

Civil Salaries and Wages.....	4,008 96
Pay and Allowances.....	50,449 15
Travel and Transportation.....	38,738 93
Camp Allowance and Expenses.....	88,926 83
Stores, Equipment and Supplies.....	167,988 83
Sundries .....	17,638 28
	<u>\$ 367,750 98</u>

This allotment is for the purpose of providing elementary naval training, uniforms, etc., to Sea Cadets (boys who have attained the age of twelve years but have not attained the age of nineteen years) for a period of not more than thirty days in each year.

Allotment: Cartier Square Building, Ottawa.....	69,754 00
Expenditures.....	<u>\$ 34,376 44</u>

The construction of this building, now occupied by Naval Service Headquarters, Ottawa, and authorized by P.C. 9477 of December 5, 1941, was under the supervision of the Director of Works and Buildings, Department of National Defence—Air Services. The project was completed in 1943-44 and the total expenditures to the close of the fiscal year were \$887,623.05.

A Receipts are sums deducted from the pay of ratings of the Royal Navy who are on loan to the Canadian Navy and disbursements are quarterly payments to the British Admiralty under loan agreement.

B The establishment of the above fund was authorized by P.C. 42/10672 of November 23, 1942, for the purpose of providing assistance to personnel of the Royal Canadian Navy who may be in distress before and after discharge and to the needy dependents of deceased ex-members of the Naval Services. The fund is made up of donations from the canteens and messes of Royal Canadian Naval Ships and Establishments and other sources, and includes the residue of the Naval Prize Fund (1914-1918) which was transferred under the authority of P.C. 133/1950 of March 13, 1943.

- C Receipts in this account represent a contribution of \$80,080 from the Canadian Legion War Services, Inc., for building recreational and hostel huts at Annapolis Royal, N.S., and an amount of \$45,000 from Y.M.C.A. War Services for a recreation building for the use of Naval Service personnel at Point Edward Naval Base, Sydney, N.S. A contract for the latter amounting to \$38,920.10 was awarded to A. E. Farley, Ottawa, who received progress payments totalling \$28,842.43.
- D The closing balance represents moneys, realized from the estates of deceased naval officers and ratings, awaiting distribution to those entitled to them.
- E Receipts are deductions from the pay of officers of the Royal Canadian Navy who are prisoners of war to offset payments which may be made to them by an enemy power. Deductions are made monthly from officers up to the rank of Sub-Lieutenant at the rate of \$30 and at the rate of \$40 from those of higher rank.
- F This account records transactions relating to deposits by cadets to finance essential personal expenses as required by College regulations.
- G A Fund originally raised by subscription in Canada, for providing gunnery prizes for H.M.S. *Dominion*, has been transferred to the Department for the purpose of providing prizes for efficiency in gunnery and torpedo in the Royal Canadian Navy.

- A All cheques, except those drawn against Open Accounts, which remain undelivered after six months subsequent to the date of their issue, are credited to this account. The above balance represents the liability in respect of this Department at the close of 1943-44.
- B All receipts and disbursements in connection with the operation of the canteen are recorded in this account.
- C P.C. 2769 of April 6, 1943, authorized the Minister of Finance to enter into arrangements with chartered banks to handle, through bank branches, payroll deduction purchases of Victory Loan Bonds by certain employees, who are not paid through the Central Pay Office. This account reflects the incomplete subscriptions, under this plan, of employees who have left the Government service. The closing balance represents unclaimed instalments.
- D Receipts which cannot be allocated immediately are credited to this account pending further advice. The closing balance represents items which have not been cleared.

During the year it was decided that certain revenues and refunds from war activities were to be classified as Special Receipts. As these had previously been reported under Ordinary Revenue, the transfer was duly made; and, for comparative purposes, the 1942-43 Summary of Revenues has been similarly re-classified.

## Details

## Ordinary Revenue—

A Premium, Discount and Exchange.....	466 62
B Miscellaneous: Militia Pensions Act, 1901.....	263,837 54
Total Ordinary .....	264,304 16

## Special Receipts—

C Refunds of Previous Years' War Expenditures: British Air Ministry—dependents' allowance and assigned pay refunds, \$1,961,250.98; miscellaneous, \$10,948,851.54.....	12,910,102 52
---	---------------

Included in the above are amounts totalling \$7,624,891.59, which were charged to the Governments of the United Kingdom, Australia and New Zealand representing certain liabilities due under the terms of the agreements governing their participation in the British Commonwealth Air Training Plan No. 1. The remainder is composed chiefly of refunds on contracts after cost audit and payments received for materials and supplies purchased from war allotments.

D Miscellaneous War Revenues: Hay and wood cutting privileges, \$1,074.40; rental of properties, \$35,428.18; surplus condemned stores, \$22,133.06; firewood, \$45,473.57; refuse, \$34,702.03; scrap metal, \$14,138.72; quarters and rations, \$149,691.77; Air Cadet clothing, \$81,416.40; landing, storage fees, \$9,327.89; rental of stores, equipment, \$21,898.91; rental of ground and hangar space, \$246; commissions from pay station telephones, \$34,440.10; laundry service, \$74,926.54; hospitalization, \$21,934.30; miscellaneous interest and premiums, \$121.79; barrack damage, \$318.59; forfeitures on contracts, \$1,000; miscellaneous, \$158,339.75.....	706,612 00
---	------------

Revenue under this heading was derived chiefly from rental of accommodation to civilian tradesmen, quarters and rations supplied to civilian employees, sale of uniforms to Air Cadets, laundry service furnished to service and civilian personnel on certain isolated units and hospitalization fees charged civilian employees for the use of R.C.A.F. hospitals.

(a) The totals of allotments and expenditures under the titles (i) Western Hemisphere Operations and (ii) British Commonwealth Air Training Plan No. 2 include allotments and expenditures of the (iii) Home War Establishment and the (iv) Combined Training Organization, respectively. Treasury Board Minute, T.261250 B., dated April 6, 1944, directs that the designations (i) and (iii) and also (ii) and (iv) are to be considered synonymous.

(b) By agreement dated June 5, 1942, confirmed by P.C. 7550 of August 26, 1942, the prior agreements dated December 17, 1939, and January 7, 1941, with respect to the British Commonwealth Air Training Plan were terminated as of July 1, 1942, on which date the new agreement providing for extension of the British Commonwealth Air Training Plan became operative. Allotments and expenditures relating to its operations during the period subsequent to June 30, 1942, appear under the title British Commonwealth Air Training Plan No. 2.

## General Comments

Provision is made for the costs of Royal Canadian Air Force activities by the four war allotments listed above. The titles of these allotments indicate, in a general manner, the nature of the separate activities. Under each allotment will be found a more complete description of its purpose, as well as details of expenditures relating to that particular allotment. However, as certain details in regard to expenditures are common to two or more allotments, they are given below to avoid repetition.

*Procurement of Supplies and Equipment.*—All requirements of this Department, except those acquired under local purchase authority, are purchased by the Department of Munitions and Supply, although relative payments are, as a general rule, made direct to suppliers by the Department of National Defence—Air Services.

Purchases were made from private contractors in the United States on a prepayment basis as in former years. The accounting for a comparatively small number of these advance payments, made during 1943-44 and previous fiscal years, remains outstanding; but evidence that relative deliveries have been completed is gradually being secured.

Purchases are made from the United States Government of certain supplies which are available from that source only. These are obtained by what are known as Canpay requisitions which are submitted by the Department of Munitions and Supply to the procurement branches of the United States Government. It was intended that payments for such purchases be made monthly to the Treasurer of the United States against actual shipments. Certain difficulties arose which precluded payment on this basis with the result that

substantial deliveries have been received for which payment has not been made. Pending receipt of invoices and supporting documents, payments on account amounting to \$105,450,000 were made to the Treasurer of the United States, of which the sum of \$72,150,000 was paid during the present fiscal year. At the close of 1943-44, the balance of such advance payments to be accounted for was \$93,938,511.28.

Considerable quantities of equipment and supplies, mainly aircraft, engines and aero gasoline, are furnished, either directly by or on behalf of the United Kingdom Government, as contributions in kind for use in the British Commonwealth Air Training Plan. The value placed on such contributions is credited against the liability of the United Kingdom in respect of such Plan.

A list of suppliers receiving \$10,000 or over from Air Services funds appears further on in this section.

*Overhaul and Repair of Aircraft and Equipment.*—The major portion of overhaul and repair is performed by civilian contractors under cost plus contracts with the Crown. As a rule, progress claims submitted do not indicate to which allotment such expenditures are chargeable, but an interim distribution has been made between the Western Hemisphere Operations and the British Commonwealth Air Training Plan. The charges to the allotments in this regard will be revised from time to time as cost audits of contractors' books are completed.

*Pay and Allowances.*—Commencing April 1, 1943, under authority of P.C. 2898, April 8, 1943, Canada assumed full financial responsibility for the cost of the Royal Canadian Air Force Squadrons Overseas. Liability was also assumed for the pay, additional pay, dependents' allowances, post-casualty temporary allowances, post-war credits and gratuities, outfit and tropical kit allowances to officers, clothing of airmen, transportation between Canada and the United Kingdom and certain other expenses in connection with Royal Canadian Air Force personnel who are made available for service with, or in conjunction with, the Royal Air Force. Previous to that date the United Kingdom had been responsible for a portion of the pay and allowances of R.C.A.F. personnel serving with the R.A.F.

Particulars of rates of pay and main allowances in effect as at March 31, 1944, are as follows:

\* Officers on the non-flying list receive \$2 per day less.

Staff rates of pay for classified appointments of officers range from \$6 to \$24 per day.

The following officers were paid consolidated per annum rates: Chief of the Air Staff, \$10,000; Inspector General, \$10,000; Air Attaché, Washington, \$8,500.

A special rate of \$29 per day was authorized by P.C. 1/94, January 6, 1944, for the Air Officer Commanding-in-Chief Overseas. This officer also receives an entertainment allowance of \$150 per month.

Special Group Pay: Airmen mustered to the Special Group are paid daily rates ranging from \$3.20 for Sergeant Air Gunners to \$5.70 for Pilots, Navigators, Air Observers and Air Bombers holding the rank of Warrant Officer, Class 1.

Flying Pay: Officers on the non-flying list are paid \$2 for each day of flying in the course of duty except when flights are in licensed commercial aircraft. Those who are undergoing aircrew training receive \$2 per day for that part of their training which involves continuous flying. Airmen and other ranks receive 75 cents per day. Airmen pilots and observers not on special rates receive \$1 per day flying pay, while air gunners receive 75 cents.

Command Pay: Officers, except those of air rank or in receipt of special rates, in command of (a) operational or training units of 200 or over or (b) non-operational units of 500 or over receive \$1 per day in addition to ordinary pay.

Adjutant's Pay: Officers appointed as adjutants receive 50 cents per day in addition to pay of rank.

Headquarters Pay: Officers detached from their units for service with headquarters of formations receive additional pay of 50 cents per day.

Medical (Nursing Service) Branch: Officers of this branch are entitled to the pay and allowances prescribed for the equivalent ranks of male officers of the non-flying list. A Nursing Sister detailed as Assistant to a Matron, or as a Nursing Sister-in-Charge of 100 or more beds in a casualty clearing station or hospital, may receive additional pay of 50 cents per day.

Personnel of the R.C.A.F. regular force who were appointed or enlisted prior to January 1, 1940, may retain the pay and allowances of their rank in issue at September 30, 1940, until such time as by promotion or a change in status, Active Service rates become more beneficial. All R.C.A.F. (Regular) officers have elected Active Service rates of pay and the number of airmen who are still in receipt of R.C.A.F. (Regular) rates of pay has been reduced to a figure which is insignificant in relation to the total strength of the Force, and, therefore, regular rates of pay and allowances are omitted.

Subsistence Allowances: Officers and airmen serving in Canada receive \$1.70 and \$1.25 per day, respectively, in lieu of quarters and rations. Special rates are applicable at isolated points and in other countries.

Assigned Pay: An airman or airwoman on whose account dependents' allowance is issuable must make a qualifying monthly assignment of not less than fifteen days' pay of rank to the recipient. An officer must assign five days' pay of rank per month if dependents' allowance is issuable to a parent, brother or sister, but is required to make an assignment to a wife or to children only if a compulsory assignment is ordered for reason of inadequate financial provision by the officer. Such compulsory assignments must not exceed fifteen days' pay of rank or one hundred dollars per month, whichever is lower.

The following is considered as fifteen days' pay of rank for award of dependents' allowance:—Airmen: Warrant Officer, Class 1, \$60; Warrant Officer, Class 2, \$45; Flight Sergeant and Sergeant, \$35; Corporal and Leading Aircraftman, \$23; Aircraftman, Class 1 and Class 2, \$20; Boy, \$10; Airwomen: Warrant Officer, Class 1, \$50; Warrant Officer, Class 2, \$35; Flight Sergeant, \$30; Sergeant, \$25; Corporal, \$25; Ranks below Corporal, \$15.

If dependents' allowance is issuable to a parent, brother or sister of an airman, as well as to his wife or children, an additional five days' pay of rank must be assigned.

The maximum monthly assignment is twenty days' pay of rank, except assignments by prisoners of war and assignments for certain authorized purposes.

Dependents' Allowances: Awards of allowances are in such amounts as decided by the Dependents' Allowance Board, but not exceeding maximum monthly allowances as follows:

- (a) For a wife or a dependent female relative responsible for the care and management of a home for the dependent children of: an officer above the rank of Squadron Leader, \$62.20; Squadron Leader, \$57.20; Flight Lieutenant, \$52.20; Flying Officer and Pilot Officer, \$47.20; Warrant Officer, Class 1, \$42.20; all other ranks, \$37.20.
- (b) For a dependent son to the age of 16 years and for a dependent daughter to the age of 17 years and if such child is following and is making satisfactory progress in a course of instruction approved by the Board an allowance may be paid until such child reaches his or her nineteenth birthday; also for a dependent son or daughter of any age who is unable owing to physical or mental infirmity to provide for his or her own maintenance:—\$13.92 per month for the first such child; \$12 for the second; \$10 for the third; \$8 for the fourth, fifth and sixth.
- If there is no wife nor dependent female relative responsible: \$20 per month for each dependent child, not exceeding in total \$50 for three children; \$60 for four, \$70 for five or \$80 for six.
- (c) For a dependent relative who may qualify within the regulations: \$30 for such dependent of an officer above the rank of Squadron Leader and \$25 in respect of other officers and other ranks. Dependents' allowance may be paid on behalf of a member of the R.C.A.F. (Women's Division) to a dependent relative at the rates and under conditions mentioned in this paragraph.

Dependents' allowance is not payable to the wife of an officer or airman who marries subsequent to appointment or enlistment until such officer or airman has completed six months' continuous service. Wives of officers and airmen who themselves are appointed or enlisted in the Defence Forces of Canada are entitled to dependents' allowance, so long as the total of their pay and such dependents' allowance does not exceed \$2,100 per annum.

Outfit Allowances: An allowance of \$250 is granted to officers, warrant officers, class 1, and nursing sisters to provide themselves with the necessary uniform and equipment. It was increased from \$150 on January 19, 1944, but officers appointed prior to that date are entitled to this amount only. An officer who formerly held the rank of warrant officer class 1, and previously received an outfit allowance of \$150 is entitled to a further allowance of \$100, and if he previously received \$250 to a further allowance of \$25. In cases where officers and warrant officers, class 1, of the R.C.A.F. (Women's Division), or officers of the Medical (Nursing Service) Branch, are permitted to resign for reasons other than ill-health and have not completed six months' service, they are required to refund a portion of outfit allowances determined by length of service. Warrant officers, class 2, non-commissioned officers and aircraftwomen of the R.C.A.F. (Women's Division) receive, upon enlistment, an underclothing allowance of \$15, and a quarterly allowance of \$3, thereafter, for the purpose of replenishments.

Civilian Clothing Allowance: Airmen discharged from the service are paid an allowance of \$65 with which to supply themselves with civilian clothing. Prior to November 1, 1943, this entitlement was \$35.

The R.C.A.F. (University Air Squadrons) and the R.C.A.F. (Air Cadets) were authorized as further components of the Royal Canadian Air Force by P.C. 2983, May 13, 1942, and P.C. 1/3004, April 22, 1943, respectively.

Officers and airmen in the R.C.A.F. (U.A.S.) may draw pay up to a maximum of forty-five days, under certain conditions, at the following per diem rates: Wing Commander, \$8; Squadron Leader, \$6.50; Flight Lieutenant, \$5.50; Flying Officer, \$4; Pilot Officer, \$3; Warrant Officer, Class 2, \$2.60; Flight Sergeant, \$2.50; Sergeant, \$2.25; Corporal, \$1.75; Leading Aircraftman, \$1.50; Aircraftman, Class 1, \$1.45; Aircraftman, Class 2, \$1.30.

An Officer of the R.C.A.F. (A.C.) is entitled to pay for a maximum of fifty-five days in any one year under certain conditions. Rates of pay are as follows: Wing Commander, \$7.70; Squadron Leader, \$6.50; Flight Lieutenant, \$5.20; Flying Officer, \$3.60; Pilot Officer, \$3.

An officer of the R.C.A.F. (U.A.S.) or the R.C.A.F. (A.C.) is entitled to an outfit allowance of \$150; but is not eligible to have issued to him, or on his behalf, dependents' allowance, flying pay or rehabilitation grant.

L. de Carteret, Deputy Minister, served without salary or expenses.

\* Received additional compensation—see following list.

As of March 31, 1944, there were 7 employees being paid war duties supplements, including the following whose salaries are detailed above (amounts represent annual rates paid at that date): N. C. Allen, \$520; P. S. Conroy, \$1,000; H. F. Gordon, \$1,080; R. F. McDonald, \$960.

B Travelling expenses in excess of \$300 were paid to: Hon. C. G. Power, Minister, \$1,500; J. L. Apedaile, \$539.21; G. M. Brown, \$2,268.04; G. M. Ghewy, \$1,475.19; W. J. Gough, \$725.94; G. M. Morrison, \$394.01.

The following non-salaried employees received actual living and travelling expenses in excess of \$300: E. R. Grange, \$2,461.30; H. G. Norman, \$3,986.47.

<b>Allotment: Overseas War Establishment.....</b>	<b>385,829,492 00</b>

Provision was made by this allotment for all expenses in connection with Royal Canadian Air Force Overseas Headquarters, Royal Canadian Air Force Overseas Squadrons and certain ancillary formations; and for pay, dependents' allowances and certain other allowances and expenses in respect of R.C.A.F. personnel serving with the Royal Air Force.

## A Personnel costs comprise:

Salaries and wages, \$139,550.99, paid to civilian employees at R.C.A.F. Overseas Headquarters.

Pay and allowances, \$64,193,767.39 consisting of: pay issued to personnel, \$35,766,780.38; assigned pay, \$16,972,126.22; dependents' allowances, \$10,999,611.88; outfit allowances, \$454,748.19; rehabilitation grants, \$500.72. Details for the rates of pay and allowances appear under General Comments.

Transportation, \$2,700,218.04, comprised mainly of ocean transportation of R.C.A.F. personnel and travelling expenses of civilian and service personnel at Overseas Headquarters.

Laundry, \$3,601.51, and medical expenses, \$8,094.87 of R.C.A.F. personnel at Overseas Headquarters.

B This consists mainly of operating expenses, including rentals, light, heat, water, power and char service at properties occupied by the R.C.A.F. administrative staffs overseas.

C This includes maintenance and initial capital costs for equipment of the R.C.A.F. Overseas Squadrons and certain ancillary units.

Maintenance charges are paid monthly to the United Kingdom based on estimated annual squadron costs which are dependent upon the type of aircraft used and the operational role in which the aircraft are employed. Responsible officials review the basis of these squadron charges, both capital costs and maintenance, and arrange financial adjustments when necessary.

A large increase in the number of Overseas Squadrons is the reason for the correspondingly large increase in expenditure as compared with that in the previous fiscal year.

DE Cost of miscellaneous equipment and supplies, printing and stationery and communication services at Overseas Headquarters.

This allotment provided for costs of operation, including capital and maintenance, of the Royal Canadian Air Force in connection with the air defence of Canada, including provision for costs of joint operations with United States forces in Alaska and the Aleutians; anti-submarine patrol and protection of shipping off both the Atlantic and Pacific coasts of the Dominion and control of all flying throughout the northwest staging route from Edmonton to Alaska and in the entire Western region. Certain administrative and training expenses of the Air Cadet corps and also thirty per cent of expenses of Air Force Headquarters were provided for in this allotment.

Salaries and wages are those of civilian employees whose duties relate to activities of the R.C.A.F. in Western Hemisphere Operations, except those directly engaged in connection with construction projects whose salaries and wages are included under E—Construction and Maintenance. A list of those receiving salaries at an annual rate of \$2,400 or over follows these comments.

Travelling expenses and allowances of civilian and service personnel amounted to \$4,228,544.68 while freight and cartage cost covering the movement of stores, equipment and supplies was \$2,631,779.96. Lists of those civilian employees whose travelling expenses were in excess of \$300 also follow these comments.

As of March 31, 1944, there were 3,588 civilian employees paid from this account. The following were receiving salaries at an annual rate of \$2,400 or over, exclusive of cost of living bonus, on that date or at date of separation (shown in brackets). C Pay and allowances of service personnel engaged in Western Hemisphere Operations comprise: direct pay issues to personnel, \$25,469,607.33; assigned pay, \$12,451,232.66; dependents' allowances, \$7,735,021.67; outfit allowances, \$278,058.23; rehabilitation grants, \$309,569.37; civilian clothing on discharge, \$333,163.56.

Details of rates of pay and particulars of the main allowances have been dealt with previously herein.

D Comprised of expenditures for: fuel, \$2,747,069.01; light, water and power, \$541,042.40; rents, \$182,017.39; miscellaneous, \$459,227.19.

E Consists of expenditures for construction: by contractors, \$24,138,195.75, by R.C.A.F. Construction and Engineering Division, \$2,307,774.10, by the Department of Transport, \$32,206,979.33; acquisition of lands and buildings, \$298,934.20; alterations and repairs, \$1,107,573.61. As this expenditure is mainly in connection with coastal defence projects, the customary details are omitted for security reasons.

F Includes the cost of acquisition and maintenance of aircraft, aero engines and accessories for use in Western Hemisphere Operations. Types of aircraft employed include long-range bombers, reconnaissance bombers, long-range flying boats, fighters and transports. Disclosure of further details is omitted for security reasons.

Also included in this amount are advance payments, totalling \$72,150,000, authorized by P.C. 9870, December 28, 1943, made to the Government of the United States on account of equipment and supplies received or on order. (See Procurement of Supplies and Equipment under General Comments).

H This amount covers the administrative and training expenses of Air Cadet Corps Squadrons, pay and allowances of Air Cadet Officers; a grant of \$25,000 paid to the Air Cadet League of Canada under authority of P.C. 166/6181, August 4, 1943; and grants paid under authority of P.C. 165/6181, August 4, 1943, to Air Cadet squadrons as follows: capitation grants of 50 cents and \$1, respectively, for each junior and senior air

cadet to graduate during the year; uniform maintenance grant of \$1.25 per uniform issued; band grant of \$2 per instrument. Uniforms and boots are supplied to Air Cadets at a nominal charge (approximately 50 per cent of cost) payable in instalments and receipts are credited to Special Receipts—Miscellaneous War Revenues.

I Expenditures from this account were mainly in connection with the construction of telephone and teletype facilities in remote coastal areas not already serviced by commercial lines.

K Expenditures represent purchases of supplies on repayment from British Air Ministry on account of Western Hemisphere Operations. This amount was credited against the liability of the Government of the United Kingdom arising from the operations of British Commonwealth Air Training Plan and Royal Air Force Special Schools during the period prior to July 1, 1942.

L The principal items under this heading are: laundry, \$180,655.94; medical services, \$527,575.98.

	<u>289,711,146 59</u>
The amount due by the Government of the United Kingdom in respect of B.C.A.T.P. No. 2 as at the close of the fiscal year 1943-44 (see also under Loans and Advances—Open Accounts further on in this section).	<u>\$167,917,642 30</u>

The entire cost of the British Commonwealth Air Training Plan No. 2 for the period July 1, 1942 to March 31, 1945, was estimated at \$1,446,000,000. Under an agreement the United Kingdom Government assumed a liability of one-half, namely \$723,000,000, with the proviso that, in the event of termination or major changes affecting the cost of the plan, this liability would be adjusted accordingly.

The Government of the United Kingdom assumes the liability of the Governments of Australia and New Zealand for the costs of training in Canada of the pupils of the latter Governments, and payments by such Governments are credited to the liability account of the United Kingdom.

In addition to the payments mentioned in the preceding paragraph, the United Kingdom's liability to Canada is credited with (a) the value of contributions in kind, supplied either directly or on behalf of the United Kingdom Government and (b) payments representing the estimated total of R.A.F. pay, excluding, with minor exceptions, allowances, of all R.A.F. personnel, staff and pupils, in the B.C.A.T.P.

Further details of expenditures are as follows:

Salaries and wages are those of civilians, except those directly engaged in connection with construction projects whose salaries and wages are included under E—Construction and Maintenance. A list of those receiving salaries at an annual rate of \$2,400 or over follows these comments.

Transportation represents transportation expenses, including subsistence when travelling, of both civilian and service personnel, and freight and cartage costs covering the movement of supplies and equipment. Lists of civilian employees whose travelling expenses were in excess of \$300 follow these comments.

As at March 31, 1944, there were 13,442 civilian employees paid from this account. The following were receiving salaries at an annual rate of \$2,400 or over, exclusive of cost of living bonus, on that date, or at date of separation (shown in brackets). The travelling expenses of these employees, where the amount was in excess of \$300, are also shown.

C This amount covers the pay and allowances of both staff and pupils. The main items included, in addition to pay issued to personnel, are: assigned pay, \$40,644,674.96; dependents' allowances, \$26,575,647.46 and outfit allowances, \$2,123,742.59. Details of the rates of pay and particulars of the main allowances have been dealt with under General Comments. Payments in excess of those authorized by regulations were made from this allotment to the following officers: F/O J. G. C. Cook, \$35, P/O K. W. T. Wright, \$35. The amounts represent civilian clothing allowance grants to which they were not entitled.

D This expenditure is classified as follows: fuel, \$3,863,838.19; light, water and power, \$2,322,861.92; rents, \$604,478.71; miscellaneous operating expenses, \$31,325.40.

E This amount represents the cost of new construction, repairs, improvements and maintenance of British Commonwealth Air Training Plan establishments. While disclosure of a wider range of details is omitted for security reasons, a general classification of expenditures follows: construction by contract, \$20,533,703.09; construction by Department of Transport, \$9,199,275.25; construction by R.C.A.F. Construction and Engineering Division, \$1,642,653.64; acquisition of land, \$56,038.28; repairs and alterations, \$2,227,391.82.

F This amount covers the acquisition and maintenance of aircraft, aero engines and accessories. Elementary, advanced and operational training craft are the types generally in service in the British Commonwealth Air Training Plan but considerable numbers of other types are used in the training of navigators, bombers and air gunners.

H From this account, gross payments of \$28,830,689.19 were made to private companies which, under contracts with the Crown, were responsible for the operation and maintenance of Elementary Flying Training Schools and Air Observer Schools. The sum of \$1,098,514.64, representing a portion of the savings on operation and maintenance due to the Crown under the terms of the above mentioned agreements, was returned and credited to the allotment.

K This amount was expended as follows: laundry, \$938,297.90; medical services, \$2,366,964.81; sundries, \$1,048,920.12.

Disbursements are made on a recoverable basis for the United Kingdom and other Allied Governments under authority of Section 3, War Appropriation Act 1943 and Orders in Council.

A-F Disbursements are for transportation, stores, equipment and services while receipts represent repayments.

G H The liabilities of these Governments for pupil training arising from participation in the British Commonwealth Air Training Plan No. 2, were charged to these accounts pending settlement. As the Government of the United Kingdom assumed the liability for these amounts, the accounts were closed out during the year and the balances charged to the United Kingdom—British Commonwealth Air Training Plan account.

I This account was operated in connection with the purchase on a recoverable basis on behalf of the United Kingdom Government of aircraft and equipment representing deficiencies of contributions in kind for which that Government assumed responsibility under the terms of the agreements relating to B.C.A.T.P. No. 1. Expenditures on behalf of the United Kingdom Government in connection with the establishment and operation of Royal Air Force Special Schools in Canada were also charged to this account.

In consideration of a credit allowance by the United Kingdom, Canada assumed liability for the unliquidated commitments of the United Kingdom arising as a result of deficiencies in contributions in kind, and, under the terms of Plan No. 2 agreement, Canada undertook the administration and control of former Royal Air Force Schools in Canada.

Under authority of P.C. 107/7730, October 6, 1943, the outstanding balance in this account was transferred to the United Kingdom—Air—Settlement Account, (see K), and the account closed.

J The portion of the total costs of the British Commonwealth Air Training Plan for the period subsequent to June 30, 1942, which, under the terms of the agreement, dated June 5, 1942, are the liability of the Government of the United Kingdom, is charged to this account. Appropriate credit is given herein for the following: the

value of contributions in kind furnished by or on behalf of the United Kingdom; cash payments received from the United Kingdom representing the estimated total of R.A.F. pay (but not allowances) of all R.A.F. service personnel, both staff and pupils, in the B.C.A.T.P.; cash payments received in respect of the liability on a capitation basis of the Governments of Australia and New Zealand for training of their pupils in the B.C.A.T.P.; other remittances received on behalf of the Government of the United Kingdom in connection with its share of the costs.

Total charges to this account from July 1, 1942, to the close of the fiscal year 1943-44 amount to \$457,628,788.89, details of which are shown in the statement appearing under the British Commonwealth Air Training Plan, No. 2 allotment.

The closing balance in this account represents the net outstanding liability of the United Kingdom Government, relating to B.C.A.T.P. activities for the period July 1, 1942 to the close of the fiscal year 1943-44.

K Authority was granted by P.C. 107/7730, October 6, 1943, for the Government of Canada to enter into an agreement with the Government of the United Kingdom to settle, with certain exceptions, all outstanding accounts between the Department of National Defence—Air Services and the United Kingdom Air Ministry, up to and including June 30, 1942, for the amount of \$200,000,000, as being due from the Government of the United Kingdom to the Government of Canada.

Under this authority, the amount of \$200,000,000 has been charged to this account as a liability of the United Kingdom. This settlement liquidated an amount estimated to total \$212,280,010.29 due from the United Kingdom, and an amount estimated to total \$9,645,143 due to the United Kingdom.

A A portion of the pay of certain categories of R.C.A.F. airmen and airwomen serving overseas is deferrable and amounts withheld are credited to their deferred pay accounts upon which interest, chargeable to Interest on Public Debt, is allowed at the rate of 3 per cent per annum. Periodically this trust account is credited with the amount of such deferrals and a corresponding charge made to the proper War Allotment. Release is made to the individuals concerned under certain stipulated conditions.

B This account is credited with the balances of pay and allowances due deceased personnel as well as other amounts which may be realized by the Administrator of Estates who directs distribution therefrom to creditors and beneficiaries. The closing balance reflects the value of undistributed estates.

C Under a Deed of Gift of the late J. Dazell McKee, securities to the value of \$1,000 are held in trust by the Department. Revenue derived therefrom is credited to this account and used to defray certain expenses in connection with the annual award of the McKee Trophy to the individual who is considered by the Minister, upon recommendation of the selection committee, as having made the most outstanding contribution toward the advancement of Canadian aviation. The above balance includes the value of the securities.

A Pension deductions, made under R.C.A.F. regulations from the pay of R.A.F. personnel on loan to the R.C.A.F., are credited to this account. The amount so credited will be used to partially offset Canada's liability to the United Kingdom of per capita contributions in connection with future pensions which may be granted in respect of such personnel.

B Deductions from the salaries of employees of the Department who are not paid through Central Pay Office, and from the pay and allowances of enlisted personnel, are credited to this account and cheques are drawn against it in favour of the Bank of Canada as the certificates become fully paid. The above balance represents the incomplete subscriptions at the close of the fiscal year 1943-44.

A Cheques which remain undelivered six months subsequent to date of issue, except those drawn against Open Accounts are credited to this account. The above balance represents the liability in respect of this Department at the close of 1943-44.

B Certain remittances received by Receiver General drafts are credited to this account pending proper allocation.

C Receipts which cannot immediately be allocated are credited to this account pending further information. The closing balance represents items which have not been cleared.

D P.C. 2769 of April 6, 1943, authorized the Minister of Finance to enter into arrangements with chartered banks to handle, through bank branches, payroll deduction purchases of Victory Loan Bonds by certain employees who are not paid through the Central Pay Office. This account reflects the incomplete subscriptions, under this plan, of employees who have left the Government service. The closing balance represents unclaimed instalments.

638,619,292 01

The amount of \$672,961,439.26 was apportioned as follows: domestic, \$511,221,174.87; importations, \$161,740,264.39. The excise taxes derived from (i) the sale of postage stamps used on cheques, bills of exchange, promissory notes, receipts to banks, money orders and travellers' cheques, and (ii) stamp duties on post office money orders, postal notes, letters and post cards, are not included among the "excise taxes" shown in the foregoing statement of revenues, but instead are treated and reported by the Post Office Department as Postal Revenues.

Drawbacks relate chiefly to materials, both domestic and imported, used in the manufacture of goods exported.

## Non-Tax Revenue:

D Privileges, Licences and Permits: Brokers' licences, \$7,444.16; copies of manifests, entries and invoices, \$7,670.85; landing certificates, \$886; law stamps, \$5,583.35; lost stamps, \$230.77; rentals of public buildings and properties, \$5,350.36 .....	27,165 49
Less refunds .....	1 00

27,164 49

Brokers' licences—Regulations issued under the provisions of Section 129 (5) of the Customs Act, c. 42, R.S., provide for a graduated scale of fees to be paid annually by persons licensed to transact business as customs-house brokers.

Law stamps—All fees payable under the provisions of Section 80 of the Exchequer Court Act, c. 34, R.S., and Section 107 of the Supreme Court Act, c. 35, R.S., are settled by means of law stamps, the issuance and sale of which is regulated by the Minister of National Revenue.

Rentals of public buildings and properties—The amount of \$5,280.36 was received from port officers who occupy residential quarters in government-owned buildings, operated by the department, and \$70 was received for rent of garage and customs ferry dock.

E Proceeds from Sales: Sale of unclaimed goods, \$1,048.22; sundry sales, \$1,842.13 .....	2,890 35
Less refunds .....	41 66

2,848 69

Sundry sales—Sale of equipment, stores, or supplies, authorized by minutes of the Salvage Division of the Office of the Comptroller of the Treasury, in accordance with P.C. 6/989, of April 30, 1937.

F Services and Service Fees: Bonded factory and warehouse fees, \$93,411.27; cartage, \$15,201.86; copyright fees, \$154.30; extra or overtime services, \$186,934.27; repayment of salaries of officers temporarily attached to the Commodity Prices Stabilization Corporation Limited, \$25,063.45; repayment of salaries of officers temporarily attached to the Foreign Exchange Control Board, \$3,300; repayment of salary of R. W. Everingham of the port of Fort Erie, Ontario, \$81.71; repayment of salaries and living allowances of certain officers stationed in the United States, \$10,208.68; storage charges, \$33,831.02; tobacco labels, \$1; witness fees, \$118.17 .....	368,305 73
Less refunds .....	30 31

368,275 42

Bonded factory and warehouse fees are assessed for services of port officers assigned to duties of a supervisory nature in such factories and warehouses.

CUSTOMS AND EXCISE DIVISIONS—*Concluded*Ordinary Revenue—*Concluded*

Copyright fees are collected from owners of copyrights for services in prohibiting importation of copyrighted works registered under the Copyright Act, c. 32, R.S.

Extra or overtime services—Extra services during regular working hours, and overtime services on Sundays, holidays, and outside of regular working hours, were performed by departmental officers. The extra services and a large proportion of the overtime services were paid for by the persons served.

Storage charges are assessed against goods warehoused for examination and not cleared within the prescribed period.

I Miscellaneous: Customs seizures, \$194,942.87; excise seizures, \$69,974.23; conscience money, \$303.73; forfeited bonds, \$7,000; found money, \$169.79; over in cash, \$56.15; Foreign Exchange Control Board, unclaimed currency, \$99.62 .....	272,546 39	
Less refunds, \$35.56; disbursements from customs and excise seizures, \$128,003.78 .....	128,039 34	
		144,507 05

The revenues from customs and excise seizures were derived mainly as a result of seizures under the provisions of the Customs Act, c. 42, R.S., as amended, and the Excise Act, 1934, as amended. The disbursements of \$128,003.78 were made under authority of the said Acts, and were in respect of (i) expenses incidental to the making of the seizures and for moiety payments to the seizing officers and informers, and (ii) repayments of deposits, in whole or in part, to persons accused of violations of the Customs and Excise Acts.

Payments of \$1,000 or over were made on account of legal services in connection with customs and excise seizures to the following: Richard S. Hinton, Summerside, \$2,470.14; J. S. Latchford, Cornwall, \$1,374.73; J. P. O'Reilly, Hamilton, \$1,147; S. Hart Green, Winnipeg, \$3,825; J. Boyd McBride, Edmonton, \$1,804.24; and J. R. Nickolson, Vancouver, \$1,621.61.

Forfeited bonds represent amounts collected from guarantee companies on bonds posted by them on behalf of licensees under the Excise Act who have violated the regulations.

*General Comments*

As at March 31, 1944, there were in operation 151 Ports of Customs and Excise, and, under the survey of these ports, 171 Outposts, 60 Preventive Stations, and 43 Postal Collecting Stations. The only port at which the cost of operation exceeded the revenue collections was McAdam, N.B., where the former was \$31,753.86 and the latter \$12,735.21.

In order to expedite the release of perishable and other imported goods, and as a guarantee of payment of customs duties and excise taxes thereon, and of sales and excise taxes payable by licensees, securities are deposited with the Department which are placed with the Department of Finance for safekeeping. At March 31, 1944, the securities so deposited were \$1,199,050 for customs purposes and \$2,489,400 for excise purposes.

Included in the charges to this account are the salaries of the following employees which have been repaid by the organizations to which they were on loan: T. G. Crossan, \$2,760; G. H. Glass, \$3,000; G. E. Hooper, \$3,480 (repaid from May 1); \*J. A. V. Hooper, \$3,480; C. R. Morphy, \$2,400 (repaid to Sept. 30). Repayments were made by the Commodity Prices Stabilization Corporation Limited, \$11,506.83; Wartime Prices and Trade Board, \$2,021.29; and Department of Pensions and National Health, \$1,239.06. Of the amounts repaid, \$3,260.35 was refunded to the vote and \$11,506.83 is included in the heading "Services and Service Fees" in the "Details" of the departmental statement of revenue given on a previous page.

\* Received additional compensation—see following list.

As of March 31, 1944, there were 6 employees being paid war duties supplements, including the following whose salaries are detailed above (amounts represent annual rates paid at that date): L. F. Jackson, \$120; V. C. Nauman, \$120; C. E. Gunby, \$420; J. A. V. Hooper, \$600.

- C Distributed as follows: printing, \$3,000.41, and stationery, \$11,510.53 (including \$875.58 for inspection and repair of typewriters, adding, calculating and copying machines, etc.); sundry, \$1.44.
- D Travelling expenses in excess of \$300 were paid to: Hon. C. W. G. Gibson, \$342; J. E. Gaboury, \$1,293.48 (including \$290.80 from seizure revenue); H. J. Kealey, \$413.20; V. C. Nauman, \$398.38; J. S. Rankin, \$2,161.33.
- F As at March 31, 1944, 63 officers were bonded for amounts ranging from \$100 to \$10,000 under the Government Officers' Guarantee Fund. No claims were made on the fund during the fiscal year in respect of any of these officers.

This vote was provided to meet salaries, cost of living bonus and other expenses in connection with the inspection of Customs and Excise offices and licensed excise establishments (including special investigations and inquiries in connection therewith), the investigation of values of imported goods, the investigation of drawback claims and the auditing of books and records of commercial and industrial concerns for sales and excise tax purposes.

As of March 31, 1944, there were 459 employees paid from this account. The following were receiving salaries at an annual rate of \$2,400 or over, exclusive of cost of living bonus, on that date, or at date of separation (shown in brackets). The travelling expenses of these employees, where the amount was in excess of \$300, are also shown.

The salaries of the following employees charged to this account have been repaid by organizations to which they were on loan: J. M. Fell, \$3,000; \*S. Jones, \$4,360; R. Lang, \$2,400; J. D. C. Mahaffy, \$3,000. The salaries and living allowances of certain officers stationed in the United States, whose time was occupied in servicing railway transportation companies, were repaid by these companies. Repayments were made by the Commodity Prices Stabilization Corporation, Ltd., \$6,000; Foreign Exchange Control Board, \$2,400; Wartime Prices and Trade Board, \$5,497.72; and the railway transportation companies, \$8,371.84. Of these repayments \$16,771.84 is included under the heading "Services and Service Fees" in the "Details" of the departmental statement of revenues given on a previous page. The balance, \$5,497.72 was refunded to the vote.

\* Received additional compensation—see following list.

As of March 31, 1944, there were 2 employees being paid war duties supplements whose salaries are detailed above (amounts represent annual rates paid at that date): S. Jones, \$140; E. McNally, \$420.

C Living allowances of \$500 or over were paid as at March 31, 1944, to the following officers stationed in the United States: W. J. Campbell, \$720; R. L. Needham, \$720.

D Distributed as follows: printing, \$3,351.61, and stationery, \$3,049.30.

E This allotment includes \$206.33 for living expenses of officers while acting in a relieving capacity away from their place of residence, also \$1,886.19 for removal expenses of officers.

The following employees, whose salary rates were under \$2,400 on that date, or whose salaries were paid from other accounts, received travelling expenses in excess of \$300: J. S. Baxter, \$700.84; F. Breton, \$1,317.11; S. W. Chisholm, \$1,162.08; D. P. M. Clarke, \$884.87; W. J. Frazer, \$1,199.63; D. E. Gallant, \$597.91; S. A. Green, \$664.54; N. W. Kennedy, \$738.38; P. P. Last, \$626.77; R. Meek, \$744.94; E. O'Connor, \$438.70; E. J. Reed, \$650.75; L. E. Rolston, \$1,112.61; J. M. J. Sauve, \$554.27; H. D. Sleggs, \$900.85; William Smith, \$335.84; H. K. W. Young, \$1,237.26; H. M. Young, \$2,012.

G As of March 31, 1944, 371 officers were bonded for amounts ranging from \$500 to \$5,000, under the Government Officers' Guarantee Fund. No claims were made on the fund during the fiscal year in respect of any of these officers.

H The charges to this allotment include: postage and post office box rentals, \$3,839.54; office rentals and lighting, \$502.83.

\* Received additional compensation—see following list.

In addition to the payments from this account, salaries, etc., totalling \$70,795.21 were paid to 460 Customs and Excise officers by other departments.

The salaries of certain officers, charged to this account, were repaid by the organizations to which they were on loan. Repayments were made by the Commodity Prices Stabilization Corporation, Ltd., \$1,540; Foreign Exchange Control Board, \$1,100; Wartime Prices and Trade Board, \$3,539.27. Of these repayments, \$3,539.27 was refunded to the vote, and \$2,640 is included under the heading "Services and Service Fees" in the "Details" of the departmental statement of revenues given on a previous page.

As of March 31, 1944, there were 25 employees being paid war duties supplements, including the following whose salary is detailed above (amount represents annual rate paid at that date): R. T. McLay, \$60.

C Living allowances are paid to officers stationed in northern British Columbia and the Yukon. The following were paid at the rate of \$1,500 per annum: J. P. Begg, F. Cederberg, T. A. M. Haney, R. G. Lee, N. Pennington, J. A. Simmons, G. F. S. Watson, J. O. Williams.

D Extra services were performed during regular hours for the accommodation of railway companies and business firms, and overtime services were performed on Sundays, holidays and outside of regular hours. The cost of the extra services and a large proportion of the overtime services are paid for by the parties accommodated. As shown under the departmental statement of revenues given on a previous page, \$186,934.27 was recovered in this connection. In some instances the officers are allowed compensating time off in lieu of overtime pay.

E For the purpose of providing uniforms for distribution to customs officers, cloth is purchased by the Department for resale to clothing manufacturers who tailor the garments and bill the Department for the completed uniforms.

Cloth sales were: Walter Blue and Co., Ltd., Sherbrooke, \$2,601.04; Gordon Campbell, Ltd., Vancouver, \$1,492.40; Clayton and Sons, Ltd., Halifax, \$3,342.21; Firth Bros., Ltd., Hamilton, \$5,888.58; Uniform Cap Mfg. Co., Ltd., Ottawa, \$212.88.

These votes were provided to meet the salaries and other expenses of the several District Inspectors of Income Tax (supervising nineteen district offices) and their staffs engaged in maintaining tax rolls, receiving and disposing of income tax returns and assessments of the Dominion and of the provinces of Manitoba, Ontario, Prince Edward Island and Quebec, and the Yukon Territory, collecting moneys due the Crown in respect of income taxes, excess profits tax and succession duty, maintaining the necessary accounts and conducting investigations at the places of business of taxpayers or elsewhere.

As of March 31, 1944, there were 4,683 employees paid from this account. The following were receiving salaries at an annual rate of \$2,400 or over, exclusive of cost of living bonus, on that date, or at date of separation (shown in brackets). The travelling expenses of these employees, where the amount was in excess of \$300, are also shown.

Under Section 16 of the Public Works Act, contractors are required to furnish security for the satisfactory performance of the work. This security may be in the form of cash (accepted cheque) or specified bonds. Cash deposits are credited to this account and bear interest at the rate of 2 per cent per annum compounded annually. Upon administrative certification, releases are made to contractors. Bonds furnished as security are held in the custody of the Minister of Finance but are not recorded in this account. At the close of 1943-44, bonds so held in respect of the Department of National Revenue amounted to \$2,050.

National Revenue Suspense .....	\$ 23,783 87	\$ 116,552 46	\$ 120,706 13	\$ 19,630 20

Receipts are instalment payments of Excise tax revenue on account of penalties imposed by the courts under the Special War Revenue Act, and held by the Department until the full court penalty has been collected, or the alternative jail sentence enforced. Disbursements are amounts transferred to Revenues when instalments are completed.

The credit balance at March 31, 1944, of \$19,630.20 includes \$1,000 from Furness Withy Limited, as a penalty in connection with spirits pilfered at Halifax, N.S.

A Under authority of Section 61 of the Income War Tax Act, c. 97, R.S., persons appealing to the Exchequer Court from a decision of the Minister of National Revenue as to their assessments are required to give security for the costs of the appeal, to the satisfaction of the Minister, in a sum not less than \$400. The decision of the Exchequer Court determines the final disposition of the deposit. If the appellant is successful, the amount is returned to him. If he fails, the amount or such part of it as is required to pay the taxed costs of the Crown, is transferred from this account as a revenue item. No interest is allowed on the deposit. The above balance represents the amount of cash on deposit.

BCDE Arrears of income tax were collected by the Dominion Government during the current fiscal year and paid to the Provinces in accordance with the provisions of the Dominion-Provincial Taxation Agreement Act, c. 13, 1942.

F Certain adjustments and arrears.

G All cheques, except those drawn against Open Accounts, which remained undelivered after six months subsequent to the date of their issue, are credited to this account. The above balance represents the liability in respect of this Department at the close of 1943-44.

This vote provided for expenditures of the National Film Board which, under the National Film Act, c. 20, 1939, advises upon and approves film activities of the various Government departments, and produces and distributes national films in the interests of Canada.

Included in the above expenditures is an amount of \$100, in connection with the defalcation of a Treasury official, which has not as yet been finally settled.

## General

During the fiscal year, the National Film Board undertook the production and distribution of (a) various motion pictures and film programs of national interest and educational value, and (b) still photographs, art work and posters. Where the Board acted as agent for government departments or other organizations, billings were made on a cost basis. Votes Nos. 192 and 434 and various war allotments were used to finance these activities. In this connection, repayments in excess of \$2,000 were as follows:

## Dominion Government departments and branches—

Agriculture, \$2,362.01; Labour, \$43,263.03; Munitions and Supply, \$145,433.25; National Defence—Army Services, \$332,417.72; Naval Services, \$28,156.80; Air Services, \$73,360.98; National Research Council, \$41,924.24; National Revenue, Taxation Division, \$2,674.42; National War Finance Committee, \$444,557.99; National War Services, \$3,027.13; Pensions and National Health, \$3,882.99; Post Office, \$2,368.13; Wartime Information Board, \$75,188.79; Wartime Prices and Trade Board, \$87,960.73.

## Other Organizations—

Canadian Legion War Services Incorporated, \$3,248.29; Knights of Columbus, Canadian Army Huts Fund, \$17,788.89; Salvation Army Red Shield War Services Fund, \$10,481.52; United Kingdom Information Office, \$2,040.

The following lists of salaries, travelling expenses, suppliers' accounts, etc., cover all National Film Board activities:

As at March 31, 1944, there were 478 employees paid from National Film Board accounts. The following were receiving salaries at an annual rate of \$2,400 or over, exclusive of cost of living bonus, on that date or at date of separation (shown in brackets). The Corps of (Civilian) Canadian Fire Fighters for the United Kingdom was established to assist the National Fire Service in Great Britain in fighting fires resulting from enemy action.

Overseas charges included in the above expenditures were paid to the Department of National Defence—Army Services. An agreement reached with that Department provided for a capitation maintenance rate for Canadian firefighters, both men and officers, from date of arrival in the United Kingdom amounting to 45 pence per day, made up as follows: rations—15 pence, accommodation—16 pence, medical services—1 penny, dental services—1½ pence, domestic staff—9½ pence, miscellaneous—2 pence. In addition, a cash messing allowance of 2½ pence per day was paid to each man. Accounts submitted during 1943-44 cover the period December 1, 1942, to January 31, 1944, and include adjustments to bring the capitation maintenance rate into effect retroactive from June 1942, the date of arrival of the firefighters in the United Kingdom.

As of March 31, 1944, there were 2 employees paid from this account.

- D The establishment of the Corps on March 31, 1944, was as follows: G. E. Huff, Commanding Officer, \$5,000 per annum; 6 Column Officers at \$6.50 per day; 3 Senior Company Officers at \$5 per day; 8 Company Officers at \$4.25 per day; 55 Section Leaders at \$3 per day; 162 Leading Firemen at \$2.70 per day; 105 Senior Firemen at \$2.20 per day; 19 Firemen at \$1.80 per day; 3 Junior Firemen at \$1.30 per day.

- E Quarters and ration allowances, when not received in kind, were paid in Canada at the following rates: Officers, \$1.70 per day; men, \$1.25 per day. Payments to the Department of National Defence—Army Services amounted to \$137,560.33 representing a per capita allowance of 40½ pence per day for officers and men in the United Kingdom and a cash messing allowance of 2½ pence per day per man. Each member discharged for medical unfitness or other cause, after 183 days service, received a clothing allowance of \$35 which was increased to \$65 effective October 31.
- F Members, with the exception of the Commanding Officer, were awarded dependents' allowance in the same manner and under similar conditions as persons serving in the Military Forces of Canada.
- G Payments to the Department of National Defence—Army Services amounted to \$8,310.22 representing per capita payments of 2 pence per day.
- H Of this amount, the Department of National Defence—Army Services was paid \$11,896.03 representing a per capita allowance of 2½ pence per day and the Department of Pensions and National Health was paid \$506.45.
- I Payments to the Department of National Defence—Army Services amounted to \$41,528.19. This includes an amount of \$30,320.01, overseas transportation expenses for 399 firemen.
- J Payments were as follows: Department of National Defence—Army Services, \$1,126.17; Department of Public Printing and Stationery, \$1,190.01.

<b>Vote 200 European War Pensions.....</b>	<b>37,500,000 00</b>
<b>Expenditures.....</b>	<b>\$37,137,254 46</b>

These pensions are for the 1914-18 war. Pensions for the present war are paid from the War Appropriation. Pensions, gratuities, and grants awarded under the Pension Act in respect of:—

A Disabled and deceased ex-members of the Canadian Expeditionary Force.....	36,989,372 89
B Disabled and deceased ex-members of the British Forces (Supplementary Pensions).....	54,617 59
C Deceased ex-members of the Allied Forces.....	15,614 76
D Disabled and deceased members of the Militia whose disabilities or death occurred after the War .....	56,108 02
E New Zealand Pensions (Recoverable).....	21,541 20
	<u>\$ 37,137,254 46</u>

A On March 31, 1944, there were 92,487 active pension accounts, including 17,243 dependents' cases; this compares with 94,174 accounts, including 17,549 dependents' cases on March 31, 1943.

B Ex-officers and dependents of deceased ex-officers who served with the British Forces and were domiciled in Canada at the outbreak of war, receive payments supplementary to British pensions to bring the sum of the two pensions up to the Canadian scale. Two hundred and twenty-nine such cases were in payment on March 31, 1944; thirty-eight South African pensions were also similarly supplemented.

C Dependents of ex-members of the forces of His Majesty's Allies who died as a result of war and who had been domiciled in Canada at the outbreak of war, receive supplementary pensions up to the Canadian scale. On March 31, 1944, such supplementary pensions in payment were: Belgian, 1; French, 31; Italian, 3.

D One hundred and thirty-five cases were in payment on March 31, 1944.

E The New Zealand Government is billed at the close of each fiscal year and the refund is credited to Revenue—Refunds of Expenditure.

<b>Vote 201 War Veterans' Allowances</b> .....	7,000,000 00
<b>Expenditures</b> .....	<u>\$6,577,865 04</u>

On March 31, 1944, 24,296 allowances were in force as compared with 24,666 on March 31, 1943, a decrease of 370. Of the allowances in payment at the end of the year, 16,080 were to veterans over sixty years of age; 7,768 were granted the allowance on the grounds that their disabilities and economic handicaps are such that they are not likely to maintain themselves again, and 448 were to those dependents of deceased veterans who are entitled to receive the allowance for a period of one year after the veteran dies.

This legislation is similar in character to the Old Age Pensions Act in so far as income is concerned. The maximum allowance issuable is \$20 a month for single persons and \$40 a month for married persons, except in cases of necessitous circumstances when a further amount of \$10.41 a month for single persons and \$20.83 a month for married persons may be granted. The total income of recipients may not exceed \$390 a year for single men or \$755 for married men. As of March 31, 1944, 6,174 supplementary payments were in issue of which 2,927 were in respect of married persons.

<b>Vote 202 Unemployment Assistance</b> .....	200,000 00
<b>Expenditures</b> .....	<u>\$ 44,659 44</u>

This vote is provided to cover the cost of augmenting the pensions of veterans by amounts sufficient to ensure that payments equal the rates of municipal assistance to non-pensioned veterans and civilians.

Three hundred and eighty-six pensioners received assistance during the year.

<b>Vote 203 Hospital and Other Allowances</b> .....	500,000 00
<b>Expenditures</b> .....	<u>\$ 494,643 79</u>

On March 31, 1944, 1,664 patients in hospitals were receiving allowances. The rates of allowances are authorized in the treatment regulations of the Department (P.C. 91, January 16, 1936). Commencing at \$45 a month for single men, they increase according to rank and number of dependents of the ex-soldier. Pensions are suspended during periods of hospitalization.

The expenditure includes payments amounting to \$15,407.26 for clothing and comforts provided to patients who, although eligible to receive treatment, are limited to this form of allowance.

<b>Vote 204 Decoration Awards—V.C. and D.C.M.</b> .....	20,000 00
<b>Expenditures</b> .....	<u>\$ 1,900 92</u>

Payments of allowances to men who have received in the present war the decorations of Victoria Cross, Distinguished Conduct Medal, Distinguished Flying Cross, Distinguished Flying Medal, Military Cross, and Conspicuous Gallantry Medal.

Payments made during the fiscal year covered the following awards: Distinguished Conduct Medal, 3; Conspicuous Gallantry Medal, 2; Distinguished Flying Medal, 44.

<b>Vote 205 (and Vote 493, Supplementary Estimates) To provide hereby, notwithstanding anything contained in the Consolidated Revenue and Audit Act or in any other statute or law, for the payment out of the Consolidated Revenue Fund of compassionate allowances awarded by the Canadian Pension Commission to widows of persons who served in the naval, military or air forces of Canada during the war 1914-18, who are in necessitous circumstances, at such rates, not exceeding however, \$240 per annum (or \$300 per annum in certain exceptional circumstances to be prescribed by the Governor in Council), and in such circumstances and upon such terms as may be prescribed by the Governor in Council</b> .....	440,000 00
<b>Expenditures</b> .....	<u>\$ 301,735 69</u>

On March 31, 1944, 1,137 allowances were in force.

<b>Vote 208 (and Vote 435, Further Supplementary Estimates) Employers' Liability</b>	
Compensation .....	70,000 00
Expenditures .....	\$ 67,886 49

Under a scheme of assistance, which is designed to remove from employers any added financial risk that might be involved in the employment of disabled veterans, the costs arising from industrial accidents are borne by the Government. The Workmen's Compensation Boards and employers are reimbursed for medical care and compensation, including capitalization of awards covering permanent disabilities and fatalities.

This expenditure covers 632 claims and payments were made as follows: Nova Scotia, \$5,398.61; Quebec, \$1,495.66; Ontario, \$28,898.86; Manitoba, \$2,567.42; Saskatchewan, \$1,069.72; Alberta, \$5,778.37; British Columbia, \$14,095.11; Canadian National Railways, \$5,049.74; Canadian Pacific Railway Co., \$3,533.

<b>Vote 209 Grant to Last Post Fund .....</b>	<b>85,000 00</b>
<b>Expenditures .....</b>	<b>\$ 57,881 16</b>

The Last Post Fund, with Dominion Headquarters in Montreal, is a patriotic society to provide for the burial of honourably discharged ex-service men who were in destitute circumstances at the time of their decease. Payment is not made of the grant as such, but the Society is recouped from this vote for burial expenditures, plus administration charges, less contributions from municipalities for the cost that would otherwise have been incurred by them in the burial of these men as indigents.

<b>Vote 210 Grant to the Canadian Legion .....</b>	<b>9,000 00</b>
<b>Expenditures .....</b>	<b>\$ 9,000 00</b>

The Government contribution is limited to 50 per cent of the actual expenses of the Canadian Legion with a maximum contribution of \$9,000 in the fiscal year.

The expenditures for the year, supported by statements certified by a firm of chartered accountants, amounted to \$30,827.10.

Payments from accounts A-E inclusive are made on the application of the Canadian Pension Commission.

- A The Canadian Patriotic Fund was closed in 1937 and the surplus of \$1,263.86 was transferred to this account which bears the same title and from which payments were made for the relief of distressed families of veterans.
- B The original credit in this fund was received from the former trustees of the regimental fund. Payments are made to needy ex-members of the battalion or their dependents.
- C A donation of £5,000 by W. A. Black to alleviate any cases of hardship or distress which might occur to members of the Canadian Armed Forces or their dependents while in the United Kingdom.
- D A fund of \$12,000 (of which \$5,000 was paid on January 13, 1942) was established by the donor for the benefit of members and ex-members of the Royal Canadian Air Force and their families.
- E Donations to this fund are made by individuals and are devoted to the benefit of Canadian Servicemen and their dependents.
- F Under authority of P.C. 222 of January 12, 1943, moneys previously held in three accounts by the Bank of Canada for the French State were to be used for such purposes as the meeting of continuing obligations of the French State such as pensions. These pensions are now being paid by the French National Committee of Liberation.
- G This account is to be operated in accordance with direction contained in Sec. 8 of the National Physical Fitness Act, c. 29, 1943. Receipts are the transfer of amounts in Votes 499 and 500 (see expenditures) to this account while disbursements are general administrative expenses.
- H This fund represents the accumulative balances to the credit of Canadian seamen interned by the enemy. The amount due each individual will be paid to him upon his release from internment. (See also the War allotment "Detention Allowances—Canadian Seamen" in this Section).

- I Represents War Service Gratuities held by the Department for mental, tubercular and other long treatment cases which were transferred to the treatment strength of the Department on discharge from the Canadian Expeditionary Force, also the gratuities payable to men discharged from the C.E.F. who cannot be located.
- J Moneys held in this account include: (a) pensions and War Veterans' allowances placed under administration of the Canadian Pension Commission; (b) donations, legacies, gifts, bequests, etc., received by the Department and held for the benefit of patients in departmental hospitals; (c) personal funds of patients in departmental hospitals; (d) profits of canteen funds operated in various departmental hospitals, which are used for the benefit of the patients therein.

## POST OFFICE DEPARTMENT

Under authority of the Post Office Act, c. 161, R.S. (as amended), and the Savings Banks Act, c. 15, R.S., the Post Office Department, under the direction of the Postmaster General, is entrusted with the management and operation of the postal services of Canada and the Post Office Savings Bank. In addition, the Department also performs certain services of an agency nature for other departments (without remuneration in some instances), the more important of which are: postmasters are required to act as deputy registrars under the provisions of the National Registration regulations; payments on Dominion Government annuities are received; unemployment insurance stamps, radio licences, war savings stamps and certificates are sold; mail is examined for the Foreign Exchange Control Board; and supplies of forms, literature, etc., are distributed to the public on behalf of the Department of National Revenue, Taxation Division, and the Wartime Prices and Trade Board.

Post Offices are divided into two main groups, namely, staff offices and revenue offices. The postmasters and staffs of staff offices are paid from parliamentary appropriations whereas the postmasters of revenue offices, and through them their staffs, except letter carriers, are paid on a commission basis by means of commission warrants issued from headquarters at Ottawa, and cashed out of Post Office funds in their hands. Letter carriers are paid from parliamentary appropriations in all cases. The various post offices are grouped according to postal districts, each district being under the superintendence of a District Director or Superintendent, controlled from departmental headquarters at Ottawa. District Offices are situated at Halifax, Charlottetown, Saint John, Quebec, Montreal, Ottawa, Toronto, London, North Bay, Winnipeg, Moose Jaw, Saskatoon, Edmonton, Calgary and Vancouver.

Payment of overtime compensation was authorized by the following Orders in Council: (i) P.C. 100/3183 of April 21, 1942 authorized pro rata payments, effective, April 1, 1942, to letter carriers for overtime in excess of a forty-eight hour week; (ii) P.C. 130/11160 of December 9, 1942 extended the above payments, effective September 1, 1942, to mail porters acting as letter carriers; (iii) P.C. 119/3711 of May 5, 1942, extended these payments, effective April 1, 1943, to postal clerks acting as letter carriers; (iv) P.C. 10/5677 of July 19, 1943 and P.C. 162/8855 of November 17, 1943 authorized overtime pay for employees in the classes of postal clerk, mail porter, senior mail porter, postal garage repairman and postal chauffeur, engaged in the operating service on manipulative duties in excess of the regular weekly period, at the pro rata hourly rate of pay, provided that the minimum rate shall be 60 cents an hour. Such payment is to be made at the

end of the month following the month in which such overtime was worked, provided that corresponding time off has not been allowed in the meantime. Compensation for overtime also applies to letter carriers, senior letter carriers and letter carrier overseers for work performed on statutory holidays and during the Christmas heavy mailing period only, and to senior postal clerks during the latter period only. Letter carriers and clerks grade 1, 2 and 3, acting as postal clerks, and clerks grade 4 are also to receive, during the Christmas rush period only, the benefits of overtime compensation while working on manipulative duties.

The difference between the above 1943-44 total and the total of primary allotments B and C is represented by the following items: Headquarters Administration, cost of living bonus and other payroll items, \$15,136.62; Unemployment Insurance, departmental contributions, for employees of certain post offices whose salaries are paid from post office revenue, \$2,968.50.

\* Only salaries of letter carriers are paid through the Treasury Office, the remainder of the staff being paid from post office revenue. During the year under review, letter carrier service was instituted at Arvida, P.Q., and Sorel, P.Q.

† During the fiscal year 1943-44, the following post offices were made a charge on the appropriation for "Post Offices, including salaries, etc." at the effective dates shown: Barrie, Ont., Dec. 1, 1943; Joliette, P.Q., July 1, 1943; St. Jean, P.Q., Jan. 1, 1943; Shawinigan Falls, P.Q., Nov. 1, 1943; Simcoe, Ont., Nov. 1, 1943. Post Office revenue was recouped for salary expenditures from these effective dates to the date of the actual transfer in each case.

F Payments were made to the King's Printer.

G A large portion of this expenditure was for uniforms, boots, etc., for postal employees, as follows: uniforms and uniform repairs, \$145,482.40; caps, waterproof clothing and other accessories, \$33,926.96; cash allowances for boots, \$66,715; cloth for uniforms, \$107,287.66, less cloth sold to uniform manufacturers, \$30,202; (cloth purchased in previous years was also sold to clothing manufacturers for \$19,813.23, and is included in the statement of Revenues under the heading—Other Revenue, Proceeds from Sales).

Other items in excess of \$4,000 were: automobile supplies and repairs, \$46,521.62; gasoline and oil, \$4,956.64; cash registers and repairs, \$8,727.90; letter boxes and repairs, \$7,054.64; mechanical and sorting equipment,

\$50,624.30; post office box repairs, keys, etc., \$4,015.37; rental of machines, Financial Branch, \$61,699.50; cards for machines, \$52,335.34; scales, repairs and supplies, \$13,167.19; stamping material, etc., \$30,491.33; tractors and tractor repairs, \$16,553.44; gasoline and oil, \$5,711.11.

This vote was provided to cover the salaries (including cost of living bonus) and other expenses relating to the activities of the supervisory staff at Ottawa, and of the various district office staffs whose duty it is periodically to inspect post offices, investigate irregularities and administer the services employed in respect of the carriage and delivery of mails.

As of March 31, 1944, there were 43 employees paid from the Headquarters Administration account. The following were receiving salaries at an annual rate of \$2,400 or over, exclusive of cost of living bonus, on that date: W. J. Cantwell, \$4,320; J. P. Coady, \$3,000; H. Fortier, \$5,220; W. C. McEachern, \$3,600; G. M. McRae, \$2,640; J. D. Mooney, \$2,400.

Travelling expenses in excess of \$300 were paid to: W. C. McEachern, \$346.74.

As of March 31, 1944, there were 305 employees paid from the District Office Staffs account. The following were receiving salaries at an annual rate of \$2,400 or over, exclusive of cost of living bonus, on that date or at date of separation (shown in brackets). The travelling expenses of these employees, where the amount was in excess of \$300, are also shown.

A As at April 1, 1943, the balance at the credit of depositors in the Post Office Savings Bank was \$24,373,991.48. Deposits during the year amounted to \$13,834,758.02 and interest credited to the accounts, \$500,000; (the latter item is an estimated amount transferred from Interest on Public Debt pending a reconciliation with the accounts of the Post Office Savings Bank). Withdrawals during the year totalled \$10,422,197.93. The balance of \$28,286,551.57 at the credit of depositors as at March 31, 1944, therefore represented a net increase of \$3,912,560.09.

B Under Section 16 of the Public Works Act, contractors are required to furnish security for the satisfactory performance of the work. This security may be in the form of cash (accepted cheque) or specified bonds. Cash deposits are credited to this account and bear interest at the rate of 2 per cent per annum compounded annually. Upon administrative certification, releases are made to contractors. Bonds furnished as security are held in the custody of the Minister of Finance but are not recorded in this account. At the close of 1943-44, bonds so held in respect of the Post Office Department amounted to \$9,650.

Certified Correct.

A. D. DUNTON,  
General Manager,  
Wartime Information Board.

During the year it was decided that certain revenues and refunds from War activities were to be classified as Special Receipts. As these had previously been reported under Ordinary Revenue, the transfer was duly made; and, for comparative purposes, the 1942-43 Summary of Revenues has been similarly re-classified.

A B The Public Printing and Stationery Act, c. 162, R.S., as amended by c. 5, 1928, authorizes advances from Consolidated Revenue Fund to the King's Printer, not exceeding \$700,000, "to enable him to purchase material for the execution of orders given or requisitions made under the provisions of the Act, and to pay the wages of workmen engaged in the execution of such orders or requisitions". All moneys collected from the Public Service are treated as repayments.

In the 1943 report, it was stated that the debit balance in these accounts exceeded the authority and that an allotment was being obtained from the War Appropriation 1943-1944. Treasury Board Minute T.260525B. of March 30, 1944, authorized an estimate and immediate allotment of \$1,300,000 to increase the authority to \$2,000,000.

It is the practice of the King's Printer to add a percentage to the cost of the stationery purchased to cover the cost of operating the Stationery Branch and this charge is absorbed by the various departments in their purchases; in the Printing Branch the charge for work done is made on a unit price basis for the various classes of work executed. The cost of light, heat, power, telephone services, etc., paid by the Department of Public Works, is not taken into account.

From the closing balance of \$2,578,879.21 shown above must be deducted the sum of \$996,312.96, representing amounts due the King's Printer by other departments and other Governments at the close of the fiscal year, and which are allowed as deductions under Section 38 (as amended) of the Act in determining net advances outstanding.

The following is a statement of the operations for the year as shown in the King's Printer's Advance Account:

The expenditures of the Gallery are governed by "An Act to incorporate the National Gallery of Canada", c. 33, 1913, and are controlled by a Board of three trustees who serve without remuneration and receive their reasonable travelling and other expenses. The moneys appropriated by Parliament for the work of the Board, or which the Board may receive by bequest, or in any other manner, are expended under the direction of the Board.

An account under the title of "National Gallery of Canada—Special", which is shown under Open Accounts at the end of this section, is maintained to record the value of monetary gifts and bequests to the National Gallery, as well as the amounts of expenditure from such sums.

As of March 31, 1944, there were 15 employees paid from this account. The following were receiving salaries at an annual rate of \$2,400 or over, on that date: G. J. Harbour, \$3,000; H. O. McCurry, \$6,000. As of March 31, 1944, 1 employee was being paid a war duties supplement.

CB In connection with art education, W. H. Abell was employed July 1—March 31 at \$300 per month and was paid \$120 for lectures and \$30.89 for travelling expenses. The services of Miss Mabel May cost \$930. The fees and expenses of other lecturers, etc., amounted to \$691.97. Other costs were as follows: advertising, \$377.55; freight and express, \$2,928.30; insurance, \$1,573.18; wages, \$1,476.09; sundries, \$669.10. The sum of \$1,537.58 was refunded for expenses in connection with exhibitions in other cities.

E This allotment includes the cost of prints, reproductions and slides, \$2,279.77; printing and stationery—supplied by the King's Printer, \$1,264.08, supplied by outside firms, \$727.85; catalogues, \$764.47; freight, express and cartage, \$1,605.49; telegrams, \$236.31; telephone tolls, \$262.75; travel, \$241.14; sundries, \$3,923.87. Sales of reproductions, etc., amounting to \$7,560, were credited to this allotment.

B Under the terms of the Dry Docks Subsidies Act, c. 191, R.S., amounts deducted from subsidies paid to the Burrard Dry Dock Company, Ltd., are credited to this account, to which interest at the rate of 3 per cent compounded annually is also credited. The moneys are to be used for the renewal of the pontoons in connection with the dry dock.

C Under Section 16 of the Public Works Act, contractors are required to furnish security for the satisfactory performance of the work. This security may be in the form of cash (accepted cheque) or specified bonds. Cash deposits are credited to this account and bear interest at the rate of 2 per cent per annum compounded annually. Upon administrative certification, releases are made to contractors. Bonds furnished as security are held in the custody of the Minister of Finance but are not recorded in this account. At the close of 1943-44, bonds so held in respect of the Department of Public Works amounted to \$226,100.

D This account records the value of contractors' securities and earnings held pending the settlement of claims made by their creditors. Payments, made in accordance with the terms of such settlements, are debited hereto.

E By authority of P.C. 2965, October 4, 1939, the Department of Public Works took over from the Province of British Columbia for maintenance and operation the railway bridge at New Westminster, known as the Fraser River Bridge, the transfer being effective from December 1, 1939.

All tolls collected from the railways using this bridge are credited to this account. The cost of ordinary maintenance and operation is met from moneys voted by Parliament and the vote entitled "Maintenance and Operation of the New Westminster Bridge" is recouped at the end of each fiscal year from the revenues collected. In addition, preliminary expenses amounting to \$2,822.88 in connection with the contract with the Dominion Bridge Co., Ltd. for large repairs were paid from this account.

The balance remaining in the fund is to accumulate for the ten years specified in the agreement pending final settlement with the Province.

F The contribution of \$87,000 made by the Canadian National Railways towards reconstruction of portion of Railway Wharf at Mulgrave, N.S., was expended directly from this account.

G Monetary gifts and bequests to the National Gallery are credited to this account. They include the following received during the year: Canada Packers, Ltd., \$5,000; Carnegie Corporation, \$3,300; Percy Hermant, Ltd., \$715; Southam Co., Ltd., \$1,242. Lecture registration fees amounted to \$465.50. Included also is the annual interest of \$30 on a Dominion of Canada perpetual bond for \$1,000 in the custody of the Finance Department. The value of this bond, acquired in a previous year, was credited to this account during the year.

The sum of \$5,000 was paid on account to Sampson Matthews, Ltd., for silk screen prints; three hundred reproductions of "Evening, Lake Nipigon" for the armed forces cost \$621; the expenses of two artists travelling with an Atlantic convoy were \$350.

As of March 31, 1944, there were 23 employees paid from this account. The following were receiving salaries at an annual rate of \$2,400 or over, exclusive of cost of living bonus, on that date: A. J. Anderson, \$2,700; \*M. H. Arnoni, \$3,000; \*G. T. Hann, \$4,500; J. A. Lynch, \$3,420; E. A. Ranger, \$2,400; A. H. Tremblay, \$2,400; I. Zivian, \$4,320.

\* Received war duties supplements—see following list.

As of March 31, 1944, there were 3 employees being paid war duties supplement, including the following whose salaries are detailed above (amounts represent annual rates paid at that date): M. H. Arnoni, \$60; G. T. Hann, \$420.

C Rates of pay are authorized by the Governor in Council under the provisions of the Royal Canadian Mounted Police Act, c. 160, R.S. The strength of the General Administration in the various commissioned and non-commissioned ranks as at March 31, 1944, was as follows: 1 commissioner, 2 superintendents, 5 inspectors, 1 sub-inspector, 5 staff sergeants, 14 sergeants, 21 corporals, and 3 constables.

As at March 31, 1944, the officers were in receipt of the following annual rates of pay exclusive of extra war duties pay referred to in the succeeding paragraph: S. T. Wood, commissioner, \$10,000; R. Armitage, \$2,540; F. A. Blake, \$3,120; H. R. Butchers, \$2,540; K. Duncan, \$3,120; A. Goodman, \$2,540; J. Leopold, \$2,000; E. H. Perlson, \$2,340; D. C. Saul, \$2,540.

In addition to the regular pay drawn by the personnel, the following number of officers, non-commissioned officers and constables received during February and March, 1944, extra war duties pay authorized by P.C. 135/1385 of March 3, 1944, at the following rates: 9 officers at \$1.25 per diem; 40 non-commissioned officers at \$1 per diem; 3 constables at 75 cents per diem.

D This allotment includes payments for electric light, electric power and fuel for private quarters of officers and also rent for private quarters of officers who live in leased apartments and houses. These payments together with allowances as and when received under Allotment H, are in addition to the pay shown under Allotment C.

H Expenditures represent payment of allowances to members of the Force as authorized by the Governor-in-Council under the Royal Canadian Mounted Police Act, c. 160, R.S.

Under P.C. 50/2766 dated November 4, 1938, allowances may be granted to members of the Force in lieu of either quarters, fuel, rations, light, etc., or for all of them where they cannot be provided by the Force, and where such allowances are deemed to be an economy in the public interest, or where the requirements of the service will be best served by granting them.

Allowances are in no case to exceed the cost of services which the Government would otherwise have to provide, nor the following maxima: (a) general living allowance (in lieu of quarters, rations, fuel and light combined): officers at rates as authorized by the Minister; non-commissioned officers and constables, married \$2.25 per diem, single \$1.50 per diem; (b) ration allowance: all ranks—married \$1.20 per diem, single 60 cents per diem; (c) meal allowance: officers at rates as authorized by the Minister; non-commissioned officers and constables \$1.20 per diem.

The Minister may grant other allowances not herein provided for as may be required in the public interest, and as may be deemed advisable from time to time. In special circumstances, allowances as above referred to have been granted to officers of the Force as authorized by the Minister. Generally, these consist of rent allowance to officers who own their own houses; also general living allowance at rates governed by prevailing conditions in localities in which these officers are stationed for duty.

P.C. 128/2936 of November 19, 1934, as amended by P.C. 109/2420 of September 17, 1936, grants retiring allowance in lieu of quarters, rations, fuel and light to officers of the Force whilst on retiring leave pending pension. The rates by rank of these allowances are as follows: deputy commissioner, \$170 per month; assistant commissioner, \$155 per month; superintendent, \$145 per month; inspector, \$130 per month.

In addition to the expenditure of \$6,017,857.03 shown above, the sum of \$4,124,630.02 was expended for similar purposes from the War Appropriation allotment "Increased Activities of the Force due to the War", making a total of \$10,142,487.05. To avoid repetition of explanations and data, the following comments refer to such aggregate expenditures except that the items for "salaries", "pay" and "construction" under the above-mentioned War allotment are separately commented upon (see page V—10).

A As at March 31, 1944, there were 42 employees paid from this account, 13 of whom were receiving war duties supplements.

C This allotment provides for the pay at rates set by the Governor in Council of the commissioned officers appointed by the Governor in Council, and non-commissioned officers, constables and special constables, appointed by the Commissioner. The following was the strength in the various commissioned and non-commissioned ranks at March 31, 1944: 1 deputy commissioner, 6 assistant commissioners, 15 superintendents, 38 inspectors, 12 sub-inspectors, 1 surgeon, 41 staff sergeants, 191 sergeants, 494 corporals, 1,346 constables, and 112 special constables, 16 acting assistant surgeons.

As at March 31, 1944, or at date of separation (shown in brackets) the officers were in receipt of the following annual rates of pay, exclusive of extra war duties pay referred to in the succeeding paragraph:

A Under Section 16 of the Public Works Act, c. 166, R.S., contractors are required to furnish security for the satisfactory performance of the work. This security may be in the form of cash (accepted cheque) or specified bonds. Cash deposits are credited to this account and bear interest at the rate of 2 per cent per annum

compounded annually. Upon administrative certification, releases are made to contractors. Bonds furnished as security are held in the custody of the Minister of Finance but are not recorded in this account. At the close of 1943-44, there were no bonds held in respect of this Department.

B A Benefit Fund account authorized and administered by the Department under the provisions of the Royal Canadian Mounted Police Act, c. 160, R.S., sec. 21, and amendments thereto. All moneys received by personnel of the Force over and above their pay and allowances are deposited to this Fund and benefits are payable therefrom as directed by P.C. 7/1948 of August 1, 1936, and amendments thereto.

A The Royal Canadian Mounted Police Act, c. 160, R.S., sec. 5, and amendments thereto, directs that service of officers and constables of former provincial police forces taken over by the Royal Canadian Mounted Police may count for pension purposes, subject to payment therefor. Payment for this prior service was in some instances made by provinces concerned, and in others by the personnel, and the amounts are credited to this account. As pensions to these men are a direct charge to Consolidated Fund, the amount to the credit of each man is transferred to Revenue when he is pensioned. Withdrawals also represent payments to time-expired personnel not eligible for pension.

B Deductions from salaries of police personnel and employed civilians, who are not paid by Central Pay Office, are credited to this account and cheques in favour of the Bank of Canada are drawn against it as the certificates become fully paid. The above balance represents the incomplete subscriptions at the close of 1943-44.

The administration of Internment Operations and Refugee Camps was transferred to the Department of National Defence—Army Services under authority of P.C. 36/500, January 20, 1943.

Other war activities were transferred to the Department of National War Services as follows: Press Censorship (P.C. 4012, May 13, 1942); Office of the Director of Public Information (P.C. 3333, July 19, 1940); Voluntary Service Registration Bureau (P.C. 2031, March 24, 1941); War Charities Act, 1939, Administration (P.C. 3859, August 13, 1940).

Subsequent expenditures in connection with the above activities are shown under the respective Departments.

Allotment: Commission re Revocation of Naturalization Certificates.....	500,000 00
Expenditures.....	<u>\$ 8,000 00</u>

This payment is for extraordinary expenses occasioned by the war. The Lieutenant-Governor of Nova Scotia, Honourable H. E. Kendall, and the Lieutenant-Governor of Quebec, Honourable Sir Eugene Fiset, were each paid \$4,000.

Allotment: Commission re Revocation of Naturalization Certificates.....	2,000 00
Expenditures.....	<u>\$ 252 57</u>

Honourable H. A. Robson was paid \$251.15 for travelling expenses.

Allotment: To provide for expenses in connection with the visit to Canada of the Right Honourable Winston Churchill (Quebec Conference).....	500,000 00
Expenditures.....	<u>\$ 355,274 04</u>

This allotment was authorized to provide for expenses in respect of the conference held at Quebec City in August, 1943, between the President of the United States, the Prime Minister of Great Britain, the Prime Minister of Canada and their joint staffs.

The following payments for board and lodging, hotel reservations, special train service, official entertainment, etc., are included in the expenditures: Canada Steamship Lines, \$22,097.53; Canadian Pacific Railway Co., \$12,081.97; Canadian National Railways, \$16,991.39; Chateau Frontenac Hotel, \$231,525.99; The Citadel, \$19,362.24; Clarendon Hotel, \$6,821.21; Department of National Defence—Army Services, \$23,557.48.

<b>Allotment: Board of Management, Hostel for Junior Female Employees in the Public Service—Revolving Fund to provide for the operating expenses of "Laurentian Terrace".</b>	<b>\$ 50,000 00</b>
<b>Expenditures.....</b>	<b>nil</b>

Under authority of P.C. 6042, July 13, 1942, the Laurentian Terrace Hostel was constructed by the Department of Public Works to provide housing accommodation for junior female employees in the public service in the City of Ottawa. The hostel is operated under the direction of a board of management, which is authorized to fix and collect the charges for accommodation, meals and other services.

The above amount was authorized to provide working capital and was transferred to the Laurentian Terrace Hostel Revolving Fund. (See under Open Accounts further on in this Section). As the policy of operating revolving funds as Open Accounts was discontinued as of March 31, 1944, the amount advanced from this allotment was refunded at the close of the fiscal year.

A This account has its origin in the 1914-18 war. The balance remaining in the fund represents earnings of prisoners who died while interned, prisoners who escaped or were killed trying to escape, and of others who, for various reasons, were not paid the balances to their credit on release.

B This amount has been deposited as security against any claim which may be put forward on behalf of the United States federal tax authorities for additional taxes against Maple Investments Limited prior to the 15th day of June, 1945, such security being tendered in connection with a petition for acceptance of surrender of the charter of the said Maple Investments Limited.

C This account is similar to Internment Operations Fund, except that the amount represents cash and valuables which are the property of the prisoners.

A This account, to which reference is made under the pertinent war allotment, was established under authority of P.C. 151/4857, June 15, 1943, and reflects the revenue and operating expenses of the Laurentian Terrace Hostel. All moneys received from resident employees for accommodation, meals, etc., are credited to this account, while operating expenses such as purchases of food supplies, administrative costs, etc., are charged to it. The cash surplus for the fiscal year amounting to \$29,159.96, was transferred to Special Receipts—Miscellaneous War Revenues. Entries representing the transfer of \$50,000 allotted from the War Appropriation and the refunding of this amount to the allotment at the close of the fiscal year are included in the above Receipts and Disbursements.

B All cheques, except those drawn against Open Accounts, which remain undelivered after six months subsequent to the date of their issue are credited to this account. The above balance represents the liability in respect of this Department at the close of 1943-44.

H Amounts of \$50,000 and \$1,730.28 credited to Veterans' Land Act Fire Insurance Fund under Open Accounts further on in this section are included in the expenditures from this allotment.

In addition to the total expenditure of \$824,527.75, the sum of \$87,500 was expended from this vote by Soldier Settlement on activities in connection with other departments which was repaid as follows: National Defence—Army Services, Dependents' Allowance Board, \$45,000; Pensions and National Health, \$42,500.

<b>Vote 337 Payment to the Government of the United Kingdom on account of losses under the 3,000 British Family Agreement of August 20, 1924, and the New Brunswick 500 British Family Agreements of August 4, 1927, and August 27, 1935.....</b>	<b>15,000 00</b>
<b>Expenditures.....</b>	<b>\$ 12,057 18</b>

Under the Agreement with the Government of the United Kingdom, losses resulting from the operation of the schemes are shared between the two governments in proportion to the advances made by each government.

Generally speaking, the Canadian Government furnished the land, while the United Kingdom Government supplied the stock and equipment. Proceeds of sales of reverted properties are credited along these lines, i.e., the Canadian Government's account is credited with moneys derived from the sales of land, while the United Kingdom Government's account is credited with sales of stock and equipment. Relative collections are remitted to the United Kingdom Government monthly.

When properties are finally disposed of, the losses sustained by each government are calculated in accordance with the agreement. On this basis, if the remittances referred to above exceed the United Kingdom Government's residual equity, such excess is recovered; conversely, if the remittances are less than such equity, the Canadian Government pays the difference, and this vote is provided for the purpose of absorbing this cost.

Generally, in connection with the above accounts, there are parliamentary appropriations provided, as authority for certain loans and advances made through the above accounts. The appropriations in the present year and the accounting therefor follow:

<b>Vote 411 To provide for Soldier Land Settlement and British Family Settlement net advances .....</b>	<b>98,000 00</b>
<b>Expenditures.....</b>	<b>\$ 41,459 62</b>

These expenditures are included in the disbursements of the above Open Accounts as follows: Soldier Land Settlement, \$32,782.20; General Land Settlement, \$8,653.17; Purchased and Free Lands, \$24.25. They comprise: taxes, \$26,983.80; taxes, Indian soldier settlers, \$432.33; insurance, \$2,739.74; miscellaneous advances, \$11,303.75.

<b>Vote 532 To provide for the cost of lands and improvements to be purchased under the provisions of the Veterans' Land Act.....</b>	<b>6,600,000 00</b>
<b>Expenditures.....</b>	<b>\$1,598,347 05</b>

These expenditures are included as disbursements in the above Open Account for Veterans' Land Act advances and were for the purchase of land.

A This account relates to advances made to veterans of the 1914-18 war and further transactions with all purchasers of reverted properties.

The Soldier Settlement Balance Sheet shows gross loans as \$117,276,989.86 and Farmers' Creditors Arrangement Act reductions charged back from General Land Settlement as \$1,523,831.71, making a total of \$118,800,821.57. From this total is deducted the value of lands transferred to the British Family Settlement Scheme, \$8,449,532.67, legislative reduction of loans, \$25,697,205.07, and repayments of principal, \$44,042,888.85, resulting in a debit balance of \$40,611,194.98 at March 31, 1944.

Receipts consist of repayments of principal, \$2,696,986.91, refunds, \$367.67, and an amount of \$397,296.82 included in the item of \$553,385.31 under Write-Down of Assets written off under legislative authority. Disbursements are (a) payments of taxes, insurance and other charges, \$33,149.87; (b) a reduction under Farmers' Creditors Arrangement Act to British Family Settlers charged back to former soldier settler owners (Soldier Land Settlement Loans) \$1,966.29.

B The General Land Settlement account relates to the advances made by the Dominion to the British Family Settlement and the New Brunswick Settlement Schemes, to which schemes the United Kingdom Government contributed. Under the agreements with the United Kingdom Government, the accounts relating to these two schemes are audited annually under the direction of the Auditor General and copies of the audit report are transmitted to His Majesty's Secretary of State for Dominion Affairs. As at March 31, 1944, the outstanding loans due the United Kingdom were shown as \$1,649,395.29 and overdue interest as \$19,037.39.

Receipts consist of (a) repayments of principal, \$425,451.92; (b) the reduction under the Farmers' Creditors Arrangement Act of \$1,966.29 debited to Soldier Land Settlement Loans; and (c) an amount of \$156,088.49 included in the item of \$553,385.31 under Write-Down of Assets written off under legislative authority. Disbursements include payment of taxes, insurance and other charges.

C When the Soldier Settlement Board was established, certain tracts of land were acquired by purchase or otherwise and the transactions herein are in connection with portions of this land in which the Dominion Government still has a financial interest. Receipts are derived from sales of land on cash or terms while disbursements represent payments for taxes.

D This is a clearing account for the United Kingdom's portion of advances, and repayments of same, under the 3,000 British Family Settlement Scheme and the New Brunswick 500 Family Settlement Scheme. Debit balances are paid by the Government while credit balances are remitted to it.

E This account relates to advances made to veterans of the 1939 war and purchase of properties for future settlement.

Receipts consist of rents collected, \$63,905.44; and repayments of principal, \$7,772.43. Disbursements are: loans to veterans, \$42,186.81; purchases of properties for future settlement, \$1,557,470.16 and the transfer of rents collected, \$63,905.44, to Ordinary Revenue—Privileges, Licences and Permits. A portion of the revenue from rentals was credited direct, the total collections being \$94,017.42 (see Revenues section hereof).

G Moneys are credited to this account pending distribution to the proper accounts.

H This account accumulates the value of write-downs to the non-active category of the investment of the Dominion Government in soldier and general land settlement loans.

<b>Allotment: Gift of Wheat to Greece .....</b>	<b>8,808,005 00</b>
<b>Expenditures .....</b>	<b>\$8,797,844 75</b>

P.C. 92/4430, May 27, 1942, authorized the purchase and transfer of 15,000 tons of wheat per month to be provided as a free gift to the people of Greece. The Government of Sweden agreed to charter Swedish ships for this purpose, for which expenditure it will be reimbursed by the Greek Government.

This year, there were 6,865,769½ bushels of wheat purchased and shipped, making a total of 10,736,797½ bushels purchased and shipped to March 31, 1944.

<b>Allotment: Canadian Shipping Board—Revolving Chartering Fund .....</b>	<b>\$ 250,000 00</b>
<b>Expenditures .....</b>	<b>nil</b>

Under authority of P.C. 2/2323, April 4, 1941, amended by P.C. 2/2787, April 22, 1941, the Canadian Shipping Board was authorized to charter any suitable vessels, irrespective of registry, that could be secured for use in any essential Canadian export and import trade in regard to which the Board may deem it necessary. Working capital was to be provided from the War Appropriation for a revolving fund, to which expenditures were to be charged and revenues credited.

In the fiscal year 1942-43, net expenditures in connection with the operations of this revolving fund were \$15,000.

In the present fiscal year, an Open Account was established and the War Allotment of \$250,000 was transferred thereto but, towards the close of the year, it was decided that the relative annual allotment should be operated as the revolving fund. As a result of this decision, and also the fact that revenues in connection with the year's operations exceeded the expenditures, the amount was refunded to the War Appropriation. The revenues and expenditures in connection with this project are shown under Open Accounts, Sundry Suspense Accounts further on in this Section.

<b>Allotment: Shipping Priorities Committee Administration .....</b>	<b>43,052 00</b>
<b>Expenditures .....</b>	<b>\$ 39,848 11</b>

Under P.C. 8487, October 31, 1941, a Shipping Priorities Committee was appointed for the purpose of ascertaining shipping cargo space requirements having regard to the necessities of the war effort, and the extent to which they can be met by use of ships of Canadian registry or by ships provided by the United Kingdom Ministry of War Transport; also to present to competent authority of the Government of the United States requests for the allotment of cargo space in ships controlled by that country.

A classification of expenditures follows: salaries and other pay-list items, \$34,339.85; travelling expenses, \$1,285.55; printing and stationery, \$932.82; telegrams and telephones, \$3,289.89.

As of March 31, 1944, there were 19 employees paid from this account. The following were receiving salaries at an annual rate of \$2,400 or over, exclusive of cost of living bonus, on that date: \*B. C. Butler, \$4,080; L. J. Gleeson, \$3,000; \*P. V. McLane, \$4,080; E. J. McMeekin, \$3,420; W. G. Poy, \$2,400.

\* Received additional compensation—see following list.

As of March 31, 1944, there were 3 employees being paid war duties supplements, including the following whose salaries are detailed above (amounts represent annual rate paid at that date): B. C. Butler, \$240; P. V. McLane, \$240.

Travelling expenses in excess of \$300 were paid to: P. V. McLane, \$861.27.

A This account is operated pursuant to the provisions of section 163, Canada Grain Act, c. 5, 1930, whereby an accountable advance not exceeding \$500,000 may be made out of the Consolidated Revenue Fund to the Board of Grain Commissioners for working capital and to meet freight charges and weighing and inspection fees on grain shipped to or discharged from government elevators, such charges and fees being subsequently recovered from owners of the grain.

B P.C. 9144, October 6, 1942, approved of the sale of the Steamer *Pelee* to D. L. Goodison, Blenheim, Ont., for \$40,000. In accordance with the terms of the sale, \$10,000 was deposited to the credit of this account in 1942-43, leaving a debit balance of \$30,000.

The amount of \$5,000 shown as receipts represents the first annual instalment of repayment of capital deducted from the subsidy (see page Y-13) paid to the contractor. Interest due on the unpaid balance, amounting to \$1,174.79 (also deducted from subsidy) appears in the revenue section of this Department under Return on Investments.

<i>Outstanding Cheques and Warrants—</i>				
Wheat Bonus Certificates.....	\$ 9,839 20		\$ 2,020 72	\$ 7,818 48

Pursuant to the Act Respecting Wheat, c. 60, 1931, the Governor in Council authorized payment out of the Consolidated Revenue Fund of the sum of five cents per bushel for wheat grown in the Provinces of Alberta, Saskatchewan and Manitoba in the year 1931 and delivered to any licensed elevator in the Western Inspection Division, commission merchant, track buyer, or grain dealer, as defined by the Canada Grain Act. A net amount of \$12,708,062.18 as bonus was paid in this respect to March 31, 1933. In the fiscal year 1932-33, an amount of \$11,838.55 was credited to this account to meet outstanding certificates. During the period April 1, 1933, to March 31, 1943, certificates amounting to \$1,999.35 were redeemed leaving a balance of \$9,839.20 in the account.

During the present fiscal year it was ascertained that the amount originally credited to this account was in excess of the value of outstanding certificates, and the amount of the excess, \$1,550.67, was transferred to Special Receipts, Refunds of Previous Years' Special Expenditure, of the Department of Finance. Certificates totalling \$470.05 were redeemed during the year.

A With respect to the annual weigh-up of grain in store in elevators as required by sections 138 and 138 (a) of the Canada Grain Act, c. 5, 1930, net overages disclosed in each Crop Year belong to the Crown and may be disposed of as the Board directs. The proceeds from the sale of net overages for the present year, \$4,078.65, were deposited in this account.

B The account in the current year was used for the purpose of recording the matured interest earned on securities held as surety for licensees. An amount of \$450, being the interest received, was deposited to the credit of the account and subsequently this amount was paid over to the licensees.

C This account represents revenue of the National Research Council derived from laboratory fees, sale of publications, etc., which under the authority of the Research Council Act, c. 177, R.S., may be spent by the Council. Disbursements include amounts transferred to parliamentary appropriations in reduction of expenditures therefrom, as well as amounts transferred to the Trust Fund.

D This fund is used to provide the means for the initiation expansion or completion of specific proposals relating to Canada's war effort. Receipts represent patriotic donations from companies or individuals while disbursements are made, as directed by the War Technical and Scientific Development Committee, on projects selected from a list formulated by the President of the National Research Council.

E To this Fund, which is for the furtherance of research work, are credited (a) contributions received from organizations and individuals, (b) incidental revenues arising from activities, (c) allotments made by the Council from Parliamentary Appropriations and (d) amounts transferred from the National Research Council Special Fund. Disbursements represent advances which have been made during the year to various associate committees and individuals, all of which, with the exception of \$21,261.83, have been accounted for as at March 31, 1944.

F When money is received for royalties or patent rights in connection with an invention or process in the National Research Laboratories, the proceeds are placed in this account pending the decision of the National Research Council as to its disposal. Of the above balance, \$131,000 is held in bonds which are in the custody of the Department of Finance.

G The balance of 34 cents remaining in this account at March 31, 1943, was transferred during this year to Ordinary Revenue—Miscellaneous, and the account closed.

Under authority of P.C. 10229, November 19, 1942, amended by P.C. 11161, December 8, 1942, a blanket insurance scheme was established for the insurance of grain in commercial storage in Canada and in transit. The premium is obtained by means of a levy, which levy is collected by the Board of Grain Commissioners from elevator operators. Out of this account, in addition to claims, there is paid interest at the rate of four per cent per annum to elevator managers in respect of outstanding advances of the foregoing levy made by such managers on behalf of owners of grain.

A P.C. 2/2323, April 4, 1941, amended by P.C. 2/2787, April 22, 1941, authorized the Canadian Shipping Board to charter any suitable vessels, irrespective of registry, that could be secured for use in any essential Canadian export and import trade in regard to which the Board may deem it necessary, the revenues in connection with such operations to be credited to, and the expenditures to be paid from, the revolving fund.

The transactions in the above account include the operations during the year, the deposit and withdrawal of an amount of \$250,000 allotted from the War Appropriation and certain adjusting entries due to changes in procedure. Towards the close of the fiscal year, it was decided that the annual War allotment should be operated as the revolving fund and this account was, therefore, closed out by crediting the allotment with \$250,000, the amount with which it had previously been charged, and transferring the balance, \$238,136.92, to Special Receipts—Miscellaneous War Revenues.

B Under authority of Section 4 (1) of the War Appropriation (United Nations Mutual Aid) Act, c. 17, 1943, funds were made available to the Department as from September 1, 1943, by the Canadian Mutual Aid Board to cover expenditures incurred in supplying wheat, flour and linseed oil to the United Nations (other than Canada). Of the net advances of \$55,000,000 (gross, \$60,000,000), an amount of \$53,683,047.37, consisting of \$48,829,438.33 from Mutual Aid funds and \$4,853,609.04 cash provided by the United Kingdom was expended for this purpose and the balance refunded to the Board at the close of the fiscal year. Further details are shown under the Canadian Mutual Aid Board section of this Report.

Included in the transactions in this account is an amount of \$638,612.58 representing the purchase by the Department of a shipment of flour for the Union of Socialist Soviet Republics. The account was recouped for this purchase by the Bank of Canada on instructions from the British Ministry of Food.

Harbour Dues.—The remuneration and expenses of harbour masters, amounting to \$16,131.11, were paid from harbour dues revenue in accordance with the Canada Shipping Act, c. 186, R.S. The rates of remuneration for harbour masters are authorized by the Governor in Council.

Wharves and piers revenue is collected by wharfingers appointed under authority of the Government Harbours and Piers Act, c. 89, R.S. The remuneration of the wharfingers and certain expenses authorized for making the wharves serviceable, amounting to \$42,014.13, were paid from the revenue under authority of the Act. In certain instances, agreements are entered into by the Department for fixed yearly payments for the use of a wharf, pier or breakwater. These amounts are paid direct to the Department. The rates of remuneration for wharfingers are authorized by the Governor in Council at 50 per cent of the first \$200 collected or any portion thereof and 15 per cent of all collections over \$200. In a few instances, special rates have been established with the approval of the Governor in Council.

Steamship inspection fees are established by the Governor in Council under the authority of Section 477 of the Canada Shipping Act, c. 186, R.S., the collections being made mainly through collectors of customs.

Cost of Collection of Radio Licence Fees—It is provided under Section 14 (a) of the Canadian Broadcasting Act, c. 24, 1936, that the moneys received from licence fees in respect of private receiving licences and private station broadcasting licences, less the cost of collection and administration as determined by the Minister, shall be deposited to the credit of the Canadian Broadcasting Corporation. The net revenue for the year, before deducting cost of collection, amounted to \$4,018,062.88. The cost of collection for the year 1943-44 amounted to \$230,176.37, which includes the total of the expenditures under Vote 403 (and Supplementary 524), and was deposited to the credit of the Receiver General as revenue of the Department of Transport.

Radio Traffic—East and West Coast—This amount represents the Department's portion of moneys received from foreign Administrations, ship owners, etc., for radio and domestic point to point messages relayed or received through the Department's East and West Coast Radio Services via various public utilities.

Radio Traffic—Marconi-operated Stations—This amount represents that portion of revenue from Radio Traffic which was earned by certain departmental East Coast and Great Lakes radio stations operated by the Canadian

Marconi Company. It was not taken into the operating account of these stations (see page Z-34) but deposited to the credit of the Receiver General as revenue of the Department.

**Airport Scheduled Airline Services**—This revenue is derived from scheduled airline services for the daily use of an airport at the following rates: \$100 per month for first schedule, \$50 per month for next and succeeding schedules. A schedule is defined as a flight in and out of an airport on an established run.

Canals revenues consist of \$88,417.50 from linesmen's fees, \$66,170.39 from power service and the balance, \$179,564.91, from wharfage, wintering and lying up, etc.

### GENERAL

**Transfer from Vote 67, Unforeseen Expenses (Department of Finance).....\$ 21 14**

To cover payment for floral tributes to the late George Huband, Representative in Canada of the Ministry of War Transport of the United Kingdom, as authorized by T.247118 B. of July 29, 1943.

**Refunds of Previous Years' Revenue—Consolidated Revenue and Audit Act, 1931, c. 27, .**  
**sec. 22 (2) .....\$ 212 06**

The above amount was incorrectly credited to revenue in previous years. It covers (a) wages of a seaman of the Claire Lilly, amounting to the sum of \$130.87, which should have been credited to Department of Transport—Suspense pending final disposition; and (b) an amount of \$81.19 which should have been credited to Employees' Compensation Clearing Account—Defence Projects, Munitions and Supply. The provision of the sum of \$212.06 as an expenditure item permits the transfer of the items referred to in (a) and (b) to the proper accounts which has been done.

### Payment of compensation respecting Government Employees—Government Employees'

Compensation Act, c. 9, 1931.....\$ 568,232 08

This amount covers compensation, medical aid, etc., when employees of His Majesty are killed or suffer injuries in the performance of their duties.

The claims of employees eligible for compensation are dealt with and paid by the Provincial Workmen's Compensation Boards except in the Provinces of Prince Edward Island and Quebec. Claims arising in the Province of Prince Edward Island are adjusted through the Canadian National Railways, while those in the Province of Quebec are arranged directly by the Department. Medical aid claims under \$25 in the Province of Ontario, when the accidents are of a minor nature and no compensation is paid to the injured employee, are paid directly by the Department. In the provinces where claims are paid by the Boards, the Dominion Government has advanced funds to meet such expenditures.

In accordance with Section 29 of the National Harbours Board Act, c. 42, 1936, certificates of indebtedness, bearing interest at  $3\frac{1}{2}$  per cent, were issued to the Government.

A Under the agreement of sale of the City of Saint John properties to the Saint John Harbour Commissioners as of August 1, 1927, the Commissioners assumed full liability for City of Saint John bonds amounting to \$1,467,164.96 maturing at various dates from 1932 to 1954. The Dominion Government guaranteed these bonds as to principal and interest. During the year, bonds totalling \$41,000 matured and the amount was advanced by the Dominion Government. The principal of the unmatured bonds outstanding at the close of the harbour financial year, December 31, 1943, amounted to \$637,729.31.

B The advances were used for capital expenditures.

C The advances were made to the following harbours for capital expenditures: Halifax, \$13,972.10; Saint John, \$81,328.04; Three Rivers, \$807.55.

#### DIRECTOR OF MERCHANT SEAMEN

<b>Allotment: Headquarters Administration .....</b>	<b>73,190 00</b>
<b>Expenditures.....</b>	<b>\$ 58,303 84</b>

Under the provisions of P.C. 14/3550 of May 19, 1941 and P.C. 149/9130 of November 22, 1941, authority was granted for the construction, equipment, maintenance and operation of Seamen's Manning Pools, Training Centres, Welfare Institutions and facilities and for the extension of existing Nautical Schools. In the operating arrangements, it was provided that seamen and trainees would receive board and lodging accommodation, and pay at approved rates. Officers, seamen and trainees handled under this scheme are to hold themselves available for service on any ship controlled by the Allied Nations to which they may be assigned by the Director of Merchant Seamen.

Expenses for accommodation given in the Pools, incurred on behalf of other than Canadian merchant seamen will be collected from the respective Governments or shipping interests concerned.

P.C. 14/3550 of May 19, 1941, made provision for the appointment of a Director of Merchant Seamen to be charged with the administration and operation of Manning Pools, Training Schools and all attendant facilities, together with such regional directors and staff as required.

Manning Pools have been established at Montreal, Halifax, Vancouver and Saint John with a Reserve Pool at Sydney, Nova Scotia.

Instructional Schools have also been established at Prescott, Ont., and at St. Margaret's Bay, N.S.

An office has been established in London, England, primarily for the recruiting of United Kingdom Merchant Navy Officers to supply deficiencies in the Canadian Merchant Navy, and for the general care of Canadian Seamen landed in the United Kingdom.

A Canadian Pool is also projected for Liverpool.

The following is a classification of Headquarters administration expenditures: salaries, \$39,450.26; cost of living bonus, \$2,488.78; travelling expenses, \$5,242.64; sundries, \$11,122.16.

As of March 31, 1944, there were 18 employees paid from this account. The following were receiving salaries at an annual rate of \$2,400 or over on that date: E. H. Cameron, \$5,000; W. B. Coyle, \$4,200.

In respect of the loan of the officers indicated, various companies were reimbursed salary payments as follows: Cunard White Star Ltd.: G. McGonigal, \$3,000; A. Randles, \$4,350 (one-half of salary of \$8,700); Canadian Pacific Railway Co.: J. MacCourt, \$3,600.

Travelling expenses in excess of \$300 were paid to: G. McGonigal, \$864.81; A. Randles, \$3,722.65, who also received \$1,163.75 from the next allotment.

\* Upon repayment of this loan, the allotment of \$593,000 previously obtained from the War Appropriation was cancelled.

† Net advances under War Appropriation Act, 1943. The authorizations were for \$21,471,251.

A Under authority of Section 8 of the Canadian National Railways Capital Revision Act, 1937, the balances then standing in Public Accounts in respect of: Canadian Government Railways—Open Accounts; Canadian Government Railways—Stores Accounts; and the St. John & Quebec Railway—Open and Stores Accounts were adjusted as prescribed in the Act and the residue was consolidated under the title of "Canadian Government Railways Working Capital".

This amount is carried against the Canadian National Railways, without interest, as representing a fair approximation of the amount of C.N.R. Working Capital utilized for Canadian Government Railways purposes.

B Transactions in connection with advances made to the Canadian National Railways during the fiscal year ending March 31, 1944, for capital purposes, purchase of outstanding securities and retirement of maturing obligations under the authorities quoted. The net advances show a reduction of \$21,677,074.10.

C Transactions in connection with advances made by the Government to the Canadian National Railways under terms of hire-purchase agreements. During the current fiscal year, the advances were increased by \$17,769,977.38.

D This item covers an amount appropriated by Parliament in the fiscal year 1937-38 in the form of a loan for working capital. Prior to 1937, the Canadian National (West Indies) Steamships Limited utilized the working funds of the former Canadian Government Merchant Marine Ltd., but following the sale of the fleet and the refund of its working capital to the Dominion it became necessary to provide funds for the Canadian National (West Indies) Steamships Company Limited.

E Generally, in connection with these accounts, there is a parliamentary appropriation provided, the expenditures from which are treated as Loans and Advances through such accounts. The appropriation in the present year, and the accounting therefor, follow—

**Vote 410 Advances to National Harbours Board, subject to the provisions of Section 29 of the National Harbours Board Act, to meet expenditures applicable to the calendar year 1943:**

**Reconstruction and Capital Expenditures—**

	Appropriations	Expenditures
Montreal .....	\$ 33,700 00	\$ 9,726 62

In addition to the above, an amount of \$4,213.48 was transferred from the Generally-Unforeseen Item of Vote 404, listed as a Government-Owned Enterprise Non-Active Account, to Loans and Advances as an Active Account and used for Capital Expenditures in Vancouver Harbour.

The following is a distribution of total advances:

	Montreal	Vancouver	Total
Vote 404 .....		4,213 48	4,213 48
Vote 410 .....	9,726 62		9,726 62
	<u>\$ 9,726 62</u>	<u>\$ 4,213 48</u>	<u>\$ 13,940 10</u>

In accordance with Section 29 of the National Harbours Board Act, c. 42, 1936, certificates of indebtedness bearing interest at  $3\frac{1}{2}$  per cent per annum, totalling \$12,692.48, were issued to the Government. The balance of \$1,247.62 represents a refund on previous year's expenditures, 1942, which is included in a certificate issued for that year.

**ADVANCES FOR WORKING CAPITAL**

Under authority of Section 28 of the National Harbours Board Act an advance of \$140,000 was made to Churchill Harbour for working capital and was repaid during the fiscal year.

F The debit balance represents the value of work performed by the Department of Transport for the British Air Ministry not recovered at the close of the fiscal year.

G The debit balance represents the outstanding portion of 1943-44 accounts rendered the British Ministry of War Transport for board and lodging accommodation provided United Kingdom seamen, in the various manning pools.

A This account is credited with fees collected by the Department of Transport in respect of private receiving licences and private station broadcasting licences; it is debited with all moneys released to the Corporation from time to time by the Minister of Finance, and with the costs of collection of such fees. The balance on hand reflects the amount available to the Corporation at the close of the fiscal year.

As the Canadian Broadcasting Corporation is under the jurisdiction of the Minister of National War Services, the balance sheet and operating statement of the Corporation are shown in the Appendix to the section hereof pertaining to that Department.

B The Intercolonial and Prince Edward Island Railway Employees' Provident Fund was established for the purpose of providing life allowances to be paid to employees on the staff of the railways who are retired on

account of old age, physical or mental infirmity, etc., under authority of c. 22, Statutes of 1907 and amendments. The receipts consist of (a) employees' contributions (1½ per cent of their monthly salary or wage); (b) contributions by the railways each year (\$100,000); (c) special contribution made by the railways to offset the deficit as at December 31, 1942 and (d) Dominion Government contributions (see Vote 406) charged to the appropriations provided by parliament, all of such moneys being deposited by the Canadian National Railways to the credit of this account. The disbursements which cover retiring allowances are made by the Canadian National Railways; the closing balance represents the unexpended balance of the fund as at that date.

C Under Section 16 of the Public Works Act, contractors are required to furnish security for the satisfactory performance of the work. This security may be in the form of cash (accepted cheque) or specified bonds. Cash deposits are credited to this account and bear interest at the rate of 2 per cent per annum compounded annually. Upon administrative certification, releases are made to contractors. Bonds furnished as security are held in the custody of the Minister of Finance but are not recorded in this account. At the close of 1943-44, bonds so held in respect of the Department of Transport amounted to \$822,100.

D F These amounts are credited with the reserves made from earnings by the respective pilotage committees, and debited with disbursements made at the direction of such committees.

E The transactions in these accounts represent moneys received by the Board and deposited to the credit of the Receiver General in accordance with Section 23 of the National Harbours Board Act, c. 42, 1936. They cover deposits of current revenue, security deposits and reserve funds which have been allocated for the replacement of fixed assets and other purposes. Expenditures of the Board are debited to the relative accounts.

G The original deposit, made on July 7, 1937, represents donations through the Department of Transport towards a trophy or trophies in connection with civil aviation, and is to be held until medals have been struck and the price has been ascertained. This year's receipts represent interest on bonds to the value of \$200, which are included in the closing balance.

A B These accounts were established by P.C. 1913 of April 22, 1941, and P.C. 3715 of May 6, 1943, respectively, under the authority of the War Appropriation Acts, and through them all moneys having to do with the costs of employee's compensation affecting defence projects are controlled for accounting purposes. Applicable deductions from the payrolls of the various defence projects are credited to these accounts, which are charged with audited costs of compensation and a fair and reasonable proportion of provincial Workmen's Compensation Boards' costs of handling compensation matters relative to employees of His Majesty. The closing balances represent the amounts available to meet compensation claims.

C Under a by-law passed in 1943 the Board established a pension plan for permanent salaried employees, the scale of benefits being the same as provided under the Civil Service Superannuation Act, 1924, as amended. The account is credited with applicable payroll deductions made from eligible employees and debited with benefits paid.

D Under authority of the Canada Shipping Act, Part VI, each Pilotage Authority shall, within its district, have power from time to time, by by-law confirmed by the Governor in Council, to make certain regulations relative to the conducting of the pilotage business of the district, said regulations to provide for the establishment of a fund for the relief of superannuated or infirm licensed pilots, or of their wives, widows or children provided that the rate of contributions to such fund shall not be less than 5 per cent of the Pilots' earnings. The rates of contribution at the present time are: Halifax, 5 per cent; Sydney, 10 per cent; Saint John, 7 per cent; Montreal, 7 per cent; and British Columbia, 7 per cent. These accounts show the transactions in the various funds during the fiscal year. Below is a comparative statement showing the amounts invested in bonds and held in cash at the beginning and end of 1943-44.

A Under authority of P.C. 1594 dated April 22, 1940, pursuant to the provisions of the War Measures Act, c. 206, R.S., ships seized in prize and either requisitioned for use by the Canadian Government or condemned by the Court as prize, are operated on behalf of the Government of Canada by the Canadian Government Merchant Marine Limited. The balance as at March 31, 1944, represents the amounts on deposit with the Minister of Finance and is made up as follows: cargo sales, \$264,729.57; insurance, \$2,691,800.64; operating surpluses, \$1,667,995.63.

B Under P.C. 5742, July 19, 1943, the Minister of Munitions and Supply was authorized to enter into an agreement with the Trans-Canada Air Lines providing for the operation and maintenance of an air transport service between Canada and the United Kingdom to be known as the "Canadian Government Trans-Atlantic

"Air Service" for the carriage of official passengers, goods and mail for the duration of the war. Said agreement provided that the corporation be reimbursed for all expenditures made on account of operation and maintenance of the service. It was further provided that the rates for the carriage of mail be fixed by agreement between the Minister of Munitions and Supply and the Postmaster General, that the maintenance and operations expenses be applied against such earnings, and, in the event of a deficit, same to be paid out of funds allotted from time to time from the War Appropriation. The credit balance as at March 31, 1944, represents the excess of receipts for the carrying of mail, over maintenance and operation expenses.

C This account is credited with moneys received by the Department of Transport for such purposes as: (a) deposits to cover cost of operating canal services after regular hours and after close of navigation, (b) deposits to cover wharfage charges that might accrue, (c) unpaid wages of members of ships' crews, who have been lost at sea, which are held pending direction as to payee and (d) prepayment of works and repairs for firms and individuals. The main items are: \$39,041.44 received from liquidator of Dominion Shipbuilding and Repair Co. to pay claims of creditors; \$75,000 insurance and salvage on pilotage boat *Camperdown*; \$11,449.12 wages of seamen lost at sea; \$5,135.16 for construction of apron for Canadian Pacific Airlines at Fort St. John, B.C. airport; \$4,162.34 for provision of water supply for Department of Pensions and National Health at Fort St. John, B.C.; and \$5,280 pilots' earnings reserved for rental of C.G.S. *Citadelle*. The closing balance represents items not cleared at the close of the fiscal year.

D In the pilotage districts of Halifax, Saint John and Sydney, the by-laws, made under the Canada Shipping Act and approved by the Governor in Council, provide that the general district expenses, including purchase, charter or hire of pilot boats and the maintenance, repair and operation of the same, shall be the first charge on the pilots' earnings. The pilotage earnings are credited to this account, while the expenses as aforesaid are debited hereto. If, at the end of the year, there remains a surplus of earnings over expenses, such surplus is usually divided pro rata among the pilots, but the pilotage committee may reserve a portion for future contingencies. In the latter event such reserve is carried to the relative undivided surplus account (see under Deposit and Trust Accounts, page Z-55). Due to an oversight, the balance shown for Halifax was not cleared in the records until after the close of the fiscal year.

E To this account are credited all moneys collected by the Department of Transport, East Coast Radio Service for radio messages. The charges collected are apportioned to the public utilities concerned and disbursements made accordingly from this account. At the close of each fiscal year, moneys earned by the Department of Transport are transferred to revenue; the balance remaining in the account represents the amounts that have not been apportioned.

F All cheques, except those drawn against Open Accounts, which remain undelivered after six months subsequent to the date of issue are credited to this account. The above balance represents the liability in respect of this Department at the close of 1943-44.

## GENERAL COMMENTS

The War Appropriation (United Nations Mutual Aid) Act, c. 17, 1943, was passed for the purpose of making Canadian war supplies available to the United Nations. It authorized payments out of the Consolidated Revenue Fund of a sum or sums not exceeding \$1,000,000,000 exclusive of any cash purchases of war supplies by any of the United Nations to which such supplies would be made available.

The Canadian Mutual Aid Board, consisting of the Minister of Munitions and Supply (chairman), the Minister of National Defence, the Minister of Finance, the Minister of Agriculture and the Minister of Justice, acting as a committee of the King's Privy Council for Canada, is charged with the administration of the Act.

On recommendation of the Board, the Governor in Council is authorized to make regulations for the purpose of carrying out the objects of the Act, according to its true intent and purpose.

The services of any department or agency, or of any officer or employee of the Government of Canada, are made available to the Board for the proper conduct of its business. Other officers, clerks and employees may be appointed and their remuneration fixed by the Board, subject to the approval of the Governor in Council.

As of March 31, 1944 there were 9 employees paid from this account. The following were receiving salaries at an annual rate of \$2,400 or over, on that date: K. C. Fraser, \$3,500, S. A. MacKay-Smith, \$6,000.

B Travelling expenses in excess of \$300 were paid to: K. C. Fraser, \$1,500; S. A. MacKay-Smith, \$343.33.

C Payment was made to the National Film Board.

Mutual Aid .....\$912,577,748 20

Of the above expenditure, the sum of \$14,984,809.89 was expended directly by the Canadian Mutual Aid Board. The balance was spent by the following departments acting as agents of the Board: Agriculture, \$116,783,440.08; Fisheries, \$7,569,341.26; Munitions and Supply, \$724,410,718.64; and Trade and Commerce, \$48,829,438.33. However, in addition to the foregoing expenditures, the procurement departments disbursed a further sum of \$76,818,988.05 which was provided by the Government of the United Kingdom for its requirements in addition to the aid granted by Canada. The total disbursements were therefore \$989,396,736.25; and a list of suppliers and contractors receiving \$10,000 or more is given further on in this section. A classification of "Mutual Aid" expenditures appears on the following page.

A This account was opened and operated by the Board pursuant to an arrangement with the United Kingdom Government for the purpose of recording the receipt and disbursement of Canadian dollars by the United Kingdom Government in meeting certain of its obligations in Canada. The receipts represent payments by Canada covering financial obligations to the United Kingdom. The disbursements were made to meet obligations of the United Kingdom Government in Canada including the cost of acquisition of war supplies in the months preceding completion of Mutual Aid arrangements, and thereafter, to the extent funds were available, to pay the costs of acquiring war supplies for transfer to the United Kingdom. Of these disbursements, a total of \$227,294,040.02 was made by the United Kingdom Government and the remaining \$45,330,000 by the Canadian Mutual Aid Board for supplies additional to those charged to the Mutual Aid Appropriation.

B This account, replacing the former United Kingdom Canada Cash Account, was opened under authority of P.C. 8890, dated November 18, 1943, which approved a new agreement between the Governments of the United Kingdom and Canada.

The major difference between this and the former account is that the cash received represents advances by the United Kingdom Government, all of which are disbursed solely to supplement Mutual Aid funds, at the discretion of the Board.

A B A total of \$76,818,988.05 was advanced by the Board to the various procurement Departments and expended by them on United Kingdom Government account in addition to expenditures charged to the Mutual Aid Appropriation.

M This appendix shows a calculation of interest that would have been due on loans made to the Canadian National Railway System and Predecessor Companies for capital expenditures and deficits, had such interest been accrued on the books of the Dominion. The interest, however, was never taken into the accounts of the Dominion but interest amounting to \$530,832,597.67 was shown on the books of the Railway. The total amount of interest calculated up to December 31, 1936 was \$574,781,637.01. Any claim the Dominion may have for such interest was transferred to the Canadian National Railways Securities Trust as provided for by the Canadian National Railways Capital Revision Act of 1937.

(a) Amount paid by Dominion in acquiring 600,000 shares of the capital stock of the Canadian Northern Railway Company.

(b) Initial stated value of 1,000,000 no par value shares of the capital stock of the Canadian National Railway Company (See detailed explanation in Appendix I).

(c) Of this amount \$7,280,912 was not used for capital expenditures but represented the balance due by the Company under agreement made in 1883 for the creation of a fund to be held by the Government to guarantee a dividend of 3 per cent per annum for ten years on the Company's outstanding stock in an endeavour to assist in financing construction through the sale of additional stock. The amount on deposit with the Government was, at all times, more than sufficient to meet the payments which, under the agreement, the Government undertook to make. The obligation of the Company was fully discharged in 1886, some years in advance of its due date (See Note E to Appendix E, Page 29).

(a) Difference between conversion of pound sterling at \$4.86½ and at \$4.86 charged to Consolidated Deficit Account of Canada.

(b) Adjustments to loans under authority of the Canadian National Railways Capital Revision Act of 1937—Capital expenditures on wharves (\$1,006,527.61) transferred to Department of Public Works and expenditures on account of the Hudson Bay Railway (\$660,369.96) transferred to the Department of Transport.

(c) This amount represents losses in operation of \$373,823,120.38; losses amounting to \$15,700,662.60 during years 1937 to 1943 due to line abandonments in respect of which the Government has not made cash reimbursements to the railway and net capital loss of \$1,474,971.24 on sale of S.S. *Prince David* and S.S. *Prince Robert* less the capital gain of \$19,105,651.38 on repatriation of Canadian National Railway securities and increase in Dominion's Equity in Canadian National Railways due to surplus earnings of the system for the calendar years 1941 to 1943—\$64,719,007.29.

(d) Value of 5,000,000 shares of no par value capital stock of the Canadian National Railways Securities Trust now held by the Government—Appears in Net Debt—Canadian National Railways Securities Trust Stock.

(e) Of this amount \$2,853,912 was originally due February 1, 1884, and \$4,527,000 on November 7, 1888. Later, the aggregate of these two amounts, \$7,380,912 was consolidated with the construction loan of \$21,650,700; the security was rearranged and the whole was made payable on May 1, 1891. All of this liability was discharged by July 1, 1886.

(f) The Canadian Pacific Railway in partial payment of these loans relinquished 6,793,014 acres of a land grant valued at \$1.50 per acre, amounting to \$10,189,521.33. This amount included interest of \$308,609.33 the balance being applied against the loans.

(g) Amount in aid of construction now shown in the Balance Sheet of the Public Accounts of Canada under assets, Loans and Advances—Miscellaneous, Schedule "G".

## APPENDIX M

**NOTE.**—This appendix shows a calculation of interest that would have been due on loans made to the Canadian National Railway System and Predecessor Companies for capital expenditures and deficits, had such interest been accrued on the books of the Dominion. The interest, however, was never taken into the accounts of the Dominion, but interest amounting to \$330,832,597.67 was shown on the books of the Railway. Total amount of interest calculated up to December 31, 1936 was \$574,781,637.01. Any claim the Dominion may have for such interest was transferred to the Canadian National Railway Securities Trust as provided for by the Canadian National Railway Capital Revision Act of 1937.

**Report of the Auditor General to the  
House of Commons with respect to  
accounts examined and audited in  
accordance with the provisions of the  
Consolidated Revenue and Audit Act,  
1931, and other legislative enactments**

## AUDITOR GENERAL'S REPORT

---

1. The accounts of the Government of Canada for the fiscal year ended March 31, 1944, have been audited in accordance with the provisions of the Consolidated Revenue and Audit Act, 1931. The audits, as in previous years, were made by means of comprehensive tests. Audit certificates, which appear in the Public Accounts, were given subject to the reservations and observations set out in this report to the House of Commons.

2. The accounts of Canada are regulated and presented to the House of Commons in accordance with the general scheme adopted in 1878 when receipts approximated \$22,000,000 and expenditures \$31,000,000. In the year last ended, there were days when financial transactions equalled 1878 annual totals. Corporate and statutory administrative instrumentalities were then rarely employed; in this report reference is made to the accounts of 52. Public property in 1878 consisted, in the main, of Crown lands and other natural resources. To-day, hundreds of millions of dollars are invested in commercial real estate, plant, materials and supplies. Only in a few instances are assets of this nature taken into the Balance Sheet. Functions of administration have multiplied, and some departmental activities are now commercial undertakings. It is reasonable to anticipate that there will be contractions in administration after the war; but it is inconceivable that ever again will it be practicable, as it was in 1878, to regard all financial transactions of the Government as susceptible to effective and efficient regulation by the application of rules common to all. These considerations prompt the expression of opinion that thought should again be given to the provisions of the Consolidated Revenue and Audit Act, 1931, and allied legislation.

3. Section 50 (2) of the Consolidated Revenue and Audit Act, 1931, directs that:—

50. (2) In reporting the result of his examination and audit to the House of Commons, the Auditor General shall call attention to every case in which

- (a) a grant has been exceeded; or
- (b) moneys received from sources other than the grants for the year to which the account relates have not been applied or accounted for according to the direction of Parliament; or
- (c) a sum charged against a grant is not supported by proof of payment; or
- (d) a payment so charged did not occur within the period of the account, or was, for any other reason, not properly chargeable against the grant, or was in any way irregular; or
- (e) a special warrant authorized the payment of any money; or
- (f) an objection of the Auditor General was overruled by the Governor in Council or the Treasury Board; or
- (g) a refund or remission of any tax, duty or toll has been made on the authority of any Act of Parliament;

or to any other case which the Auditor General considers should be brought to the notice of Parliament.

No grant was exceeded. Transactions regarded as coming within the ambit of (b) are noted in paragraphs 33, 65, 204 and 331 of this report. No case was noted which necessitates reference by reason of (c). The text of (d) and the concluding words of the section have much in common. If (d) should be regarded as having a restricted application, paragraphs 29, 121, 133, 172, 213 and 254 are founded on it. No special warrants were issued. Paragraph 109 reports the single instance where an objection was overruled by the Treasury Board. Refunds and remissions made under statutory authority are noted in paragraphs 31, 44, 46, 48 and 101. The subject matter of this report is, in the main, founded on the general direction which closes the section. Interspersed, under appropriate headings, are statements and observations which are included as aids to readers of the Public Accounts.

## THE BALANCE SHEET OF CANADA

4. The Balance Sheet submitted for audit by the Deputy Minister of Finance includes changes in classifications of account and schedule headings. The aim has been to indicate more accurately the character of the asset and liability accounts. Classifications are not regulated by legislation, and therefore reflect the opinion of accounting officers. While the general result is an improvement in classifying the accounts, further consideration should be given to certain of the classifications. For example, the liability represented by the Post Office Account is made part of the Floating Debt schedule. All other items in this group are definitely ascertained obligations of the Government, represented, in the main, by negotiable instruments in the hands of the public. The Post Office Account balance is a net amount, the liability aspect being represented by accounts payable for postal services rendered, amounts due on money orders and postal notes, and sundry collections in suspense pending transfer to revenue accounts; while offsets against these are accounts receivable for postal services, money orders cashed for other governments, and cash in the hands of postmasters. A more apt classification would be to include the account as part of the Sundry Suspense Accounts.

5. In summary form, the situation, as at March 31, 1944, was:—

### Gross Liabilities—

Less: Reserve for possible losses on ultimate realization of active assets.....	100,000,000 00
---	----------------

3,619,038,337 19

### Net Debt—

Balance, April 1, 1943.....	6,182,849,101 10
Excess of Expenditure over Revenue for the fiscal year ended March 31, 1944.....	2,557,235,791 87

\$ 8,740,084,892 97

6. *Gross Liabilities.*—The liabilities include only those which have been ascertained and brought to account. Interest accrued but not due (except with respect to War Savings Certificates) and current obligations incurred for goods received and services rendered but not paid for at the end of the fiscal year have not been included. Obligations payable in other than Canadian currency, such as those portions of the Funded and Floating Debt payable in London and New York, are recorded in the Balance Sheet at par of exchange.

7. The Income War Tax Act, as amended by c. 28, Statutes 1942, provides for the refunding, after the termination of the war, of a portion of the tax, together with 2 per cent interest from the first day of October next after the end of the year in which the refundable portion of the tax is levied. The estimated liability for the refundable portion of 1942 tax on personal incomes was revised to \$55,000,000 at the end of the 1943-44 fiscal year. \$550,000, as interest for six months, accrued in the fiscal year, but no charge to interest on public debt was made; nor was a liability item for the interest set up in the Balance Sheet.

8. *Active Assets.*—As in the past, revenues in arrears and stores are not included in the assets, with the exception of inventories of the departments of Public Printing and Stationery and Transport and the metals purchase accounts of the Royal Canadian Mint. Assets held in other than Canadian currency are recorded at par of exchange.

9. In 1920 the Minister of Finance stated to the House of Commons that the Department of Finance was adopting the policy of listing, as Active Assets in the Balance Sheet, only those investments which were readily convertible or were interest producing. Active Assets were increased \$105,430,986.21 in the fiscal year by adding the investment in plant and working capital advances for Crown-owned Polymer Corporation Limited, chemical plants at Calgary, Niagara Falls and Valleyfield and brass processing plants near Toronto and Montreal. To give effect to the decision, \$53,447,641.49 was written up to Active Assets from Consolidated Deficit Account, that being the amount of the previous years' expenditures, plus the sum of the current year's outlays, \$51,983,344.72. These projects were created for war purposes, but are now regarded as having post-war revenue producing possibilities to the extent that they may, in the words of the Deputy Minister of Finance, be distinguished from plants built "for specialized war purposes and which after the war are likely to have little or no value either as going concerns or as saleable property." \$17,764,000.66 of the total represents working capital. The treatment extended to investment in plant, equipment, etc., amounting to \$87,666,985.55, is a departure from the tests adopted for Active Assets in 1920.

10. When reporting on the 1939-40 Balance Sheet, attention was drawn (page 15) to the fact that in the listed Active Assets were loans and advances, owing by other governments, which did not currently meet the test of being interest producing. In each of the three succeeding years the balance sheet presented for audit included a reserve against the total of loans and advances which were listed as Active Assets. This set-off was \$75,000,000 in the balance sheet for 1942-43. The reserve as of March 31, 1944, is increased to \$100,000,000 and is now listed as a general "reserve for possible losses on ultimate realization of active assets." At March 31, 1943, the reserve of \$75,000,000 was offset against loans and advances totalling \$1,622,810,805.22. At March 31, 1944, the reserve of \$100,000,000 is regarded as applicable to active assets totalling \$3,719,038,337.19. The adequacy of the amount must be regarded as a matter of opinion, because an all-inclusive valuing as to sufficiency may no longer be made by applying tests of market convertible values, or interest earnings of securities, because these represent only a part of the Active Assets.

11. The reserve is neither required nor regulated by statute. Its existence does not carry with it a power to release or relieve any debtor from his obligation. It is a valuation adjustment made for balance sheet purposes. As such, it influences the amount of the Net Debt. The practice adopted has the effect of permitting the Net Debt figure to be annually increased or diminished in the discretion of the Minister of Finance.

12. *Net Debt*.—The gross liabilities of the Government of Canada being \$12,359,123,230.16 and the active assets \$3,619,038,337.19, the net debt of Canada was \$8,740,084,892.97 at March 31, 1944, and was represented by:—

13. The accretion in the Net Debt during 1943-44 was \$2,557,235,791.87, comprising increases of \$39,751,991.09 in Non-Active Assets and \$2,517,483,800.78 in Consolidated Deficit Account.

14. The Non-Active Assets total \$1,533,029,163.01 and are listed, in summary form, as Schedules K and L to the Balance Sheet. They are placed under this heading because they are neither readily convertible nor interest producing. It was once said of items listed as Non-Active Assets that: "Whatever may be their future value, however great it may be, they are not assets of such a character as to reduce directly the gross debt any more than the other capital accounts of the country ought to be deducted from it." The principal transaction in the fiscal year 1943-44 was with respect to the Canadian National Railways, which had a net income surplus of \$35,639,412.23 in the calendar year 1943 and a capital gain of \$2,430,284.25 on the repatriation of securities, offset by a capital loss of \$232,115.94 with respect to line abandonment. As the net amount of \$37,837,580.54 was retained by the Company, Non-Active Assets account was augmented to record the increase in the Government's equity in the System. The method employed is in accordance with the provisions of the Canadian National Railways Capital Revision Act, 1937. In summary form, transactions affecting Non-Active Assets accounts were:—

Capital Expenditure .....	\$ 2,621,978 38	
Government-owned Enterprises—Non-Active Advances.....	579,107 69	
Other Charges to Non-Active Asset Accounts.....	37,837,580 54

15. Consolidated Deficit Account was formerly designated as Consolidated Fund. It records the accumulated deficits, less surpluses, since Confederation. The increase of \$2,517,483,800.78 during the year may be explained as follows:—

16. *Contingent Liabilities.*—In addition to the direct debt recorded in the Balance Sheet, the Government of Canada has indirect liabilities in consequence of guarantees given. Particulars of contingent liabilities, as at March 31, 1943, were set out on pages 33 and 34 of the Public Accounts, 1943. In fulfilment of the guarantees listed therein, \$11,825,854.89 was paid out during 1943-44:—

- (a) The Dominion-Provincial Taxation Agreement Act, 1942, provides for payment to each province of the amount by which collections in any year of its tax on the sale of gasoline are less than the net receipts from this source in the fiscal year ended nearest to December 31, 1940. The gasoline tax revenues thus guaranteed aggregate \$56,734,905.96. During the fiscal year, payments totalling \$11,756,608.46 were made as follows: British Columbia, \$480,132.75; Manitoba, \$334,206.55; New Brunswick, \$399,172.50; Nova Scotia, \$696,490.48; Ontario, \$7,440,329.71; Prince Edward Island, \$46,884.66; Quebec, \$1,863,369; Saskatchewan, \$496,022.81.
- (b) Payments under the Home Improvement Loans Guarantee Act, 1937, amounted to \$65,339.71. The cumulative total of loss claims paid to March 31, 1944, was \$446,234.17. Of this amount, \$39,785.17 had been recovered as at that date.
- (c) \$3,900 was paid under the guarantee given to the chartered banks by Commodity Prices Stabilization Corporation Limited in respect of advances made by them during 1942-43 to assist in the production of logs or lumber.
- (d) \$6.72 was paid during the year under the guarantee by Commodity Prices Stabilization Corporation Limited of advances made by the chartered banks in order to facilitate the purchase, during the summer of 1942, of coal, coke or briquettes for residential heating.

17. The Contingent Liabilities of the Dominion as at March 31, 1944, are set out in the Public Accounts as Schedule V to the Balance Sheet, Guaranteed Securities and other Guarantees.

## REVENUES

18. Revenues and credits for the fiscal year ended March 31, 1944, were \$2,765,017,713.40, an increase of \$515,521,536.11 over the corresponding total of the previous year. A comparison by classifications with those of 1942-43 is:—

	1942-43	1943-44
Ordinary .....	\$2,182,798,758 83	\$2,570,094,423 99
Special .....	61,961,746 18	193,636,613 89
Credits to Non-Active Assets.....	4,633,056 67	1,193,370 20
Capital Refunds .....	102,615 61	93,305 32
	<u>\$2,249,496,177 29</u>	<u>\$2,765,017,713 40</u>

19. *Capital Refunds*.—Refunds of previous years' expenditures and other credits to Capital Account during 1943-44 totalled \$93,305.32. Transactions: on account of canals, \$4,086.45; railways, \$1.00; and miscellaneous public works, \$89,217.87.

20. *Credits to Non-Active Assets*.—Included are \$164,523.15, which is a reduction in indebtedness of the Canadian National (West Indies) Steamships Limited, and \$1,000,000, being repayment by the Canadian Pacific Railway of a non-interest bearing loan made under the Unemployment Relief Act, 1932.

21. *Special Revenues*.—The purpose of this account is to record refunds and adjustments of special and war expenditures of previous years, donations, war and other non-recurring revenues which have not been classified as ordinary revenue. Receipts and credits on Special Account amounted to \$193,636,613.89, or \$131,674,867.71 more than in the previous fiscal year. The items making up this total were:—

Canadian National Railways—	
Net credit due to increase in Dominion's equity in Canadian National Railways .....	\$ 37,837,580 54
Canadian Wheat Board—	
Reduction in the reserve established to meet operating deficits of the Board, on the basis of calculations made as of July 31, 1943. ....	2,970,769 57
War Appropriation Acts—	
Refunds of previous years' war expenditures.....	44,248,846 85
Miscellaneous war revenues.....	48,506,925 12
Sale of surplus assets.....	6,161,983 17
Transfer of investments in plant and equipment for Polymer Corporation Limited and five other Crown plants from Consolidated Deficit Account to Active Assets—Loans and Advances to Commodity Companies .....	53,447,641 49
Refunds of previous years' special expenditures.....	220,971 23
War donations, \$216,280.92, and non-war donations, \$615.....	216,895 92
Balance of award, "I'm Alone" case.....	25,000 00
	<u>\$193,636,613 89</u>

22. The credit on Canadian National Railways account was applied in accordance with the provisions of the Canadian National Railways Capital Revision Act, 1937. The reduction in the reserve established to meet the operating deficits of the Canadian Wheat Board is an accounting adjustment occasioned by further improvement in the Board's balance sheet position between July 31, 1942, and July 31, 1943, with respect to 1939 and 1940 wheat crop accounts.

23. The total of \$44,248,846.85 classified as refunds of previous years' war expenditures consists of recoveries which are applicable to previous fiscal years' expenditures or which cannot readily be allocated to current or previous years' accounts or to specific departmental War Appropriation allotments.

24. Miscellaneous war revenues totalling \$48,506,925.12 include the net profits derived from the operation of Crown companies and plants, rentals of buildings and equipment the cost of which has been charged to War Appropriations, licence fees with respect to war activities, and fines and forfeitures received for infractions of wartime regulations.

25. The \$53,447,641.49 item adjusts previous years' war expenditures, to the end that the investment in plant and equipment for the Polymer Corporation Limited and five other Crown plants is recorded as Active Assets.

## ORDINARY REVENUES

26. Revenues on ordinary account amounted to \$2,570,094,423.99, an increase of \$82,894,423.99 over the revenue forecast by the Minister of Finance in his Budget Speech of March 2, 1943. A comparison of the Budget estimate and the realized revenue for the year is:—

## Department of Agriculture

27. Surveys were made of accounting systems in use at several of the District Fruit and Vegetable offices. Recommendations were made to the Department to the end that field receipts be more adequately recorded. A control account of Revenue was inaugurated in these offices.

## Department of Finance

28. An examination of the system of accounting and of internal control at the offices of the National Housing Administration resulted in representations being made that reorganization of the existing accounting procedures was necessary to safeguard the revenues and to permit the exercise of a continuous control over expenditures. In consequence of these representations, a Treasury office was established on April 1, 1944, to consolidate and reorganize the accounting services.

29. In June, 1940, a pensioner informed the Board of Pension Commissioners:—

I want you to take \$7 off my pension cheque every month for the duration of the war to help win the war.

The offer was accepted and the Chairman of the Board, in acknowledging the gift, stated:—

An arrangement has been made for the creation of a War Donations Fund, into which all such gifts are being paid. This action is being taken in regard to your donation.

\$7 was deducted monthly from the pension and credited as revenue to War Donations account. In May, 1943, the pensioner requested that the contributions be applied to purchase Victory Loan bonds and War Savings Certificates for him, subsequently explaining that this had been his original intention. The contributions were then invested in Victory Loan bonds. As the deductions had been credited to Consolidated Revenue Fund, a question thus arose as to the existence of authority to draw on the Fund without legislative sanction. The matter was referred by the Department of Finance to the law officers, who gave the opinion that, as there was nothing in the correspondence which could be construed as an intention on the part of the pensioner that the moneys should be used to acquire War Savings Certificates or bonds for him, the pensioner was not entitled to any credit in respect of the amount of \$7 deducted

from his pension each month during the period in question. Accordingly, the sum involved was transferred to a Suspense account as an unauthorized payment. Vote 477 for the fiscal year 1944-45 approves the payment.

### Department of Fisheries

30. A number of lessees of fishing rights have enlisted. The Department has refrained from cancelling the leases and has waived, while the lessee is in a Service force, obligations to pay rentals and to perform development work. Rental waivers in the fiscal year totalled \$144. The Department relies on Order in Council P.C. 2401 of June 7, 1940, as authority for the action taken.

### Department of Insurance

31. Penalties amounting to \$3,931 were collected in the fiscal year from companies for delay in filing certain statements within the time specified by the statutes under which they are authorized to transact business in Canada. Amounts totalling \$3,840 were subsequently refunded by the Governor in Council under the provisions of section 33 of the Consolidated Revenue and Audit Act, 1931. In addition, penalties totalling \$1,650 incurred but not paid were remitted under the same authority.

### Department of National Defence—Army

32. Audits at District and Command headquarters disclosed a lack of uniformity in the application of instructions of the Adjutant General with respect to the receipt and recording of cheques, money orders and other securities. It was also found that District and Command records were not always adequate to maintain proper control of cash items. Subsequent to the close of the fiscal year, the subject was drawn to departmental notice. Remedial action has been taken.

### Department of National Defence—Air

33. Audits in September, 1943, at No. 31 elementary flying training school (De Winton) disclosed that rentals totalling \$11,621.25, as of June 13, 1943, had not been remitted to the Receiver General. \$6,714 was forthwith paid. The balance, together with current rentals, was paid on April 11, 1944. At No. 12 (Goderich) it was observed that over a period approximating two years, no rentals were collected from civilians occupying quarters at the school. On October 22, 1943, Routine Order 2151 outlined the action to be taken, at all schools and Service units with respect to rentals and the remitting of receipts to the Receiver General.

34. After a test examination of records relating to the United Kingdom Government's contribution in kind to the British Commonwealth Air Training Plan, it was recommended that appropriate action be taken by administrative authorities to verify all vouchers and entries. This has been done for the period from July 1, 1942, to March 31, 1944. The effect has been that of reducing the amount credited to the United Kingdom Government by \$260,204.13.

35. Audit tests disclosed that it was the practice to credit to the British Commonwealth Air Training Plan all sums received as handling charges on goods and services supplied to the United States Air services. In view of the fact that the cost was frequently borne by Air services operated independently of the Plan, it was suggested that an administrative survey be made. This was done, with the result that receipts totalling \$260,588.44 were transferred from the Plan's accounts to the credit of Canada.

#### CUSTOMS AND EXCISE DIVISIONS

36. Reference was made last year, in (c) of Para. 41, to Orders in Council, made under the authority of the War Measures Act, with respect to drawbacks on imported coal used in the manufacture of coke for home consumption. On May 9, 1944, a further Order in Council,

P.C. 80/3440, was made under the authority of section 12 (1) of the Customs Tariff Act and section 284 (l) of the Customs Act. This Order directs that:—

Whenever it appears to the satisfaction of the Minister that the process of manufacture into which imported goods have entered has resulted in the production of saleable by-products, the drawback otherwise payable in respect of such imported goods shall be reduced by a sum proportionate to the value of such by-products; that is to say, by a percentage equivalent to the percentage value of the by-products in relation to the total value of the goods manufactured or produced, excepting that drawback claims filed in respect of bituminous coal converted into coke shall be paid in respect of the full quantity of coal processed and represented in the coke covered by the drawback claim, without deduction for merchantable by-products or waste.

If it should be that the intent of Parliament is that the words “when converted into coke” in items 1019, 1049 and 1070 of the Customs Tariff Act are to be given their general and ordinary meaning, the regulation trenches on the legislative power, because the effect of the Order in Council is to permit administrative officers to construe “coke” as including such by-products as ammonia, tar, gas and light oil.

37. Reference was also made in Para. 44 (a) to the practice of refunding 90 per cent of customs import duty and taxes paid on certain articles temporarily imported for designing and copying purposes. Suitable authority for paying such refunds (or drawbacks) has since been provided by Order in Council P.C. 95/8660 of November 10, 1943.

38. Section 161 of the Excise Act provides, in part, that:—

161. (2) No permit shall be granted for the removal of any spirits for export in bond unless the person applying for the same has paid to the collector or sub-collector a validation fee of twenty cents for every gallon of the strength of proof to be removed as provided by regulations made in that behalf by the Governor in Council: Provided no fee shall be payable upon the export of denatured alcohol or specially denatured alcohol: Provided further, that the fee hereby imposed may be reduced or abolished by the Governor in Council if such reduction or abolition appears to be in the public interest.

Although the Governor in Council had not authorized any reduction or abolition, audits disclosed that validation fees were not being collected on spirits exported in bond for pharmaceutical or industrial purposes or for use in hospitals. The Department advises that Excise officers were being instructed “that export shipments of any spirits from Excise warehouse for any purpose will be subject to the validation fee.”

39. It has long been administrative practice to treat proceeds of seizures as available to defray seizure expenses, regardless of the Revenue statute involved. The consequence was that moneys derived from Customs seizures have been applied to the cost of Excise Act enforcement, because proceeds from seizures under the latter Act were generally inadequate to defray expenses. On the matter being submitted to the Department of Justice, it was ruled that the regulations made by the Governor in Council with respect to seizures must “be regarded as *ultra vires* in so far as they purport to create a fund out of which expenses and awards in connection with customs and excise seizures can be paid at the will of the Minister of National Revenue”; also that “proceeds from the sale of each lot of forfeited goods must be treated separately so far as expenses and awards to informers are concerned.” The consequence is that, when proceeds of a seizure are insufficient to bear the cost, the deficiency is chargeable to an appropriation.

40. Excise taxes derived from (a) the sale of postage stamps used on cheques, bills of exchange, promissory notes, receipts to banks, money orders and travellers' cheques, and (b) stamp taxes on Post Office money orders, postal notes, letters and post cards are not included in the Department's statement of revenues. The collections are reported by the Post Office Department as Postal Revenue. The sum may be substantial because chapter 11 of the Statutes of 1943-44, which amends the Special War Revenue Act, increases the tax on letters and post cards, with certain exceptions, from one cent to two cents, effective from April 1, 1943.

41. Section 105 of the Special War Revenue Act, as amended by c. 11, Statutes 1943-44, provides that:—

105. (1) A deduction from, or refund of, any of the taxes imposed by this Act may be granted:—  
(c) where the original sale or importation was subject to tax, but exemption is provided on subsequent sale by this Act.

Chapter 11 also repealed section 91, which had provided that a refund of the consumption or sales tax may be granted

when goods on which the tax has been paid are sold by any person not licensed under this Part to a licensed wholesaler.

The Department considers that (c), above quoted, provides authority to refund taxes paid by unlicensed persons when they sell goods to those who are licensed to purchase without paying the tax. The repeal of section 91 cancelling the authority to refund, the application being given to section 105 is questionable. A legislative amendment would appear to be desirable.

42. In the year 1943-44 jewellers were permitted to make weekly returns and pay the retail purchase tax in cash instead of by means of excise tax stamps attached to the daily statements of sales, as required by section 142 (3) of the Special War Revenue Act. A departmental ruling, inconsistent with section 135 (1) of the Act, permitted entertainment tax to be accounted for "by affixing the stamps on a daily statement of sales instead of to each individual bill or invoice." Amendments to the Act, c. 48, Statutes 1944-45, now make the practices permissive.

43. Section 102 of the Special War Revenue Act vests a power in the Minister to appoint persons to sell stamps prepared for the purposes of the Act. By Order in Council P.C. 67/932 of April 22, 1939, it is directed that chartered banks and other persons authorized to sell excise stamps "may be allowed or paid a remuneration or commission at the rate of 2 per cent of the face value of all individual purchases... amounting to \$10 or over, such commission to be allowed or paid at the time of purchase and that no commission be allowed or paid on purchases of stamps the total face value of which is less than \$10." In the fiscal year \$199,621.65 was deducted as commissions at time of purchase. The Revenue is thus under-stated by that amount. The action taken brings under consideration the power of the Governor in Council to exercise an appropriating power with respect to revenue. The Act does not specifically vest any such power in the Governor in Council. No exception could be taken to the regulation were the commission a charge to an administrative vote.

44. Order in Council P.C. 101/1185 of February 24, 1944, approves the following recommendation of the Treasury Board:—

The Board recommend that authority be granted, under the provisions of section 33 of the Consolidated Revenue and Audit Act, for the refund to the Commodity Prices Stabilization Corporation Limited, of customs duty and war exchange tax amounting to \$421,572.40 paid on raisins bulk-purchased by them and dutiable on importation under the Intermediate Tariff, this sum representing the duty and war exchange tax on the difference between the quantity of raisins imported from the United States during the calendar year 1943 and the average importation from the United States during the three calendar years 1939, 1940 and 1941, this refund being recommended by the Wartime Prices and Trade Board as a means of reducing the trading losses to the corporation on this commodity.

Section 33 vests in the Governor in Council the power to remit any duty or toll "whenever he deems it right and conducive to the public good." In this instance the apparent purpose is that of relieving an appropriation of a charge which otherwise would fall on it.

45. Attention is drawn to five orders in council, made under the authority of section 33 of the Consolidated Revenue and Audit Act, 1931, because: (a) each anticipates the levy of a tax, and (b) it is generally accepted that under the system of responsible government all grants of public money, either direct or by way of prospective remission of taxes imposed by statute, are in the discretion of Parliament:—

P.C. 149/6991 of September 4, 1943, which exempts from customs duty and taxes, equipment, supplies and containers to the value of \$215,000 (U.S.) imported or to be imported by Ayerst, McKenna & Harrison Limited, Montreal, in the period February 1, 1941, to December 31, 1944.

P.C. 134/7263 of September 17, 1943, which exempts from levy 60 per cent of the customs duty and taxes on machinery and accessories to the value of \$25,000 (U.S.) to be imported within nine months from the date of the Order in Council by The Wool Combing Corporation of Canada.

P.C. 151/7263 of September 17, 1943, which exempts from customs duty and taxes, equipment and supplies to a value not exceeding \$3,500 (U.S.) to be imported by Dr. Catherine F. MacPherson, McGill University.

P.C. 154/8855 of November 17, 1943, with respect to duty and taxes on importations of Canadian tallow, previously exported to the United States, by W. C. Hardesty Company of Canada Limited, to December 31, 1944.

P.C. 76/9400 of December 8, 1943, and earlier orders in council exempting from sales and excise taxes and excise duties, domestic purchases by the International Red Cross Delegate, the representative of the International Y.M.C.A. and by such other Voluntary Organizations as may be approved by the Minister of National Revenue.

46. Remissions and refunds of customs duties, excise duties and excise taxes during the year were made under authority of section 33 of the Consolidated Revenue and Audit Act, 1931, or section 3 of the War Measures Act. Totals were: refunds \$539,836.54; remissions \$2,918,628.53; and remissions of penalties, interest, Exchequer Court costs, etc., \$140,697.03. The \$539,836.54 refunded is shown as part of the departmental statement of revenue for the fiscal year. The sums stated above do not include:—

- (a) refunds or remissions of customs duties and excise taxes on materials and plant equipment, etc., imported or purchased in Canada, for the fulfilment of war orders and contracts of the United Kingdom or Allied Governments, including British Dominions, and for certain other activities associated with the war; nor
- (b) reductions in revenue as a result of changes in the rates of duties and taxes by order in council under the provisions of section 284 of the Customs Act, or under the War Measures Act.

*American Can Company*.—This refers to plate imported from the United States to keep tin can prices within the fixed ceiling prices.

*Commodity Prices Stabilization Corporation Limited*.—This refers to raisins imported from the United States in 1943, the refund being recommended by the Wartime Prices and Trade Board as a means of reducing the trading loss to the Corporation on this commodity.

*Imperial Oil Limited*.—This refers to replacements of gasoline delivered to the United States Army Air Force and to gasoline landed from a vessel undergoing repairs in Canada; and to normal butane imported in exchange for an equivalent quantity of butane butylene exported.

*Melbourne Merchandising Limited*.—This refers to wool, imported from countries under the intermediate tariff, to ensure the supply.

*Montreal Suspenders and Umbrellas Ltd. and Zephyr Looms and Textiles Ltd.*—These remissions, consisting of excise taxes (35%) and penalties, were made on the ground that it was the understanding of these firms and the Department of Munitions and Supply, at the time of contracting, that the taxed articles (certain web equipment for military use) would not be subject to this tax.

*Munitions and Supply*.—This refers to steel ingots, imported from the United States to supplement the Canadian steel production for the war programme, on which the import duty and war exchange tax were remitted to enable them to be sold by the Department to the Steel Company of Canada, for sale in Canada at ceiling prices.

*Polymer Corporation Limited*.—This refers to machinery and equipment, plans, drawings, etc., in connection with the synthetic rubber plant at Sarnia, Ontario.

#### TAXATION DIVISION

47. Audit tests and surveys were made of the methods of collecting and accounting for the revenues at a number of the district offices. Staffs, though efficient, are inadequate in numbers to handle the current volume of transactions. The attention of the Department was directed to various practices and conditions relating to the safeguarding of the revenues which were considered to merit departmental consideration and action.

48. Taxes exigible under the Income War Tax Act, the Excess Profits Tax Act and/or the Succession Duty Act were refunded or remitted by authority of the Governor in Council under the provisions of section 33 of the Consolidated Revenue and Audit Act, 1931, and/or section 3 of the War Measures Act, as follows:—

Name	Amount
Bates and Innes Limited, Carleton Place, Ont.....	\$ 1,879 67
Perron Gold Mines Limited, Perron, Quebec.....	43,462 91
Canadian General Transit Co. Limited, Montreal, Quebec.....	30,322 69

Gillies Bros, Limited, Braeside, Ont.....	7,783 42
Dominion Foundries and Steel Limited, Hamilton, Ont.....	125,322 53

In addition to the foregoing, there was remitted under the same authority an unascertained amount in respect of the 3 per cent penalty interest payable by Joseph Alfred Rouleau and Albin Bouchard, respectively, both of Matane, Quebec, for the year 1938.

#### Department of National War Services

49. Defalcations of \$6,698.51 were revealed during the fiscal year. They were the acts of the Assistant Chief Treasury Officer servicing the Department. The employee was convicted and sentenced to three years' imprisonment. Part of the loss arose out of handling of revenue; the remainder was with respect to expenditures. The officer was bonded for \$1,500, and action was taken, subsequent to the close of the fiscal year, to recover that amount.

## Post Office Department

50. Gross revenues were \$73,040,224.63. Expenditures amounted to \$60,418,488.06, of which \$11,933,479.41 was paid out of postal revenues and \$48,485,008.65 charged to parliamentary appropriations. The financial outcome of the year's operations may be regarded as approximate only, because: (a) it does not take into consideration services rendered without charge by, or to, the Post Office; and (b) Special War Revenue Act taxes are included in postal revenue—the sum paid by use of postage stamps cannot be accurately established, but the tax, so far as money orders and postal notes are concerned, amounted to \$824,874.90.

51. Payments in advance for (a) postage on printed matter mailed under permit, (b) postage meter and postage register machine impressions, and (c) post office boxes and drawers, are included in the revenues without an offsetting liability being recorded. Conversely, deferred charges for postage on parcels, newspapers, periodicals, etc., are not invariably brought to account in the fiscal year in which the service was rendered.

52. There is an increase of \$671,655 over the previous year's postal revenue disbursements on account of transit charges on Canadian mail forwarded through foreign countries. This arises, in part, by reason of the fact that there has been a considerable increase in trans-Atlantic air mail traffic and also because payments made for transit postage are not for set periods and are not made at regular intervals. Payments out of revenue were \$537,762 to the United States and \$139,019 to the United Kingdom Government (for trans-Atlantic mail service) in the fiscal year 1943-44, whereas there were no corresponding payments during the fiscal year 1942-43.

53. The decrease of \$145,663.82 in the postal revenue receipts from postage on parcels received from other countries for delivery in Canada is due in part to the fact that payments received from the United States in 1943-44 were for a six months' period only (July 1 to December 31, 1942), whereas in the previous year payments for twelve months were received (July 1, 1941, to June 30, 1942).

54. Audit tests of money orders, postal notes and postal note scrip were inconclusive because the Department had not maintained adequate accounting controls.

55. Experience demonstrates that each year the value of redeemed orders and notes is less than the value of those issued. As the value of lapsed orders is no longer transferred to revenue, it is apparent that there is being recorded a considerable liability which it is unlikely will have to be met. The amount of lapsed orders and notes (those outstanding after twelve months from the last day of the month of issue) has not been established since the close of the fiscal year 1940-41, therefore the amount involved cannot be stated.

56. It was departmental practice to treat as "profit in exchange on postal transactions with other countries" the premiums collected to meet exchange on Canadian money orders payable in U.S. funds. This situation has been corrected, in part, by the Department arbitrarily treating as a liability, rather than as revenue, the premiums collected in the last quarter of the fiscal year 1943-44. However, under the present method of accounting, it remains impracticable to establish the amount by which the actual liability is now under-stated.

57. Remittances by postal note stamps (scrip) during the fiscal year were: \$184,466.91 attached to postal notes and \$380,134.10 used separately. Among the causes for the introduction of "postal note scrip" was that of obviating payment of large commissions to postmasters who are compensated out of postage stamp sales. No fee is charged for scrip. Furthermore, remittances in this form are not subjected to the excise tax on remitting instruments.

58. Reference has previously been made to the practice of paying discounts, in some cases, to postage stamp, postage meter and postage register machine users who were not engaged in selling postage stamps to the public, and attention was directed to the fact that it appeared questionable if such persons may properly be regarded as "agents" of the Department, within the terms of section 7 (o) of the Post Office Act. This comment still applies.

59. Indemnities paid in respect of lost, insured and C.O.D. parcels during the year amounted to \$119,036.44 and recoveries of indemnities previously paid amounted to \$85,344.19, leaving \$33,692.25, which appears as a disbursement from Revenue on the Department's revenue statement. A portion of this may be recovered.

60. In addition to the \$10,659.10 for losses by fire, burglary, etc., shown in the Department's revenue statement, there was being carried, in suspense, as at March 31, 1944, \$23,920.94 representing losses not yet adjusted, including \$7,361.10 incurred prior to April 1, 1943.

61. Whenever revenues of a revenue post office exceed \$3,000, the postmaster's remuneration is subject to control by the Civil Service Commission. The compensation is based on: a percentage of postal revenue; commission on sales of money orders, postal notes, government annuities, unemployment insurance stamps, radio licences; rental of boxes; special allowances for night duty, etc. It continues to be observed in the audit that generally the Department is acting independently of the Civil Service Commission in fixing rates of remuneration. The Department recognizes that rates so fixed are paid without legal authority, but points out that, by reason of the fluctuations in revenue and because the postmasters in question pay assistants out of the sums received by them, it has been necessary, in order to attract and retain suitable officers, to apply a scheme which meets problems as they arise. The Department states that "the method of payment is flexible and from an administrative point of view it works satisfactorily."

62. As at March 31, 1944, 22 temporary postmasters, for post offices with revenues in excess of \$3,000, have been named by the Department to perform the duties of revenue postmasters who are absent on military leave. The Civil Service Act contemplates such appointments being made by the Civil Service Commission. The Department states that its action was influenced by the consideration that less confusion would result and the public interest be best served were a postmaster, who was leaving to perform military duties, permitted to nominate his wartime substitute and to make arrangements with his substitute for the continued employment of his staff and use of the existing post office facilities.

### Department of Public Printing and Stationery

63. A \$37,352.85 surplus resulted from the year's operations of the Printing Branch. It was applied to liquidate the previous year's deficit of \$35,163.22. The \$2,189.63 balance was credited to Revenue. The Stationery Branch ended the year's operations with a deficit of \$5,101.43. This loss, together with the \$70,879.01 deficit of the previous year, is recorded in the accounts as a charge to the King's Printer's Advance Account, which is provided by section 38, as amended, of the Public Printing and Stationery Act:—

...the Minister of Finance may from time to time authorize the advance to the King's Printer, out of the Consolidated Revenue Fund of Canada, of such sums of money as the King's Printer may require to enable him to purchase material for the execution of orders given or requisitions made under the provisions of the Act, and to pay the wages of workmen engaged in the execution of such orders or requisitions. All expenditures made under such advances shall be accounted for in like manner as other moneys expended for the public service...The amount of outstanding advances to the King's Printer, after deducting therefrom all amounts due to him by either House of Parliament or by the several departments shall at no time exceed the sum of seven hundred thousand dollars.

Consequences of the policy applied with respect to the deficits above mentioned are: (a) to reduce the sum available to the King's Printer in the form of working capital, and (b) to burden subsequent sales with a factor (in order to retrieve deficits) which has no relationship to work performed. A more desirable practice would be for the King's Printer to seek an appropriation to make good a deficiency, should unforeseen conditions of operation have that result.

### Department of Secretary of State

64. An examination of records in the office of the Registrar of Trade Marks disclosed: (a) 39 instances where, extending over several years, fees totalling \$825 had not been deposited to the credit of the Receiver General; (b) that some registration files were either incomplete or missing, and (c) that certain applicants made it a practice to pay fees by means of cheques payable to the Registrar. The Registrar resigned and paid the amount of the deficiency. Changes in procedure to strengthen the system and to safeguard revenues have been put into effect.

**Department of Transport**

65. Imperialle Fuels, Limited, the lessee of water lots at Port Stanley, Ont., and Canadian Dredge and Dock Company, Limited, lessee of lots at Barriefield, Ont., made improvements to water lots covered by their respective leases. These capital improvements were financed by the Department permitting the lessees to make deductions from rentals payable. Thus, improvements were made to public property without recourse to parliamentary appropriations. The Department took steps to correct the administrative error, and Vote 587 of the 1944-45 Appropriation Act grants \$28,622.64 to cover the questioned expenditures.

**Wartime Prices and Trade Board**

66. Fines amounting to \$282,351.46 were received during the fiscal year for violations of the Wartime Prices and Trade Board regulations. Amounts totalling \$1,372 were subsequently refunded by order of the Governor General in the exercise of the pardoning power vested in him. The Board reported that at March 31, 1944, fines amounting to \$97,579 were outstanding, of which \$48,362.50 were in the hands of provincial and municipal authorities pending decision as to their final disposition. In addition, fines totalling \$7,285 were reported to be in abeyance pending the outcome of appeals.

## APPROPRIATION GRANTS

69. *Annual Appropriation Acts*.—These granted \$288,276,089.80 for the fiscal year 1943-44. Expenditures were: \$257,342,176.89 for general purposes, and \$2,487,449.77 for active loans and investments. The total resulting expenditures were therefore \$259,829,626.66. The sum of \$28,446,463.14 granted by the Appropriation Acts lapsed at the year-end and was written off in accordance with the provisions of section 32 (1) of the Consolidated Revenue and Audit Act, 1931. Departments which had balances in excess of \$500,000 lapse were:—

Agriculture .....	\$2,298,257 10
Finance .....	1,659,804 31
Labour .....	3,326,778 08

70. Votes which had balances in excess of \$500,000 lapse were:—

*Agriculture*.—Votes 31 and 455 provided \$32,081,000 for wheat acreage reduction payments. Of this amount, \$1,130,654.28 lapsed.

*Labour*.—Vote 107 provided \$15,000,000 for the Government's contribution to the Unemployment Insurance Fund. Of this amount, \$2,655,578.26 lapsed.

*Munitions and Supply*.—Vote 69 provided \$4,500,000 for payments in connection with the movements of coal. Of this amount, \$2,704,253.67 lapsed.

*Post Office*.—Vote 244 provided \$14,081,859 for air and land mail services. Of this amount, \$803,141.53 lapsed.

*Soldier Settlement*.—Vote 532 provided \$6,600,000 for the purchase and improvement of lands for the purposes of the Veterans' Land Act. Of this amount \$5,001,652.95 lapsed.

*Transport*.—Votes 395 and 531 provided \$2,069,105 for the construction and improvement of airways and airports. Of this amount, \$1,079,389.90 lapsed.

Vote 530 provided \$3,000,000 for the construction of a ferry vessel for the Prince Edward Island ferry service. Of this amount, \$2,367,500 lapsed.

71. *Continuing Appropriations.*—In addition to expenditures incurred under the authority of annual appropriations, payments totalling \$477,888,234.53 were made under the authority of various statutes which authorize charges to Consolidated Revenue Fund without further appropriation. Expenditures for interest and other charges for servicing the public debt, old age pensions, provincial subsidies and compensation to provinces with respect to taxation agreements, and salaries of the Governor General, lieutenant-governors and judges comprised more than 80 per cent of the total.

72. Active loans and investments totalling \$18,834,936.10 were also made under the following statutory authorities:—

Canadian National Railways Refunding Act, 1938.....	\$17,200,636 92
Canadian National Railways Financing and Guarantee Act, 1940.....	1,180,150 36

73. *War Appropriation Acts.*—Appropriations to meet expenditures necessitated by the existence of a state of war, and to make such loans and advances as the Governor in Council deemed necessary or advisable for war purposes, totalled \$4,341,503,859.21, and were provided by:—

74. The War Appropriation Acts provide that allotments to departments be made by Treasury Board. \$3,890,000,000 was available to Treasury Board for allotment and \$3,831,606,906.94 was allotted, leaving an unused balance of \$58,393,093.06. Departments disbursed \$3,766,331,178.30, leaving unexpended departmental balances of \$65,275,728.64, which, with the unallotted balance of \$58,393,093.06, resulted in a lapsed amount of \$123,668,821.70.

75. Section 3 of the War Appropriation Act, No. 3, 1943, as in previous years, reads:—

3. (1) The Government of Canada may act as the agent of the Government of any British or foreign country allied with His Majesty for any purpose which, in the opinion of the Governor in Council, will aid directly or indirectly in the prosecution of the war, and any obligations or costs incurred temporarily or assumed by the Government of Canada in the exercise of the powers hereby conferred may be paid out of any unappropriated moneys in the Consolidated Revenue Fund.

(2) Any expenditure required to be made by the Government of Canada under any contract for munitions of war and supplies entered into by the Government of Canada for the purpose of enabling any company wholly-owned by the Government of Canada to fulfil its obligations in respect of orders received by such company from the government of any British or foreign country allied with His Majesty may be paid out of any unappropriated moneys in the Consolidated Revenue Fund.

76. Pursuant to the War Measures Act, the Exchange Fund Act and section 3 above quoted, Orders in Council P.C. 6840 of August 30, 1943, and P.C. 8895 of November 23, 1943, authorized loans of \$200,000,000 to the Foreign Exchange Control Board in addition to \$400,000,000 previously advanced. During the year, this authorization was exercised to the extent of \$185,000,000. The total of the outstanding advances to the Board as at March 31, 1944, was \$585,000,000. Interest is paid at the rate of 1 per cent per annum.

77. Under the authority of section 3 of the 1942 War Appropriation Act, Order in Council P.C. 7822 of September 1, 1942, approved the making of an agreement with the Government of the Union of Soviet Socialist Republics to establish a \$10,000,000 credit to finance the purchase by Russia of Canadian wheat and flour. As at March 31, 1943, \$917,159.16 had been advanced, and in the fiscal year 1943-44 further advances of \$9,082,840.84 were made. The total credit has consequently been used. The interest rate is 3 per cent per annum.

78. Recoverable advances, made since the outbreak of the war, under the authority of section 3 of the Act, to other governments, etc., and which were outstanding at March 31, 1944, amounted to \$1,085,642,915.30. This sum consists mainly of advances to:—

United Kingdom .....	\$415,897,298 67
Australia .....	292,957 90
India .....	2,781,550 10
Newfoundland .....	46,655 34
New Zealand .....	39,528 81
Norway .....	176,158 16
United States of America.....	72,269,651 02
Union of Soviet Socialist Republics.....	10,124,763 21
Foreign Exchange Control Board.....	585,000,000 00

79. *The War Appropriation (United Kingdom Financing) Act, 1942.*—Under this authority, \$2,111,726.13 was advanced to the Canadian National Railways to enable the Company to acquire certain of its sterling securities which had been repatriated from the United Kingdom.

80. *The War Appropriation (United Nations Mutual Aid) Act.*—This Act appropriated \$1,000,000,000 to be administered by a Mutual Aid Board to the end that war supplies be made available to signatory nations of the Declaration by United Nations dated January 1, 1942, and to any other nation or authority which may be designated by the Governor in Council as being associated with Canada in the prosecution of the present war. \$912,603,220.34 was spent in the fiscal year as a charge to this appropriation, leaving \$87,396,779.66 available for expenditure in subsequent fiscal years.

## EXPENDITURES

81. Total expenditures in the fiscal year, including write-down of assets but exclusive of loans and advances treated as active assets, were \$5,322,253,505.27. A comparison by principal classifications with those of the previous year is:—

	1942-43	1943-44
General—		
Ordinary .....	\$ 561,251,063 00	\$ 630,380,759 90

	\$4,387,124,117 59	\$5,322,253,505 27
	<hr/>	<hr/>

82. The \$62,837,580.54 classified as "Other Charges" consists of an increase of \$25,000,000 in the general reserve set up in the Balance Sheet of Canada and \$37,837,580.54 relating to Canadian National Railways, referred to in paragraph 14 of this report.

83. The amount of \$1,306,961.21 for expenditures under the classification "Government-owned Enterprises" consists of the operating deficits of \$698,364.86 on the Prince Edward Island car ferry and terminals, \$29,488.66 for the Churchill Harbour and \$579,107.69 for non-active advances to the National Harbours Board. The material expansion in public enterprises of an industrial or commercial nature is not reflected in this classification, which, in accordance with past practice, comprises only the losses of and non-active advances to those Government-owned enterprises which were established before the war and which are operated as separate corporations.

84. *Capital Expenditures.*—Expenditures charged to appropriations classified as Capital in the schedules to the annual Appropriation Acts amounted to \$2,621,978.38. The charges were distributed as follows:—

Authority	Purpose	Amount
Vote 380	River St. Lawrence Ship Channel—Contract Dredging in the St. Lawrence River and Montreal Harbour, including cost of administration.....	\$ 939,880 81

86. This classification was adopted in 1930-31 to cover expenditures for unemployment and agricultural relief and for unemployment relief projects initiated to alleviate the effects of the depression. Many charges now included under this heading are of the nature of Ordinary expenditures, consequently it is questionable if the present classification now serves the purpose originally intended, namely, to permit a fair year-to-year comparison of Ordinary expenditures.

### ORDINARY EXPENDITURES

87. Ordinary expenditures totalled \$630,380,759.90 in 1943-44, a net increase of \$69,129,-696.90 over the corresponding total in the previous fiscal year. A comparison of appropriations and expenditures thereunder, classified by departments, is:—

### Salary Payments

88. The observations now made relate to salary transactions generally and include those charged to War Appropriation.

89. On March 31, 1944, the Central Pay Office of the Comptroller of the Treasury was paying 93,117 employees. Accrued overpayments of the year, as recorded by the office, totalled \$10,377.15. By June 1 the amount had been reduced to approximately \$7,000. Audit tests over the final six months' period disclosed overpayments of \$1,405.45 and underpayments of \$227.54. The majority of these have since been adjusted.

90. Prior to November 1, 1943, if a husband and wife were both employed, cost of living bonus was payable to one only. Contrary to the regulations, the bonus was paid to a woman employed in the Department of National Defence (Army). Steps were taken to recover \$15 monthly of the \$284.96 overpayment, and \$135 was recovered by February, 1944. On March 15, 1944, the Treasury Board directed that \$34 be regarded as the sum due. \$101 was refunded to her. No explanation accompanied the direction of the Board.

91. A Clerk Grade 1, Customs and Excise Divisions, Department of National Revenue, was granted and paid an increase in pay one year in advance of his becoming eligible to receive it. Partial recovery was effected, but by Order in Council of November 10, 1943, the overpayment was approved. Thereupon the sum recovered was returned to the employee.

92. An employee of the Department of Munitions and Supply on leaving the public service was paid \$233.20 from Retirement Fund credits. The cheque was issued upon it being certified that no overpayments with respect to the employee were outstanding. An overpayment of \$79.32 was outstanding. No recovery of the amount was made in the fiscal year. Two other employees of the Department left the service owing \$58.42 and \$101.80, respectively, by reason of overpayments of salary. In these cases application was made to have Retirement Fund credits of \$53.93 and \$138.94 paid to the Department, to the end that sums be applied against overpayments on salary account. Cheques were issued payable to the Receiver General, but for reasons not satisfactorily explained the cheques were sent to the individuals and were negotiated by them. Recovery has been made in the present fiscal year.

93. A practice noted during the audit of the accounts of several departments was that of amending dates of separation in order to establish leave credits for employees who, after a break in service, were re-employed in other departments. In one instance, more than a year after a resignation was reported, an amended date of separation was entered in order that a break in service, which occurred between the date of resignation and the date the employee was appointed to a position with a higher salary in another department, would be treated as leave without pay. Thus leave credits, which could not have been otherwise granted, were established. The Civil Service Commission has since circularized departments as to the treatment to be accorded employees who have had a break in service.

94. When a permanent civil servant dies the rule is to pay salary for the whole month in which death occurred. This practice was established by an executive order made seventy years ago. In 1905 the practice, by Treasury Board Order, was extended to include persons (a) whose services, although characterized as temporary, were of permanent character, and (b) who had been continuously employed for at least three years. The trend is to disregard the first test and to treat three years' service as the requisite. Strictly regarded, it is questionable if there is statutory authority to pay salary after death.

95. Section 15 of the Civil Service Act contemplates that temporary employees, on first appointment, receive the minimum rate provided for the grade. The section provides, however, that in the case of temporary employees required in Canada, but outside the City of Ottawa, the Commission may, under certain circumstances, fix the rate at the prevailing rate of the locality. Relying on the authority of the War Measures Act, the Governor in Council (P.C. 1/1569 of April 19, 1940) vested in the Treasury Board a general power to regulate rates of pay on temporary appointment. Thus section 15 of the Civil Service Act was modified by permitting rates, higher than the minimum, to be paid in Ottawa. In the course of audit it was observed that some Ottawa appointments, made by the Civil Service Commission, at rates above the minimum of the classes, had not been approved by Treasury Board. On September 18, 1943, the Treasury Board instructed the Commission "that, in future, appointments at Ottawa at rates in excess of the minimum of the class should be submitted

for the prior approval of the Treasury Board." It was observed that throughout the fiscal year Treasury officers regarded certificates of the Civil Service Commission as conclusive proof that the rates had been authorized. In the present year the Treasury is making independent examinations.

96. An order in council of February 18, 1944, authorized a salary increase from \$900 to \$1,020 per annum, effective January 1, 1944, to a clerk on the staff of the National War Finance Committee. Regulations provide that salary increases may not be given retroactive effect beyond the beginning of the quarterly period in which the recommendation was received by Treasury Board. Notwithstanding this, the provincial committee concerned was advised that it would be in order to make payment out of moneys advanced, to the end that the increase take effect from November 1, 1943. On March 3, 1944, payment was made. The attention of the Department of Finance was drawn to the transaction. On April 12, 1944, an order in council was passed approving the increase effective from November 1, 1943.

97. The Income War Tax Act now requires that deductions at the source be made from salary payments to public employees. At the close of the calendar year 1943 a survey was made of practices in Treasury offices. It was observed that no deductions were being made from cheques issued in Canada to 168 persons, currently residing outside of Canada, in the service of the departments of External Affairs, Mines and Resources (Immigration Division), Pensions and National Health and Trade and Commerce. The total of annual salaries involved amounted to \$537,890. In certain instances allowances were also being paid. On an annual basis, these amount to \$329,747. Explanations provided were that the payments were not subject to deduction because (a) the individual does not come within the scope of the Act, or (b) the salary is not income for taxation purposes, by reason of the exception made by section 9 (1) (f) of the Act.

98. Instances were observed where deductions were not currently being made from the compensation paid to non-residents who were under short term engagements to perform public duties in Canada. The cases were brought to the notice of those concerned.

99. Orders in council, mainly at the instance of the Department of Munitions and Supply, were made during the year to fix salary rates and per diem allowances to persons temporarily located in the United States. These orders in council specify various sums as representing reimbursement of living expenses, and direct that such amounts be not treated as forming part of the employees' remuneration. In twelve instances the sums so designated range from \$1.65 to \$3.20 daily. In eight other orders the amounts involved are \$4.50, \$5, \$7.50, \$8, \$10 and \$12.

100. Income War Tax Act regulations require that employers report "commissions, directors' fees and other like remuneration of \$100 or more paid or credited, whether or not Income Tax has been deducted at the source, together with such amounts of less than \$100 from which tax has been deducted." This has been interpreted to include fees paid to writers, artists, etc. Review of returns submitted to the Taxation Division indicates that the requirement was not invariably observed by the National Film Board.

101. Section 3 of the Income War Tax Act, as amended by c. 14, Statutes 1943-44, provides that:—

Any payment...in connection with any duty, office or employment, whether as allowances on a per diem or other periodic basis, living allowances or expenses, or otherwise...shall be salary of such person and taxable as income for the purposes of this Act...

During the fiscal year the following exceptions were made by executive orders:—

- (a) By Order in Council P.C. 1/4434 of May 28, 1943, made under the War Measures Act, "and all other enabling powers in that behalf", amounts paid on a per diem basis to 19 employees of the Department of Munitions and Supply in the United States were declared not to be part of the remuneration or other income of the employees for taxation purposes.
- (b) Order in Council P.C. 164/7263 of September 17, 1943, made under the authority of section 33 of the Consolidated Revenue and Audit Act, 1931, authorizes the Minister of National Revenue to remit such tax as may be computed as being payable for the years 1940, 1941 and 1942 by 91 persons employed abroad by the Department of Munitions and Supply; "such remissions to be conditional upon certification by the Minister of Munitions and Supply that each of the said persons proceeded overseas or abroad on the understanding that he (or she) would be exempt from Income Tax in respect of remuneration under whatever heading paid on salary and allowances received by them while overseas or abroad."

- (c) Allied with these two Orders in Council is P.C. 57/8660 of November 10, 1943—it is silent as to the statutory authority under which made. It makes a division of the remuneration paid in the period January, February and March, 1943, to 48 outside-of-Canada employees of the Department of Munitions and Supply (including 2 employees in Newfoundland who had been the subject of Order in Council P.C. 108/6181 of August 4, 1943) and 4 employees of War Supplies Limited, and directs "that the amounts deemed to have been paid by way of reimbursement of expenses to such employees...shall not be deemed to be part of the remuneration or other income received by such employees respectively and shall not be subject to income tax."
- (d) Order in Council P.C. 89/8496 of November 3, 1943, made under the authority of section 33 of the Consolidated Revenue and Audit Act, 1931, directs that income tax of \$2,702.30 "imposed upon A. J. Hills, presently Special Executive Assistant to the Minister of Labour, by reason of including as part of his taxable income the allowance received by him from the Government to reimburse him for the additional expense incurred by reason of being absent from his established place of residence during the years 1940 and 1941, be remitted."
- (e) P.C. 125/621 of February 2, 1944, made under the authority of the War Measures Act, authorizes sums not exceeding \$20 per diem to be paid to A. L. Lawes, Technical Adviser to the Canadian Shipping Board, Washington, on and from April 1, 1943, and directs that \$10 thereof "shall not be deemed to be part of the remuneration or other income of the said employee for the purposes of taxation under the Income War Tax Act, as amended."

### Department of Agriculture

102. *Prairie Farm Rehabilitation Administration.*—An audit survey was made of machinery inventories at Swift Current. Records as of December 31, 1943, place a value of \$361,517.82 on equipment in charge of the Director of Rehabilitation for water development and land utilization work, and \$248,069.41 on that for cultural work in charge of the Director of the Experimental Farm Service. It was suggested to the Department that more comprehensive records be set up and that consideration be given to centralizing of control over all equipment and supplies. The Department advises that it does not consider the latter suggestion one which should now be adopted because it anticipates that, in the course of time, an operating section will be set up in connection with the development work at irrigation projects.

### Department of Finance

103. *Civil Service Superannuation Act.*—This Act has as an objective that of encouraging civil servants to remain in the public service until retired on pension. Since 1930 various annual unemployment relief Acts have provided schemes of public employment until the individuals were able to secure gainful employment elsewhere. By reason of these differences in purpose, attention is drawn to an administrative act, although no expenditure resulted therefrom in the fiscal year under review. An engineer within the phrase, "men of the required professional qualifications presently unemployed and in need of relief", was assigned in 1933 by the Department of National Defence to administrative duties on an unemployment relief project for single, homeless men. The governing Order in Council, P.C. 422 of March 20, 1933, authorized payment of allowances to such administrative personnel, that to an engineer being \$100 a month with board and lodging. In 1936 he qualified as a contributor under the Superannuation Act and expressed a willingness to pay contributions for the relief project service. The application was rejected after obtaining an opinion from the Department of Justice. In 1944 an opinion of the law officers was again solicited. The material part of the opinion given is:—

In the case of *Salmo Investments Limited v. The King*, the Supreme Court of Canada held that persons so employed were officers or servants of His Majesty and following this opinion I think there can be no doubt that they were employed in the Civil Service as that term is defined in the above mentioned Act. In the circumstances service by such person can be counted as service for the purposes of this Act.

Salmo Investments Limited claimed \$24,692.85 for damage to its property by reason of slash burning operations during highway construction in British Columbia, under a relief project agreement between the Province and the Dominion. The President of the Exchequer Court decided that, as the Exchequer Court Act read in 1934, the project was not a "public work" within the meaning of section 19 (c), and dismissed the claim. The Supreme Court allowed the appeal, [1940] S.C.R. 263, holding that persons so engaged were officers or servants of the Crown within the scope of their duties or employment upon a public work. If administrative action taken establishes a practice, unusual situations may arise, two being: (a) the inclusion

in annuity calculations of war service of "dollar-a-year" men who subsequently accept salaried positions in the public service; and (b) residents of the National Parks, who become superannuation contributors, paying arrears of contributions on payments to them of the equivalent of municipal relief work pay.

104. *Housing Conversion Plan.*—Relying on the War Measures Act, the Governor in Council authorized the Minister of Finance to acquire, by way of lease from owners, suitable buildings for conversion into multiple housing units, and to rent housing units so created to suitable tenants. The objective was to relieve acute housing shortages which had developed in certain urban areas and contiguous municipalities. The order in council provides that:—

The total monthly rental payable by the Minister for any of the buildings so leased shall not exceed in each case one per centum of the appraised value of the property before conversion, plus one-twelfth of the increase in annual municipal real estate taxes occasioned by the conversion of the said property.

A test examination of transactions regarding properties leased for conversion in Vancouver indicated that leases had been signed which provided for monthly rentals in excess of the maximum amounts permissive under the provisions of the order in council.

105. The order in council authorizing the Minister to enter into leases for the acquisition of buildings for the purposes of the Housing Conversion Plan also provides that:—

The terms of the lease of each of the buildings shall be for a period of five years, with the privilege of the Minister renewing the said lease for a further period of three years, but subject to the proviso that the said Minister may at any time cancel the said lease upon thirty days' notice.

The second storey of a building in the City of Victoria was leased for five years at a rental of \$20 per month, with the privilege of renewing for a further period of three years. The lease provides that, if alterations and additions necessitated by the conversion exceed \$6,000, the lessor should repay the amount, not exceeding \$1,200, by the Department deducting from each monthly rental payment one-sixtieth of that amount. The effect is that an agreement has been made to advance up to \$1,200 to finance a portion of the conversion costs of the property on behalf of the owner, who, in turn, agrees to repay by monthly deductions from the rent due to him. No provision is made for the payment of interest on the moneys advanced. As the provision respecting payment by the owner of his share of the conversion costs is incorporated in the lease, cancellation at any time prior to repayment in full may prejudice the right to recover. The orders in council authorizing the plan do not appear to authorize the action taken.

106. *Interest on Public Debt.*—Section 43 (1) of the Savings Banks Act, c. 15, R.S. 1927, provides for payment of interest on Post Office Savings Bank deposits at a rate not exceeding 4 per cent. The rate is fixed by the Governor in Council. Currently, 2 per cent per annum is allowed. As all transactions relating to the fiscal year 1943-44 had not been entered in the Savings Bank's records when the accounts of the Government of Canada were closed for the year, the amount of \$500,000 charged to Interest on Public Debt and credited to Post Office Savings Bank Account is an estimate only of the interest accretions to March 31, 1944, and is subject to revision. It is not anticipated that any material adjustment will be required when final calculations of the depositors' accounts have been made.

107. *National War Finance Committee.*—In the 1942-43 report attention was directed (Para. 90) to a disagreement with the Department of Finance as to the application to be given to section 7 of the Consolidated Revenue and Audit Act, 1931:—

7. The Governor in Council may, from time to time,
  - (a) make such regulations as he deems necessary for the management of the public debt of Canada and the payment of the interest thereon; and
  - (b) ...provide for the creation and management of a sinking fund or other means of securing the repayment of any loans raised under the authority of Parliament; and
  - (c) appoint one or more fiscal agents of Canada in any country, and agree with them as to the rate of compensation to be allowed them for negotiating loans, and for paying the interest on the public debt, and for other services connected with the management of the said debt; and
  - (d) pay the sums necessary to provide such sinking fund or other means as aforesaid, such compensation and such expenses as are incurred in the issue and redemption of loans, out of the Consolidated Revenue Fund.

The point to which attention was drawn was the propriety of relying on this authority to pay certain classes of continuing expenditures of the National War Finance Committee. It was stated that an opinion from the Deputy Minister of Justice was being sought. After the

report was tabled, the Deputy Minister of Finance drew attention to the fact that an opinion had been given on July 23, 1943, and that it sustained the view of the Department. The material part of the letter from the Deputy Minister of Justice is:—

It is to be noted that authority to pay expenses incurred in the issue of loans is only one of several provisions in section 7. That section authorizes the Governor in Council to make regulations for the management of the public debt, to provide for the creation and management of a sinking fund or other means of securing the repayment of "any loans raised under the authority of Parliament", to appoint fiscal agents of Canada and agree with them as to the rate of compensation for negotiating loans and for paying interest on the public debt, etc. All these provisions have to do with the public debt generally, and the word "loans" is used throughout. In paragraph (d) of section 7, not only is authority given for the payment of expenses incurred in the issue of "loans", but for payment of expenses incurred in the redemption of "loans". It seems clear that this is ample authority for the Governor in Council to make permanent arrangements for the redemption of all loans as they come due from time to time if the Governor in Council feels such an arrangement to be in the public interest. Similarly, I am of opinion that the authority given to the Governor in Council by section 7 is sufficient for him to authorize the setting up of a continuing organization in connection with the issue of public loans as the same may from time to time be authorized if such an arrangement is deemed to be the most efficient way of handling this aspect of public business.

I am of opinion, therefore, that the Governor in Council can, pursuant to the said section 7, authorize payment out of the Consolidated Revenue Fund of the expenses of the National War Finance Committee incurred in the performance of duties enumerated in section 4 of Order in Council P.C. 45 of January 7, 1942, as amended. That Order in Council purports to have been made under the authority of, *inter alia*, both the Consolidated Revenue and Audit Act, 1931, and the War Appropriation Act, 1941, and authorizes payment of the Committee's expenses out of "unallotted moneys in the Consolidated Revenue Fund." While it is not as clear as it might be, I can only read it as authorizing payment out of unappropriated moneys in the Consolidated Revenue Fund and as an exercise, therefore, of the authority contained in section 7 of the Consolidated Revenue and Audit Act, 1931.

The Audit view continues to be that it is highly improbable that Parliament ever intended that section 7 be regarded as authority to pay such expenditures as the \$286,511.51 disbursed in the fiscal year 1943-44 for the radio program "They Tell Me", which was broadcast on several days of every week throughout the fiscal year.

### Department of Fisheries

108. Under various treaties between Canada and the United States, each country appoints commissioners and pays their salaries and expenses. Other expenditures are shared jointly by the two countries. Certain disbursements are made in the first instance by Canada. The total expenditures under Votes 77, 78, 464, 464a and 465 amounted to \$142,979.95. The United States' share was \$71,137.93, the details being: Pacific Halibut, \$19,246.20; Pacific Salmon, \$41,398.56, and Hell's Gate Salmon, \$10,493.17. During the current year \$87,618.65 was collected on account of \$89,306.05 outstanding from the previous year, and \$53,346.08 on account of the current year's accounts. The outstanding balance at the close of the fiscal year 1943-44 amounted to \$19,479.25. This amount is recorded as a receivable from the United States Government.

### Department of Labour

109. The Auditor General has been directed, in accordance with the provisions of section 48 of the Consolidated Revenue and Audit Act, 1931, to pre-audit annuities accounts. On February 27, 1940, a husband and wife applied for a deferred last survivor annuity of \$1,200, to mature on February 28, 1943. The applicants paid \$13,163.16. The contract provided that the annuity remain in effect so long as both annuitants lived, with the full sum continuing to be paid to the survivor for life. The husband died in January, 1942, before any payments were made. His death had the effect of creating a surplus of \$1,101.63 over the amount necessary to discharge the Crown's liability under the contract. The Department decided to refund the sum to the widow. The authority to do so was questioned. An opinion of the Deputy Minister of Justice was sought by the Department. On March 18, 1943, he advised:—

Referring to your letter of the 9th instant herein, I return herewith the papers referred to therein, and I may say that as I read the Government Annuities Act and this contract, the contract remains in force notwithstanding the death of one of the annuitants before the date for the commencement of payment of the annuity and payments of annuity thereunder should be made to the surviving annuitant so long as she lives. I am of opinion that, on the material submitted, there is no justification for repaying any part of the purchase moneys to the purchaser.

The Department then requested an opinion as to the propriety of attaining the desired end by amending the Annuities Act's regulations. The Deputy Minister of Justice replied on June 26, 1943:—

Referring to your letter of the 18th instant herein, I may say that I am of opinion that the provisions of the Government Annuities Act referred to by you do not authorize the Governor in Council to make provision for any payment other than those contemplated by the Act. He could not, therefore, authorize payments in the circumstances suggested by you.

Nevertheless, an amendment to the regulations, reading:—

That should payments made by an annuitant be more than sufficient to earn the maximum amount of annuity provided for in the Government Annuities Act, the excess amount shall be refunded to the purchaser or his legal representatives.

was approved by Order in Council P.C. 43/8496 of November 3, 1943. Thereupon, a requisition for a cheque for \$1,101.63 was again submitted for pre-audit certificate. This was refused on the ground that the opinion of the Deputy Minister of Justice clearly pointed to the necessity of legislative rather than executive action. The Superintendent of Annuities, on November 23, 1943, in accordance with the provisions of section 35 of the Consolidated Revenue and Audit Act, 1931, applied for a Treasury Board authorization to pay without audit certificate, on the ground that:—

I am not in agreement with the opinion expressed by the Deputy Minister of Justice in this case and it would seem to me that it was within the competency of the Governor in Council to pass Order in Council P.C. 43/8496 of November 3rd and which was designed to provide authority for the making of refunds of overpayments of purchase money received in consideration of the purchase of annuity contracts.

On December 20, 1943, the Secretary of the Treasury Board advised that:—

The Board has directed, under section 35 of the Consolidated Revenue and Audit Act, that refund in the said amount be made.

No reasons accompanied the decision. The sum was paid.

### Legislation—House of Commons

110. *Vote 115.*—Payment of \$4,000 was made to Lionel G. Fosbery for:—

Portrait bust of Sir Robert Borden—bronze with marble base.....	\$2,500
Portrait bust of Sir Wilfrid Laurier—plaster-bronze finished to match the Borden bust.	1,500
	<u>\$4,000</u>

Section 17 (2) of the House of Commons Act directs that the Estimate of the Sergeant-at-Arms be applied to "the payment of salaries or allowances of the messengers, doorkeepers and servants of the House under his direction, and of the contingent expenses under his direction." In view of this, and because the "Details" submitted to the House of Commons in support of the Estimate made no reference to this exceptional expenditure, the transaction is reported.

### Department of National Defence

111. *Militia Pension Act.*—The fact that an officer, with Imperial service, has been awarded an Imperial pension for such service does not debar that service from being taken into calculation when an award is made under the Canadian Militia Pension Act. But on March 28, 1939, the Treasury Board gave notice that, in future, it would not recommend grant of Canadian pension for service already provided for by pension. In 1943 an officer was about to be retired. During his Army career he had had approximately 19 years' service in the Imperial Army and had been awarded an Imperial gratuity for the service. The Treasury Board was requested to give a direction with respect to the service for Militia Pension Act purposes. On September 28, 1943, the Board directed:—

That, where a gratuity and not a pension has been paid from British funds, such service be dealt with as follows:—

- (a) it may be used to qualify for pension an officer who has not sufficient Canadian service for this purpose, but
- (b) such pension shall be calculated on Canadian service only.

That the procedure referred to above shall not be followed unless Canadian service is in excess of ten years.

112. On March 1, 1944, a sergeant, stationed in Canada, was retired after 24 years' service. For pension purposes his pay and allowances were calculated as being \$1,728.99, and he was granted a life annuity of \$968.23. An audit observation was raised because dependents' allowance payments to the common law wife and child of the soldier were included as forming part of the "allowances". It was pointed out that, as no award under section 25 (awards to widows) may be made to the common law wife of an officer, who contributes towards pension, it appeared to be inconsistent to take into calculation allowances paid to a sergeant for the support of a common law wife, especially since a sergeant does not contribute towards pension and because the statute makes no provision for pension to widows of non-contributors. The material part of the reply of the President of the Pensions and Claims Board is:—

I am of the opinion that "allowances" as used in the Militia Pension Act, refers to the actual allowances paid to or on behalf of a soldier and forms part of the emoluments payable for his services. The dependent's allowance paid for a "common law" wife, in my view, falls within this category.

Thus the annual pension payment is \$343.52 greater than would have been the case had the dependents' allowance payments been ignored in the calculation.

113. A corporal was retired on long service pension on October 15, 1943. In computing his service for pension purposes, the period January 1, 1921, to March 31, 1922, was included. The propriety of taking this time into the calculations was questioned, as it was listed as service in the Canadian Expeditionary Force, which was removed from active service on December 31, 1920. Whereupon, on November 8, 1943, a Corps After Order was issued taking the man on strength of No. 9 Detachment, C.M.S.C., with effect from January 1, 1921, and simultaneously striking him off the strength of No. 9 Detachment as of March 31, 1922. There is no question but that he was a serving soldier during the period. Attention is drawn to the case because the action taken to regularize the service—to the end that it might be counted for pension service—is dated almost 23 years after the event, and because the soldier was retired before the Order was made. A companion case, that of a captain, was given like treatment, but in this instance the action taken on January 3, 1944, preceded his retirement on January 29, 1944.

114. Order in Council P.C. 59/748 of February 8, 1944, is made under authority of the War Measures Act. It directs that the rank, other than acting rank, with pay and allowances, which may be held from time to time by an "officer" or "militiaman" of the "Force", as defined in the Militia Pension Act, while the individual is on active service, shall, for the duration of the war, be deemed to be the substantive rank for the purposes of the Militia Pension Act. Attention is drawn to the Order in Council because of its provision that it is to be deemed to have retroactive effect to September 10, 1939. Between that date and February 8, 1944, twenty pension awards were made which may be affected if the Order in Council is regarded as permitting these awards to be reopened; some pensions may be increased and others reduced.

### National Film Board

115. As was intimated in Para. 100 of the Report for 1942-43, a detailed survey was proceeding of the financial and administrative operations of the Board. The survey was completed on March 1, 1944, when a report was made. Attention was drawn to the fact that no clear distinction, as contemplated by the statute, is drawn between classes of work to be performed by staff selected under the Civil Service Act and those employed under section 12 (1) of the National Film Act, 1939. The inadequacy of storage facilities was pointed out and it was urged that suitable space be acquired and a comprehensive stores' system put into effect. It was suggested that systems of costing productions and charges for services be reviewed and strengthened. It was urged that the accounting procedure be improved, especially with respect to forward commitments, and that purchases and requisitions of stores be suitably regulated. The Board has taken steps to give effect to various recommendations.

116. It was observed in the examination of vouchers that one employee, whose official station is Ottawa, has been regarded as being in travel status for over eighteen months. He was in New York City throughout the period and received \$3,900 in salary and \$3,298.30 for living expenses during the fiscal year.

117. Examinations of paylists for temporary employees disclose that, with respect to those employed on the rural and industrial film circuits, effect is not being given to the provisions of paragraph 5 of an order in council of April 19, 1940, which requires that a 5 per cent retirement fund deduction be made from the salary of all persons appointed to temporary positions other than casual positions.

## National Research Council

118. *Vote 357*.—In addition to moneys appropriated for its services, the National Research Council may expend moneys received through bequests, donations or otherwise. Receipts of this nature are credited to special accounts. A summary of these accounts is:—

## Receipts—

Net amount charged to Vote 357.....	\$ 13,696 69	
Donations, contributions from, private firms, sundry revenues arising from research work, etc.....	405,229 60	
Revenues arising from work done by Special War employees....	598,967 01

## Soldier Settlement of Canada

119. *Settlers' Accounts*.—On July 17, 1942, a Special Committee of the House of Commons on land settlement of veterans of the present war recommended, among other things, that an Adjustment Committee be appointed

to review and confirm or reduce the indebtedness of soldier settlers whose agreements with the Director of Soldier Settlement were the subjects of proposals formulated under the provisions of the Farmers' Creditors Arrangement Act prior to October 1, 1939, or in the case of such other soldier settler as may be recommended by the Director, with the objective if feasible and practical, of establishing an equity for the settler; provided that the settler is in personal occupation of the land and that such agreements have not been terminated, rescinded or assigned.

The report continued:—

Any such settler may submit to the Director within a period of six months following the coming into force of this section an application for consideration by the Adjustment Committee as aforesaid, and it shall be incumbent upon the Director to forward such application to the Adjustment Committee together with a summary of the settler's account and such other particulars as may be required by the Adjustment Committee to determine the amount which in its judgment constitutes the present and prospective productive value of the land.

By Order in Council P.C. 10472 of November 19, 1942, as amended, it is directed that on or before December 31, 1943, a soldier settler, whose agreement has not been terminated, rescinded or assigned, may

make application to the Director for a reduction of his indebtedness to the Director, and the Treasury Board may, if such is the recommendation of the Director, reduce such indebtedness, provided, however, that the recommendation made by the Director shall be based upon the amount which in his judgment constitutes the present and prospective productive value of the land; the effective date of reduction if any shall be the standard date in 1942.

This Order was made under the authority of the War Measures Act. In the fiscal year 1943-44, reductions of indebtedness, totalling \$369,081.90, were made in 932 cases. In addition, \$228,041.69 was remitted in interest charges. Attention is directed to the transactions because: (a) the plan adopted did not constitute an Adjustment Committee as contemplated by the Committee's report, and (b) action was taken by relying on the War Measures Act, although the write-offs involve the exercise of appropriating power.

120. *British Family Settlement Agreements*.—Order in Council P.C. 2867 of April 29, 1943, includes in the recital:—

And Whereas His Majesty's Government for the United Kingdom has indicated that it would be pleased to see similar concessions made available to settlers established in Canada under the 3,000 British Family Settlement Agreement and under the New Brunswick 500 British Family Settlement Agreement and to that end is prepared to share the cost of such concessions on an equitable basis;

and directs that on or before December 31, 1943, any person under contract to purchase soldier settlement land pursuant to the terms of the 3,000 British Family Settlement Agreement or under the New Brunswick 500 Family Settlement Agreement may

make application to the Director for a reduction of his indebtedness to the Director, and the Treasury Board may on the recommendation of the Director reduce such indebtedness, provided, however, that the recommendation made by the Director shall be based upon the amount which in his judgment constitutes the present and prospective value of the land. The effective date of reduction if any shall be the standard date in 1942 and the loss occasioned by the reduction if any shall be allocated to and borne by His Majesty's Government for the United Kingdom and for Canada respectively, in the ratio authorized in paragraph numbered two of Treasury Board Minute T. 192897 B. dated April 9, 1940.

In the fiscal year, 385 cases were the subject of adjustment. \$155,664.88 of principal and \$72,-816.71 of interest were waived. Attention is drawn to the Order in Council because it invokes the appropriating power, although made under the authority of the War Measures Act.

121. *Vote 519*.—A charge of \$51,730.28 represents the sum transferred to a special account called "The Veterans' Land Act Fire Insurance Fund". Order in Council P.C. 116/9745 of December 27, 1943, creates a system of self-insurance by the Crown of property held for the purposes of the Veterans' Land Act. It provides for an initial payment of \$50,000 to the fund by charging that amount to Vote 519. This sum is to be supplemented by annual premium levies at a rate of 0.5 per cent of insured value. \$1,730.28 was the amount in 1943-44. The Order in Council directs that payments from the Fund "may be used to repair or replace property which is duly insured in the Fund and is damaged or destroyed by fire." No statutory authority was offered, during the audit, which permits the Crown to extend the life of a vote. Section 32 of the Consolidated Revenue and Audit Act, 1931, on the other hand, specifically states that: "Balances of appropriations which remain unexpended at the end of a fiscal year shall lapse and be written off..." It may not therefore be regarded that an expenditure was legally made from Vote 519; nor that a sum stands at the credit of the Fund on March 31 which may be drawn on to repair or replace public property. No payments were made from the fire insurance fund account in the fiscal year.

### Department of Trade and Commerce

122. *Vote 339*.—\$47.85 was reported as stolen in 1939 from the Panama office of the Commercial Intelligence Service, but has been carried forward as part of the outstanding office advance since that time. Treasury Board Minute of July 6, 1944, authorizes the amount to be placed in the deferred claims account of the Department and the sum charged as a 1943-44 expenditure.

123. Vouchers were not submitted in support of expenditures aggregating \$1,716.63 by overseas offices of the Commercial Intelligence Service. Information provided is to the effect that these vouchers had been lost due to enemy action.

### Department of Transport

124. *Vote 398*.—An imprest account is maintained at the Meteorological Office, Toronto, for the purpose of paying small local accounts, including travelling expenses of meteorological officials. A shortage of \$667.67 was established. A recovery of \$346.67 was made from the salary of the employee concerned, leaving a balance of \$321 unrecovered. Since March 31 the Department has collected \$193.67 from the Government Officers' Guarantee Fund. The man was dismissed as of November 25, 1943, but on August 1, 1944, he was re-employed in the Hamilton office of the Department of Pensions and National Health. Provision has been made to recover the \$321 from the man's earnings. When this is done the intent is to repay \$193.67 to the Government Officers' Guarantee Fund.

## Unemployment Insurance Commission

125. *Vote 106.*—This vote provided \$5,375,150 for the administration expenses incurred by the Unemployment Insurance Commission. A further \$5,000,000 for administration costs of National Selective Service was allotted from the War Appropriation. Expenditures for the two services amounted to \$10,027,972.45, of which \$5,170,900.33 was charged to Vote 106 and \$4,857,072.12 to War Appropriation. The Department and the Commission considered it administratively impossible to apportion accurately the cost of services common in many respects to both Unemployment Insurance and National Selective Service. An arbitrary apportionment was therefore adopted on a basis that divided the expenditure. Because of this, an unqualified certificate, to the effect that the expenditures charged to Vote 106 were applied to the purposes for which the grant was intended to provide, cannot be given.

126. Irregularities in travel accounts of employees in the Quebec Region led to the dismissal of three, the resignation of three and reprimand of three others. The amount involved, \$801.77, has been recovered with the exception of \$70.42. In this case, the balance of salary and retirement money owing to the employee was insufficient to meet the total overcharge of \$326.92. The irregularities consisted for the most part of falsified and fictitious vouchers supporting claims for reimbursement.

127. An enforcement officer of the Maritimes Region, who failed to notify the Commission that he had left his employment and enlisted in the Royal Canadian Air Force, is indebted to the Commission for \$141.68 advanced to him for travel purposes.

## WAR EXPENDITURES

128. War expenditures for the fiscal year 1943-44, exclusive of \$912,603,220.34 paid under the War Appropriation (United Nations Mutual Aid) Act, 1943, amounted to \$3,674,419,-873.51, an increase of \$950,170,983.24 over like expenditures in the previous fiscal year.

129. The War Appropriation Acts provide that moneys available thereunder shall be allotted by Treasury Board. A summary of allotments to departments, expenditures, and loans and investments is:—

## Department of External Affairs

130. A payment of \$376.29 is charged to the allotment for the evacuation of staff from abroad. It was made to the former Canadian Minister to Belgium and Holland, and represents a reimbursement for living expenses of himself and family for a period of time in Portugal during the year 1940. In the fiscal year 1940-41, he was paid \$789.62 as evacuation expenses and a further \$637.18 for the expenses of his wife and family. Apart from a memorandum reciting that the \$376.29 represents payments to the Estoril Palacio Hotel, no voucher or receipt of payment was produced during the audit.

131. The Governor in Council, on May 28, 1943, authorized the Department to construct a building in Chungking, China, for office and residential purposes. The estimated cost of \$44,000 was later increased to \$127,500 by Order in Council P.C. 16/2200 of March 28, 1944. The full amount was advanced as a charge to War Appropriation. Although statements sent by the Legation disclose that \$25,485 was being held in the bank at the fiscal year-end, that sum is included as an expenditure of the year 1943-44. Statements of expenditures made have been received, but vouchers in support of payments were not available for examination.

132. Order in Council P.C. 29/2544 of April 11, 1941, constituted a Canadian Claims Commission to consider claims against the Crown in right of Canada arising in the United Kingdom and on the continent of Europe "out of any death or injury to the person or to property resulting from the alleged negligence" of Canadian Service personnel or National Defence civilian employees "while acting within the scope of their duties or employment." The Order in Council provides that if the Commission determines that, although no liability exists, it is desirable "that such claim should in the interest of the Service be entertained", then it may negotiate a settlement on an ex gratia basis to an amount of £250 for personal injuries and £100 for property damage. Order in Council P.C. 17/9180 of December 1, 1943, includes in its recital:—

That on February 26, 1942, a member of the Canadian Armed Forces in the United Kingdom while of unsound mind shot and killed a United Kingdom resident, one F. J. Fuller, and that in consequence his widow, Mrs. F. J. Fuller, has been left in extremely straitened circumstances;

That as the British Claims Commission is not empowered to make ex gratia payments in respect of claims arising out of crimes committed by United Kingdom military personnel, the Canadian Claims Commission, which is directed to conform to the principles applied by the British Claims Commission, is not empowered to make an ex gratia payment to Mrs. F. J. Fuller.

And another Order in Council, P.C. 25/9868 of December 29, 1943, states:—

That on January 31, 1942, a United Kingdom resident, one H. E. J. Huke, was seriously injured by a motor vehicle driven by a member of the Canadian Armed Forces in the United Kingdom, and as a direct result incurred out-of-pocket expenses amounting to £907/2/2;

That the Canadian Claims Commission (Overseas) has found that the Canadian driver was wholly responsible for the accident but as he was not engaged within the scope of his duties or employment at the time of the accident, action by the Commission was limited to the making of the maximum ex gratia payment of £250.

These Orders in Council, recited as being made under the authority of the War Measures Act, direct payment of £500 to Mrs. Fuller and £657/2/2 to Mr. Huke "out of funds provided from the War Appropriation." The Department secured an opinion of the Department of Justice on April 12, 1944, to the effect that the payments "can be made with the authority of the Governor in Council under the War Appropriation Acts if they are considered necessary by the Governor in Council for the conduct of naval, military or air operations in or beyond Canada."

### Department of Labour

133. A labour agreement was entered into between Gillies Bros., Limited, Braeside, Ont., and the Minister of Labour, whereby 75 persons would be provided from internment or prisoner of war camps. It is a provision of the general scheme, as approved by the Governor in Council, and of the agreement with Gillies Bros. Limited, that prisoners of war are to be guarded by military personnel and internees by private guards. The firm engaged private guards, anticipating internees would be sent. Actually the group was drawn from prisoner of war camps. The civilian guards were dismissed, but the Department accepted the cost incurred, \$768.38, on the ground that the Company had acted in good faith. The record supports this contention, but no authority was produced in the audit to permit the account to be accepted without the sanction of the Governor in Council.

134. Order in Council P.C. 2821 of April 7, 1943, made under the authority of the War Measures Act and the National Resources Mobilization Act 1940, provides a scheme whereby conscientious objectors, who are granted, by competent authority, a postponement order from military service, may be gainfully employed in industry. It is a provision of the Order that the employer shall pay monthly to the Canadian Red Cross Society the amount by which the wages payable in respect of the person exceed the aggregate of a sum to be calculated in accordance with the provisions of the Order in Council. Information provided is to the effect that \$350,460.61 was paid in the fiscal year to the Canadian Red Cross Society. Attention is drawn to the Order because, while the National Resources Mobilization Act 1940 provides that the Governor in Council may require persons to place themselves, their services and their property at the disposal of His Majesty, it is not self-evident that the statute contemplates that fruits of their labour shall go to the profit of anyone other than the Crown or the individual himself.

### Department of Mines and Resources

135. The sum of \$191,386.07 was outstanding as of April 1, 1943, by reason of loans to various companies for the purpose of hastening the exploration and development of certain mining properties. During the year further advances of \$28,083.26 were made, while repayments of \$95,742.32 were received. The loans bear interest at the rate of 3½ per cent and are

repayable at varying rates per ton of ore sold. These loans are not included in the assets recorded in the Dominion Balance Sheet. In 1942 an agreement was made with Orford Mining Company Limited, Sherbrooke, Quebec. \$28,291.33 was advanced. The project was unfruitful and it was decided to terminate the agreement. After setting off the value of equipment surrendered, etc., a sum of \$21,928.98 was owing by the Company. Order in Council P.C. 9775 of December 24, 1943, directs that the production agreement be terminated and all obligations of the Company "considered as discharged and liquidated." Attention is drawn to this transaction because no statutory power was brought to audit notice which permits the Governor in Council to release the debtor company from its liability.

### Department of Munitions and Supply

136. Amounts equivalent to the surpluses carried in the records of six Crown companies and the operators of two Crown plants as at March 31, 1944, were recorded as revenue in the departmental accounts, with corresponding increases being made in the amounts recorded as advances against the companies and plants concerned.

137. An amount of \$12,621,829.44, being equivalent to the net total of reserves carried by eight of the Crown companies as at March 31, 1944, was set up as a Reserve for Contingencies in the Dominion Balance Sheet. In setting up this amount, \$4,003,998.25 was charged to active asset advances, while charges totalling \$8,617,831.19 were made to expenditures of the Department for the year under review.

138. In the fiscal year \$15,452,233.92, recovered as refunds of war expenditures, was deposited to Revenue, although it might have been credited to the 1943 War Appropriation. The sum is made up, in the main, of voluntary refunds by contractors and refunds made as a result of cost audits by the Treasury. The refunds were treated as Revenue because of the effort that would be entailed in apportioning the recoveries to the numerous allotments and accounts which bore the outlays in the first instance.

139. A crane was installed at Saint John at a cost of \$54,348.15 and has been in operation since February, 1943. Its purpose is to handle coal required by the United Kingdom Ministry of War Transport. The operating company levies a surcharge on coal delivered to the Ministry's vessels in order that the capital outlay may be recovered. \$18,341 was collected by March 31, 1944. This sum has been treated as a refund to War Appropriation and not as a credit to Revenue. On the other hand, \$218,478.02 was invested in two railway car barges for West Coast use. These came into operation early in 1942. During the 1943-44 fiscal year, charter agreements on a hire-purchase basis were made with the Canadian National and Canadian Pacific railways. Receipts of \$105,775.45 are, in this instance, reported as Revenue.

140. Until the spring of 1943, working and fixed capital advances were provided from War Appropriation to Crown companies and for Government-owned projects which were operated on a cost plus management fee basis. Monthly estimates of requirements were filed by them; thereupon the necessary sums were deposited to their credit in bank accounts established for the purpose. Order in Council P.C. 3542 of May 4, 1943, authorized a new plan to be put into effect. Agreements were made with Canadian banks whereby they advance sums, as required, to the companies and operators. The liability is guaranteed by the Government and the Department pays monthly the sum necessary to cover overdrafts of the preceding month. The interest rate is 3 per cent on the daily amount of the overdraft. Interest payments in the fiscal year amounted to \$1,224,780.18.

141. Coke ovens were constructed at Hamilton, the construction cost, as of the close of the fiscal year, being \$4,189,118.94. By Order in Council P.C. 7771 of September 2, 1942, authority was granted to enter into an operating agreement with Hamilton By-Product Coke Ovens Limited. This Order in Council recites that:—

A formal contract with respect to the management and operation of the plant and provision of coal and facilities will be drawn later in a form satisfactory to the Department, containing the usual termination clause and such other terms and conditions as the Department may require.

The Order in Council authorized an advance of \$1,000,000 to the operator, and P.C. 6102 of August 3, 1943, directed that a further advance of \$1,250,000 be made. A survey of the contractor's accounts was made in June, 1944. The attention of the Department of Munitions and Supply was drawn to the fact that the lack of a formal operating contract is a handicap to the Company and the cost accounting division of the Treasury. The Company is maintaining what appear to be adequate accounting records, but there are charges of which the disposition is in doubt until an operating contract is executed.

142. A plant was constructed at Cornwall, Ont., by Defence Industries Limited for the production of several types of chemicals. Authority to contract for the construction of the plant was granted by Order in Council P.C. 3634 of May 1, 1942. The cost was \$2,887,205.17. Although the operation of the plant was taken over by Stormont Chemicals Limited in July, 1943, and an operating agreement made, no contract with Defence Industries Limited for the construction work had been executed by March 31, 1944.

143. The Emergency Coal Production Board is authorized by Order in Council P.C. 10674 of November 23, 1942, as amended by Order in Council P.C. 9801 of January 4, 1944, to assist coal mines. It is provided by the Order in Council that no assistance, except capital assistance, shall be extended where net profits of operation exceed standard profits as defined by the Excess Profits Tax Act. To the year-end the Board expended \$5,369,839.37 for production subsidies, wage equalization subsidies and other grants. In addition, it made loans of \$806,510.18 for capital expenditures. The latter are included as Active Assets in the Dominion Balance Sheet. By means of periodic statements from the mine operators, audited annual statements and, in many cases, audits performed by the Treasury cost accounting division, checks are made to establish that assistance is not granted beyond that authorized by the orders in council. Cost audits were not completed in the fiscal year, therefore the amount to be refunded had not been determined.

144. Acting under the authority of Order in Council P.C. 9083 of November 25, 1943, agreements were made with the Ford Motor Company of Canada Limited, Chrysler Corporation of Canada Limited and General Motors Products of Canada Limited for the supply of transport equipment at firm prices for Canadian and United Nations' account. The agreements took effect as from April 1, 1943 (except with the Chrysler Corporation of Canada Limited, which is as of June 1, 1943), with respect to vehicles, and July 1, 1943, for the supply of spare parts. These supersede agreements entered into in 1941 and 1942 for the supply of transport equipment at prices which were subject to audit and adjustment so that the aggregate profit on all deliveries during any year should not exceed 5 per cent on cost. The new agreements provide for the submission of quarterly price schedules by the companies, which, when accepted by the Minister of Munitions and Supply, become "approved firm prices". There is no provision in the agreements for Treasury cost auditing of the companies' records and no stipulation as to the rate of profit to be allowed. This Office is informed that no cost audits of the companies' accounts are planned and that the firm prices approved by the Minister are regarded as generally providing a profit allowance of 5 per cent on cost.

145. From the outbreak of war to March 31, 1944, orders for tires and tubes on Canadian and United Nations' account to the value of approximately \$157,000,000 were placed with seven manufacturers. A revised form of contracting was adopted in August, 1943, because (a) certain manufacturing problems had arisen due to tires being produced by use of new ingredients and by new processes, and (b) a substantial price spread existed between companies. Firm price contracts were made with companies whose costs were comprehensively recorded in the Department of Munitions and Supply. This form contemplates payment of agreed prices, which are presumed to include a profit not exceeding 5 per cent on cost. Quarterly records of production are compiled by the contractor and prices in the succeeding quarterly period are based on these statements. Other contractors hold "billing price" contracts. In these the prices are presumed to provide for a profit of 5 per cent on cost. The contractor is paid the billing price, but if his cost statements demonstrate that the billing was out of line, an adjustment is to be made. Since these forms of contract were adopted, no independent cost audits have been ordered by the Department of Munitions and Supply; nor were any adjustments made in "billing price" payments during the fiscal year. At the time of audit the Department advised that it regarded these billing price payments as still under review.

146. During the fiscal year \$5,000,000 was paid to the United Kingdom Government on account of capital investments transferred to Canada. This increases to \$205,000,000 the amount paid for the capital investment of the United Kingdom Government in Canadian munitions plants. At the year-end the amount payable by the Canadian Government had not been finally settled. Order in Council P.C. 2644 of April 1, 1943, authorized the assumption from that date by the Government of Canada of all liabilities, obligations and commitments of the United Kingdom with respect to its contracts for capital investment, estimated at \$30,000,000. For this purpose, \$18,455,787.93 was spent in the fiscal year.

147. Officers of the Comptroller of the Treasury established during 1943 that an employee of the Quebec Arsenal had received improperly approximately \$1,500. Charges were laid,

and on March 24, 1944, a plea of guilty was registered. The man was released on suspended sentence. He continued to be employed by the Arsenal at the rate of \$45 a week until dismissed in the present fiscal year. \$968.20 has been recovered.

#### REVOLVING FUNDS

148. The Department of Munitions and Supply, in addition to acting as a statutory purchasing agency, functions as a principal in the procurement and production of components and materials required in the manufacture of munitions, etc. Five revolving funds are operated to facilitate the financial phases associated with this function.

149. The five revolving funds are provided with credits from the War Appropriation. When finished articles are delivered, a revolving fund's outlays are recovered through the payments, which, in the case of Canada, are made from appropriations. Thus expenditures for completed products only are reflected in the Appropriation accounts when deliveries are to the Government of Canada.

150. The following summary statement reflects the operations of 1943-44:—

##### *Munitions Production Revolving Fund—*

151. Attention was drawn last year (Para. 142) to the fact that balances standing to the credit of revolving funds were not re-deposited, at the year-end, to the credit of the War Appropriation. The result was that \$30,839,261.49 was added to the War Appropriation for 1943-44. As at the close of the fiscal year now being reported upon, the credit balances detailed above in these various revolving funds, in all \$123,961,815.29, were credited to the lapsing War Approp-

apportionment and fresh allotments secured from the 1944-45 appropriation. The action taken honours the rule applicable to all ordinary grants of supply that balances of appropriations which remain unexpended at the end of a fiscal year shall lapse and be written off.

152. The Munitions Production Revolving Fund was established by Order in Council P.C. 1/2064 of March 17, 1942, which was amended and supplemented by Order in Council P.C. 16/3017 of April 15, 1942. It was put into operation on April 1, 1942. The other four revolving funds were created under the provisions of P.C. 36/84 of January 6, 1943, and came into effect on March 6, 1943.

153. *Munitions Production Revolving Fund.*—The transactions of this fund relate to the production for Production Pool needs of arms, ammunition, tanks, chemicals and explosives in plants which, prior to the creation of the fund, received working capital from the United Kingdom or Canada. Many articles and materials produced are components which, during manufacture or processing, pass to other plants to become part of a munition or article of war.

154. Contributions in kind by the Governments and inter-plant transactions do not pass through the Revolving Fund Account but are recorded in the accounting records of the Pool.

155. Order in Council P.C. 1/2064 of March 17, 1942, authorized a Pricing Committee to establish prices on products of plants whose working capital requirements are provided, in whole or in part, through the operations of the Revolving Fund. A number of the plants are on a "billing-for-cash" basis, the Pricing Committee having placed a value for billing purposes on their products. These prices are used in invoicing shipments to the consignee, who pays the consignor directly for the goods and incoming transportation. Thus each plant is reimbursed for the articles shipped and hence has little need for further working capital advances from the Fund. Shipments from plants which are not on a "billing-for-cash" basis are invoiced to the Department, which, in turn, bills the paying agents of the consignees. The resultant collections provide the Revolving Fund with resources for its operations.

156. The accounting system for Pool transactions is adequately planned, but the application of the system is not entirely satisfactory:—

- (a) "Free issues" to plants of materials and components purchased by the Pool up to December 31, 1942, or by the Canadian and United Kingdom Governments, prior to April 1, 1942, have not been fully established and verified. The records with respect to free issues are complete only from January 1, 1943. Since that date contractors have been advised of the value of all free issues.
- (b) Prices have not been fixed for the production by some plants, due either to lack of reliable information as to costs of production or to lack of proper allocation of shipments to existing contracts.
- (c) Prices established by the Pool for components and materials purchased by it for plants are not being rechecked to ensure that charges closely approximate actual cost to the Pool.

157. Free issues to Pool plants were obtained prior to April 1, 1942, on contracts for which payment was made by the United Kingdom or the Government of Canada. In addition, certain stores received by the United Kingdom under lend-lease arrangements became free issue to plants for incorporation in the finished articles. The accounting for arrears of this free issue is proceeding slowly. Adequate control over the value of all goods shipped will not be established until (a) all free issues have been accounted for by the plants, and (b) all deliveries from commencement of the plants' operations are valued at approved prices and are recorded in the accounts of the Pool and of the plants concerned. Only when this has been done will it be possible to value the munitions and supplies delivered to the governments concerned and to confirm their respective equities in the Pool.

158. An agreement between the United Kingdom and Canada provides that the net equity of the United Kingdom in the Pool, as at August 31, 1943, is to be determined as soon as possible. The equity, if any, is to be included in the settlement between the Governments of Canada and the United Kingdom regarding the latter's interest in munitions contracts transferred to Canada on that date. This agreement replaces one of April 1, 1942, under which it was provided that all profits or losses arising out of the operation of the Pool plants be adjusted as between the two interested Governments, after the termination of the war, on such basis as might then be agreed upon.

159. *Aircraft Production Revolving Fund.*—This fund is charged with working capital advances to Crown companies producing aircraft and aircraft primary materials. It also is charged with like advances to private companies, one of which operates a Crown plant. Progress payments in connection with the production of "Hurricane" aircraft, deliveries of

which are for both Canada and United Kingdom account, were also charged to the fund. The fund is replenished by billings for deliveries and by refunds of working capital advances by the companies concerned.

160. *General (Munitions) Revolving Fund*.—During the year this fund was used for two general purposes: (a) to provide funds for progress payments, working capital advances and payments for stores to be delivered after the expiration of the fiscal year 1943-44, under contracts entered into to fill requisitions for materials and war supplies placed with the Department on Canadian Mutual Aid account, and (b) to provide working capital for plants and projects which, because of the nature of operation or product, are not financed by the Munitions Production Revolving Fund. The Dominion Arsenals and Sorel Industries Limited, for example, produce war supplies as the final article and require, generally speaking, raw materials only.

161. The accounting for disbursements made from the fund and from the Mutual Aid appropriation was impeded during the year by reason of frequent changes in administrative directions. To give effect to these often necessitated revisions of records and changes in office establishments.

162. *Miscellaneous Stores Revolving Fund*.—This fund is used for direct purchases by the Department of certain materials and supplies, such as tin and tungsten, to the end that a reserve stockpile exists. In other instances the Department acquires materials as the agent for other departments, governments and producers of war supplies. The fund is recouped by billings on the interested parties for the costs incurred.

163. During the year, \$15,274.30, the profit realized from the sale of ethylene glycol, was transferred to revenue. A loss of \$130.21 arising from the sale of brass ingots was charged to the fund's revenues. These are the only accounts which had been closed for the purpose of arriving at profit or loss incurred since the fund came into operation. The charging of a loss against a revenue item is irregular.

164. The major account in the fund is that for the purchase and sale of cloth, chiefly for uniforms and equipment of the Services. Cloth is purchased from manufacturers and, if not immediately required, is stored by the Department. Sales are made to contractors manufacturing uniforms or equipment. Contractors either pay before delivery of the cloth or post a suitable guarantee in excess of the value of cloth supplied. The intent is that cloth be sold at a price equal to its cost, but a loss of \$5,278.47, which had accumulated from January 15, 1941, to March 31, 1943, had increased to \$397,067.57 as at March 31, 1944. The Department anticipates that recoveries resulting from audits of cloth purchase contracts will appreciably reduce this amount. Shipments of cloth by an English manufacturer were lost at sea during the fiscal year 1942-43. Payment of \$6,821.50 for the goods was made in 1943-44 and forms part of the operating loss. Also during the year a loss of \$7,850.37, covering inventory shortages in several types of cloth, was written off. The reported value of inventories at March 31, 1944, was \$13,650,502.43 as compared with \$11,696,899.11 at the close of the previous fiscal year.

165. Another account of the fund is that operated for the purchase and sale of wood fuel. The subsidiary records maintained therefor are incomplete, in that the books do not reflect all accrued liabilities, complete inventories, etc. Lack of trained staff and the rapidity with which the wood fuel operations expanded are the explanations given for this condition. The Department intends to provide an adequate accounting system, if future operations are on a scale to justify the work involved. Based on the cost of wood fuel sold for cash, a loss of \$343,844.25 on completed sales was sustained to March 31, 1944.

166. The sum of \$36,884.23, charged for the purchase of chrome ore, and about \$249,000 for the purchase of molybdenum ore, in fact, losses arising from the disposal of stocks of these ores. Steel storage tanks, for which \$136,070.51 was expended, have been transferred to War Assets Corporation for disposal.

167. Expenditures for United States customs duty on metal slabs are charged in the first instance to this fund. These are largely recouped by drawback recoveries. Payments were made to the Superior Steel Corporation of Carnegie, Pa., for duty paid to the United States Government on gilding metal purchased from Anaconda American Brass Limited, Toronto. This metal was exported in order that it might be further processed to meet requirements of Defence Industries Ltd. and the Dominion Arsenal. On re-importation to the Canadian plants, recovery of duty was to be effected by the British Ministry of Supply Mission, Washington.

This had not been done at the year-end. Until this is settled, the Canadian Government is bearing the cost. \$503,239.82 had been expended up to March 31, 1944, a large portion of which relates to the fiscal year 1942-43.

168. *Ship Production Revolving Fund.*—This fund provides working capital advances for the production of cargo and naval vessels. Progress payments to contractors constructing minesweepers and corvettes on United Kingdom account were also charged to the fund, but the amounts were subsequently recovered from the Canadian Mutual Aid Board.

169. The naval shipbuilding program—except that applicable to wooden ships and small boats—as well as the cargo vessel program, was placed under the supervision of Wartime Shipbuilding Limited by Order in Council P.C. 169 of January 13, 1944. This Company receives accountable advances from the fund. The fund is replenished from the proceeds of billings against the interested government departments and agencies.

### Departments of National Defence

170. *United States Accounts.*—Payments on account, in the fiscal year, to the Treasurer of the United States, amounted to \$260,000,000 (U.S.). The goods covered were tanks, equipment and other war materials delivered to the Government of Canada. The deliveries are frequently drawn from production contracted for United States Army and Navy. Consequently, the price to Canada is influenced by whatever action the United States Government may take with respect to its contracts with the manufacturers. As at March 31, 1944, cumulative payments on account which had not been documented amounted to \$332,370,554.86. Order in Council P.C. 80/4433 of June 10, 1944, points out that:—

Prices for supplies of the same type are not constant but fluctuate from time to time according to cost changes or other factors and it is, therefore, impracticable to secure amendments to acceptances of tender.

Furthermore, it is frequently difficult, if not impossible, to reconcile the individual billings representing components received with the relevant acceptances of tender as the latter are frequently drawn in very broad terms.

Under the circumstances, the amount payable to the Government of the United States for war supplies...is in fact the amount as rendered on the individual billings.

The bills are based on the quantities stated to be delivered although at times deficiencies or discrepancies have been found between the quantities shown on the bills and the quantities received. These deficiencies or discrepancies may or may not be admitted by the United States authorities and physical or financial adjustments may or may not be currently secured.

The Order in Council authorizes those concerned to accept and approve for payment the charges of the United States Government, without prior adjustment for any existing deficiencies or discrepancies as to quantities; and directs that a proper record be maintained of all such deficiencies or discrepancies for the purposes of facilitating a financial adjustment between the two Governments after the conclusion of hostilities. The Comptroller of the Treasury has established an office in Washington to deal with the accounts. Administrative and Treasury officers are of the opinion that Canada has received from the United States goods to a value exceeding the total of payments on account.

171. During the year, expenditures by the Departments of National Defence to the amount of \$7,417,190.09 were not supported by certified invoices. \$6,589,399.79 was on Army account, \$271,648.41 for Navy and \$556,141.89 for Air. The payments were to United States' suppliers. The Neutrality Act of that country originally required payment in advance. Although this is no longer necessary, the practice of advance payment was continued, to a degree, in the fiscal year 1943-44. The cumulative total of unvouched payments is:—

1940-41 .....	\$ 8,290 35
1941-42 .....	2,146,083 36
1942-43 .....	1,429,060 69
1943-44 .....	7,417,190 09
	<hr/>
	\$11,000,624 49

## Department of National Defence—Army

172. The construction of buildings for the Army Training Centre at Camp Ipperwash was carried out by Johnson Bros. Co. Ltd., Brantford, under a contract authorized by P.C. 5358 of June 25, 1942. The contract price was \$756,364.59, of which amounts to a total of \$740,762.56 were paid by the end of the fiscal year. An interim examination by the Treasury cost accounting division disclosed that a portion of the gravel and crushed stone, originally included in the contract with Johnson Bros. Co. Ltd., was purchased by the Department from the Shaw Construction Company and supplied as free issue to Johnson Bros. Co. Ltd. The contract price was not amended, with the result that Johnson Bros. Co. Ltd. was paid by the Department for gravel valued at \$7,182, for which the Shaw Construction Company was also paid. At the close of the fiscal year, settlement of the overpayment had not been made pending the completion of examinations by the Treasury cost accounting division.

173. Departmental regulations allow classes of local purchases to be made, up to a value of \$50, without placing the order through the local representative of the Department of Munitions and Supply. An instance came under observation during the year which had the effect of circumventing the local purchase regulations. Fifty-one invoices, bearing the same number, each for \$49 and all in connection with a purchase of compasses from one supplier on the same date, were passed for payment. This was brought to the attention of the Department. On June 8, 1944, a Treasury instruction was issued directing its officers to reject, in future, all such accounts.

174. During the fiscal year 1942-43, payments were made to the Department of Munitions and Supply for allocation to various projects operating through the Munitions Production Revolving Fund. The sums were set up as advance payments on production for the Department of National Defence, which would be offset by deductions from billings made by the Department of Munitions and Supply. Sums outstanding at March 31, 1944, were:—

Genelco Limited .....	\$3,439,800
Regina Industries Limited .....	2,926,800
Otis-Fensom Elevator Company Limited.....	537,894

175. At the close of the fiscal year 1942-43, Reserve Army Paymasters' advances, not accounted for by the submission of paylists and supporting vouchers, amounted to \$716,463.99. During the fiscal year 1943-44 special instructions were issued with respect to accounting for such advances, to the end that all balances be cleared by the fiscal year-end. A large proportion of the advances were cleared, but it was necessary to carry over an amount of \$318,284.62 into the fiscal year 1944-45. Four Military Districts were responsible for the carry-over:—

Military District No. 1.....	\$ 64,487 26
Military District No. 5.....	77,758 96
Military District No. 6.....	171,571 02
Military District No. 12.....	4,467 38

176. Stores and Accounting Instructions of the Royal Canadian Ordnance Corps, in respect of ordnance depots, do not require the setting up of independent boards of survey to examine and reduce to salvage non-serviceable stores and breakages, and to approve documentation by which such transactions are recorded in the Stores Accounts. From the long range viewpoint, it would be beneficial were such a practice adopted.

## Department of National Defence—Navy

177. Contract payments for ship construction, when based on a fixed price, are made by means of progress payments. In the course of audit, instances were observed where changes in specifications, or in contractual obligations, had the effect of creating recoverable credits to the Crown of \$36,794.54. Of these, \$11,334.38 was outstanding up to one year, \$12,553.79 up to two years and \$12,906.37 up to three years or more. On the matter being brought to administrative attention, steps were taken to recover. As at July 27, 1944, \$11,966.47 had been collected.

178. The number of Canadian Naval Convoy vessels based on, or using, British Admiralty ports materially increased during the fiscal year. In addition, Canadian Naval fleet escort vessels and combat ships were added to Canadian Naval forces operating from British

Admiralty ports. British Admiralty billings up to March, 1944, were substantially in arrears. The Department estimated \$19,265,323 as the minimum total liability on March 31, 1944, for supplies and services received by the Royal Canadian Navy. On March 28, 1944, the Governor in Council took notice of a representation by the Minister of National Defence for Naval Services, that:—

This condition if allowed to persist will result in the carrying forward of undischarged commitments, provision for the liquidation of which will inflate Naval Service Estimates of future fiscal years beyond otherwise normal cash requirements for the scale of operation of the Royal Canadian Navy which may then be required.

and authorized the amount to be paid to the British Admiralty in anticipation of a liability for that amount being established. The amount, although charged to 1943-44 expenditures, is recorded in the accounts as an advance against which claims are to be applied when received.

179. A series of orders in council, dating from September 25, 1939, authorize payment for defensive equipment for merchant shipping. No authority was produced for the payment of costs for gun platforms, etc., which originally were regarded as falling on ship owners. By Order in Council P.C. 138/5000 of June 29, 1944, such costs are authorized to be accepted in the current fiscal year. The Order in Council is regarded by administrative officers as regularizing previous payments, although it makes no reference to them.

180. Canadian Naval Regulation 385B places a duty on officers and ratings to draw attention to any overpayment of emoluments, and states that: "It must be clearly understood that if any such overpayments are retained they must be refunded." On discovery of any overpayment the Naval Accountant Officer is required to take immediate steps to effect recovery. Nevertheless, Order in Council P.C. 66/8120 of October 20, 1943, authorizes a waiver of \$48.75 overpaid to a coder, and P.C. 72/1983 of March 21, 1944, authorizes overpayments of \$358.20, \$108 and \$255, made to three paymaster lieutenants, to stand, "the said allowances having been paid and received in good faith." Order in Council P.C. 66/5275 of July 11, 1944, deals with \$5,231.30 in overpayments to 5 wrens and 24 sub-lieutenants during the period October 1, 1942, to April 24, 1943. It confirms the payments because they were due "to an incorrect interpretation of the relevant regulations by Naval authorities charged with the administration of the Women's Royal Canadian Naval Service", and because they had "been received in good faith and expended for hotel and meal accommodation while carrying out Naval duties while on detached duty." It is long established administrative practice to require civil and Service personnel to refund any overpayment of salary or pay, therefore the foregoing cases are exceptions.

181. It was reported last year that changes had been initiated in the storekeeping system, to the end that it meet accounting and audit requirements. Examinations made during the fiscal year 1943-44 of naval stores at Halifax and Esquimalt disclosed that the changes embodied in the Naval regulations were not being fully applied and that there was a lack of records in clothing and victualling groups. As a result, an audit was not possible with respect to these groups. No storewide stocktaking and adjustments resulting therefrom have been made at Halifax in recent years. Spot checks, covering a cross-section of most stores, did not reveal disproportionate discrepancies. The storing of British Admiralty stores was found to be unsatisfactory. The Department states that these often arrive in quantities which cannot be anticipated and without sufficient identification to permit records to be set up. It was also observed that property of private individuals is often landed from British ships without any direction as to disposal. At Esquimalt it was found that clothing stocks were stored in such a manner as to make impracticable a physical check of stocks. The Department states that this was due to lack of storage space and the quantities in stock, but that the condition has been remedied by making transfers to another warehouse. It was also observed that bulk provisions were stored in various isolated buildings, some of which had inadequate protection against fire or theft. The Department now maintains a security guard; fire-fighting equipment has been installed and periodic spot checks are made of the provisions in store. The Department advises that action is being taken to ensure that the regulations are observed.

#### Department of National Defence—Air

182. A contract was entered into in 1940 with Consolidated Aircraft Corporation, Vancouver, for 36 Flying Boats and 14 Amphibian Aircraft, together with 55 sets of detailed parts. Audits disclosed several short shipments on spare parts invoices. Since the close of the fiscal

year the Department advises that various overpayments have been adjusted by means of the contractor supplying items on "no-charge" invoices. The other questioned items are being investigated by the Department with a view to clearing the contract.

183. The Marwell Construction Company, Limited, has had both cost-plus and fixed price contracts simultaneously in effect in the Patricia Bay, B.C. area. Examinations of progress claims indicated that overhead costs may not be properly distributed over the contracts. It was requested that the cost accounting division of the Treasury make examinations, to the end that both the Crown and the contractor bear equitable shares. The cost audit reports have not yet been received.

184. Progress payments totalling \$41,839.64 were made to Fleet Aircraft Limited under a cost-plus contract dated July, 1942. In December of that year the contract was converted into a firm price contract totalling \$484,118.82. Subsequent amendments had the effect of reducing the contract to \$29,966.78. At the year-end the overpayment of \$11,872.86 had not been recovered, but steps have since been taken to that end.

185. Contracts involving \$19,680,183 were made with the Cessna Aircraft Company in 1940 and 1941. These provided for an advance payment of 30 per cent, the balance to be paid as deliveries were made. The unit price per aircraft was subsequently reduced, but payments were made in the several fiscal years without taking into consideration that the advance payments were 30 per cent of the original price and not calculated on the amended price. The sum thus overpaid, \$258,725.13, was recovered in the fiscal year 1943-44.

186. In September, 1941, a contract was made with John Millen & Son, Limited, Montreal, to maintain reserve stocks of aircraft general spares to be held available for the aircraft industry. The contract provides that the profit be not more than 5 per cent and that annual financial statements be submitted. The fiscal year of the Company ends on January 31. A refund of \$2,027.94 was made on the 1941-42 business. As of the time of audit, no accounting had been made for the Company's next two financial years.

187. The Department of Munitions and Supply Act requires that all contracts involving \$15,000 or over be authorized by the Governor in Council. On December 16, 1941, the Governor in Council authorized the Minister of Munitions and Supply to order Fleet Aircraft Limited into production on 500 Fairchild Freshman Trainer aircraft. The Order in Council stated:—

That the proposed authorization to proceed will provide that a reasonable price to be negotiated is to be paid for these aircraft and that, pending settlement of price and execution of a formal contract, His Majesty is to make monthly progress payments to the contractor.

Progress payments to March 31, 1944, were \$3,368,638.52—excluding payments made on orders placed to fill requisitions of the Crown company, War Supplies Limited. No formal contract had been made. The same practice was followed in placing orders with certain other companies:—

<u>Date of Order in Council</u>	<u>Producer</u>	<u>Progress Payments to March 31, 1944</u>
May 7, 1942	Canadian Vickers Limited.....	\$7,711,998 27
Sept. 5, 1942	Boeing Aircraft of Canada, Ltd.....	722,519 35
Oct. 1, 1942	Canadian Car and Foundry Ltd.....	3,930,595 47
Oct. 1, 1942	Singer Manufacturing Co. Ltd.....	1,395,551 72
Dec. 16, 1942	Canadian Car and Foundry Ltd.....	438,877 49
Dec. 16, 1942	Singer Manufacturing Co. Ltd.....	151,537 09
Dec. 16, 1942	Canadian Car and Foundry Ltd.....	2,627,280 04

The authority for the making of these payments continued, up to the year-end, to be the orders in council authorizing the Minister to put the contractors into production and to negotiate contracts with them, because no contract agreements had been executed.

188. In July, 1941, a contract was made with MacDonald Bros. Aircraft Limited, Winnipeg, for the production of 600 sets of Oxford winterization parts. The authorizing Order in Council, P.C. 5795 of July 29, 1941, reads in part:—

that a firm price for the sets has not been arranged since costs of production cannot be estimated accurately and it is recommended that the contract be entered into for the payment of costs of manufacture together with a fair and reasonable profit;  
that the total expenditure has been estimated to amount to \$388,800 by the Department of National Defence (Air Service).

Progress estimates submitted and paid up to November 6, 1943, amounted to \$1,000,712.08. Although the expenditure had almost tripled the original estimate, no further authorization was secured from the Governor in Council. In reply to a query, the Department of Munitions and Supply stated that it was awaiting findings of an audit by the Treasury cost accounting division.

189. A contract for nine Avro "626" aircraft was authorized by Order in Council P.C. 1727 of July 21, 1937. By this contract, Armstrong Siddeley Motors—now Ottawa Car and Aircraft Limited—was to be paid \$196,538.40. Progress payments approximating \$150,000 were made as the work proceeded. Acceptance tests commenced in June, 1939. Four aircraft were accepted; the other five were declared unacceptable by reason of their developing excessive vibration at engine speeds in excess of 2,100 r.p.m. Reference to these payments was made in last year's report (Para. 199). During the last fiscal year the Department of Justice, after examining the file, expressed the view that, in the event of litigation to recover the sums already paid on the five rejected aircraft, the Crown would be faced "with a very costly action and it would be difficult to prove the facts." The original test pilots are not now available to give evidence. Settlement authorized by Order in Council P.C. 63/6000 of August 1, 1944, is: the contractor accepts the sum already paid as full settlement of all its claims; the Crown takes possession of the nine aircraft and releases the Company from all direct or indirect claims with respect to the contract. These include a payment of \$1,834.50, by the Crown, to Laurentian Air Services Limited for storing the five aircraft.

190. Order in Council P.C. 2610 of April 1, 1943, authorized the cost of 400 Hurricane aircraft to be charged to the Department. Subsequently the number taken over was reduced to 250. A payment made on April 29, 1943, includes the cost of one aircraft which had crashed while being test-flown at the contractor's plant. The Director of Aeronautical Inspection, on September 16, 1943, advised that the Department was accepting liability for the plane because the defect was one of design.

191. Certain ceiling price contracts for the purchase of electrical supplies provide that a percentage only of the ceiling price be paid pending final settlement. Audits disclosed that invoiced items were paid for at the invoiced price instead of the percentage stipulated in the contracts. Refunds amounting to \$23,892.16 were made.

192. In May, 1941, the Department entered into an agreement with the Dominion Electric Protection Company for 650 compasses at a fixed price of \$73,750.. In February, 1942, the Department of Munitions and Supply made a new contract with the Company for 9,622 compasses, including those mentioned above, at a ceiling price of \$67.10 per compass. Nevertheless, payments on the 650 compasses were made on the basis of the 1941 agreement. On attention being drawn to the matter, action was taken to effect a recovery. On April 13, 1944, a refund of \$49,745 was made—\$30,135 on account of the lower contract price and \$19,610 by reason of costs being less than the ceiling price.

193. Inconsistencies existed in various R.C.A.F. units throughout the fiscal year 1943-44 in the valuation of allowances for quarters and rations for the purpose of Unemployment Insurance deductions. On May 31, 1944, it was directed that subsistence allowances paid to messmen, cooks, batmen, etc., be evaluated at \$1 per day for Unemployment Insurance purposes. This has been concurred in by the Unemployment Insurance Commission.

194. Aircraft Repair Limited, Edmonton, is a general contractor for the repair and overhaul of aircraft. The agreement provides for monthly payments of costs and an annual profit allowance. On January 13, 1944, the Company was advised to reduce staff because of curtailments in air training programs, but to submit reports before actually laying off men. The Company and National Selective Service failing to agree as to the categories to be laid off first, no immediate action was taken. During March, 1944, it was arranged between the contractor and the Aircraft Production Division of Munitions and Supply that the night shift be released forthwith. The progress claim of the Company included \$104,869.58 as extra overhead cost incurred as a result of "idle time" payments to employees to the end of March: January \$5,580.51, February \$24,393.04, and March \$74,896.03. The Department of National Defence submitted the account to the Department of Munitions and Supply and, on its advice, paid \$60,000 in the fiscal year 1943-44. The remaining \$44,869.58 was not disallowed, but was directed to be withheld until further investigations were made. The progress claims for April increased the "idle time" by \$22,716.50. The Company was notified

that as from May 1 no further claims for idle time would be recognized. During the audit it was observed that an offer of \$100,648.77 in full settlement had been made. Included in the amount is \$9,322.64 incurred by reason of the negotiations between the Company and National Selective Service. No benefit accruing to the Department of National Defence for Air, this expenditure might more properly be a charge to Selective Service administration.

195. By the terms of the various contracts—all of the cost plus a fair and reasonable profit type—spares and equipment for embodiment in aircraft under repair were either supplied as free issue by the R.C.A.F. or were purchased by the contractor. In the latter case, the stores, as purchased, were included in the monthly progress claims. Separate stores accounts were maintained by the contractor. This plan not being satisfactory, and as both types of stores are the property of the Crown, instructions were issued in 1943 to combine the stores and the accounts. Inventories based on a physical count were prepared by the R.C.A.F. and the contractors. These disclosed discrepancies in stores, obsolescent items and stores in excess of requirements. The Department set up a committee to review the inventories and to determine the penalty if a contractor was found negligent. Departmental investigations are being made of instances of apparent over-procurement. Findings were not available during the audit.

196. Twice it was observed that paid accounts submitted by overhaul contractors included stores which had already been covered by payments on account. The overpayments amounted to \$39,745.73. The sums were recovered in March by deductions from subsequent claims of the contractors. The errors pointed either to inefficient examination of contractors' lists by resident inspectors, or to inadequate instructions from R.C.A.F. headquarters. The Department has taken action to safeguard against repetition of the errors.

197. Forty-five inspections were made of accounts at 29 civil-operated schools. Although detailed instructions had been issued by the Department with respect to the recording and control to be exercised over gasoline stores, it was observed that satisfactory application was not being given by 19 schools. Revenue accounting practices at 11 schools were found to be incomplete. Two schools had failed to collect rentals from civilian employees or tradesmen occupying quarters on the station. Six schools had not remitted collections promptly. At 3 schools the records were such that the amounts remitted to the Receiver General could not readily be verified. The Department has taken corrective action. Two inspections were made of accounts at No. 31 elementary flying training school, De Winton. On both occasions the state of its accounts was found to be generally unsatisfactory. The Department has cancelled the contract with the company and a new company has been formed to carry on the operation of the school.

198. Inspections were made at 79 Service units and at the year-end the Deputy Minister of the Department was advised that the level of proficiency in equipment accounting had been raised considerably during the year, although equipment depot accounts had not reached the desired state of efficiency. With respect to these, changes in system had been introduced in order to have movements of physical stock currently recorded in a form which would provide up-to-date information for procurement purposes. Failure to achieve the goal appears to be due, in great measure, to the fact that actual stock holdings and records were not effectively reconciled at the time the new system was put into operation, and because receipts of equipment were not taken promptly on charge in the records. The Department has taken steps to remedy these weaknesses.

199. Departmental attention was drawn to an apparent shortage of 1,450 sheets and 1,500 pillow slips at No. 2 Manning Depot, Brandon. On September 10, 1943, the Department advised that it regarded a laundry as responsible for the loss of 450 sheets and 900 pillow slips, of a total value of \$625.50, but was not demanding that the deficiency be made good. The Department has caused the shortage of 1,450 sheets and 1,500 pillow slips to be written off.

200. Loxtave prefabricated buildings are sometimes erected for the use of contractors during construction of air projects. Audit observations were made to the Department because of the practice of treating the buildings as consumable stores, although they are of durable construction and may be dismantled and removed. An instance is that of eleven buildings costing \$23,300 each, procured for Air project works in British Columbia. The Department dealt with the subject promptly, and the rule now is that all such buildings be taken on charge in R.C.A.F. stores records and be accounted for in the same manner as other non-consumable stores.

201. At the year-end, advances of \$97,743.58 to the High Commissioner's Office, London, England, were not distributed and charged to the expenditures of the year. Included in the total is \$5,769.95 representing expenditures incurred in the fiscal year 1942-43.

202. A liability of \$2,554,953.08 is set up in the Balance Sheet of Canada for deferred pay of members of the R.C.A.F. The sum may not be regarded as exact, because all increases and decreases in connection with the liability during the fiscal year 1943-44 had not been reported to the Department of Finance by the year-end. For the same reason, the expenditure of \$303,824,649.03, for pay and allowances, is not accepted, for audit purposes, as representing the real cost of the year's operations.

### National Film Board

203. By Treasury Board Minute T. 241940 B. of April 19, 1943, an allotment was approved for:—

Training and Equipping Cameramen for Active Service.....	\$153,500
--	-----------

It is indicated in the Minute that this amount was approved in anticipation of the sum being recovered to the appropriation. Expenditures unrecovered at the termination of the fiscal year amounted to \$118,109.58.

204. Order in Council P.C. 96/9385 of October 14, 1942, authorized a revolving fund "to provide for the purchase of supplies by the National Film Board for the production of films for war departments." Ordinarily, a revolving fund is regarded as a credit to carry out a cycle of operations, with outlays restored from the income of the operations. This revolving fund was not so administered. In the fiscal year 1942-43 the sum of \$85,000 was provided. Total disbursements were \$151,641.09 and recoveries in the year \$69,009.85. At the year-end, supplies costing \$82,631.24 were transferred to the stores inventories of the Film Board and the account closed. In the fiscal year 1943-44 the allotment for revolving fund purposes was \$100,000. Gross expenditures were \$226,720.98 and recoveries amounted to \$128,189.15. Again at the year-end, supplies on hand to the value of \$98,531.83 were taken on charge in the stores accounts of the Film Board and the account closed by treating the \$1,468.17 balance to the credit of the revolving fund as having lapsed in the War Appropriation. The consequences are that inventories of the National Film Board were increased by \$181,163.07 in the two fiscal years, although the purpose of the Order in Council was to provide a credit to finance the cost of supplies until the outlay was recovered from the benefiting departments.

### Department of National War Services

205. Regulations governing the financial administration of the Corps of (Civilian) Canadian Fire Fighters require that 50 per cent of the daily pay be withheld from those stationed overseas, unless the man has a pay assignment of that amount in effect. In the event of the assignment being less than 50 per cent, the difference is withheld. Deferments from pay commence in the month following departure from Canada. The sum becomes payable upon discharge or appointment to commissioned rank. The War Appropriation in 1943-44 was charged only with the actual sum paid out, and no account was set up in the Public Accounts to reflect the undischarged liability to the Corps personnel. Therefore, the cost as shown for the year is understated. It is estimated that the sum involved is \$2,600.

206. During the audit it was observed that, while the National Defence tax was in effect, deductions were made from payments to a column officer, then as now stationed in Canada. The National Defence tax was repealed as from July 1, 1942, but payments to this officer continue to be reduced by the amount previously deducted for the tax. No disposition is made of the sum so deducted or reserved. No authority for the action taken, other than the acquiescence of the officer, was produced during the audit.

207. An expense allowance of \$8 per day was authorized for an employee. This allowance was effective while he was actually in London, England. The audit disclosed that the allowance was paid for 32 days while he was absent from London and in travel status. Action was taken to adjust the overpayment.

### Department of Pensions and National Health

208. Pensions granted by reason of the present war are paid by means of an allotment from the War Appropriation. Section 12 of the Pension Act reads in part:—

12. A pension shall not be awarded when the death or disability of the member of the forces was due to improper conduct as herein defined: Provided

- (a) that the Commission may when the applicant is in a dependent condition, award such pension as it deems fit in the circumstances;
- (b) that the provisions of this section shall not apply when the death of the member of the forces concerned has occurred on service during the Great War prior to the first day of September, one thousand nine hundred and nineteen, or has occurred during service in a theatre of actual war during the war with the German Reich.

Section 2 of the Act states:—

"improper conduct" includes wilful disobedience of orders, wilful self-inflicted wounding and vicious or criminal conduct.

A soldier who had been an inmate of Canadian penal institutions before enlistment was posted to duty in the United Kingdom. His Army conduct record was an unsatisfactory one. Shortly after serving a twelve months' detention sentence, he absented himself without leave for several months and then returned to duty only by reason of his being apprehended and charged with the murder of a civilian. He was tried by a civil court, found guilty and sentenced to be hanged. The sentence was carried out. During his absence without leave, payment of dependent's allowance to the wife was discontinued, but after arrest it was again put into effect. The widow applied for and was granted pension at the rate of \$720 a year for herself and \$180 for her child. Attention is drawn to the case because it is improbable that Parliament contemplated awards of pension when death was occasioned by a sentence of the courts.

209. Awards of pension by reason of pulmonary tuberculosis have been the subject of observations to the Canadian Pension Commission. Section 24 (1) of the Pension Act reads:—

24. (1) Subject to the provisions of section eleven, pensions for disabilities shall, except as provided in subsection three of this section, be awarded or continued in accordance with the extent of the disability resulting from injury or disease or aggravation thereof as the case may be, of the applicant or pensioner.

Subsection 3 stipulates the rate of pension awards, by service categories, for pulmonary tuberculosis, and prohibits any reduction in an award for two years. Thereafter, the award may be reduced, but at six months' intervals, and no single reduction shall exceed 20 per cent of the original award. This subsection was first enacted in 1925, its history and purpose being given by the Minister of Soldiers' Civil Re-establishment in these words:—

.....this class of cases has been discussed many times in parliamentary committees, and the recommendation at one time or another was made that tuberculosis cases should be pensioned at 100 per cent for two years without reduction. That has been the practice of the Board, and this will make it statutory. (Debates, May 5, 1925, p. 2847.)

The Pension Commission apparently regards the words "except as provided in subsection three of this section", in section 24 (1), as removing pulmonary tuberculosis cases from the requirements of section 11, one of which is:—

no pension shall be paid for a disability or disabling condition which, at the time he became a member of the forces, was wilfully concealed, was obvious or was recorded on medical examination prior to enlistment.

As there is no self-apparent reason why such a general exception should be made, it has been observed that the statutory exception might reasonably be construed as relating only to the rates of awards and subsequent reductions made with respect thereto.

210. War pension awards to 6,700 casualties of the present war were subjected to audit review. Errors noted were brought to the notice of the administrative services. Action taken resulted in reductions or cancellations amounting annually to \$7,913.04.

### Department of Trade and Commerce

211. A revolving fund of \$500,000 was authorized in 1941 for the purpose of chartering vessels necessary to facilitate Canada's external trade. \$250,000 was allotted during 1943-44 to provide working capital for the fund. Payments of \$113,529.77 were made from the fund and it was credited with \$351,666.69 as earnings. The surplus earnings, \$238,136.92, were credited to Consolidated Revenue Fund as Special Receipts.

212. There was an allotment of \$500,000 for additional subsidy payments to steamship companies operating services in Canadian coastal waters. The purpose is to assist in meeting increased expenditures resulting from war bonuses paid to crew, war risk insurance on vessels and additional expenditures for fuel, marine insurance, etc. Payment was made conditional on (a) freight and passenger rates not being increased above those charged during the period September 15 to October 11, 1941, inclusive, and (b) there having been no increase in the original subsidy since January 1, 1942. The order in council provides that each claim be certified by a firm of chartered accountants. Sixteen companies qualified for the subsidies and were paid a total of \$498,729.94.

### Wartime Information Board

213. Section 5 of the Public Printing and Stationery Act vests in the King's Printer the exclusive power to purchase books and stationery required by departments. Three thousand five hundred and forty copies of *Canada and the Building of Peace* were purchased from the Canadian Institute of International Affairs. The King's Printer declined to certify the account because the provisions of the statute had not been observed. Nevertheless, the account was paid. The sum involved is \$1,239.

214. The Board obtained from the Canadian Broadcasting Corporation the services of one of its employees. The salary of the officer, \$318 monthly, was paid to the Corporation commencing August 3, 1943. In addition, he was paid \$1,188.48 in the fiscal year for his living expenses in Ottawa and for week-end expenses incurred in travelling to his home in Montreal. During the period from August 3 to the fiscal year-end the same officer was paid \$1,140 for services rendered to the National Film Board. No executive order authorizing the arrangement or the payments was produced during the audit.

## WAR APPROPRIATION (MUTUAL AID)

215. The War Appropriation (United Nations Mutual Aid) Act, 1943, appropriates \$1,000,000,000 to be administered by the Canadian Mutual Aid Board to the end that war supplies may be made available to nations who are signatories to the Declaration by United Nations of January 1, 1942, and also to any other nation or authority which might be designated by the Governor in Council as being associated with Canada in the prosecution of the war. \$912,603,220.34 was spent during the fiscal year as a charge to the appropriation, of which \$25,472.14 was for administrative expenses. The \$912,577,748.20 expended for war supplies includes \$139,123,563.85 in goods which were in transit or in storage at March 31, 1944, and consequently had not been allocated among recipient nations. The grant continues until exhausted, therefore \$87,396,779.66 remained available after March 31 to defray like expenditures coming for payment. A further \$800,000,000 was appropriated in 1944-45.

216. A distribution of expenditures, by recipient nations, etc., to March 31, 1944, is:—

The United Kingdom.....	\$723,753,786 96
The Union of Soviet Socialist Republics.....	23,282,292 53
Australia .....	20,959,845 42
China .....	4,101,587 96
West Indies .....	874,478 82
India .....	482,192 66
Expenditures for war supplies held by the Mutual Aid Board in transit or in storage, to be transferred to recipient countries in future.....	139,123,563 85
Expenditures for administration.....	25,472 14
	<hr/> <u>\$912,603,220 34</u> <hr/>

217. The Board disbursed \$13,651,707.52 as the Commonwealth of Australia's share of the training costs in Canada under the British Commonwealth Air Training Plan, Order in Council P.C. 2294 of March 30, 1944, made under the authority of section 2 (d) (v) of the Act, declaring that:—

services rendered by Canada in connection with the training of Australian airmen in Canada and chargeable to the Commonwealth of Australia under The British Commonwealth Air Training Plan as services essential to the conduct of the war or to the relief and maintenance of any United Nation, such designation to have had effect on and after April 1, 1943.

218. Several departments were used as procurement agents for the Board. Disbursements of these departments were:—

Agriculture .....	\$116,783,440 08
Fisheries .....	7,569,341 26
Munitions and Supply.....	724,410,718 64
Trade and Commerce .....	48,829,438 33

Administrative practice subsequent to January 15, 1944, is to use the appropriation only for making payment for stores actually delivered. Consequently, Mutual Aid moneys were not applied in making progress payments or working capital advances under contracts for the production of stores, nor to pay for stores to be delivered after the expiration of the fiscal year. Order in Council P.C. 9546 of December 14, 1943, directed that, whenever progress payments or working capital advances were required, funds to finance the production be provided by allotment from the War Appropriation. The sum thus employed was \$200,000,000. It was added to the General (Munitions) Revolving Fund of the Department of Munitions and Supply.

219. Order in Council P.C. 5560 of July 13, 1943, authorized the acquisition of various munitions contracts from the United Kingdom Government and the payment of \$120,000,000 forthwith on account. The sum was estimated as representing the amount of advances and

progress payments made by the United Kingdom Government on contracts which were entered into or placed by the Department of Munitions and Supply of Canada in the name of, or on behalf of, the Government of the United Kingdom prior to, and which remained outstanding and uncompleted on August 31, 1943. Subsequently, by Order in Council P.C. 2092 of March 23, 1944, the Secretary of State for External Affairs was authorized to sign an agreement accepting \$119,317,061.20 (subject to final accounting calculations) as the sum involved. The agreement provides that the amount be regarded as subject to adjustment until

- (a) the equity is determined of the United Kingdom Government in the Munitions Production Revolving Fund, and
- (b) the United Kingdom Government's investment is established, as of August 31, 1943, in stores and components in the possession of contractors for embodiment into completed articles.

In so far as deliveries have been made on contracts thus acquired by Canada, charges therefor were made to the Mutual Aid appropriation, and the expenditure recorded as made for the government receiving the munitions. The residue of the \$120,000,000 remained, as at March 31, 1944, a charge to the General (Munitions) Revolving Fund.

220. Order in Council P.C. 8019 of October 14, 1943, authorizes similar action with respect to munitions contracts in Canada of the Commonwealth of Australia. The sum involved has still to be finalized, but the Order in Council recites that it is "not likely to exceed in the aggregate the sum of \$10,000,000."

221. At March 31, 1944, the General (Munitions) Revolving Fund remained charged with \$182,612,960.71, which will be a cost to the Mutual Aid appropriation when deliveries are made by contractors. For the purposes of the 1943-44 fiscal year, this sum is reported as an expenditure by the Department of Munitions and Supply under War Appropriation Act authority. Approximately 50 per cent of the total consists of advances to aircraft companies.

222. Adjustments will be necessary when the final costs of all articles making up Mutual Aid Board requisitions have been compiled and compared with the charges already made against the Mutual Aid Appropriation. The procedures required to produce such a compilation of actual costs have been instituted, but at the year-end little progress had been made.

223. A record was not maintained in the year 1943-44 for Department of Munitions and Supply commitments on Mutual Aid Board account. A record is now being prepared and, when completed, this should fill an existing accounting need.

## WAR CORPORATIONS

### Department of Finance

224. *Commodity Prices Stabilization Corporation Limited.*—Order in Council P.C. 9870 of December 17, 1941, provides that the Auditor General shall be the auditor of the Corporation. The deficit for the year was \$81,451,203.65. It represented subsidies paid, \$70,096,755.84; net loss on commodity trading, \$10,526,224.10; administrative expenses, \$723,506.21; other income less other charges, \$58,902.84; and adjustment in respect of previous fiscal year, \$163,620.34.

225. Observations in the audit report to the shareholders were:—

Subsidies paid by the Corporation are subject in some cases to investigation and adjustment after payment by officers of the Corporation. Therefore, payments now recorded may not be invariably regarded as final.

The net loss of \$10,526,224.10 on commodity trading for the fiscal year includes an amount of \$24,075.96 for war risk insurance premium on the Corporation's inventory of commodities for the period October 1, 1942, to March 31, 1944. Although it is a provision of section 5 of the War Risk Insurance Act that a contract of insurance is binding only after payment of premium and execution of the policy, and by regulation it is provided that no coverage is in effect until two days after insurance is made, the amount of \$24,075.96 includes a charge for premium for eight months prior to the signing of the application for insurance on June 1, 1943, during which period, by the terms of the contract, no benefit could accrue to the Corporation.

The Corporation investigates accounts of persons receiving subsidy payments and effects recoveries when it is established that assistance was not necessary to operate within a set price ceiling. An example of its efforts is the action taken with respect to claims of mattress manufacturers. These arose out of the application of what is commonly known as the War-time Prices and Trade Board's "Statement on Import Policy". Forty-eight mattress manufacturers submitted subsidy claims totalling \$1,031,452.39. Subsequent reviews and investigations by the Corporation's officers have resulted in voluntary refunds of \$131,664.54 and withdrawal of applications totalling \$285,309.50. A further sum of \$301,278.45 was either disallowed or reclaimed by the Corporation. Thus, of the original \$1,031,452.39 claimed, \$313,199.90 is now regarded as qualifying within the terms of the order.

226. In addition to direct cash subsidies, some importers are subsidized indirectly by being granted partial and, in some cases, complete relief from the payment of import duties and taxes on certain commodities, under the authority of orders in council.

227. *Canadian Wool Board Ltd.*—This Company acquires domestic wools for civilian requirements. Incorporation was procured under the authority of Order in Council P.C. 1835 of March 10, 1942. The Company operates under an agreement with the Minister of Finance. All shares, other than directors' qualifying shares, are in the name of the Minister. The Company's activities are financed by means of advances received through the Department of Finance, the \$221,296.11 loss for the year being applied against such advances. The Order in Council directs that the Auditor General be the auditor of the Company.

228. *Wartime Food Corporation Ltd.*—This Company is a subsidiary of Commodity Prices Stabilization Corporation Limited, to acquire and deal in commodities. It operates under an agreement with the Minister of Finance and the Commodity Prices Stabilization Corporation Limited. The outstanding shares of the Company, other than directors' qualifying shares, are in the name of the parent Corporation. To November 11, 1943, advances were made by the parent company, but since that date its activities have been financed by means of advances received through the Department of Finance, the \$68,119.39 loss for the year being applied against such advances. By Order in Council P.C. 624 of February 1, 1944, the Company was vested with the same powers as exercised by the Commodity Prices Stabilization Corporation Limited. The Auditor General is named its auditor by a by-law of the Company.

229. *Wartime Salvage Limited*.—The incorporation of this Company was procured under the authority of Order in Council P.C. 2530 of March 30, 1942. It operates under an agreement with the Minister of Finance. All shares, other than directors' qualifying shares, are in the name of the Minister. The Company's activities, other than those relating to the acquisition and disposal of scrap metals, are financed by means of advances received from the Department of Finance. The \$10,993.19 net profit for the year was added to the advances, the loss incurred up to March 31, 1943, having been deducted therefrom. Scrap metals, particularly scrap iron and steel, were acquired and disposed of during the year, on behalf of the Department of Munitions and Supply, these activities being financed by means of advances received by the Company through that Department, the \$684,820.54 loss for the year being applied against such advances. The Auditor General is named the auditor of the company by the Order in Council.

230. *Sugar Administrator*.—The Sugar Administrator is responsible, under the direction of the Wartime Prices and Trade Board, for the conduct of negotiations and for arranging for supplies of sugar to be imported into Canada. By reason of the fact that his financial operations do not involve Consolidated Revenue Fund, his accounts, for audit purposes, are examined in the same manner as are those of Crown corporations.

231. The Administrator's activities are regulated by Order in Council P.C. 3223 of October 21, 1939, as amended. Administrative expenses are paid by the Wartime Prices and Trade Board and charged to the allotment made from the War Appropriation for the Board's administrative expenses. No advances have been made from Consolidated Revenue Fund to finance the Administrator's operations. Profits realized from the sale of sugar are, by authority of the Order in Council, retained by the Administrator and form a reserve fund. Surplus funds are invested either in securities of Canada or those unconditionally guaranteed by the Government of Canada. Investments are made from time to time, on the Administrator's behalf, by the Bank of Canada. The accounts were audited for the Administrator's fiscal year ended August 31, 1943, and a report submitting a balance sheet as at that date, and certified as exhibiting a true and correct view of the state of the Administrator's affairs, was delivered to the Minister of Finance and to the Wartime Prices and Trade Board.

### Department of Munitions and Supply

232. Companies have been incorporated at the direction of the Minister of Munitions and Supply, under the authority of section 6 of the Department of Munitions and Supply Act. Of the 27 companies incorporated to March 31, 1944, all but two have share capital. The companies were incorporated for the purpose of carrying on new activities, with the exception of Victory Aircraft Limited and Quebec Shipyards Limited, which were incorporated to take over operations of existing private companies. In addition, shares of the Dufferin Shipbuilding Company Limited, incorporated under the Ontario Companies Act, were acquired by the Crown under the authority of Order in Council P.C. 8027 of October 17, 1941, the name of the Company being at the same time changed to Toronto Shipbuilding Company Limited.

233. Order in Council P.C. 535 of January 27, 1944, made under the authority of the War Measures Act, directed that all issued capital stock of Eldorado Mining and Refining Limited, a company operating under the Ontario Companies Act, be appropriated and vested in the Crown. It also declared the Company to be a body corporate and politic within the legislative authority of the Parliament of Canada. A charter was granted under the Dominion Companies Act, in the name of "Eldorado Mining and Refining", replacing the charter issued under the Ontario Companies Act.

234. Three of the companies ceased to carry on business during the year under review: Plateau Company Limited, Toronto Shipbuilding Company Limited and Trafalgar Shipbuilding Co. Ltd.

235. The Department of Munitions and Supply Act requires that the accounts of corporate bodies created for its purposes be audited by the Auditor General (in the case of Toronto Shipbuilding Company Limited and Northern Transportation Company Limited—a subsidiary of Eldorado Mining and Refining—the audit obligation is imposed by resolution

of the shareholders). Certified financial statements published in the Public Accounts are for the fiscal year period ending March 31, except in the following cases:—

Defence Communications Limited—Period from February 8, 1943, the date of incorporation, to March 31, 1944.

North West Purchasing Limited—Period from February 19, 1943, the date of incorporation, to March 31, 1944.

Plateau Company Limited—Period from April 1, 1943, to December 23, 1943, the date as of which the Company ceased to carry on business.

Quebec Shipyards Limited—Period from June 16, 1943, the date of incorporation, to March 31, 1944.

Toronto Shipbuilding Company Limited—Period from April 1, 1943, to December 31, 1943, the date as of which the Company ceased to carry on business.

Trafalgar Shipbuilding Co. Ltd.—Period from April 1, 1943, to March 9, 1944, the date as of which the Company ceased to carry on business.

Veneer Log Supply Limited—Period from August 10, 1942, the date of incorporation, to August 31, 1943 (the end of the Company's fiscal year).

War Assets Corporation Limited—Period from December 3, 1943, the date of incorporation, to March 31, 1944.

Wartime Oils Limited—Period from April 6, 1943, the date of incorporation, to March 31, 1944.

236. The fiscal year of Eldorado Mining and Refining will be the calendar year, and the same fiscal period is applicable to its subsidiary, Northern Transportation Company Limited.

237. Shares of companies with share capital, other than directors' qualifying shares, are in the name of the Minister of Munitions and Supply, and each director has filed an assignment of shares held.

238. Agreements, authorized in each case by the Governor in Council, have been entered into between the Minister and the various companies, except Trafalgar Shipbuilding Co. Ltd., which had a limited field of activity.

239. The companies being corporate entities and having the powers and capacities conferred by the Dominion Companies Act, 1934 (with the exception of Toronto Shipbuilding Company Limited), their books of account are maintained on an accrual basis; in accordance with accepted commercial accounting practice, and to conform with the requirements of sections 111 and 112 of that Act.

240. Up to and including the fiscal year 1942-43, the companies were financed by means of round sum advances, usually at monthly intervals, from War Appropriations. A change in practice was adopted in the last fiscal year when Order in Council P.C. 3542 of May 4, 1943, authorized operations of Crown companies and Government-owned munitions projects to be financed by way of bank overdrafts guaranteed by the Crown.

241. Title to capital assets in use by the companies is vested in the Crown (the case of Toronto Shipbuilding Company Limited was an exception since, up to the termination of its activities as of December 31, 1943, title was vested in that Company). For this reason capital assets do not appear in the published balance sheets of the companies concerned, except in the cases of Wartime Housing Limited and Wartime Metals Corporation, where the incurring of the capital expenditures is a principal activity of the companies. In these two cases, capital expenditures appear in trust account sections of their balance sheets. In other cases, footnotes to the balance sheets give the cost valuation of the Crown-owned capital assets in the companies' charge. The capital assets in the charge of the companies, including capital expenditures incurred in the two special cases mentioned, totalled \$272,791,020.41 as at March 31, 1944.

242. *Aero Timber Products Limited.*—This Company produces sitka spruce logs in special aero grades, and sells them to sawmill operators for conversion into aero grade lumber. The Company selects special sitka spruce trees and logs them individually, leaving surrounding trees standing. This selective method of production necessarily results in higher logging costs than are ordinarily associated with general logging operations. The Company was directed to sell at prices which were in conformity with the existing price level, and by Order in Council P.C. 7394 of October 5, 1943, the Timber Controller was authorized "to establish such surcharges on the selling prices of aero grade lumber as in his opinion are necessary to provide sufficient additional revenue to enable Aero Timber Products Limited to reimburse it for its costs of the production of sitka spruce logs of aero grade." The Company also acquires logs from two logging companies by means of cost plus contracts, each contract providing for "reasonable allowances" in respect of the contractor's equipment used in the operations. The charges under these contracts are based on monthly statements submitted by the contractors and certified by their auditors.

243. Log sales for the year ended March 31, 1944, totalled \$2,378,387.33, while selling expenses, operating and log acquisition costs, and administrative expenses totalled \$5,241,658.44, giving an operating loss of \$2,863,271.11. Surcharges on lumber sales, totalling \$924,275.17, were offset in part by special charges amounting to \$412,363.73. The net loss for the year was \$2,351,359.67, the accumulated deficit to March 31, 1944, being thereby increased to \$3,296,448.07.

244. As at March 31, 1944, the Company had in its charge Crown-owned capital assets with a cost valuation of \$1,262,684.34.

245. *Allied War Supplies Corporation.*—This corporation supervises and directs the administration of Government-owned chemical, explosive and ammunition-filling projects operated by private contractors on behalf of the Department of Munitions and Supply and financed directly through that Department. Since its functions are supervisory, expenditures incurred by the Corporation are with respect to its administrative expenses only. Included are the salaries and expenses of the Montreal office of the Director General of Explosives, an officer of the Department of Munitions and Supply. The Corporation's expenditures during the year ended March 31, 1944, totalled \$864,929.19, including \$109,970.46 for the salaries and expenses of the office of the Director General.

246. *Atlas Plant Extension Limited.*—This Company was created by reason of the exceptional relationship resulting from the agreement made between the Crown and Atlas Steels Limited. It acts as the financial intermediary between the Crown and Atlas Steels Limited to carry out terms of the agreement authorized by Order in Council P.C. 3080 of May 1, 1941, by making loans to the latter Company for the purpose of extending its plant and providing the necessary additional working capital. As at March 31, 1944, the amount remaining due by Atlas Steels Limited, according to the Crown Company's records, was \$8,370,990.19.

247. In addition, the Company makes payments in connection with plant additions and machinery and equipment supplied by the Crown as "capital assistance" to Atlas Steels Limited under various contracts. To March 31, 1944, amounts totalling \$9,889,451.01 had been expended in connection with the "capital assistance" projects, and of this amount a total of \$8,018,162.12 was for building additions and immovable equipment to which, as provided for in the governing orders in council, title is vested in Atlas Steels Limited.

248. *Citadel Merchandising Co. Limited.*—The Company acquires, and then supplies, machine tools to contractors authorized to receive "capital assistance" in the manufacture of munitions. During the year ended March 31, 1944, expenditures for machine tools acquired on behalf of the Crown and delivered to contractors totalled \$30,263,814.24. In addition to a reserve inventory acquired through purchase, the Company receives machine tools which become surplus to requirements of contractors. At March 31, 1944, it had in its charge Crown-owned machine tools totalling \$7,749,110.39, at cost or departmental valuations—together with other machine tools respecting which departmental valuations were still to be received—all being held for disposal at the direction of the Department of Munitions and Supply. During the year the administrative, warehousing and special expenditures incurred by the Company totalled \$429,241.38. The special expenditures of \$50,139.66, recorded in its published statements, relate to the Machine Tool War Service Committee, and to other similar committees operating under the direction of the Department.

249. *Cutting Tools and Gauges Limited.*—This Company reclaims worn and damaged cutting tools for munition manufacturers. It also acts in purchasing inspection gauges for delivery to the Inspection Board of the United Kingdom and Canada and other public agencies and assists industry generally in the procurement of shop gauges. During the closing months of the fiscal year the Company acquired from various Crown companies and plants, surplus stocks of cutting tools, the greater part of these, of a value of \$280,774.35, being on hand as at March 31, 1944. Service charges for reclaiming cutting tools were \$336,369.94 for the year ended March 31, 1944, and the gross profit on the sale of surplus cutting tools was \$51,677.99, a total of \$388,047.93. Operating costs totalled \$365,740.50, giving a net profit of \$22,307.43 for the year. This amount was credited to Surplus Account, the balance of that account then being \$21,732.12 as at March 31, 1944. Of the total of \$232,112.49 incurred by the Company for administrative expenses, an amount of \$182,422.74 is treated as applicable to the procurement of gauges and cutting tools, the \$49,689.75 balance being absorbed in the costs of reclaiming cutting tools.

250. As at March 31, 1944, the Company had in its charge Crown-owned capital assets with a cost valuation of \$247,780.08.

251. *Defence Communications Limited.*—This Company arranges for the construction of extensions to existing communications facilities in Eastern Canada and Newfoundland, in order to meet the requirements of the Armed Services. It finances the costs of rental, maintenance and power in connection with such extended facilities, pending completion of an extension program. To March 31, 1944, capital expenditures totalling \$2,567,195.48 had been incurred, together with \$52,505.67 for rentals, etc. Administrative expenses of the Company during the period from February 8, 1943, the date of incorporation, to March 31, 1944, totalled \$174,302.30.

252. *Fairmont Company Limited.*—This Company acquires and stores rubber, and makes sales thereof to manufacturers having contracts with the Crown for the production of war supplies, and to those engaged in essential civilian production. Until Japan's entry into the war, established crude rubber selling prices enabled the Company to more than recover its warehousing and administrative expenses, and a surplus of \$184,420.56 was accumulated to March 31, 1942. Japan's entry into the war created a new situation. Crude rubber prices increased substantially. The cost of synthetic rubber was considerably in excess of the authorized selling price of rubber generally. Moreover, the Company was required to absorb losses suffered in connection with the collection, storing and disposal of scrap rubber. As a result, a net loss of \$127,431.03 was sustained in the year ended March 31, 1943, the balance at credit of Surplus Account being thereby reduced to \$56,989.53. The Company continued to operate at a loss during the early months of the fiscal year 1943-44, until by Order in Council P.C. 5750 of July 20, 1943, it was authorized to collect from the Commodity Prices Stabilization Corporation Limited, amounts from time to time estimated for the loss to be incurred on the proportion of rubber going into the production of civilian goods, and to collect surcharges (based on tire deliveries) from the Department of National Defence and other organizations for the proportion going into the production of munitions and supplies. The object was to enable the Company to recover the trading losses sustained, while continuing to bill in conformity with established selling prices. On June 30, 1943, the Company revalued upwards its stocks of rubber to the equivalent of current replacement prices, and an offsetting reserve for inventory appreciation, amounting to \$3,845,478.62, was thereby established. Subsidy and surcharge billings became effective as from July 1, 1943. These were established at levels sufficiently high to recover the trading losses which it was estimated would result by the absorption of charges for cost of sales computed on the basis of the unit prices as so revised. This action was approved by Order in Council P.C. 3905 of May 26, 1944.

253. The Company's sales of \$18,396,293.45 for the year ended March 31, 1944, supplemented by subsidy and surcharge billings of \$13,415,931.20, totalled \$31,812,224.65. The cost of sales (computed from July 1, 1943, on the basis of the revised unit prices) totalled \$28,733,956.54, giving a gross profit of \$3,078,268.11. After deducting warehousing, administrative and other expenses of \$807,687.30, a net profit of \$2,270,580.81 resulted. \$1,750,000 was transferred, at the year-end, from Surplus Account to a special reserve for unascertained losses and other contingencies. This is to provide against losses which may result from advances chargeable against special letters of credit which were outstanding at the time of Japan's entry into the war. There was a balance of \$577,570.34 in Surplus Account at March 31, 1944.

254. The approval given by Order in Council P.C. 3905 of May 26, 1944, to the Company's action in revaluing its stocks of rubber upwards was accepted in the audit of the Company's accounts for the purpose of the Companies Act, 1934. However, when the consequences are reviewed from the viewpoint of the Consolidated Revenue Fund, an audit observation is necessary. The Company's operations resulted in a recorded surplus of \$577,570.34 being accumulated to March 31, 1944. This was possible only by reason of subsidy amounts paid by the Commodity Prices Stabilization Corporation Limited and by surcharges borne by the Departments of National Defence and other governmental organizations. Moreover, the recorded surplus mentioned resulted notwithstanding the fact that the cost of sales was computed, from July 1, 1943, on the basis of increased unit prices.

255. *Federal Aircraft Limited.*—This Company supervises the Anson Production Programme, administering the contracts entered into by the Minister under which Anson aircraft or any part or parts thereof are manufactured and assembled. Associated with this main activity, the Company purchases, stores and distributes, under a centralized plan, certain materials and parts required by the contractor, engaged in the Programme. It also undertook (to February 29, 1944) the manufacture of a proportion of the fuselages required for the Programme. Parts for Anson aircraft are also acquired and distributed to R.C.A.F. establishments to meet their requirements for spares.

256. Up to December 31, 1943, progress claims submitted by prime contractors engaged on the Programme were paid by the Department of National Defence for Air. As at January 1, 1944, amounts so paid were transferred from the records of the Department of National Defence for Air to those of the Company, and thereafter all payments to contractors were made and recorded by the Company. The purpose was to accumulate information respecting the costs applicable to the airframes produced.

257. To March 31, 1944, progress payments to prime contractors, materials supplied to them, and other production charges totalled \$101,604,962.96. Completed units delivered and billed (at interim billing prices) totalled \$92,223,400, the work remaining in process thus having a recorded value of \$9,381,562.96 as at March 31, 1944. This latter amount includes materials and parts in the hands of contractors, rendered surplus to requirements by the reduction in the Programme. The inventory of aircraft parts and materials amounting to \$5,237,683.43 as at March 31, 1944, included parts and materials similarly rendered surplus to requirements. During the year ended March 31, 1944, the Company delivered Anson spare parts, to a total of \$7,127,424.18, to R.C.A.F. establishments.

258. The administrative expenses incurred by the Company during the year totalled \$960,863.28. The expenditures incurred in connection with the Company's manufacture of Anson fuselages and sundry component parts totalled \$2,123,839.87 in 1943-44 up to the termination of this activity on February 29, 1944.

259. *Machinery Service Limited.*—This Company operated until February 29, 1944, in repairing machine tools for the account of Citadel Merchandising Co. Limited and of manufacturers engaged in contracts for the manufacture of munitions of war or war supplies. Charges made for services rendered during the year totalled \$239,309.50. The net loss of \$53,095.30 for the year was after writing off \$21,742.49 for gauges and tools—the greater part of which had been carried as an unamortized deferred charge as at March 31, 1943—and after absorbing expenses incurred, during the month of March, 1944, following the termination of the operating activities.

260. On March 31, 1944, the Company had in its charge Crown-owned capital assets with a cost valuation of \$643,930.78. Included among the assets were employees' hostels and hostel equipment valued at \$104,324.39.

261. *Melbourne Merchandising Limited.*—This Company acquires and stores wool and other commodities and makes sales thereof, mainly to manufacturers having munitions contracts. Sales during the year totalled \$15,035,479.80 and yielded a net profit of \$946,609.08.

262. Total net profit credited to Surplus Account from the Company's inception to March 31, 1944, was \$2,850,187.32. Transfers of \$2,450,000 to a reserve have been made to provide against losses on special sales of commodities which may prove to be surplus to Canadian Service requirements. Thus, a balance of \$400,187.32 stood at the credit of Surplus Account on March 31, 1944. Losses on special sales of wool and slipe during the year, charged to the reserve account referred to, totalled \$239,928.10, leaving a balance of \$2,210,071.90 at the credit of the account as at March 31, 1944.

263. Inventories of wool and other commodities on hand as at March 31, 1944, totalled \$21,078,500.67.

264. *National Railways Munitions Limited.*—Directors of the Canadian National Railways serve also as directors of this Company. The Company manufactures naval guns and gun carriages for the Department of Munitions and Supply. To March 31, 1944, the cumulative value of goods delivered, computed, with minor exceptions, on the basis of interim billing prices established during the year under review, was \$11,192,125.19. Production costs applicable to the goods delivered totalled \$11,189,746.89, leaving an excess of \$2,378.30 which was carried to a Reserve for Adjustment of Interim Billings.

265. As at March 31, 1944, the Company had in its charge Crown-owned capital assets with a cost valuation of \$5,176,606.72.

266. *North West Purchasing Limited.*—This Company acted during the fiscal year as a procurement agency to assist the United States Government in obtaining supplies from Canadian suppliers, for the construction, maintenance and operation of the highway to Alaska. Administrative expenses incurred by the Company during the period from February 19, 1943, the date of incorporation, to March 31, 1944, totalled \$95,192.89.

267. *Park Steamship Company Limited.*—This Company supervises and controls the operation of Crown-owned dry cargo vessels and tankers through the medium of managing operators. The vessels belonging to the Crown, no depreciation is recorded in the Company's accounts. Profits earned on operations are regarded as accumulating for the benefit of the Crown, by way of a recovery of capital expenditures. The gross income from operations for the year ended March 31, 1944, totalled \$20,547,585.77. Voyage and other expenses totalled \$11,527,472.85, leaving a recorded net profit of \$9,020,112.92 for the year.

268. On March 31, 1944, the Company had in its charge Crown-owned vessels valued by the Department of Munitions and Supply at \$121,198,315.81. Recoveries on the investment, by means of recorded net profits on operations, totalled \$9,673,401 to that date.

269. *Plateau Company Limited.*—This Company acted in acquiring and storing raw silk and other commodities, which it resold to manufacturers of munitions and supplies. The Company ceased business on December 23, 1943, its assets and liabilities being transferred to Melbourne Merchandising Limited as at that date. Up to March 31, 1943, a surplus of \$215,760.80 had been accumulated. Sales during the period from April 1 to December 23, 1943, totalled \$2,444,537.58, and yielded a net profit of \$177,887.78, which, when carried to Surplus Account, increased the balance at credit of that account to \$393,648.58. This balance has been cleared by declaration of a dividend payable to the Crown.

270. *Polymer Corporation Limited.*—This Company manufactures Buna S and Butyl rubber and other products incidental thereto. The principal basic raw materials used by the Company are elements of petroleum, acquired from Imperial Oil Limited. No formal agreement has yet been completed by the companies to settle the price basis for these materials and for certain by-products returned to Imperial Oil Limited. Buna S rubber was in full production during the closing months of the fiscal year, and the production of Butyl rubber was at point of commencement at the close of the year. Sales during the year ended March 31, 1944, totalled \$9,663,109.06. Operating costs (exclusive of \$1,141,921.97 for deferred pre-production expenses applicable to Butyl rubber operations and to the training of technical employees) totalled \$10,084,045.39. Consequently, there was a net loss of \$420,936.33 for the year.

271. As at March 31, 1944, the Company had in its charge Crown-owned capital assets with a cost valuation of \$49,996,074.11.

272. *Quebec Shipyards Ltd.*—This Company operated the shipyards formerly operated by Morton Engineering & Dry Dock Co. Ltd. and Geo. T. Davie & Sons Co. Ltd., at Quebec and Lauzon. These shipyards were expropriated for war use under the authority of Order in Council P.C. 5526 of July 14, 1943. "All other property, assets and rights . . . including work in process" were also appropriated. It was provided by the Order that:—

The compensation to be paid to the said Companies respectively for the property, assets and rights acquired hereunder or as provided herein shall be such as may be determined by agreement between the Minister of Munitions and Supply and the respective Companies with the approval of the Governor in Council or, in default of agreement, shall be fixed or determined in accordance with the procedure provided by the relevant statutes in that behalf.

273. No formal agreements having been entered into as contemplated by the Order in Council, the production assets and liabilities of the two shipyards taken over by the Company are, in general, recorded in the Company's accounts at the book values at which they were carried in the accounts of the former operators as at June 30, 1943. However, exceptions were noted during the audit, one being with respect to the record made in connection with a cargo vessel which, on June 30, 1943, was approaching completion in the shipyard of Geo. T. Davie & Sons Co. Ltd. The vessel was treated by Quebec Shipyards Ltd. as the property of the former operator, rather than as part of the work in process acquired under the Order in Council referred to above. The effect was to permit the Geo. T. Davie & Sons Co. Ltd. to recover from the Crown the full amount allowed by the fixed price contract under which it had previously operated, it thus benefiting by the difference between such price and cost (including \$115,069.92 charged by Quebec Shipyards Ltd. for the cost of completing the vessel).

274. Pending determination of the compensation to be paid to the two former shipyard operators, Quebec Shipyards Ltd. recorded a provision for yard rentals for the period from July 1, 1943, to March 31, 1944, on a basis which, in each case, comprised allowances in lieu of standard profits and for normal depreciation and unusual wear and tear. The amounts so recorded during the period under review were \$86,883 for Morton Engineering & Dry Dock Co. Ltd., and \$57,198 for Geo. T. Davie & Sons Co. Ltd.

275. Inventories of work in process acquired from Morton Engineering & Dry Dock Co. Ltd., and from Geo. T. Davie & Sons Co. Ltd., totalled \$6,736,922.26, subject to adjustment when agreements are entered into by the Crown and these companies regarding the bases of the expropriation settlements. Production costs (including \$9,345,971.53 for the recorded costs incurred by Anglo-Canadian Pulp and Paper Mills Ltd., Shipbuilding Division, in fitting out ships for the Company) totalled \$20,110,424.22 for the period ended March 31, 1944. The recorded cost of ships delivered and of sundry work completed totalled \$14,267,830.38. The resultant recorded cost of ships in course of construction as at March 31, 1944, was \$12,579,516.10.

276. As at March 31, 1944, the Company had in its charge Crown-owned capital assets with a cost valuation of \$2,827,429.61.

277. The expropriation, so far as it concerned Geo. T. Davie & Sons Co. Ltd., terminated on June 30, 1944.

278. *Research Enterprises Limited.*—This Company manufactures special technical equipment of various kinds. Billings for goods delivered are made at interim unit prices authorized from time to time by the Pricing Committee of the Department of Munitions and Supply. Goods delivered during the year ended March 31, 1944, on the basis of authorized billing prices, totalled \$58,264,082.94. Production and special costs (including a provision of \$1,500,000 for the estimated liability for research and experimental services) totalled \$56,161,043.58, leaving an excess of \$2,103,039.36 which was carried to Reserve for Adjustment of Interim Billings Account, the balance at the credit of this account being \$7,609,499.78 as at March 31, 1944. Inventories of materials and general stores and of work in process on hand as at March 31, 1944, totalled \$40,980,021.52.

279. As at March 31, 1944, the Company had in its charge Crown-owned capital assets with a cost valuation of \$8,550,289.64.

280. *Small Arms Limited.*—This Company manufactures rifles and other small arms. Billings for goods delivered are made at interim unit prices authorized from time to time by the Pricing Committee of the Department of Munitions and Supply. Goods delivered during the year ended March 31, 1944, had a value of \$14,685,226.97 on the basis of authorized billing prices. Production costs totalled \$13,774,690.87, leaving an excess of \$910,536.10 which was carried to Reserve for Adjustment of Interim Billings Account, the balance at the credit of this account being \$911,450.63 as at March 31, 1944. Inventories of materials, work in process and finished goods on hand at the end of the fiscal year totalled \$3,026,434.76.

281. As at March 31, 1944, the Company had in its charge Crown-owned capital assets with a cost valuation of \$8,121,307.87.

282. *Toronto Shipbuilding Company Limited.*—This Company was engaged, up to August 31, 1943, in the construction of minesweepers. At the direction of the Department of Munitions and Supply, the shipbuilding operations were transferred to the Redfern Construction Company Limited. Thereafter the Toronto Shipbuilding Company acted merely as a financial intermediary between the Department and Redfern Construction Company Limited, although it continued to retain title to the capital assets.

283. As at April 1, 1943, the value of ships in course of construction was \$10,348,308.13. Production costs from April 1 to August 31, 1943, amounted to \$8,696,785.83, thus giving a total cost value of work in process (including the cost value of three ships delivered but not yet billed) of \$19,045,093.96 as at the latter date.

284. In addition to the transfer of the \$19,045,093.96 inventory of ships in course of construction as at August 31, 1943 (with the right to bill for three delivered vessels), other assets, less outstanding liabilities, transferred to Redfern Construction Company Limited amounted to \$3,344,089.86. The Crown Company's assets and liabilities were taken over as at December 31, 1943, and it formally ceased business as of that date. During the period from August 31 to December 31, 1943, advances totalling \$8,483,586.48 were made by the Company while acting as financial intermediary for the Department. To December 31, 1943, the foregoing charges for assets transferred and advances made to Redfern Construction Company Limited totalled \$30,872,770.30, as shown in the Crown Company's balance sheet as at that date.

285. *Trafalgar Shipbuilding Co. Ltd.*—This Company acted in obtaining priorities for the supply of materials required for ship construction. Its affairs were carried on by employees of the Department of Munitions and Supply, and no administrative expenses were incurred, the only expenditures recorded in the Company's accounts being for its incorporation fee, annual filing fees and fee on petition for surrender of charter. On March 9, 1944, the Department accepted the audited balance-sheet as at that date, as an accounting for advances made, and the Company formally ceased to carry on business.

286. *Veneer Log Supply Limited.*—This Company acquires logs suitable for the production of aircraft veneer, for resale to Canadian veneer manufacturers and for export to the United Kingdom. The Company's fiscal year-end is August 31st, the close of the "log year". During the period from August 10, 1942, the date of incorporation, to August 31, 1943, net sales were \$1,892,630.26. Purchases during the period amounted to \$1,661,885.03, while log inspection, administrative and other expenses totalled \$95,832.91. The net profit of \$134,912.32 was carried to the credit of Surplus Account.

287. *Victory Aircraft Limited.*—This Company manufactures Lancaster aircraft. During the year ended March 31, 1944, aircraft and spares delivered, on the basis of interim billing prices, totalled \$12,300,000, while the estimated cost thereof was \$16,166,838.38, the difference of \$3,866,838.38 being charged to Interim Billings Adjustment Account. The intent is that interim billing prices, in effect as at March 31, 1944, be continued until the balance at the debit of this adjustment account is liquidated. As at March 31, 1944, inventories of materials and mill supplies, work in process and finished goods, were estimated to total \$26,221,402.57. Of the expenditures incurred to March 31, 1944, for jigs, tools, fixtures, gauges and dies, an amount of \$4,762,952.71 remained unamortized as at that date.

288. The Crown-owned capital assets operated by the Company had a book value of \$5,597,053.02 as at March 31, 1944, being the net cost thereof, including the amount of \$3,299.376 paid in respect of the capital assets acquired by the Crown from National Steel Car Corporation Limited on November 5, 1942.

289. *War Assets Corporation Limited.*—This Company was incorporated on December 3, 1943, in anticipation of legislation regulating the disposal of surplus Crown assets. \$250,000 was subscribed as share capital in order to finance operations. Preliminary expenditures to March 31, 1944, amounted to \$14,598.36. No sales were made up to March 31, 1944. Section 19 of the Surplus Crown Assets Act, c. 21, Statutes 1944-45, dissolved the Company, its assets and liabilities being transferred to the statutory corporation, War Assets Corporation. The transfer became effective on July 11, 1944.

290. *War Supplies Limited.*—This Company negotiates and deals with departments and agencies of the United States Government for the supply of munitions and supplies manufactured in Canada. As at April 1, 1943, the amount recorded by the Company as due from the United States Government was \$135,581,287.29 (including an estimated amount of \$35,337,500 for shipments made but not yet invoiced as at that date). During the year ended March 31, 1944, shipments made totalled \$378,730,288.47 and adjustment charges totalled \$458,168.26. Collections were \$443,212,708.80 for the year. The resultant balance remaining due as at March 31, 1944, was \$71,557,035.22 (including an estimated amount of \$33,500,000 for shipments made but not yet invoiced as at that date). Administrative expenses charged in the Company's accounts for the year ended March 31, 1944, totalled \$68,606.19.

291. The charges made, on the basis of existing contracts, to departments and agencies of the United States Government are subject to final adjustment in accordance with the provisions of an agreement regarding the limitation of profits and capital expenditure recoveries. To March 31, 1944, interim refunds of \$50,000,000 had been made, on the Company's behalf, to the War Department and the Maritime Commission.

292. The nature of its operations necessitates the financial transactions of this Company being recorded in United States currency, therefore sums stated above are U.S.

293. *Wartime Housing Limited.*—This Company constructs and operates housing projects to accommodate war workers and, latterly, returned service men. An order in council authorizes the expenditure for each construction project. To March 31, 1943, capital expenditures amounted to \$47,514,896.04 and a further \$18,471,974.34 was spent during the year ended March 31, 1944. The total capital expenditure of \$65,986,870.38 was for: land, \$1,038,213.19; land improvements,

\$11,181,017.65; buildings, \$51,122,678.96; and equipment, furnishings, etc., \$2,644,960.58. Title to the housing projects being in the Crown, no depreciation of capital assets is recorded in the Company's accounts. Profits are regarded as a recovery of capital expenditures.

294. Housing rentals and other receipts totalled \$6,906,839.81 in the year. Housing project operating expenses were \$4,600,434.36 and general administrative expenses \$497,797.78, resulting in an operating profit of \$1,808,607.67. This, together with special receipts of \$13,883.01, gave a net profit of \$1,822,490.68 for the year.

295. The Company also undertakes special projects, including the development of municipal services at cities where housing projects are located, and the erection or rehabilitation of buildings for the use of Government departments. These expenditures are recoverable. To March 31, 1944, a total of \$3,634,784.88 had been expended in connection with these special projects and \$999,850.15 recovered, leaving a balance of \$2,634,934.73 to be collected.

296. Profits accumulated from inception to March 31, 1944, together with \$11,632.72 for interest on recoverable expenditures, totalled \$2,713,295.11.

297. *Wartime Metals Corporation*.—This Corporation develops and operates certain marginal and sub-marginal mining properties, and in addition supervises, on behalf of the Department of Munitions and Supply, a number of mining properties. Costs incurred with respect to the latter are regarded as departmental expenditures. To March 31, 1944, capital expenditures (including development costs) had been incurred at eight projects, to a total of \$3,182,678.05. Five projects, involving capital expenditures of approximately \$1,600,000, had been closed by March 31, 1944.

298. Sales of metal concentrates during the year ended March 31, 1944, totalled \$1,145,674.37 (including deliveries, billed at cost, for the account of the Department of Munitions and Supply). Mining, milling and other direct costs totalled \$1,156,987.50. Adding to the resulting operating loss of \$11,313.13 the general administrative expenses of \$97,395.81 and other charges totalling \$6,496.16, a total loss of \$115,205.10 resulted. This sum is recorded in the Corporation's accounts as a charge against the advances received from the Department of Munitions and Supply for production purposes.

299. *Wartime Oils Limited*.—This Company makes advances to oil drilling and exploration companies for the drilling of wells in marginal areas of the Turner Valley oil field. The amounts to be advanced towards the cost of drilling the various wells are fixed by the drilling contracts, which are on a turnkey or cost-per-foot basis in each case. 15 per cent of the full contract advance is withheld until completion of the well and the expiration of a 120-day period thereafter. Security in the form of Dominion of Canada bonds or a chattel mortgage on drilling equipment is required in each case, and is held until the well is completed and the drilling rig removed. Advances made are recoverable from production, to the extent that surpluses may remain after production expenses and royalties have been paid. No recoveries had been effected during the period under review, but some have since been made.

300. To March 31, 1944, advances totalling \$1,470,518.59 had been made for the drilling of 13 wells, 6 of which had been completed as at that date. With respect to the completed wells, there existed a contingent liability for further advances totalling \$142,785.17 as at March 31, 1944, representing the 15 per cent holdbacks from the full advances provided for in the several related contracts. The administrative expenses incurred by the Company during the period from April 6, 1943, the date of incorporation, to March 31, 1944, totalled \$16,323.40.

301. *Wartime Shipbuilding Limited*.—This Company originally financed and supervised the cargo shipbuilding programme on behalf of the Minister of Munitions and Supply. The responsibility for the naval shipbuilding programme, except that for wooden ships, was added on January 15, 1944. The Company's name was changed at the same time from Wartime Merchant Shipping Limited to Wartime Shipbuilding Limited.

302. As of March 31, 1944, recorded values of cargo and naval ships in course of construction amounted to \$124,607,207.38. Cumulative interim billings to the Department of Munitions and Supply, totalling \$527,569,686.82 to March 31, 1944, were \$6,880,432.72 less than the total estimated cost for the ships delivered to that date. The \$6,880,432.72 is recorded by the Company as a charge against an Interim Billings Adjustment Account. Administrative expenses of the Company during the year amounted to \$897,543.20.

## Department of National Defence for Air

303. *Dominion Aeronautical Association Limited.*—This Company was incorporated under Part I of the Companies Act, 1934, in January, 1941, at the instance of the Department of National Defence for Air, acting with the approval of the Governor in Council. Twenty shares, at \$1 each, were issued. Fifteen are registered in the name of the Minister; the others are qualifying shares of directors. The Company formally ceased business on June 30, 1944. Active operations ended in 1942. The directors, as of June, 1944, were: M. A. Seymour, K.C., St. Catharines; J. A. Wilson and C. R. Troup, Ottawa; J. Ernest Savard, Montreal, and Group Captain Homer Smith of the R.C.A.F.

304. The business purpose of the Company is set out in the agreement with the Government of Canada, as authorized by Order in Council P.C. 739 of January 31, 1941:—

The Company agrees to use its best endeavours to provide qualified pilots or other skilled personnel to perform in Canada such duties incidental and ancillary to the activities of the British Commonwealth Air Training Plan as the Minister may indicate from time to time can properly and usefully be performed by civilians.

The Company agrees that it will not carry on any operations other than those necessary in order to carry out this agreement without the express consent of the Minister in writing.

By the operations of this agreement, the Department of National Defence for Air secured approximately 2,000 persons; and by an arrangement with British Aviation Limited approximately 500 others were made available to and accepted by the United Kingdom Government. In addition, 9 persons were accepted by Trans-Canada Air Lines Ferry Service.

305. The accounts of the Company were not audited, in the manner required by the Companies Act, until the present year. A directors' minute of January 14, 1941, appointed the Auditor General of Canada the auditor of the Company, "to hold office until the first Annual Meeting". Notice not being received of the appointment, audits were limited, until recently, to vouchers proffered by the Company, under an arrangement for a time in force, as accountings of advances made by the Department of National Defence for Air. In February, 1944, the minute was noted and a complete examination was then commenced of accounts from the date of incorporation to the date as of which the Company formally ceased to carry on business preparatory to its dissolution. The audit has been completed and a report addressed to the shareholders, as required by the Companies Act.

306. Advances were made to the Company from time to time out of the War Appropriation. These totalled \$489,706.68, apart from the cost of shares. At the close of the fiscal year 1943-44 an accounting had still to be furnished of approximately \$30,000.

307. The Company's operations were with respect to matters which are ordinarily administrative obligations of the Department. It incurred expenditures, as a company, which are not consistent with executive rules and directions generally applicable to financial transactions of departments. For the purposes of the corporate audit, such items were regarded as having been financed by moneys received from sources other than the Government of Canada. The Company had received \$207,893.14 from British Aviation Limited and \$4,793.50 from Trans-Canada Air Lines Ferry Service. Consequently, the accounting made by the Company of advances to it from the War Appropriation has been reviewed and accepted, for the purposes of the Consolidated Revenue and Audit Act, 1931, with the knowledge that the Company received from other sources adequate sums to discharge any voucher which might have been regarded as questionable had the Department incurred the expenditure directly.

## BALANCE SHEET ACCOUNTS

308. The observations which follow are with respect to various accounts in the Balance Sheet of Canada.

### Assistance to Indians

309. Section 94B of the Indian Act authorizes the granting of loans for co-operative projects. The loans are made subject to such terms and conditions as the Governor in Council may direct. One stipulation is that the loan be repaid in five annual instalments. The account is listed in Loans and Advances, Schedule G to the Balance Sheet. As at March 31, 1943, many accounts were in arrears. Collections in 1943-44 were larger than in the previous year, amounting to \$17,524.95, including principal and interest. The principal outstanding at March 31, 1944, was \$8,816.93; interest was \$103.76. Of these amounts, \$6,316.43 is arrears.

### Government Officers' Guarantee Fund

310. This fund was created under the authority of Vote 508, Appropriation Act No. 6, 1936. Departments may bond employees only by use of the scheme. An exception is the Post Office Department, which has a fund created in 1898. Departments select those to be bonded and the amount of coverage. The premium rate is 20 cents per \$100. Apart from the initial capital of \$20,000 appropriated in 1936 and the interest credits at 2½ per cent, moneys in the fund accumulate from premium payments which are charged against departmental votes. Payments out of the fund are applied to recover deficiencies in accounts by reason of defalcations. The plan, strictly regarded, is designed to serve an accounting purpose, as the Crown both pays and receives the benefit. The credit balance at March 31, 1944, was \$300,508.38. Interest credits of the year amounted to \$6,929.20. Payments out, by reason of five defalcations, amounted to \$5,644.85. As no public purpose is served by accumulating credits beyond normal demands, attention is drawn to the state of the account.

### King's Printer's Advance Account

311. Currently, the statutory advance of \$700,000 is supplemented by \$1,300,000 from War Appropriations under the authority of Order in Council P.C. 124/7590 of October 1, 1943. To this \$2,000,000 is added amounts due the King's Printer, under current billings, by the Houses of Parliament and departments. At the close of the fiscal year the total outstanding as a charge to the Advance Account was \$2,578,879.21 (Departmental Working Capital Advance—Schedule B), composed of:—

Statutory .....	\$1,696,312 96
War Appropriation .....	882,566 25
	<u>\$2,578,879 21</u>

The above advances covered:—

Inventories of printing and stationery branches.....	\$1,506,585 81
Accounts receivable .....	996,312 96
Operating deficits, stationery branch.....	75,980 44
	<u>\$2,578,879 21</u>

312. The accounting records of the King's Printer for the fiscal year 1943-44 remained open until May 15, 1944, at which date amounts owing for printing and stationery which

had not been paid from departmental funds provided for the fiscal year 1943-44 totalled \$996,312.96. A list is:—

House of Commons.....	\$ 13,076 72
Labour .....	48,276 11
Munitions and Supply.....	71,166 86
National Defence .....	723,519 98

### Military Estates No. 1

313. The Administrator of Estates advises that, as of March 31, 1944, he held 694 estates which he regards as dormant because no beneficiary has been located. The total value of these 694 estates is placed at \$120,135.25 (Schedule N), the individual estates ranging from 15 cents to \$2,082. Only ten have a value in excess of \$1,000. In the main, accumulations of pay and allowances constitute the assets. Administrative responsibility for these estates was accepted under an Order in Council dated March 28, 1916, which was founded on the British Regimental Debts Act, 1893. Since April 1, 1940, Service estates have been accepted under the authority of an Order in Council (P.C. 1065 of March 19, 1940) made under the authority of the War Measures Act. Reasons for the change in practice are recited in the Order in Council:—

That in the case of members of the Military Forces of Canada who died while on service in the War 1914-1918 there was followed so far as practicable the procedure laid down in the Regimental Debts Act, 56 Victoria, Chapter 5 (an Act of the Parliament of the United Kingdom), it being observed in this connection that the said Act did not apply to the Naval Forces of Canada, and that there were then no Canadian Air Forces;

That the application of the said Regimental Debts Act was found to be both cumbersome and inconvenient, and that in many respects it was questionable whether the same was applicable as a matter of law.

In view of the fact that some of these estates have now a history of more than twenty years, and because a doubt apparently exists as to the adequacy of authority under which the Branch operated until April 1, 1940, it would appear to be desirable that appropriate action be taken to dispose of them.

### Munitions and Supply Suspense Account

314. Shown in the liabilities in the Balance Sheet, under the classification Sundry Suspense Accounts, Schedule R, is an item for \$14,246,570.33. The amounts comprising this total are moneys received but held in suspense at March 31, 1944, pending decision as to the Government or account that should receive credit. Some items making up the sum are voluntary refunds by suppliers and refunds of profits resulting from cost audits by the Treasury. The amount includes \$3,134,992.74 received from Park Steamship Company Limited, a Crown corporation, being funds not required for its current requirements and which are of the nature of deferred revenue.

### Post Office Savings Bank

315. The number of depositors increased by 44,112 in the fiscal year. The total was 183,215 as of March 31, 1944. During the year deposits and interest credits were \$14,334,758.02; withdrawals amounted to \$10,422,197.93. In all, 689,315 transactions were recorded. The balance of \$28,286,551.57, as reported in the Public Accounts as standing to the credit of the Post Office Savings Bank Account on March 31, 1944, was not reconciled by the Department with the aggregate amount of the depositors' accounts as of March 31. Although the Department has installed mechanical equipment to facilitate and expedite the recording of transactions, the accounts were not up to date when the 1943-44 Accounts of Canada were closed.

## R.C.M.P. Dependents' Pension Fund

316. Section 86 of the Royal Canadian Mounted Police Act, as enacted by c. 40, Statutes 1934, requires the Dependents' Pension Fund to be annually examined by the Auditor General. Interest at the rate of 4 per cent, as directed by the statute, is credited to the account. A summary of the operations for the year ended March 31, 1944, is:—

Balance at credit March 31, 1943.....		\$292,584 06
Receipts—		
Contributions from members.....	\$77,792 27	
Interest credited by Department of Finance.....	12,516 01	
Unclaimed cheques deposited, etc.....	1,553 24	91,861 52

## Seed Grain and Relief Advances

317. This account, which is administered by the Department of Mines and Resources, relates to advances made many years ago. Collections of principal in the year amounted to \$40,318.77, and \$28,847.05 was written off non-active assets and charged to expenditures of the year. Interest collections totalled \$29,426.94. The account now totals \$6,247,141.85, of which \$2,631,963.86 is principal and \$3,615,177.99 interest due and unpaid. Of the principal, \$2,356,929.48 forms part of Loans and Advances, Schedule G to the Balance Sheet; the balance of \$275,034.38 is recorded with the Non-Active Assets.

## Services Canteen Fund Account

318. The Central Trust Fund of the Army, Navy and Air Force Canteens, amounting to \$939,797.03 as of March 31, 1944, represents profits paid over by various auxiliary service organizations which operate Service canteens under agreements with the Crown. No disbursements were made from the fund in the fiscal year. It is a provision of the agreements with the auxiliary service organizations concerned that moneys paid over are to be applied to the "use and benefit of the members and ex-members of the Forces and their dependents."

319. Attention is drawn to opinions given by the Deputy Minister of Justice. In 1940-41 the Governor in Council directed a committee to make a report to the Minister of National Defence concerning the management and use of canteen profits. On April 1, 1941, an opinion was given the Committee by the Deputy Minister of Justice. It reads:—

I have the honour to acknowledge receipt of your letter of March 26 in which you ask the following questions:—

1. Are such moneys public revenues forming part of the growing produce of Consolidated Revenue Fund, or are they moneys subject to the provisions of section 22 (2) of the Consolidated Revenue and Audit Act, 1931?
2. Does (c) of paragraph 9 of the Agreement reserve to the Government of Canada the power to instruct the Board of Trustees, when appointed, as to the manner in which and the purposes for which these moneys are to be distributed?
3. Are the moneys received public moneys for the purposes of section 3 of the Consolidated Revenue and Audit Act, 1931, or may the moneys be brought within the terms of section 22 (2) of the said Act?
4. Is it within the competence of the Governor General in Council to direct that a percentage of the earnings, or profits, of such canteens be paid over to the Receiver General for the purpose of providing a fund which may be applied for the benefit and welfare of the members and ex-members of the Forces and their dependents?

The moneys referred to in your questions 1 and 3 appear to me to be public moneys as defined in the Consolidated Revenue and Audit Act received for special purposes and subject to the provisions of sub-section (2) of section 22 of that Act.

As to your second question, I can only express the view that sub-paragraph (c) of paragraph 9 to which you refer may be held impliedly to reserve to the Government of Canada the power to instruct the Board of Trustees in that no provision has been made thereby for this power being exercised by any specified person.

As to your fourth question, I would suppose that under the War Measures Act it is within the competence of the Governor General in Council to direct that a percentage of the earnings or profits of the canteens to which you refer be paid over to the Receiver General for the purpose of providing a fund which may be applied for the benefit and welfare of the members and ex-members of the Forces and their dependents; in my view, save under that Act, any direction by the Governor General in Council as to the disposal of the earnings or profits of the canteens referred to would be out of line with existing appropriate legislation, to wit, the military (and possibly the naval) rules for operation of canteens and disposal of takings by the Service Forces.

320. On April 15, 1944, the Judge Advocate General solicited an opinion extending over a broader field, but including this account. On May 15, 1944, the Deputy Minister of Justice wrote:—

I have to refer to your letter of April 15 last with reference to funds in the possession of the Regimental Funds Board, being the regimental funds (mess, canteen and other regimental funds) of disbanded units or formations, gifts received on account of services rendered by the Army to civilians and the Central Canteen Trust Fund comprised of moneys received under agreements with various auxiliary service organizations for the operation of canteens.

My view upon the facts as known to me is, however, that, generally speaking, the various funds referred to by you are public moneys within the meaning of that expression as used in the Consolidated Revenue and Audit Act, 1931, and it would not appear that any of these moneys have been received for a special purpose within the meaning of section 22 (2) of the Consolidated Revenue and Audit Act. They should not, therefore, be disbursed without special parliamentary authority. It should be noted that there is, by reason of section 53 of the British North America Act, to say the least, doubt as to the power of the Governor in Council under the War Measures Act to authorize an appropriation of public moneys.

For your information, I have to refer you to the opinion given by Mr. Edwards on September 21, 1927, your file No. H.Q. 54-21-23-71, as the result of which Parliament enacted chapter 14 of the Statutes of 1928.

The opinion of September 21, 1927, is:—

I have the honour to acknowledge the receipt of your letter of June 16 having to do with disposition of certain canteen funds presently in the hands of the Receiver General under P.C. 1856 of September 6, 1919. I understand that these moneys are wholly the profits arising from the operation of canteens in Canada by units which did not proceed overseas. I have given very careful consideration to this matter in all its aspects, and I am unable to escape the conclusion that the Government has no power to dispose of these moneys without the authority of Parliament.

321. The account is included in Schedule N to the Balance Sheet as a liability. It would appear to be desirable that Parliament give a suitable direction in order to remove the existing uncertainty.

### Transport Department Stores Account

322. Section 6 of the Department of Transport Stores Act, c. 28, Statutes 1937, as amended by c. 16, Statutes 1939, directs that the inventory of stores at each fiscal year-end shall not exceed \$1,250,000. P.C. 2589 of April 1, 1943, made under the authority of the War Measures Act, increases the maximum to \$1,500,000. At the close of the fiscal year 1943-44 the Department's stores ledgers recorded an inventory value of \$1,245,094.02, while the Balance Sheet records \$1,307,559.51 as invested in stores. The Department explains that issues of materials to the value of \$54,127.55 exceeded the amounts provided for materials and stores in various votes; also that containers, etc., to the value of approximately \$7,700 were returned to suppliers, but credits were not received from them prior to the close of the fiscal year.

### Unemployment Insurance Fund

323. The balance at the credit of the Fund as at March 31, 1944, was \$190,332,316.37. It consisted of \$5,930,432.32 on deposit with the Receiver General, \$34,000 advanced to local offices for payment of benefits by cash, and \$184,367,884.05 represented by the book value, plus accrued interest, of Dominion of Canada securities held by the Bank of Canada. The auditors of the Bank of Canada furnished a certificate to the effect that securities held by the Bank as at December 31, 1943, had been inspected and found to be in order. The amortization method employed adjusts costs of securities to their redemption values at dates of maturity. While this basis holds with respect to discounts, the audit view is that, since a number of securities, acquired at prices above par, are callable before maturity, it would be prudent to amortize to the first callable date.

324. Disbursements in the fiscal year for benefits amounted to \$1,721,666.29.

325. Reference was made last year (Para. 262) to the non-payment of unemployment insurance contributions in respect of a large group of temporary employees of the Government of Canada and of the adverse effect on the Fund by reason of the plan set out in the relevant Order in Council, P.C. 104/4860 of June 9, 1942. Subsequently, the Unemployment Insurance Advisory Committee in its annual report to Parliament commented as follows:—

The Advisory Committee recommends that Order in Council P.C. 104/4860 be amended so as to secure the payments of contributions to the fund dating back to July 1, 1941, on behalf of all persons of the classes affected by the order, whether or not their employment terminated before the date of the order and in accordance with the provisions of the Unemployment Insurance Act.

This recommendation has been given effect in the current fiscal year and \$1,128,000 contributed to the Fund.

### War Damage Insurance Account

326. This account is established by section 21 of the War Risk Insurance Act, 1942. Total insurance at March 31, 1944, excluding the liability under the special grain insurance scheme, was \$2,964,683,643.83, of which \$1,652,552,622.40 was with respect to policies held by the public, \$11,726,903.52 for transit policies, and \$1,300,404,117.91 on account of property of the Government of Canada.

327. Gross premium receipts from the public under the general war insurance plan, including transit policy premiums, were \$3,138,524.69, from which agents' policy fees of \$90,579.60 were deducted, leaving a net premium income of \$3,047,945.09 which was deposited to the credit of the Receiver General. Disbursements on general account totalled \$117,584.40 and included \$84,688.25 for administration and fiduciary agents' expenses; \$809.21 for claims and claim expenses; and \$32,086.94 for premium refunds. The credit balance of the account at March 31, 1944, was \$7,417,875.51. The Supervisor of War Damage Insurance reported that amounts of \$12,747.85 and \$5,582.10 had been set up as reserves for the payment of remuneration to insurance companies and of policy fees to direct writing mutual insurance companies and reciprocal insurance exchanges in respect of business underwritten to March 31, 1944. No claims were outstanding at March 31, 1944.

328. Premiums received in respect of Government property totalled \$2,088,979.78 in the year 1943-44. No claims were paid during the year. The balance at March 31, 1944, was \$2,898,111.96.

329. Under the special blanket insurance scheme for insuring grain in commercial storage or in transit in Canada, premiums were paid by means of levies which are collected by the Board of Grain Commissioners from elevator operators. Premium receipts during 1943-44 totalled \$570,659.20. Disbursements of \$34,819.23 were for interest at 4 per cent per annum to elevator managers in respect of advances of levy made by such managers on behalf of the grain owners. The balance of the account at March 31, 1944, was \$940,087.56.

### War Special Assistance Fund

330. Cash donations to further the war effort are accounted for as Special Receipts and are subject to parliamentary appropriation. In addition, there is an account called the War Special Assistance Fund, which was created in June, 1941. It is credited with moneys donated to alleviate suffering or distress arising out of the war. It is recorded as a trust account and reported to the House of Commons in Schedule N to the Balance Sheet. The agreement between the departments of Finance and Pensions and National Health is that the Fund be applied "to meet distressing cases which could not be met under the terms of the Pension Act or other legislation." The provision in section 22 of the Consolidated Revenue and Audit Act, 1931, that issues of

moneys received for special purposes or in trust may be made for the express purposes for which such moneys were received without further parliamentary authority than the provisions of this subsection

is relied on to make disbursements. The sources of receipts, as of March 31, 1944, were:—

By testamentary bequest.....	\$5,000 00
By special donation .....	224 23
By contribution from pensioners.....	6,962 52
	<u>\$12,186 75</u>

331. English practice is to treat testamentary gifts to the government as made to the sovereign, to the end that they may be disbursed for charitable purposes by the exercise of the prerogative. But as a distinction may be drawn between bequests and donations from living persons, attention is drawn to practices followed with respect to donations made by pensioners. The obligation resting on all public officers is to deposit revenues forthwith to the general credit of Consolidated Revenue Fund, to the end that all revenues are controlled by Parliament. Audits were made of 23 files. As a rule, after the pensioner directed a donation to be made out of pension payments, a letter was written to inquire whether the intent was to make a donation for war purposes or to contribute to the relief of suffering by reason of the war. In some instances the first direction indicated an intent to contribute to the direct war effort, but after receiving notice of the alternative, the Special Assistance Fund was selected. In the case of Pension No. 65146, the pensioner wrote:—

To celebrate the downfall of Italy, I am returning the M/N pension cheques amounting to \$262.50 as my contribution to the war effort. May I ask that you hand this over to the Receiver General of Canada to be used as the Government sees fit.

In the case of Pension No. 199161, the pensioner wrote:—

Please note that it is my wish for the present that all monies in respect of pension be devoted to war services, Red Cross, etc., at your discretion.

In these cases no further letters were written, the moneys being deposited forthwith to the Special Assistance Fund.

### War Supplies Limited Open Account

332. Shown in the assets in the Balance Sheet under the classification, Loans and Advances, Schedule F, is an item of \$71,158,139. Payments charged to the account are with respect to purchases by the Department of Munitions and Supply, to the end that the Crown corporation, War Supplies Limited, may fill orders received by it from the United States Government. The account is credited with collections by War Supplies Limited in respect of shipments made. During the year, \$55,500,000 was charged to the account by reason of a refund to the United States Government of profit and capital expenditure recoveries. The payment is subject to adjustment when costs are finally determined. A supplementary set of accounts is maintained by the Department of Munitions and Supply on an accrual basis.

## MISCELLANEOUS AUDITS

333. The Consolidated Revenue and Audit Act, 1931, requires the Auditor General to examine all accounts which go to make up the Balance Sheet of Canada. There are other accounts, mainly of a commercial nature, which are audited by reason of special directions. The comments which follow relate to such accounts.

### Board of Grain Commissioners

334. The Board expended \$1,695,884.41 during the fiscal year 1943-44. During the same period, \$1,510,681.69 was received as revenue. A summary of the revenues and expenditures of the various branches of the Board's services for the years 1942-43 and 1943-44 is:—

336. The \$1,979,943.43 reserve for depreciation was set up during the period 1925 to 1933. Since July, 1933, no further addition to this reserve has been made.

337. Sections 138 and 138a of the Canada Grain Act provide for annual weigh-overs of grain stocks in terminal and eastern elevators. Grain overages disclosed in excess of those prescribed in these sections are sold and the proceeds turned over to the Board of Grain Commissioners. Sales amounted to \$4,078.65 during the year, and this sum was credited to the Board of Grain Commissioners, Grain Overage Account, making a total of \$9,634.09 to the credit of the account as at March 31, 1944, as shown in the Balance Sheet of Canada.

338. Certificates issued under an Act respecting Wheat, c. 60, Statutes 1931, in the amount of \$470.05, were redeemed during the year. A credit balance of \$7,818.48 remains in the Wheat Bonus Account reported in the Public Accounts for the redemption of outstanding certificates.

## Canadian Broadcasting Corporation

339. The accounts of the Canadian Broadcasting Corporation for the fiscal year ended March 31, 1944, were audited in accordance with section 20 of the Canadian Broadcasting Act, 1936. Comparative condensed balance sheets are:—

342. The Canadian Broadcasting Act provides that the net proceeds from the sale of private receiving licences and private station broadcasting licences shall be deposited from time to time by the Minister of Finance to the credit of the Canadian Broadcasting Corporation. Revenues from this source being collected mainly in the early part of the fiscal year, immediate payment has the effect of placing the Corporation frequently in funds in excess of its immediate requirements. The Corporation earns monthly bank interest at the rate of one-half of 1 per cent on its minimum monthly balance. By Order in Council P.C. 8170 of October 22, 1943, a plan was devised whereby the Corporation would be paid only the sum immediately required, the balance being employed by the Minister of Finance, the Crown undertaking to allow interest at the rate of one-half of 1 per cent on the balance. On November 3, 1943, the Order in Council was made the subject of an observation to the Department of Finance. The material part is:—

The action contemplated under the Order in Council is, in fact, to enlarge the amount that is permitted by the statute to be paid in licence fees. The authority to exceed the statutory amount can only be obtained by further parliamentary authority, either by an amendment to the Broadcasting Act or by a special vote, the latter being the apparent intent of the Order in Council.

Statutory authority to pay interest on the Public Debt, whether contained in a Loan Act, in an Appropriation Act or in the Consolidated Revenue and Audit Act, may be used if and when the Government has enjoyed the use of borrowed money. No use of borrowed money appears in the proposed method of dealing with licence fees. The Minister of Finance has a discretion as to the time of payment, and restricting payments to the monthly requirements of the Corporation would be a mere exercise of the discretion vested in the Minister by the statute.

The Department sought an opinion of the Deputy Minister of Justice. This was given on January 3, 1944, the material part being:—

The Canadian Broadcasting Corporation has been held to be an agent of the Crown in carrying out its statutory objects and purposes. Moreover, the funds in question, being the proceeds of taxation imposed by Parliament, belong to His Majesty and are payable to the corporation on appropriation by the Minister in accordance with the provisions of the statute already mentioned. The corporation must be regarded as the agent of His Majesty for the purpose of administering these funds when duly appropriated. In my opinion there is no authority for the payment of interest on the balances held by the Crown pending payment over to the corporation.

On June 1, 1944, the Order in Council of October 22 was repealed by P.C. 4175, which includes in the recital:—

That in view of this legal opinion it is advisable to rescind the said Order in Council and re-establish the former practice whereby such licence fees have been deposited to the credit of the Canadian Broadcasting Corporation from time to time in lump sums in a chartered bank designated by the Minister of Finance, so that the Corporation be enabled to earn interest at the rate of one-half of one percentum per annum on the minimum monthly balances so deposited.

### Federal District Commission

343. The accounts of the Commission were audited in accordance with the provisions of the Federal District Commission Act, c. 55, Statutes 1927. The Commission opened the year with a balance to its credit of \$98,617.50. Receipts of the year amounted to \$416,211.45, while disbursements were \$358,646.73. Thus, the Commission had a credit balance of \$156,182.22 at March 31, 1944. In reporting on the accounts to the Commission it was recommended that immediate consideration be given to the making of improvements in timekeeping and payroll procedures to ensure effective wage control and to facilitate the recording of time, the preparation of payrolls, the payment of employees, and the distribution of wage charges to the proper accounts. War conditions have delayed revision of the accounting system and records of the Commission to facilitate the production of comprehensive and accurate statements of the assets and liabilities and of the operations of the Commission.

### Foreign Exchange Control Board

344. The fiscal year of the Foreign Exchange Control Board is the calendar year. It is directed by Order in Council P.C. 7378 of December 13, 1940, that "an annual audit of the transactions of the Board shall be made by the Auditor General in such manner as he thinks proper and he shall certify to the House of Commons that in his opinion, having regard to such examination, the transactions of the Board have or have not been in accordance with the provisions of this Order and that the records of the Board do or do not show truly and clearly such transactions." From the information and the explanations received in the course of the audit, I am of the opinion, having regard to such examinations, that the transactions of the Board have been in accordance with the provisions of the Order in Council and that the records maintained show truly and clearly such transactions.

### Inspection Board of the United Kingdom and Canada

345. In addition to performing inspectional duties in Canada and the United States, the Board conducts research and experimental work as required, and acts as a liaison agent between various technical departments in Canada, the United Kingdom and the United States. The Board was formed under authority of an agreement dated November 6, 1940 (authorized by Order in Council P.C. 5995 of October 26, 1940) between His Majesty's Governments of the United Kingdom and of Canada, respectively. The Board consists of eight members, four being appointed by each Government. Financial control is exercised through two members of the Board (one representing each Government) who are designated as financial members.

346. The agreement provides, among other things, that the Board inspect and certify such classes of munitions and supplies as is directed by either or both Governments, and also act as agent of the Governments in performing such duties. The Governments undertake to place at the Board's disposal, without charge, all buildings and lands in Canada held for inspection purposes, as well as all inspection tools, gauges, apparatus, drawings and specifications and other equipment owned by either of them in Canada or in the United States.

347. Funds for the operation of the Board are provided in the first instance by the United Kingdom Government. The Board's financial policy, methods of accounting to the two Governments, the distribution of running costs and capital expenditures, and the disposal of assets on cessation of hostilities are governed by regulations issued under authority of the agreement.

348. Expenditures of the Board from April 1, 1943, to March 31, 1944, amounted to \$36,187,895.11, and were assessed against the two Governments as follows:—

	Running Costs		Capital	Total
	in Canada	in U.S.A.	Expenditures	
Canada's share.....	\$10,351,734 09	\$ 461,586 12	\$248,676 99	\$11,061,997 20

349. All assessments to date are provisional and are therefore subject to revision.

350. As was anticipated in Para. 289 of last year's report, the division of the running costs of the Board, from January 1, 1941, to March 31, 1943, has been revised, the share assumed by Canada being reduced by \$2,639,461.39 (a decrease of \$2,954,238.29 for costs in Canada and an increase of \$314,776.90 for costs in U.S.A.) and the share assumed by the United Kingdom correspondingly increased.

351. The Income War Tax Act requires employers to furnish information as to payments to employees and to deduct therefrom specified portions for taxes payable. The Board has not observed the requirements in so far as allowances defined as salary under section 3, subsection 4, of the Act are concerned. The Board recognizes this, but explains that its problem is to develop an economical alternative to that of paying travelling expenses by means of a per diem allowance. The maximum allowance is \$8, but the majority range from \$2.50 to \$5. The Board entertains the view that if travel claims are founded on statements of actual expenditure, the ultimate increased cost to the Crown may be substantial.

### Laurentian Terrace Hostel

352. This hostel, located in Ottawa, opened on June 19, 1943. It was constructed to provide accommodation for women civil servants, particularly those in the junior grades. The building cost \$339,967.02 and equipment and furnishings \$66,878.18, or a total capital outlay of \$406,845.20. Total receipts to March 31, 1944, were \$106,933.96. Expenses of operation amounted to \$77,774. No rental is paid to the Department of Public Works for the use of the building. The cash on hand at the year-end, amounting to \$29,159.96, was deposited to Consolidated Revenue Fund as special receipts. Throughout the year the management committee had a working capital advance of \$50,000 from the War Appropriation. At the year-end this sum was refunded to the appropriation.

### National Battlefields Commission

353. Section 14 of the National Battlefields at Quebec Act, c. 57, Statutes 1908, provides that all accounts, receipts and expenditures of the Commission shall be subject to the audit of the Auditor General of Canada. The receipts and disbursements of the Commission for the fiscal year ended March 31, 1944, have been audited. The balance at the credit of the Commission on April 1, 1943, was \$10,446.04. Receipts during the fiscal year 1943-44 amounted to \$78,452.30 and disbursements were \$75,023.89. Thus there existed a credit balance of \$13,874.45 at March 31, 1944.

### National Harbours Board

354. The National Harbours Board Act directs that the harbours' fiscal year be the calendar year. Harbour transactions, as recorded in the Public Accounts, are adjusted to cover the fiscal year period of the Government. The Board's accounts for the year ended December 31, 1943, were audited in accordance with section 34 of the National Harbours Board Act.

355. Revenues totalled \$11,788,793.91. These include \$150,000 from the City of Montreal and \$150,000 from the Province of Quebec towards the deficit of the Jacques Cartier Bridge.

356. Expenditures amounted to \$15,874,997.71. A general classification is: operating expenses, \$5,277,573.80; interest on debentures held by the public, \$1,024,431.25; interest due the Dominion Government, \$7,013,390.04; addition to reserve for replacements and depreciation, \$1,969,730.37; and miscellaneous charges, \$589,872.25.

357. A summary of revenues and expenditures is:—

Harbour	Revenues	Expenditures
Halifax .....	\$ 2,043,847 65	\$ 1,828,037 92

358. The expenses of the Head Office, Ottawa, for the year, amounting to \$134,953.39, were pro-rated as charges to the various harbours, elevators and bridges, and are included in the above expenditures.

359. The net deficit for the year was \$4,086,203.80, and a further amount of \$335,744.29 was charged to deficit account as a result of capital asset write-offs and other adjustments.

360. A condensed summary of the balance sheets of all harbours, elevators and bridges operated by the Board, for its fiscal years ended December 31, 1942 and 1943, is:—

Three Rivers .....	158,400 00
Jacques Cartier Bridge .....	19,000,000 00
	<u>\$20,464,082 35</u>

In addition, matured debentures of Halifax, \$14,500, and Saint John, \$500, in the hands of the public, have not been presented for redemption.

363. Proprietary accounts consist of:—

	1942	1943
Loans and advances from the Government of Canada....	\$155,095,479 84	\$155,686,086 35

364. The 1942 proprietary accounts understated by \$258,637.22 the sum owing the Government for Loans and Advances. The sum had erroneously been classified as an expenditure chargeable to an appropriation. The necessary adjustment was made in 1943. A division of the three major items in the foregoing statement for the year 1943 is:—

Harbour	Loans and Advances	Unpaid Matured Interest	Expenditures under Appropriations

\*The reported unpaid matured interest does not include matured interest, totalling \$580,082.43 at December 31, 1943, on a 4 per cent loan issued to the former Three Rivers Harbour Commission.

365. Loans from Consolidated Revenue Fund to the National Harbours Board to March 31, 1943, as reflected in the Balance Sheet of Canada, amounted to \$155,056,485.08. During the year 1943-44, further advances of \$733,047.79 were made. Repayments during the year totalled \$280,792.55, therefore outstanding loans amounted to \$155,508,740.32 as at March 31, 1944. Interest paid by the harbours in the Government's fiscal year ended March 31, 1944, amounted to \$3,250,069.04:—

Halifax .....	\$ 650,000 00
Saint John .....	750,000 00

Vancouver .....	700,000 00
	<u>\$3,250,069 04</u>

In addition, net operating surpluses of Port Colborne elevator, \$56,619.99, and Prescott elevator, \$41,285.50, were deposited as revenue and are shown under the Department of Transport.

### Post Office Guarantee Fund

366. The fund was established in 1898 by regulations of the Postmaster General made under the authority of section 7 (g) of the Post Office Act. The fund was built up during the period from inception to April, 1919, from compulsory contributions of officers, employees, clerks and servants of the Post Office Department, but since the latter date the interest earned on the capital amount of the fund has been more than sufficient to meet all losses. At April 1, 1943, the fund amounted to \$381,888.10. During the fiscal year the interest increment was \$13,564.08 and the amount of claims paid was \$5,908.06. At March 31, 1944, the fund amounted to \$389,544.12, of which \$377,290.72 was invested in Dominion of Canada bonds (par value \$396,000) and the remainder was on deposit in the Post Office Savings Bank. Among the charges to the fund during the fiscal year under review was a loss of \$933.49 arising from fire, of undetermined cause, on board a boat carrying His Majesty's mail. This would not appear to be a proper charge to the fund, as the loss was not due to a default by any Post Office employee.

### Sorel Industries Limited

367. The Government of Canada is not a shareholder of Sorel Industries Limited, but an agreement made in 1940 provides:—

- (a) for the grant, as of midnight July 31, 1940, by Sorel Industries Limited to the Minister of Munitions and Supply of possession of, and the exclusive right to use (i) the plant and equipment of the Company; (ii) certain additional plant and equipment which is to be provided by the Company; and (iii) certain lands of the Company;
- (b) for the adaptation of the said plant and equipment to the Minister's requirements from time to time for war purposes; and
- (c) for the installation in the plant or on the said lands of such further plant and equipment as the Minister thinks necessary or desirable at any time to facilitate the production of armaments and munitions.

368. At that time Sorel Industries Limited was constructing a gun plant. Its investment of \$5,265,183.97 remains the property of the Company. All other extensions and additions have been provided by the Governments of Canada and the United Kingdom. These have a value of \$11,058,306.68. Subsequently it was arranged that all United Kingdom equities should, for the purposes of the agreement, be deemed to vest in the Canadian Government. It is provided by the agreement that separate depreciation accounts be maintained and that the respective depreciation reserves, not applied to replacements, etc., be paid over to the Crown and Sorel Industries Limited, except an amount equivalent to six months' depreciation on the Company's plant which is to be retained in a special bank account.

369. The plant's operations are under the direction and control of a committee of five named by the Minister of Munitions and Supply.

370. The agreement requires that the books, records and accounts of the gun plant be subject to review and audit by the Auditor General of Canada.

372. The deposits in the Supreme Court of Canada Security for Costs Account, at March 31, 1944, total \$25,306.81, as certified by the Bank of Montreal. The deposits shown as made prior to 1940 amount to \$9,424.81.

## Yukon Territory Accounts

373. Section 22 of the Yukon Act, c. 215, R.S., provides that the audit of vouchers and statements transmitted to Ottawa shall be supplemented by the Auditor General sending an officer to the Territory "whenever he deems it necessary or desirable." In view of war activities in the area, field examinations of accounts were made this year at Dawson, Mayo and Whitehorse.

374. The general accounts of the Yukon Consolidated Revenue Fund were examined in detail. In order to improve the accounting system, various recommendations were made and effect is being given to them.

375. The examination of succession duty records disclosed cases where the full amount payable had not been collected. Misinterpretation of the provisions of the Succession Duty Ordinance was the cause of the failure to collect the full amount payable. Certain changes were suggested to the end that the revenue be more adequately safeguarded. These were adopted and put into effect.

376. It was observed during the examination of the accounts of the Town of Mayo, which to August, 1942, had been a tax district, that no steps had since been taken to collect \$2,168.63, being arrears of taxes outstanding at the date of the proclamation suspending the assessment ordinance for the town.

377. The Public Administrator is compensated by fees of office which are regulated by the Public Administrator Ordinance, and are:—

Minimum charge on each estate, \$10.

Upon an estate of an aggregate value of \$5,000 or less, 10 per cent of the value of the estate.

Upon an estate of an aggregate value of over \$5,000, 10 per cent up to \$5,000 and 5 per cent up to \$25,000 and 2½ per cent of the remainder.

From June 1, 1935, to June 30, 1944, the Public Administrator administered 385 estates and his fees amounted to \$24,395.96. The present holder of the office is an employee of the Department of National Revenue.

378. The Public Administrator's ledger accounts over a period of nine years were examined. A summary is:—

380. The sale of alcoholic beverages is made through stores operated under the control of the Yukon Council. The receipts of each store are deposited to the credit of the Yukon Consolidated Revenue Fund; but the operations of the liquor stores are, for accounting convenience, segregated in an account in the Fund, transfers to the general account being made from time to time on the instructions of the Commissioner. For the year ended March 31, 1944, the surplus transferred to the credit of this special account was \$294,554.87. By resolution of the Commissioner in Council, \$200,000 of the amount is invested in Victory Bonds for future development work in the Territory.

381. The inspection of liquor stores accounts and inventories established that stocks on hand were as reported on the books of account, and that cash receipts had been properly deposited to the Fund. For the year ending March 31, 1944, sales amounted to \$717,240.45 as against \$231,456.50 for the year ended March 31, 1939. Of the total sales, \$608,972.25 were made at Whitehorse, where \$25,835 was also collected from the sale of liquor permits at \$1 a permit. At March 31, 1944, the net profit carried to Surplus Account amounted to \$294,554.87, as against \$90,569.97 in March, 1939. The consolidated Liquor Accounts are maintained in the office of the Territorial Treasurer at Dawson. Certain audit recommendations, designed to modernize the accounting, were adopted by the Territorial Treasurer. Comparative Profit and Loss Accounts and Balance Sheets for the last pre-war year and the last fiscal year are:—

382. Government House, Dawson City, although under the administration of the Dominion Department of Public Works, is to an extent under the supervision of Yukon Territorial officials. The residence was constructed about 1901. It has been vacant, except for brief periods, since 1916. The furnishings consist of furniture, carpets, crockery, cutlery, silverware, books, pictures, clocks, linens, draperies, bedding, etc. Due to proper caretaking these have been reasonably well preserved. Should it be that it is not contemplated that the house be again officially occupied, it would appear expedient that action be taken to realize on the investment.

383. By reason of the war, accounting divisions of the public service, including this Office, continued to be under-staffed for the volume of work to be performed. To the extent practicable, comprehensive tests and examinations were made of all accounts. The co-operation and assistance extended by administrative and accounting officers materially facilitated the audit.
